

Annual Flower Seed

For your convenience, we have divided our catalog into sections - Annuals, Perennials, Herbs, Vegetables, and Plug and Plant Material. In reviewing our catalog, you will find a line of information below each variety. We have listed the number of seeds per ounce, the best soil temperature for germination, and germination time. When seeding by hand, sow seed in indented rows (in the "valleys"). Cover lightly if required, only to the thickness of the seed. This will keep moisture levels high around the seed and avoid drying out. Through our years of experience, we have added "grower tips" that we feel you will find useful. In evaluating the entire germination and growing process, may we stress the importance of purchasing good seed, using sterilized media, and maintaining the proper soil temperature. All too often, ideal conditions and soil temperature are completely defeated by the use of cold water on seed flats and seedlings. PLEASE avoid chilling the flats and checking growth with the use of cold water.

In storing seeds – use a cool, dry place, never in areas of high humidity.

ACROCLINIUM

8,500 sds/oz 65°-70° 2 weeks

NEW DOUBLE GIANTS - 1278

☞ 18 in. - 8,000 S. Extra large, brightly colored Strawflowers for cutting in shades of pink, rose and white. For winter bouquets, cut when buds begin to open.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
(31B5)	

AGERATUM

Floss Flower

200,000 sds/oz 75°-80° 5 days

Will attract butterflies all season. After sowing, do not cover seeds with media. Cover seed flat with glass or plastic. Light will induce germination. Sow seed early to have good sized plants for spring. Use growth retardant for compact plants.

ALOHA SERIES

6-8 in. - (F-1 Hybrid). Masses of flowers cover the well branched plants. An excellent item for packs and 4 in. pot production and has proven garden performance. Weeks to flower: 10-15. PELLETED SEED.

Blue - 1315PE

White - 1318PE

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

BLUE BLAZER - 1311

6 in. - 195,000 S. (F-1 Hybrid). Soft blue flowers. Uniform and compact growing habit. Outstanding garden performance. 500 sds - \$9.75 1,000 sds - \$13.15 5,000 sds - \$24.45 10,000 sds - \$38.55 (30A5)

BLUE HORIZON (PELLETED) - 1317PE

☞ 24-30 in. - (F-1 Hybrid). Mid-blue flowers on sturdy stems make this variety ideal as a cut flower. Vigorous grower with uniform, well branched habit. Best known cutting Ageratum.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

AGERATUM (continued)

BLUE PLANET (PELLETED) - 1313PE

☞ 24-30 in. - (F-1 Hybrid). Tight blue flower clusters. Use as a classic filler for mixed bouquets. Attracts bees and butterflies.

100 sds - \$14.35	200 sds - \$19.25
500 sds - \$31.55	1,000 sds - \$50.75
2,000 sds - \$83.60	(28I5)

HIGH TIDE BLUE - 1293PE

14-16 in. - A. houstonianum. Periwinkle Blue. Taller and more vigorous; excellent landscape plant with strong branching. Good alternative to vegetatively propagated Ageratums. Weeks to flower: 12-14. PELLETED SEED.

25 sds - \$13.50	50 sds - \$18.05
100 sds - \$25.75	300 sds - \$54.30
500 sds - \$75.90	(25G5)

WHITE - Sorry, no longer available.

RED FLINT - 1300

☞ 15-26 in. - 200,000 S. Flowers open to a bright red and darkens to purple-red upon aging. Good vase life.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
(31A5)	

ALTERNANTHERA

17,000 sds/oz 72°-76° 3-5 days

Cover seed lightly with coarse vermiculite. Similar crop time and culture as cyclamen.

PURPLE KNIGHT - 1336

16-20 in. - 24,000 S. A. dentata. Seed version of a popular vegetative item. Striking dark purple foliage, with a spread of 24-36 in. Vigorous upright and spreading habit, excellent in mixed containers or as a border plant. Performs best in full sun to partial shade where foliage is the darkest; in light shade the foliage is more a bronze green. Exceptional heat tolerance, thriving in subtropical conditions. Weeks to flower: 11-12.

25 sds - \$14.15	50 sds - \$19.25
100 sds - \$28.85	300 sds - \$58.15
500 sds - \$87.95	(25I5)

ALTERANTHERA (continued)

PURPLE PRINCE - 1334

14-16 in. - 17,000 S. First compact seed variety is an easy to grow alternative to vegetative. Beautiful foliage item. Burgundy-purple with ruby rose underside for a bicolor look. Great in summer landscapes. Stands tough in heat and humidity with low water needs. Makes a good spiller in mixed containers. Weeks to flower: 7-8.

25 sds - \$14.15	50 sds - \$19.25
100 sds - \$28.85	300 sds - \$58.15
500 sds - \$87.95	(25I5)

Alyssum.

Also see listing under Perennials.

ALYSSUM

Lobularia Maritima

80,000 sds/oz 68°-72° 2-3 days

Will attract butterflies all season. We suggest you NEVER use Benlate on Alyssum. Do not cover seed after sowing, needs light to germinate.

CLEAR CRYSTALS SERIES-MULTI-SEED

6-10 in. - MULTI-SEED PELLETS contains 5-6 seeds per pellet. Big, fragrant flowers and strong garden performance. Film coated seed for ease of handling when sowing.

Lavender Shades - 1254MP

Purple Shades - 1255MP

White - 1256MP

Mixture - 1257MP

A well balanced mixture.

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

CLEAR CRYSTALS SERIES-RAW

6-10 in. - 64,000 S. Big, fragrant flowers and strong garden performance. Film coated seed for ease of handling when sowing.

Lavender Shades - 1254

Purple Shades - 1255

White - 1256

Mixture - 1257 A well balanced mixture.

Each of the above: (30D5)	500 sds - \$10.85
1,000 sds - \$17.45	5,000 sds - \$39.50
10,000 sds - \$65.60	

ALYSSUM (continued on next page)

**ALYSSUM (continued)****EASTER BONNET SERIES**

4 in. - 115,000 S. Covered with dainty, fragrant flowers, plants stay compact and tidy. Uniformity of habit and color with unsurpassed earliness. Excellent choice for borders and containers. Very nice in rock gardens and between flagstones. Weeks to flower: 9-10. PELLETED SEED.

Deep Pink - 1341

Rich rosy pink.

Deep Rose - 1338**Violet - 1342****White - 1337****Mixture - 1343**

(Formerly Easter Basket Mixture).

Complete mixture of all colors in the series.

Each of the above: (31D5) 1,000 sds - \$11.60
2,000 sds - \$19.90 5,000 sds - \$26.85
10,000 sds - \$36.80

GIGA WHITE - 1345

4-8 in. - Largest flowering tetraploid.

Bright, clear white flowers fragrant flowers. Perfect for pots, baskets and borders.

500 sds - \$10.05 1,000 sds - \$13.65
5,000 sds - \$28.85 10,000 sds - \$44.45
(30B5)

ROYAL CARPET - 1366

3-4 in. - 110,000 S. (All America Winner

- 1953). Rich, violet-purple flowers on

compact, spreading plants, 8-10 in. across.

5,000 sds - \$10.50 10,000 sds - \$17.90
25,000 sds - \$28.85 50,000 sds - \$45.25

WONDERLAND SERIES

4 in. - 100,000 S. Very compact plant habit.

A nice uniform growing variety.

Blue - 1330**Deep Purple - 1362****Deep Rose - 1358****Lavender - 1364****Pink - 1331****White - 1360****Mixture - 1361**

A mixture of all the above colors.

Mulberry Mixture - 1332

A formula blend of Deep Purple, Lavender, Pink, and White.

Each of the above: (30B5) 500 sds - \$10.05
1,000 sds - \$13.65 5,000 sds - \$28.85
10,000 sds - \$44.45

NORTH FACE WHITE

Crop failure. As a substitute, we suggest Giga White.

AMARANTHUS

45,000 sds/oz 70°-75° 10 days

Do not cover after sowing, needs light to germinate. Easily grown in dry, sunny locations and poor soil for the best color. Water sparingly after plants are established.

AURORA - 1279

☞ 24-60 in. - 38,500 S. A. tricolor.

Stunning contrast between the dark green lower leaves and the flower-like upper leaves. Gives the appearance of an oversized, yellow poinsettia flower. Spectacular in a mass planting, especially when sunshine frames the soft yellow flowers against the dark green foliage.

250 sds - \$10.65 500 sds - \$13.70
1,000 sds - \$17.75 2,000 sds - \$26.20
5,000 sds - \$49.10 (29B5)

AUTUMN'S TOUCH - 1289

☞ 36-48 in. - 35,500 S. A. cruentus.

Giant 2-foot plumes atop red amaranth with soft pistachio-green and bronze tones. Intense green at the base with lighter celery hues and bronze at the tips. Unusual and so pretty. Perfect for cutting and both fresh or dried arrangements. Massive blooms last for many weeks.

