A Note on 275/tr plugs booked from availability:

Plants shipped at once from availability (overage) will not be patched and therefore may be down counted for actual plant count at time of shipping. These items may also be cooled for holding and may be dormant or semi-dormant with yellow or brown leaves. This is normal and will disappear with warm night temperatures above 65 degrees F.

A Note on Culture: A "Growing Recommendations" sheet is included with every order shipped that specifies the varieties and the necessary growing conditions for those varieties. If these instructions are not followed, it may impair our ability to honor any losses and/or claims.

☼ Items identified with this symbol ☼ need supplemental lighting and/or warm night temperatures of at least 60 degrees to finish properly.

NOW IN ITS 5th SEASON, Swift is offering PREBOOKING for orders of 50 cell perennials from March 27 through May 5, 2017. These plants will be held dormant with new cold storage capabilities for better scheduling of crops to get predictable blooms throughout the season. As in the past, at once orders from availability will still be shipped with no artificial cooling for as long as the plants can be sent safely.
