HELLO

EMILY WILDT

Regional Sales &
Specialty
Cut Flowers

Dear Valued Customer:

The first year of our Specialty Cut Flower program was a huge success, all thanks to you, our customers.

We have expanded our specialty cut flower trial within the Raker-Roberta's Trial gardens for this summer and will continue to add to our already extensive offering.

R2 Cut Flower Program plants will be grown specifically for the customer's order, providing the ability to coordinate plant shipments with individual schedules. In order that we may continue to provide all customers with the service expected during the busy spring season, the Specialty Cut Flower Program will be available to ship during even weeks, 10-52.

Raker-Roberta's Specialty Cut Flower program is offered in two tray sizes. Our 160 high density tray and our 36-strip tray, in which we have replaced the traditional ellepot with a growcoon for easy tilling, are both designed to be planted directly into the ground.

Customer success is the best measure of our performance. Adding the cut flower program to our already robust young plant offerings is another avenue to assist customers with reaching their goals.

Please reach out to me, or a member of our management team, with questions and comments. We look forward to providing you, our customers, with the service and quality you have come to expect for many years to come.

Respectfully yours,

Emily C Wildt