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75
(31B5)

CASCADE SERIES

☞ 30 in. - 43,500 S. A. caudatus. (Love-lies-bleeding). A robust, upright plant which features long cascading tassels that can reach the ground and take on a tropical, elegant appearance. Beautiful and unique, it makes a great backdrop toward the back of the garden border.

Green - 1291 ☞

Red - 1287 ☞

DREADLOCKS - 1285

☞ 36 in. - 52,000 S. A. cruentus.

A showstopping plant that steals the scene in garden or vase. A joyously bright, floriferous, unique plant you won't want to miss. Not only are its magenta blooms eye-catching and bright, but its distinctively weeping habit sets it apart from every other plant in the annual bed, and begs to be used in fresh and everlasting bouquets indoors. An upright plant but its flowerstems point straight down, however, reaching 3 feet to brush the garden floor. All along the stems, closely spaced, are borne magenta blooms in big, tight, rounded 1 1/2 in. clusters. Its unique architectural look makes a fine focal point for annual beds, and its bright blooms keep their color well.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

AMARANTHUS (continued)**EARLY SPLENDOR - 1286**

☞ 36-48 in. - 48,000 S. A. tricolor.

Bright crimson red on bronze leaves.

A remarkable improvement over Molten Fire or Aurora. Not only does color appear more than 2 weeks earlier, but is more brilliant than Molten Fire.

FLAMING FOUNTAINS - 1276

☞ 48 in. - 41,500 S. A. tricolor. Vigorous and upright with lance-shaped leaves in bright red, crimson and bronze. Terminal flowers with flat tops are red or green. Ideal colorful border plant or in containers for patio accent.

Each of the above: (30A5) 500 sds - \$9.75
1,000 sds - \$13.15 5,000 sds - \$24.45
10,000 sds - \$38.55

GREEN TOWER - 1271

☞ 44 in. - 35,000 S. A. cruentus. This will make you do a double take and its design possibilities are almost endless. Each bloom column measures 16-20 in. long and several inches thick, every lot of space jammed with rich color. The stems are fascinating in fresh arrangements and can be dried for winter long color. They look like topiary, but these velvety columns never need shearing. Create an instant focal point for the annual bed or border and is at home among small shrubs and foliage plants as well.

1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

HOT BISCUITS - 1290

☞ 48-60 in. - 38,000 S. A. cruentus.

Fast growing, producing gorgeous, 2 ft. cinnamon orange plumes. Simple leaves and tiny flowers borne in dense, erect or pendulous, catkin-like inflorescences in summer and autumn.

500 sds - \$10.05 1,000 sds - \$13.65
5,000 sds - \$28.85 10,000 sds - \$44.45
(30B5)

MIRA - 1272

☞ 40-45 in. - 46,000 S. A. caudatus.

Unique variety with bi-colored green and rose tinted rope-like blooms that add a stunning texture to bouquets. Long, thick pendulous tassels resemble cascading dreadlocks, perfect for dramatic arrangements.

1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

RED CATHEDRAL SUPERIOR - 1282

☞ 48-50 in. 45,500 S. A. cruentus.

Huge, upright, blood red spikes on sturdy stems. Easy to grow, long-lasting flowers. For use fresh or dried.

500 sds - \$9.75 1,000 sds - \$13.15
5,000 sds - \$24.45 10,000 sds - \$38.55
(30A5)

**Personal service is
the foundation
of our business
since 1932.**

AMARANTHUS (continued)

SHORT SERIES

☞ 41,000 S. A. hypochondriacus. Unique, surreal-looking intense flower spires emerge from a compact, upright, bushy plant. The thickly textured flowers bloom all summer long.

Green Thumb - 1324 ☞

24 in. - Vivid green.
1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

Pygmy Torch - 1288 ☞

5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

SPLENDENS PERFECTA (TRICOLOR) - 1277

48-60 in. - 56,500 S. A. tricolor. A rainbow of bright foliage and tall, erect habit. The upper foliage is a brilliant display of scarlet and yellow, tops the base of yellow, green and chocolate-brown. Perfect for the back of the border, bedding or even among shrubs.

500 sds - \$9.75 1,000 sds - \$13.15
5,000 sds - \$24.45 10,000 sds - \$38.55
(30A5)

AMMI

Queen Annes Lace

35,000 sds/oz 65° 14 days

After sowing, do not cover seeds with media, light will help germination. Alternate temperature of 80° days and 65° nights.

DARA - 1384

☞ 36-50 in. - 18,000 S. Daucus carota. Attractive 3-5 in. lacy umbels atop strong, sturdy, upright stems. Great cutflower in red to faded pink shades. Highly productive with 7-15 stems per plant. Long lasting in bouquets. This is actually an ornamental carrot!

250 sds - \$11.90 500 sds - \$15.60
1,000 sds - \$20.70 2,000 sds - \$31.45
5,000 sds - \$60.60 (29C5)

GREEN MIST - 1371

☞ 30-36 in. - 43,000 S. A. visnaga. Pretty 4 - 4 3/4 in. pale green to white flower heads of heavy substance. Very useful as a cut flower.

1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

MAJUS - QUEEN ANNE'S LACE - 1370

☞ 36 in. - 45,000 S. A. majus. Beautiful, dainty white flowers on 6 in. flattened clusters reminiscent of lacework, above finely cut, green foliage. Very easy to grow.

5,000 sds - \$10.50 10,000 sds - \$17.90
25,000 sds - \$28.85 50,000 sds - \$45.25
(34A5)

AMMOBIUM

50,000 sds/oz 65-68° 10 days

GRANDIFLORUM - 1335

☞ 24-30 in. - 55,500 S. A. alatum grandiflorum. Heat and drought resistant strawflower. Small, bright white, papery blooms with yellow centers top silvery, grey-green wooly stems. Plants are a bit rangy, but produce masses of blooms. For use in the border or for cutting.

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75
(31B5)

ANCHUSA

10,000 sds/oz 70° 3 weeks

BLUE BIRD (BLUE ANGEL) - 1363

12 in. - 12,000 S. A. capensis. (All America Winner - 1935). A fine annual with upright branching stems bearing clusters of indigo-blue flowers. Fine for beds, borders and cutting. Easy to grow.

1,000 sds - \$11.60 2,000 sds - \$19.90
5,000 sds - \$26.85 10,000 sds - \$36.80
(31D5)

ANGELONIA

72°-75° 5 days

Do not cover or bury seeds. Light will help germination, seeds will not germinate in the dark. Keep soil moist but do not saturate during germination.

SERENA SERIES

10-12 in. - (F-1 Hybrid). A. angustifolia. First Angelonia from seed. Continuous bloomer, branches well with no deadheading required. Will be more vigorous and taller in hot and humid areas. Low maintenance and easy care in landscape. Weeks to flower: 14-17. PELLETTED SEED.

Blue - 1216PE

Purple - 1214PE

Rose - 1218PE

Deep rose with dark eye.

White - 1215PE

Mixture - 1211PE

All colors in series.

Waterfall Mixture - 1217PE

Includes purple, white and sky blue, which is not yet available as a separate color.

Each of the above: (25K5) 25 sds - \$15.15
50 sds - \$20.50 100 sds - \$30.60
300 sds - \$62.00 500 sds - \$95.75

ANGELONIA (continued)

SERENITA SERIES

10-14 in. - (F-1 Hybrid). More compact than Serena. Great branching and fullness with no pinching required. Elegant and tough in the landscape, garden border or container. Brings long lasting color with very little maintenance. Heat tolerant. Deer and rabbit resistant. Weeks to flower: 13-15. PELLETTED SEED.

Pink - 1226PE

(All America Winner - 2014). Unique deep pink.

Purple - 1222PE

Rich purple, slightly deeper than Serena Purple.

Raspberry - 1223PE

Rose - 1228PE

Deep to mid-rose shades.

Sky Blue - 1227PE

Attractive color. Lighter than Serena Blue and distinctive from Serenita Purple.

White - 1224PE

Pure white.

Mixture - 1225PE

A complete formula mixture.

Each of the above: (25K5) 25 sds - \$15.15
50 sds - \$20.50 100 sds - \$30.60
300 sds - \$62.00 500 sds - \$95.75

ASARINA

Twining Snapdragon

100,000 sds/oz 70° 15 days

For the best germination, cover seeds lightly. Light will help germination.

JOAN LORAIN - 1012

Climber. 48-96 in. - 83,000 S. A. scandens. From Mexico comes this beautiful and graceful climber with attractive soft green leaves, bearing large 2 in. deep purple-blue flaring trumpets. Fast growing and great on a trellis, in pots, or climbing over a rock wall.

SKY BLUE - 1013

Climber. 60 in. - 83,000 S. A. scandens. Easy to grow. Large 2 in. Gloxinia shaped flowers in a beautiful shade of sky blue are held above deep green foliage on twining stems. Grows in full to part sun. Makes excellent container plants trailing from baskets and window boxes.

Each of the above: (26G5) 50 sds - \$12.85
100 sds - \$17.05 200 sds - \$27.15
500 sds - \$42.85 1,000 sds - \$70.90

THANK YOU

On behalf of our entire team here at Germania,
we truly appreciate your continued business, trust and confidence.
Your support inspires us to do better - everyday.

**ASPARAGUS****1,000 sds. sds/oz 55° 21-45 days**

For the best germination results, we suggest scratching the seed coat on a sheet of sandpaper and soaking in warm water for 72 hours before sowing. Change the water daily. Direct seed in pots or plugs, cover 1/8 in. with medium vermiculite. Keep moist, 80° soil temperature over the 3 week germination period.

FUZZFERN FRIZZ - 1381

☞ 24-36 in. - 600 S. A. densiflorus. A gorgeous complement to flowers that fills the border with attractive frilly texture and rich green tones. Quirky fern's signature foliage is lush and intricate, adding texture and interest to spots sunny or shady. Excellent planted by a patios edge, tucked into hanging baskets or arranged in cut bouquets.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

MEYERII - 1379

12-36 in. - 500 S. A. densiflorus. (Foxtail Fern). An unusual and novel pot plant. Long, upright, plume-like stems hold soft, needle-like leaves. Develops red ornamental berries in fall. Semi-evergreen in mild winter regions; use in containers and overwinter indoors in cold winter regions. Handling and germination is similar to Sprengeri but growth is slightly slower.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

PLUMOSUS NANUS - 1378

☞ 36 in. - 1,000 S. A. setaceous. A beautiful foliage plant with feathery leaves growing on cascading vines. The plant bears white flowers and red berries in the summer months. Great container or indoor growing plant.

50 sds - \$9.90	100 sds - \$12.55
200 sds - \$18.25	500 sds - \$29.25
1,000 sds - \$44.40	(26A5)

SPRENGERI - 1377

18-24 in. - 600 S. A. densiflorus. Trailing stems of feathery, needle-like foliage. Ideal as a beautiful house plant for a hanging basket. Great for pots and planters. Creates the perfect complement to flowery companions or other foliage.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

SPRENGERI COMPACTA - 1380

12-24 in. - 700 S. A. densiflorus. A very popular, low-growing plant. Dense, shiny green, needle-like foliage displayed on arching stems is contrasted by bright red, ornamental berries in fall. Good ground cover or hanging baskets. Can be used to trail over retaining walls. Zones: 9-11

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

Aster.**Also see listing under Perennials.****ASTER****12,000 sds/oz 70° 1 week**

Will bloom in about 90 days from seeding without any supplemental lighting, as they are day length neutral. For Pots and Bedding. For spring bedding, sow 6-8 weeks before selling season. Will attract butterflies and songbirds all season.

GIANT PRINCESS MIXTURE - 1463

☞ 30 in. - 13,000 S. The breeder of these giant flowered Asters was awarded with more than 40 gold medals in Germany and other foreign exhibitions. Fully double flowers with crested or cushioned Anemone centers, approx. 5 in. across are carried on strong stems. A very valuable class for cut flower purposes, blooming late in August.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

MATSUMOTO MIXTURE - 1419

☞ 24-30 in. - 16,000 S. Intense colors with distinct yellow centers. Bred from the original Kurenai types. The flowers are about 2 in. in diameter, upright flowering, strong stems and heat resistant. Excellent cut flower.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

POWDERPUFFS MIXTURE - 1455

☞ 24 in. - 17,000 S. Ideal market cutter and shipper. Plants strictly upright, bearing quilled flowers on long stems. Habit allows entire plant to be cut as one bunch.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

PRINCESS MIXTURE - 1494

☞ 28 in. - 13,000 S. Outstanding cut flower. A proven cut variety with strong, well-branched habit. The tubular flowers are encircled by a ring of broad petals. The 4 in. dome-shaped flower heads are heightened by an attractive light colored center. Well suited as a bedding plant or commercial cut flower use.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

BACOPA**34,000 sds/oz 68-74° 4 days**

First-ever bacopas from seed let you fully mechanize production, with easy crop scheduling and quick turns with no pinch. Economical for accent plant programs and perform well in large planters and mixed containers. MULTI-SEED PELLET which will include multiple seeds of each variety in one easy to sow pellet.

BLUTOPIA (MULTI-SEED) - 1793MP

6 in. - (F-1 Hybrid). Sutura cordata. Eye catching lavender-blue flowers. Trailing habit with slightly smaller leaves and more mounded than Snowtopia. MULTI-SEED PELLET contains 5-6 seeds per pellet.

PINKTOPIA (MULTI-SEED) - 1789MP

6 in. - (F-1 Hybrid). Sutura cordata. Bright pink with leaf size the same as Snowtopia, but the leaf color is more bright green than both Blutopia and Snowtopia. Great color for mixed containers and large planters. MULTI-SEED PELLET contains 5-6 seeds per pellet.

SNOWTOPIA (MULTI-SEED) - 1794MP

6 in. - (F-1 Hybrid). Sutura cordata. Beautiful white flowers. Trailing habit with larger leaves and more prostrate than Blutopia. MULTI-SEED PELLET contains 5-6 seeds per pellet.

UTOPIA (MULTI-SEED) - 1792MP

Includes Blutopia and Snowtopia.

of \$1,000 or more when booked by Sept 30th!

BEGONIA

2,000,000 sds/oz 75° - 80° 2 - 3 weeks

Sow November-February for May-June sales. Seed germinates best if soil temperature is kept at 75°-80° during germination period, with bottom heat. Well cleaned seed from specialists. Use a non-acid peat for germination; no covering over the seed, except paper for shade until they sprout. Keep surface of flat moist. Should be grown at 60° to keep them moving, need shade during the summer, a well shaded house high in humidity is recommended. Sow during November/December and January for 3 in. and 4 in. for spring sales. A strong 3 in. pot can be produced from seed in about 4 months. Makes a nice inexpensive pot plant through out the year for your retail trade. (Start to feed seedlings lightly as soon as they are established. Be sure to protect the tender leaves from direct sunlight.)

BADA BING SERIES

8-10 in. - (F-1 Hybrid). GREEN FOLIAGE. 10-14 days earlier than the market leaders. Very uniform to flower across the series. Strong branching habit fills in packs and pots quickly. Loaded with flowers. Perfect for big beds with multiple light conditions. Weeks to flower: 12-14. PELLETED SEED.

CELOSIA

55,000 sds. sds/oz 70°-75° 8 days

After sowing seed, cover lightly with media. 5-7 weeks, summer, 7-10 weeks, spring.

CRAMER'S HI-Z - 1849

✂ 30-48 in. - 55,000 S. C. spicata. A floral novelty with versatility. Unique Celosia with 6-8 in. long, spike-like, brilliant magenta blooms on top of long, strong stems. Each plant produces 8-10 stems perfect for cutting. Makes a great landscaping item, with excellent pack performance.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60
(30D5)	

CELOSIA (continued)**FLAMINGO SERIES**

✂ 30-40 in. - 26,000-34,500 S. C. spicata. Beautiful, slender plumes on erect, upright stems. Excellent in a landscape planting. For fresh or dried use.

Feather - 1926 ✂

Soft pink, turning white.

Purple - 1932 ✂

Purple feathery plumes on dark red-green stems and leaves.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

KOSMO SERIES

8 in. - 25,000 S. C. spicata. Nice compact, bushy plants with fascinating, spiky blooms in bright colors. Great addition to mixed planters for that WOW factor.

PELLETED SEED.

SOL GEKKO GREEN (PELLETED) - 1908PE

10-14 in. - C. argentea. Foliage type.

Attractive green-burgundy foliage. Color tends to be more intense or changes when the plant is grown outdoors under higher light levels. When grown indoors, color will stay mostly green. Great as an accent or border plant, formal garden, garden bed, small and mixed containers.

SOL LIZZARD LEAF (PELLETED) - 1909PE

10-14 in. - C. argentea. Foliage type. Quick-growing, low, shrub-like plants that looks great at the front of the border. Unique curled foliage turns to burgundy-red when grown outdoors for at least 1-2 weeks under high light conditions and more green when kept indoors or low light conditions. Foliage tends to curl due to genetic factors and will be affected by the climate conditions for indoor and outdoor environments. It holds well at retail and expands the options for consumers looking for sun-loving foliage accent plants. Offers relatively fast production time and no downy mildew issues. Great as an accent and border plant, formal garden, garden bed, small and mixed containers.

COLEUS

100,000 sds/oz 70°-75° 10 days

Excellent for combination boxes, pots and bedding in complete or partial shade. We can recommend both the separate and mixed colors to the most critical trade. After sowing seeds on sterilized media, do not cover with soil. Maintain a constant 70° soil temperature, use bottom heat if possible. Once established, grow on at 60°-65°. These plants make a nice inexpensive pot plant throughout the year for your retail trade.

BLACK DRAGON - 2123

12 in. - 86,000 S. Creates an exotic effect in shady beds, with its large, serrated leaves and unusual deep color, red with a purplish-black edge.

FAIRWAY SERIES

8 in. - 125,000 S. Extra dwarf with excellent basal branching. Very late flowering with vivid foliage colors. Improved shelf life and is a good option for year round production in packs and 4 in. programs. Works well in mixed containers and at the front of shaded or semi-shaded beds.

Mosaic - 2140 Unique color pattern.

Orange - 2141

Rose - 2143

Ruby - 2142

Mixture - 2145

Mixture includes Mosaic, Orange, Red Velvet, Rose, Ruby and Yellow.

Velvet Red - 2164

Mixture - 2155

Each of the above: (29D5)	250 sds - \$13.15
500 sds - \$17.45	1,000 sds - \$23.70
2,000 sds - \$36.70	5,000 sds - \$72.10

COLEUS (continued)

PREMIUM SUN

Upright plants display mid-size leaves are larger than Wizard but smaller than Kong series. Well branched, vigorous habit with long lasting color throughout the season. Color and contrast, habit and performance are best for mixed containers, also used for mass landscapes. Weeks to flower: 6-8. PELLETED SEED.

Chocolate Covered Cherry - 2135PE

12-14 in. Rose center surrounded by deep mahogany and edged with a thin green margin.

Chocolate Dark - 2134PE

24-30 in. Dark purple with burgundy tones.

Chocolate Mint - 2157PE

14-20 in. Leaves edged in soothing mint green.

Coral Candy - 2178PE

(All America Winner - 2023). Coral-pink center that blends to green.

Crimson Gold - 2169PE

26 in. (Formerly Versa). Deep red leaves with golden green edge.

Lime Delight - 2171PE

28 in. (Formerly Versa Lime). Lime green to golden foliage.

Mighty Mosaic - 2137PE

18-26 in. Striking multicolored leaf pattern.

Pineapple Surprise - 2139PE

18-26 in. - Unique tricolor pattern. Iridescent chartreuse and deep burgundy hearts are splashed with bright lime and green. The surprise! Up to 3% of plants can show primarily darker green/burgundy bicolor instead of chartreuse.

Ruby Heart - 2170PE

18-26 in. - Ruby red with a thin chartreuse border on the heart-shaped leaves continues on the undersides and stems, adding brightness.

Sweet Paprika - 2179PE

15-24 in. - Dark orange-red.

Watermelon - 2173PE

24 in. (Formerly Versa). Cherry-red leaves with green edge.

Mixture - 2174PE

Includes Crimson Gold, Lime Delight, Mighty Mosaic, Pineapple Surprise, Ruby Heart and Watermelon.

Chocolate Mixture - 2136PE

Includes Chocolate Covered Cherry, Chocolate Dark and Chocolate Mint.

Each of the above: (25H5)	25 sds - \$13.95
50 sds - \$18.65	100 sds - \$26.75
300 sds - \$56.20	500 sds - \$79.75

looking for - just ask us!
800-380-4721**

COSMOS

4,000 sds/oz 70°-75° 1 week*Will attract butterflies all season.**Grow under good light conditions to avoid color variance.*

ANTIQUITY - 2204

☞ 24 in. - 3,400 S. A very beautiful variety with flowers that open the darkest, most luscious crimson and then fade a little to look antiqued. Unusual and lovely. Shorter stems means no staking which makes it perfect for containers.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

APOLLO SERIES

☞ 18-26 in. - 5,000 S. (F-1 Hybrid).

Largest flowers and longest flowering period on the market. Better branching with fuller canopy of flowers. Stems are strong and compact meaning it will need little or no support in the border, less PGR's and less plants to fill a pot. Delicate feathery foliage. Add that cottage garden feel to your borders and pots.

Carmine - 2197 ☞

Lovesong - 2198 ☞

A delightful blend Pink Picotee, Pink and White.

Mixture - 2199 ☞

A mixture of Deep Purple, Pale Pink and White.

Each of the above: (28Z5)	100 sds - \$11.70
200 sds - \$15.30	500 sds - \$23.70
1,000 sds - \$36.70	2,000 sds - \$58.90

APRICOT LEMONADE - 2221

20-27 in. - 4,000 S. Petals start as a soft apricot shade with a pale lavender underside, fading over time to a creamy yellow.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

BLACK MAGIC - 2203

☞ ① 24 in. - 3,500 S. C. *atrosanguineus*. It's not often that a horticultural development can rightfully be described as exciting, but this is surely one of those occasions. The first chocolate Cosmos from seed. The gorgeous burgundy almost black colored blooms are spectacular. Some are double but all are in a variety of shades that are almost unreal. This deliciously scented flower has an unforgettable fragrance that ranges from chocolate to vanilla. Can be treated as a perennial if rootstock is kept frost free during winter. Zones: 8-11

10 sds - \$18.60	25 sds - \$36.05
50 sds - \$50.95	100 sds - \$94.55
250 sds - \$198.55	(24N5)

COSMOS (continued)

CANDY STRIPE - 2223

☞ 36-54 in. - 4,500 S. Single, bicolor mixture of red striped, rose and white edged flowers.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

CASANOVA SERIES

8-12 in. - 5,500 S. Dwarf, very uniform and perfect for high-density planting. Simple, single blooms will continue to appear all summer long.

Pink - 2193

Red - 2190

Violet - 2191

White - 2192

Mixture - 2194

A mixture of all the above.

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

CUPCAKE SERIES

☞ 24-30 in. - 3,500 S. Beautiful new variety that dazzles with a cannot believe your eyes double take. A brand new form with goblet shaped flowers and fused petals. Rare and remarkable cultivar of this classic cottage variety creates serene commotion in the full sun midborder. Pollinator-friendly plants are frequented by nectar-loving bees, butterflies and hummingbirds. Simply, sow'em where you want to grow'em.

Blush - 2219 ☞

A stunning color. Blooms open white and turn to a beautiful blush pink as they mature.

White - 2205 ☞

Beautiful, chalice-like petal pattern. Crisp, clean white.

DOUBLE CLICK SERIES

☞ 24-31 in. - 4,000 S. Unusual double blooms. Tall with large, fully double and semi-double 2-3 in. blooms.

Bicolor Pink - 2230 ☞

Striking pink and white.

Cranberries - 2231 ☞

Carmine.

Mixture - 2232 ☞

Mixture of Carmine, Pink and White.

Each of the above: (26C5)	50 sds - \$10.90
100 sds - \$14.30	200 sds - \$21.20
500 sds - \$33.00	1,000 sds - \$51.40

LEMONADE - 2234

☞ 24 in. - 4,000 S. An amazing color. Striking yellow and white bicolor blooms. Masses of flowers are produced throughout the summer. Create a beautiful display in containers and borders.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

COSMOS (continued)

LIMARA LEMON (DETAILED) - 2238DE

8 in. - 3,500 S. C. *sulphureus*. A multitude of large creamy lemon blooms that are set off by a darker golden eye. Produces masses of lemon colored flowers over its compact, well-branched habit.

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(29Z5)

PSYCHE MIXTURE - 2218

☞ 40-48 in. - 4,500 S. An attractive variety renowned for its stunning array of colors and surprisingly large blooms. Huge, crepe paper petals form loose, elegantly waved, upright blooms of crimson, rich lavender pink, and white. Double and semi-double flowers with a ring of petals forming a collarette in the center. Uniform free-flowering habit.

SEA SHELLS MIXTURE - 2208

☞ 36-48 in. - 4,500 S. A completely different style Cosmos. The fluted sea shell shaped petals will make a beautiful addition to your garden. A breeder's blend of colors that is outstanding. Typical of all Cosmos this variety is no exception in thriving under neglect situations. Attracts hummingbirds and butterflies.

SENSATION SERIES

☞ 48-54 in. - 4,000-5,500 S. Large, single 4-6 in. flowers with yellow centers bloom from midsummer on. Graceful for backgrounds, borders and bouquets. The most satisfactory type for cut flower purposes.

Dazzler - 2215 ☞ Crimson-red flowers.

Pinkie - 2214 ☞ Pink.

Purity - 2217 ☞ White.

Radiance - 2216 ☞

Deep rose with crimson zone.

Mixture - 2222 ☞ (All America Winner - 1936). A full range of colors.

Each of the above: (30A5)	500 sds - \$9.75
1,000 sds - \$13.15	5,000 sds - \$24.45
10,000 sds - \$38.55	

SONATA SERIES

20 in. - 4,500 S. Large flowers. Compact growth habit making them an excellent choice for container gardening and attracting butterflies. Their thin flowers are good for pressing and excellent for cutting. Performs well in full sun and is very free-flowering. Heat and drought tolerant.

Carmine - 2200

Pink - 2201

Pink Blush - 2202

Purple Shades - 2195

Red Shades - 2212

White - 2207

Mixture - 2211

CRASPEDIA, GLOBOSA

35,000 sds/oz 70°

Germination occurs over a long period of time. Constant moisture is important.

BILLY BUTTONS - 2236

16-20 in. - 45,500 S. Will produce a basal rosette of long leaves and branchless flower stalks topped with bright yellow, globe-shaped flower clusters. Useful for a fresh and dried cut flower, can be cut over a long period.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

SOLARPOP - 2235

*** New for 2026** 26 in. - Large, golden flower heads. Trendy highlight in every flower bouquet. Attracts many beneficial insects. Suitable for pots, containers and the landscape. Weeks to flower: 12-14.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28C5)

CUPHEA

Cigar Plant

14,000 sds/oz 70° 2-3 weeks

Very colorful bedding plants; easily grown.

PINK SHIMMER (MULTI-SEED) - 2269MP

10-16 in. - Profusions of petite flowers in shades of lavender to pink and rose cover the delicate leaves all summer long. Great for use in combinations of all kinds. This reblooming gem requires no deadheading and looks great even under hot conditions. MULTI-SEED PELLET contains 5-6 seeds per pellet.

25 sds - \$15.15	50 sds - \$20.50
100 sds - \$30.60	300 sds - \$62.00
500 sds - \$95.75	(25K5)

CUPHEA (continued)

SWEET TALK SERIES

8-14 in. - 7,000 S. (F-1 Hybrid). A new heat-loving cuphea. More refined plant form with tighter branching and less gaps. The beautiful blooms are a natural source of pollinator-attracting nectar, providing gardeners with a lively backyard gathering place for bees and hummingbirds.

Deep Pink - 2266

Lavender Splash - 2265

Purple to white bloom.

Red - 2267

Each of the above: (25I5)	25 sds - \$14.15
50 sds - \$19.25	100 sds - \$28.85
300 sds - \$58.15	500 sds - \$87.95

DYNAMITE

Sorry, no longer available.

DAHLBERG DAISY

Golden fleece, Shooting Star

200,000 sds. sds/oz 60-80° 8-12 days

Thrives in sandy soils with good drainage. Drought tolerant. Sow seed directly in garden areas 1-2 weeks before the last frost date for bloom four months later. Deadhead spent flowers to encourage additional bloom. Will self-seed in the garden under optimum growing conditions.

DAHLBERG DAISY - 2331

6-8 in. - 227,000 S. Thymophylla tenuiloba. An ideal compact edging plant with airy, lace-like leaves and yellow flowers. Plants spread 12-14 in. Blooms continuously throughout the season.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

DAHLIA

3,000 sds/oz 70°-75° 7-10 days

For best results, maintain 70° soil temperature throughout the germination period. Cover seeds lightly and keep surface moist. As they branch freely, we do not recommend a pinch. Readily grown from seed and tubers may be saved from the choicest specimens. Should be sown several weeks ahead of other annuals for maximum bloom the first year. Will attract butterflies all season.

BLACK FOREST RUBY - 2312

20-27 in. - Striking jet-black foliage, robust knee-high growth and abundant flowering. Showcasing vibrant hues against the dark backdrop. Bloom range from semi-double to double, enhancing its diversity and charm. Ideal for gardens and containers.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

DAHLIA (continued)

BISHOP'S CHILDREN - 2324

24-36 in. - 4,100 S. One of the most stunning flowers you will ever see. A warmed-toned mixture of single and semi-double blooms in solid and bicolor shades of orange, pink, purple, red and yellow. Flowers include plenty of bicolors and two-toned blends, some gaily striped, others shading from one hue to the next like a tropical sunset, and still others a rich, deep solid color. But what makes these blooms really extraordinary is that they arise atop black foliage. Stunning in the garden and long-lasting in the vase and a showstopper in the border and bed.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

BLOODY MARY - 2323

12-14 in. - 4,000 S. A beautiful mixture of double and semi double flowers on attractive bronze-red foliage. Very free-flowering, compact mounded habit.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

DANDY MIXTURE - 2310

22-26 in. - 4,000 S. Attractive well mounded plants producing a mixture of 3 1/2 in. flowers all season.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

DOUBLE GIANTS MIXTURE - 2308

40-60 in. - 3,100 S. Giant 3-5 in. double, semidouble and single blooms in solid and bicolor shades of coral, lavender, light yellow, red, salmon and white. An easy and economical alternative to tubers. Flowers are edible. The mild-flavored flowers are a colorful garnish for use in salads, desserts and drinks.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

EARLY BIRD - 2311

20-24 in. - 3,500 S. The earliest and most dwarf Unwin type Dahlia with full color range of double and semi-double stem length for cut flower.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

DATURA

Trumpet Flower

2,000 - 3,000 sds/oz sds/oz 70° 21 days

For the best germination, we suggest freezing seed for 5 days before sowing and do not use bottom heat.

BALLERINA SERIES

72 in. 2,000 S. Nicely scented, double flowers. Ideal for 6 in. pot production; will also fill out in the landscape.

Purple - 2570 Yellow - 2572

Each of the above: (24F5)	10 sds - \$11.05
25 sds - \$16.20	50 sds - \$21.70
100 sds - \$33.20	250 sds - \$64.40

BELLE BLANCHE - 2333

30 in. - 3,000 S. A particularly fine variety of Angel's Trumpet with blue-green leaves, ideal for gardeners in temperate climates because it blooms early and grows quickly, ultimately becoming a shrub-like plant. The 4 in., upright, pure white flowers have an exotic, tropical mystique and produce a sweet perfume that is especially strong at night.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

DIANTHUS

Annual Pinks

25,000 sds/oz 70° 7 days

Likes well drained soil and full sun. Blooms June-September, Will flower the same year as sown. Will attract butterflies all season. For the best germination, lightly cover seeds after sowing in indented rows. We suggest you NEVER use chemicals containing methyl bromide on Dianthus. Be careful to not overwater or overfeed when growing. Use a very light covering, needs light to germinate.

CORONET SERIES

8-10 in. - (F-1 Hybrid). Formerly Corona Series. Larger blooms than competition, plus uniform flowering time and habit. Produces multiple flowers on a compact, mounded plant. Weeks to flower: 6-8. PELLETED SEED.

Cherry Red - 2334PE

Solid cherry color, with some flowers showing a darker red center.

Purple - 2329PE

Rose - 2335PE

Solid rose color, with some blooms showing a darker center.

Strawberry - 2336PE

Variable pattern in coral/salmon shades. Some flowers are solid coral, some are coral bicolor and some have a darker coral picotee against a lighter background.

White - 2337PE

Clean, clear white.

White Purple Eye - 2330PE

Mixture - 2338PE

A blend of all the above.

Each of the above: (26B5)	50 sds - \$10.40
100 sds - \$13.35	200 sds - \$20.40
500 sds - \$32.35	1,000 sds - \$50.05

DIANA CRIMSON PICOTEE - 2340

⌘ 12 in. - 30,000 S. (F-1 Hybrid). Extra large, 2 to 2 1/2 in. blooms. Breathtaking frilly flowers are white edged, blending into deep crimson eye centers, above a compact mound of fine foliage.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

DYNASTY SERIES

16-20 in. - (F-1 Hybrid). An outstanding double flowered series that produces carnation-type blooms. Light is required for the best germination. Excellent garden performer and cut flower. A tender perennial in many areas. PELLETED SEED.

TELSTAR SERIES

8-10 in. - 25,000-47,500 S. (F-1 Hybrid). An early compact growing variety that will keep blooming until frost. Excellent heat tolerance.

Burgundy - 2299

Carmine Rose - 2352

Crimson - 2417

Picotee - 2361

(All America Winner - 1989). Bright crimson flowers with white fringed edges.

Pink - 2353

Purple - 2357

Purple Picotee - 2362

Violet purple flowers with white edges.

Scarlet - 2370

White - 2363 Pure white.

Mixture - 2360

Each of the above: (28J5)	100 sds - \$16.00
200 sds - \$21.70	500 sds - \$36.50
1,000 sds - \$59.50	2,000 sds - \$98.90

VENTI PARFAIT SERIES

6-8 in. - 26,000 S. (F-1 Hybrid). Covered with super-sized, sweetly scented blooms. Clusters of extra large fringed flowers. Well branched and vigorous habit. Holds up well to early spring cool temperatures. Perfect for containers, combinations and mass plantings.

Blueberry Eye - 2253

Purple center with white edges.

Crimson - 2251

Crimson With Eye - 2252

Crimson center with pink edges.

Strawberry Shades - 2255

Red center with white/pink edges.

Each of the above: (28G5)	100 sds - \$13.05
200 sds - \$17.30	500 sds - \$27.60
1,000 sds - \$43.70	2,000 sds - \$71.30

WEE WILLIE - 2366

4 in. - 28,000 S. An extra dwarf strain in shades of red. An ideal plant for flat sales. Weeks to flower: 6-8.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

DIASCIA

110,000 sds/oz 70° 5 days

After sowing, do not cover seeds. Light is required for germination.

PINK QUEEN - 2184

10-12 in. - 111,000 S. Beautiful masses of soft, rose-pink flowers on bushy, trailing plants. Blooms continuously throughout the summer, as long as it doesn't get too hot. Perfect for containers and hanging baskets. Also makes a good groundcover at the edge of the border or along a path.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

DICHONDRA, ARGENTEA

6,000 sds/oz 72°-76° 4-7 days

Cooler temps reduces growth; not frost tolerant.

EMERALD FALLS (MULTI-SEED) - 2447MP

2-4 in. - Excellent choice for hanging baskets, pots and mixed containers. Trails to 36 in. and will perform well as a groundcover. Attractive round, fan shaped foliage. Same as Silver Falls, but with green foliage. MULTI-SEED PELLETT contains 5-6 seeds per pellet. Weeks to flower: 11-12

SILVER FALLS - 2378

2-3 in. - 6,000 S. Rounded, fan-shaped silver stem and foliage 3/4-1 in. wide by 1/2-3/4 in. long. Vigorous growth, displays true cascading habit. Excellent hanging basket item, as well as a low growing ground cover. Performs best in full sun, very drought and heat tolerant. Branches well without pinching. Weeks to flower: 11-12 for 4 in.; 13-14 weeks for 10 in.

Each of the above: (25I5)	25 sds - \$14.15
50 sds - \$19.25	100 sds - \$28.85
300 sds - \$58.15	500 sds - \$87.95

Digitalis. Also see listing of Digitalis under Perennials.

DIGITALIS

Foxglove

125,000 sds/oz 70° 7 days

After sowing, do not cover seed. Will attract hummingbirds all season.

FOXY - 2377

36 in. - 250,000 S. (All America Winner - 1967). This is an annual Digitalis that blooms profusely with colors of white, cream, yellow, rose and exciting red shades. The solid colors with contrasting spots are beautiful. Weeks to flower: 20-24.

Zones: 4-9

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

DOLICHOS

Hyacinth Bean Vine

120 sds/oz 65°-70° 10 days

For the best germination, scratch or notch seeds and soak in warm water for 1 day before sowing.

LABLAB - 5800

36 Climber. 100 S. Attractive, fast-growing climber that produces purple and white bicolored flowers with green foliage and stiking electric-purple seed pods. Flowers are beautiful and fragrant and will attract butterflies and hummingbirds. A tender perennial in many areas. Makes a beautiful privacy screen for your yard.

50 sds - \$9.90	100 sds - \$12.55
200 sds - \$18.25	500 sds - \$29.25
1,000 sds - \$44.40	(26A5)

DOLICHOS (continued)

LABLAB RUBY MOON - 5849

36 Climber. 100 S. A very showy climber with purple stems, lilac-rose blooms and shiny magenta seed pods. A tender perennial in many areas. Do not confuse the superior performance of Ruby Moon with many common types available.

25 sds - \$10.80	50 sds - \$14.45
100 sds - \$18.85	300 sds - \$38.75
500 sds - \$48.55	(25A5)

DRACAENA

7,500 sds/oz 80° 3-5 weeks

Scarification can be an important process prior to sowing. It can be very helpful in avoiding erratic and poor germination. The following should be performed prior to sowing, up to 1 week prior. Rub seed in hands until black coat comes off. This is usually accomplished with 6-7 strokes. The objective is to partially remove the black coat on the seed. This can also be performed by rubbing the seed over a metal screen. You should see some black coating on the table or floor. The objective is to break the black seed coat, NOT damage the seed. You should not need to rub it more than 6-7 times with your hands. For best results, we suggest soaking the seed in warm water for 5-7 days before sowing. Change water daily to avoid fermentation. Sow seeds and cover with 1/16 in. of media, alternate soil temperature of 85° days and 70° nights.

INDIVISA - 2388

20-36 in. - 6,000 S. A popular spiked foliage plant often used to provide height and contrast. This unique and very hardy plant can be grown at any light level. Add intrigue to your garden or container.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

DUSTY MILLER

40,000-74,000 S. sds/oz 65°-70° 10 days

After sowing, do not cover seeds.

CANDICANS - 2409

6-12 in. - 46,700 S. Unusual silvery gray-white foliage provides attractive contrast to bold colored or intensive colored garden flowers. Its leaves can be entire, deeply lobed or intricately lacy. Their frosty leaves accentuate other colors in the garden. Once established, they will thrive for several years.

1,000 sds - \$12.70	2,000 sds - \$23.75
5,000 sds - \$40.20	10,000 sds - \$65.40
	(31F5)

DUSTY MILLER (continued on next page)

DUSTY MILLER (continued)

CIRRUS - 2410

10-12 in. - 40,000 S. *Senecio cineraria*. A versatile foliage plant with silvery dusted leaves, somewhat similar to an oak leaf, with silvery, fuzzy stems. A fantastic companion plant for highlighting blossoms from other surrounding plants.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

NEW LOOK (PELLETED) - 2418PE

12 in. - *Senecio cineraria*. This variety offers a new look in comparison to existing varieties. The large, oak-leaf shaped white leaves are ideal for borders and combination plantings.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

SILVER DUST - 2415

10 in. - 74,000 S. *Senecio cineraria*. Very fine silvery-white, wooly foliage. Excellent habit makes it ideal for borders, bedding or combinations.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

SILVER DUST (PELLETED) - 2415PE

10 in. - *Senecio cineraria*. Very fine silvery-white foliage. Excellent habit makes it ideal for borders, bedding or combinations.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

ECHEVERIA

70° 4 days

Once germination starts, open the container gradually so they can get used to the rooms conditions. Keep the soil slightly moist (never let it dry) and provide ample light (but not direct sunlight).

URBAN ORANGE (PELLETED) - 2392PE

3-4 in. - *E. peacockii*. Fast growing succulent that is popular for their unique, rosette shape and low maintenance. Early to flower with attractive, 12 in. orange blooms. Great for mixed combinations. Weeks to finish: 24-30.

URBAN YELLOW (PELLETED) - 2393PE

3-4 in. - *E. peacockii*. Fast growing succulents that are popular for their unique, rosette shape and low maintenance. Early to flower with 12 in. yellow blooms. Attractive structural plant for mixed combinations. Weeks to finish: 24-30.

Each of the above: (28Z5)	100 sds - \$11.70
	200 sds - \$15.30
	500 sds - \$23.70
	1,000 sds - \$36.70
	2,000 sds - \$58.90

ESCHSCHOLZIA

California Poppy

18,000 sds/oz 70° 7-10 days

Regarded as a tender perennial in many areas. Whenever possible, direct seed. Flowers close every night.

GOLDEN WEST - 3634

12 in. - 18,000 S. A spectacular bloomer producing beautiful, soft, golden yellow cup shaped flowers with orange hearts. These have a habit of opening and closing with the sun, appropriate for their native Golden State.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

EUPHORBIA

1,700 sds/oz 60°-65° 2-3 weeks

Soak seeds in water for 24 hours prior to sowing. The seeds must swell and 'crack' open to germinate.

GLAMOUR - 2426

15-24 in. - 14,000 S. *E. graminea*. Very dark green foliage and with bright white flowers. Takes heat and drought, rebounds fast from weather. Low maintenance, no deadheading required. Great solo in the landscape bed or as a mixer with other vigorous flowering annuals.

GLITZ - 2425

10-14 in. - 17,000 S. (F-1 Hybrid). *E. graminea*. A glorious variety, sporting masses and masses of tiny white blooms held at the very tip of finely cut, pastel-green stems. Beautiful at all times, they show a special effect at twilight, when the tiny blooms linger in the gleaming night like a thousand points of light. Use in the garden like a florist uses Baby's Breath, it spills delightfully over the sides of baskets and windowboxes, mounding gracefully. Heat and drought tolerant. Mid vigor and good branching. The ideal filler for containers of all types.

Each of the above: (25J5)	25 sds - \$14.80
	50 sds - \$19.85
	100 sds - \$30.05
	300 sds - \$60.20
	500 sds - \$90.90

VARIEGATA - 2424

☞ 35 in. - 1,400 S. *E. marginata*. (Snow on the Mountain, Mountain Snow). Pure white bracts contrast well with green foliage. Grown as much for its foliage as for its flowers, small but showy leaves may be light green, variegated or entirely white. Foliage variegation occurs when days begin to shorten. Tiny flowers, each with whitish, petal-like bracts, are borne in clusters atop the strong stems. Long vase life. Productive, elegant filler for bouquets.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

GAZANIA

12,000 sds/oz 65°-70° 10-12 days

All varieties of *Gazania* are cleaned seed. For the best germination, cover seeds lightly after sowing, needs darkness to germinate.

BIG KISS SERIES

8-10 in. - 14,000 S. (F-1 Hybrid). Unique colors and patterns. Big, 4-5 in. blooms on strong stems are held high above the foliage. Loves the heat and adapts to water stress. Weeks to flower: 13-15.

Orange - 3520

Orange Flame - 3536

Red - 3542

White Flame - 3537

Yellow - 3543

Yellow Flame - 3538

Mixture - 3539 A mixture of all the above colors.

Each of the above: (26G5)	50 sds - \$12.85
	100 sds - \$17.05
	200 sds - \$27.15
	500 sds - \$42.85
	1,000 sds - \$70.90

GAZOO SERIES

10 in. - 12,000 S. Show-stopping extra large, 3 in. flowers are displayed on strong stems and vigorous plants makes this a real winner in the garden. Bred for 4 in. pots and gallons.

Red With Ring - 2259

Mixture - 2574 A formula mixture of unique, clear and ringed colors.

Each of the above: (28G5)	100 sds - \$13.05
	200 sds - \$17.30
	500 sds - \$27.60
	1,000 sds - \$43.70
	2,000 sds - \$71.30

KISS SERIES

8-10 in. - 11,000-21,000 S. (F-1 Hybrid). Mounded plant habit, short stems with large, daisy-like flowers form a full bouquet. Bred for early, uniform and controlled habit, no growth regulators required. Well suited for 4 in. pots or full sun in the garden. Weeks to flower: 13-15.

Frosty Orange - 3515

Frosty Orange Flame - 3531

Frosty Red - 3512

Frosty White - 3533

Frosty White Flame - 3519

Frosty Yellow - 3532

White Flame - 3535

Yellow - 3528 Improved for 2023!

Yellow Flame - 3517

Mixture - 3524 A mixture of all solid colors.

Flame Mixture - 3521

A blend of Flame colors.

Frosty Flame Mixture - 3523

A blend of all Frosty Flame colors.

Frosty Kiss Mixture - 3518 A formula mixture of silverleaf colors that are not currently available within this series.

Each of the above: (26B5)	50 sds - \$10.40
	100 sds - \$13.35
	200 sds - \$20.40
	500 sds - \$32.35
	1,000 sds - \$50.05

GAZANIA (continued)
NEW DAY SERIES

8-10 in. - 5,000 S. (F-1 Hybrid). More compact, robust plants with larger flowers held on shorter stems. Great for containers or in the garden as an edging or ground cover. Drought tolerant once established. Usually grown as a summer annual, may be grown as a perennial in zones 9-10. COATED SEED.

Bronze - 2441PE

Clear Orange - 2435PE

Pink Shades - 2438PE

Red - 2433PE

Red Stripe - 2439PE

Rose Stripe - 2445PE

Yellow - 2440PE

Mixture - 2431PE

Colors include Bronze Shades, Clear Orange, Pink Shades, Red Shades, White and Yellow.

Bright Mixture - 2442PE

Mixture includes Bronze Shades, Clear Orange, Pink Shades and Yellow

Tiger Mixture - 2443PE

A mixture of Red Stripe and Rose Stripe.

Each of the above: (2815)	100 sds - \$14.35
200 sds - \$19.25	500 sds - \$31.55
1,000 sds - \$50.75	2,000 sds - \$83.60

ZANY SUNNY-SIDE UP (COATED) - 2446PE

8 in. - Unique color. Unique bicolored blooms with golden orange petals blending into light yellow tips.. Blooms open very early under bright conditions. Weeks to flower: 12-15.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

TALENT MIXTURE - 2420

5 in. - 11,000 S. (F-1 Hybrid). Unique but well known for the silvery-gray foliage that is a backdrop to the bronze, orange, rose, white and yellow flowers makes this a pretty collection of treasured flowers. Repeating whenever weather is warm and sunny, the daisy like flowers feature a golden or orange eye surrounded by broader ray petals that may or may not have darker rings. Ideal for full sun borders or beds.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

Geranium, F-1 Hybrid.

Also see listing of Geraniums under Perennials.

GERANIUM, F-1 HYBRID

6,500 sds/oz 70°-75° 7-20 days

Temperature is very important, maintain 75° soil temperature during the germination period of 7-20 days. Space seed 1/4 in. apart in rows 2 in. wide. Use only sterilized media and cover lightly. Maintain an even moisture level throughout the entire process. Use a growth retardant for compact habit and early flowering.

These new F-1 Hybrid Geraniums from seed are disease-free, but you must follow clean cultural practices. The bushy, vigorous plants are self branching; no pinching by the grower is necessary. The extra F-1 Hybrid vigor of these varieties assures strong growth and free blooms until frost, and extremely versatile crop - may be grown in packs or pots. All seed is scarified for better germination.

BULLSEYE SERIES

13-15 in. - 6,000-7,000 S. (F-1 Hybrid).

Rich chocolate foliage adds contrast to the beautiful blooms. Foliage retains its chocolate color even under high light conditions. Flowers 5-7 days later than Maverick. Weeks to flower: 14-16.

Cherry - 2289

Red - 2293

Salmon - 2291

Scarlet - 2292

LANDSCAPER RED - 2586

12-16 in. - 7,000 S. (F-1 Hybrid). Large, showy flower heads create high visual impact in garden settings. Because of their dense branching, fewer plants can be used in landscape plantings with no reduction in visual appeal. Vigorous plants are ideal for landscape applications.

Each of the above: (25D5)	25 sds - \$12.25
50 sds - \$16.80	100 sds - \$23.10
300 sds - \$48.65	500 sds - \$68.65

MULTIBLOOM SERIES

10-12 in. - 5,000 - 6,000 S. (F-1 Hybrid). One of the earliest varieties on the market! Very early, with compact uniform habit, and numerous (15-30 stems) flower heads. Deep green foliage with dark zones. Ideal for pot, pack and plug production. All varieties are heavily zoned, except for white. Weeks to flower: 10-12.

Pink - 2519

Red - 2562

Salmon - 2563 Mid-salmon.

White - 2565 Pure white.

Mixture - 2542

Each of the above: (25C5)	25 sds - \$11.45
50 sds - \$15.90	100 sds - \$21.95
300 sds - \$47.45	500 sds - \$64.10

GERANIUM, F-1 HYBRID (continued)
MAVERICK SERIES

14-16 in. - 5,000-6,000 S. (F-1 Hybrid). Specially bred for consistent, reliable bench performance. This series is easy to grow and uniform to flower, with large 4-5 in. flower heads. Open plant habit allows for multiple flower stems, early flowering, and less yellowing of the leaves. Ideal in 4-6 in. pots or larger containers. Weeks to flower: 12-15.

Appleblossom - 2532

Light pink

Coral - 2501

Orange - 2504

Pink - 2544

GERBERA

REVOLUTION SERIES

Select Mixture (Coated) - 4999PE ☼

4-8 in. - 4,000 S. (F-1 Hybrid). Produces masses of vividly colored daisy-like flowers. Mixture includes both solid and dark eyed colors. High uniformity enables a consistent, fully programmable, high-density crop year around. No surprises, you grow, pick, pack and ship. Better second flush of flowers than the competition. Ideal for the front of a border or patio pots and containers. Weeks to finish: 8-10.

10 sds - \$12.35	25 sds - \$18.65
50 sds - \$25.65	100 sds - \$40.20
250 sds - \$79.75	(24J5)

GODETIA

GRACE SERIES RED

Sorry, no longer available.

GOMPHRENA

5,000-12,000 sds/oz

AUDRAY SERIES

☼ 20-24 in. - 9,500 S. G. globosa. A versatile performer that is well suited for farmers markets, fresh by the bunch or already dried. It is an excellent dried flower and will add a burst of color to any mixed bouquet. Grows well in hot, humid conditions. Weeks to flower: 10-12.

Bicolor Rose - 2254 ☼

(Formally Bicolor Rose). Lavender-rose with white center.

Pink - 3591 ☼

Purple Red - 3592 ☼

White - 3593 ☼

Mixture - 3590 ☼

Each of the above: (28H5)	100 sds - \$13.70

2,000 sds - \$31.45	5,000 sds - \$60.60

FIREWORKS (COATED) - 2250PE

☼ 48 in. - 8,000 S. G. globosa. Unique, vigorous and tough as nails. Intense, long lasting, hot pink color. Drought tolerant. Attracts butterflies. Great for the landscape, containers and dried. Weeks to flower: 13-14.

25 sds - \$13.95	50 sds - \$18.65
100 sds - \$26.75	300 sds - \$56.20
500 sds - \$79.75	(25H5)

GOMPHRENA (continued)

GNOME PURPLE - 4722

6-10 in. - 12,000 S. G. globosa. This pretty purple-flowered dwarf globe amaranth offers continuous summer color and is ideal for container culture. Distinctive, round, brightly colored flowers cover this popular warm season plant in the heat of summer. Forms neat clumps and has simple, slightly fuzzy leaves of medium green. Deadheading is only necessary when the blooms turn brown. Ideal for smaller garden spaces.

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(29Z5)

LAS VEGAS SERIES

☼ 16-20 in. - 10,000 S. G. globosa. Big, full blooms bobbing atop slender stems. These flowers are very full, packed with florets of rich color. No sunny annual bed is complete. Blooms last a long time, look great in the sunny garden and keep coming all summer long. Superior heat tolerance. Though very versatile when it comes to soil type, needs good drainage and does best in reasonably fertile garden soil or potting mix. Plant them among your Marigolds and Petunias, Angelonias and Celosias, for a nice contrast in shape and texture. Cut stems for fresh or dried bouquets. Lovely in a container and perfect for large drifts in the meadow garden.

Pink - 2591 ☼ Soft pink.

Purple - 2592 ☼ Rich purple.

White - 2593 ☼ Pure white.

Mixture - 2594 ☼ A formula mixture.

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

PING PONG SERIES

☼ 16-20 in. - 9,500 S. Small ball-shaped blossoms in rich eye-catching shades. Add lively color and a distinctive silhouette to containers and garden beds. Plant in masses at the edge of the border or allow to mix and mingle with others in patio pots. Great for drying.

Lavender - 4723 ☼

Purple - 2604 ☼

White - 4724 ☼

Mixture - 4725 ☼

A mixture of the above colors.	
Each of the above: (28G5)	100 sds - \$13.05
200 sds - \$17.30	500 sds - \$27.60
1,000 sds - \$43.70	2,000 sds - \$71.30

STRAWBERRY FIELDS - 2607

☼ 24-30 in. - 5,500 S. G. haageana. Upright and busy with flowers that resemble bright red strawberries with tiny yellow seeds. Flowers are produced from summer to early fall and are great for cutting and drying. Fairly drought tolerant and very heat tolerant.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60

GOURDS, ORNAMENTAL

150 sds/oz 75°

For quick germination, we suggest that before sowing, soak seeds in warm water for 2 days. Cover seeds about 1/8 in. and maintain 75° soil temperature.

BIRD HOUSE - 2496

140 S. This popular gourd can be used as an accent decoration or a backyard bird house.

1/4 oz. - \$12.00	1/2 oz. - \$20.85
1 oz. - \$31.20	2 oz. - \$57.50
4 oz. - \$91.90	(10D5)

LUFFA (SPONGE) - 2492

250-300 S. Fruits are edible when young. Mature fruits resemble a sponge and are used as a beauty brush when bathing.

OPO (UPO) LONG - 2429

195 S. (Bottle Gourd). 70-75 days. This cylindrical bottle gourd has flesh that is sweet, tender and delicious when harvested young. The fruits have a smooth, light green skin and mature to about 12-15 in. long. Very productive plants.

SMALL FRUITED MIXTURE - 2494

600 S. A blend of small fruited varieties.

Each of the above: (10C5)	1/4 oz. - \$10.55
1/2 oz. - \$16.45	1 oz. - \$22.50
2 oz. - \$38.55	4 oz. - \$62.70

800-380-4721

GRASSES, ORNAMENTAL

75° - 80 3 weeks

For the best germination; we suggest before sowing to refrigerate seed for 5 days and then soak in warm water for 3 days. Sow thickly, in larger cells to develop nice strong plants within the shortest time.

CAT GRASS - 2619

24-48 in. - 825 S. *Hordeum vulgare*. Bring a touch of the outdoors inside with this attractive bright white and green variegated grass. In as little as 2 weeks from sowing, this grass will reach 6 in. tall. Its trending for indoor living as a soothing dining room centerpiece or as an edible and healthy treat for feline pets and can also be used like wheatgrass for health-conscious juicers. Grass will continue to grow, so keep pots trimmed for a neat and attractive appearance. A sharp accent in the garden or in pots indoors.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

CYPERUS ABBY - 2631

① 28-32 in. - 195,000 S. C. *glaber*. Decorative spikelets growing from dark green leaves. Great filler in floral arrangements. Tolerates high water levels. Weeks to finish: 10-12.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

ERIANTHUS RAVENNAE - 1129

⌘ 110-180 in. - 71,000 S. E. *ravennae*. Lush gray-green foliage and tall silver-white flower spikes. Autumn color is bronzy, with white seed heads.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

FESTUCA BUDDY BLUE - 2614

12 in. - 35,500 S. F. *valesiaca*. (Wallis Fescue). Silvery blue leaves, open panicles of tiny beige spikelets. Tuft forming habit. Use in heath and rock gardens, roof coverage, graveyard plantings and soil coverage. Ideal for fall and winter sales. Perennial. Zones: 4-8

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

FESTUCA ELIJAH BLUE - 2620

10 in. - 25,000 S. F. *glauca*. Known for its blue foliage, this is one of the most dependable fescues. Grows in a tight clump. Spikes of blue-tinged inflorescences emerge in summer, with unusual, blue-tinted flowers. Maintains its color throughout the winter months. Works well in perennial borders and with pastel color themes. Provides a bright accent in container plantings and is just beautiful in mass plantings. Perennial.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

GRASSES, ORNAMENTAL (continued)

FESTUCA FREDDY - 2630

20 in. - 24,000 S. F. *glauca*. A vigorous, tufted grass with long, bright, blue-green foliage with silvery highlights, chartreuse flowers appear above the clump in early summer and age to yellowish-brown spikelets; makes a fantastic color accent in the border. Zones: 4

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

FESTUCA GLAUCA (CINEREA) - 2613

16 in. - 27,000 S. F. *cinerea*. (Blue Fescue, Blue Select). Soft powdery, spiky foliage that keeps its color all year round. Small clumping grass with a rounded habit. In early summer, wheat-like seed heads are produced on tall, spiky stalks in great numbers. Preferring drier conditions, this is the perfect grass for rock gardens, in stone troughs or pots, for coastal climates or even for use as edging. Tolerates moist conditions and will help repel deer all season. Perennial. Zones: 4-8

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

HORDEUM RICKY - 2632

24-28 in. - 22,000 S. H. *jubatum*. Attractive structural plant. Green spikelets turning yellow and rose during the summer season. Perfect for landscape and group plantings. Suitable as dried flower in bouquets. Weeks to finish: 10-12.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

IOLEPIS LIVE WIRE (MULTI-SEED) - 1199MP

① 6-12 in. - *Scirpus cernuus*. (Fiber Optic Grass). Close-tufted evergreen grass with fine hair-like blades ending in a tuft of white florets. Ideal as an aquatic. Primarily grown as an annual. MULTI-SEED PELLET contains 5-6 seeds per pellet. Zones: 8-10

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

MELINIS SAVANNAH - 1195

⌘ 6-12 in. - 46,000 S. M. *nerviglumis*. (Ruby Grass). This showy, ornamental grass forms tight clumps of soft, blue-green foliage that grows 10 in. tall and wide. In June, ruby-pink blooms emerge 18 in. above the foliage on vertical spikes. During summer, flowers turn creamy white. Stunning accent in fresh and dried arrangements.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

LEMONGRASS (DETAILED)

Discontinued. As a substitute, we suggest *Grasses Lemongrass (raw)*.

GRASSES, ORNAMENTAL (continued)

LEMONGRASS - 1167

⌘ 36-60 in. - *Cymbopogon flexuosus*. (East Indian Lemon Grass). Raw seed. Good for mass plantings. Handsome grass used in Asian cuisine. Clump forming, lemon-scented, linear strap leaves fall over at the tip. The fibrous leaves have a very strong lemon aroma and are the source for oil that is used to flavor candy, ice cream and pastries. The stalks are usually removed before serving. Gives a sweet-sour lemon flavor to a wide range of dishes from soups, curries, sauces to fish and chicken dishes. It is also great for keeping the mosquitoes away. Makes a wonderful ingredient for hot teas, which can help with digestive problems. Germination can be erratic. A germination temperature of 75-80 degrees is advised. Also see listing for Lemongrass in Herbs for Enhanced and Pelleted seed. Zones: 8-10

1/4 oz. - \$38.15	1/2 oz. - \$63.80
	(08D5)

MISCANTHUS SINENSIS - 2623

⌘ 72 in. - 55,000 S. (Chinese Silver Grass). Perennial. Graceful flower plumes in late summer. Easily grown from seed, vigorous grower producing an effective screen. Tolerates moist conditions and will help repel deer all season. For fresh or dried use. Zones: 5-9

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

MUHLENBERGIA ROSY - 1175

48 in. - 67,000 S. M. *capillaris*. (Pink Hair Grass). Spectacular pink plume color, drought tolerance and undermanning nature. Grows in a mound with erect, blue-green foliage until September when spectacular, billowing pink seed heads form a cotton-candy crown. When planted in masses, the dramatic effect can take your breathe away. Zones: 6-10

MULENBERGIA RUBY - 1174

24-36 in. - 91,000 S. M. *reverchonii*. Beautiful medium-sized ornamental grass that produces clouds of ruby colored blooms in the fall. Mounds of fine-textured gray-green leaves work well in mass plantings and can be used to help control erosion. Zones: 5-10

Each of the above: (26B5)	50 sds - \$10.40

GRASSES, ORNAMENTAL
(continued on next page)

**GRASSES, ORNAMENTAL (continued)****WHITE FEATHER - 2610**

☞ 48-108 in. - 147,000 S. Cortaderia selloana. The ultimate architectural plant, adding texture, autumn color and winter shapes to the home landscape. Dozens of large stalks that grow thickly to an average height of about 3 feet topped with silky, soft white plumes soaring above them. An elegant addition to your yard and makes a great screen for hiding unsightly views. Zones: 7-10

Each of the above: (30A5) 500 sds - \$9.75
1,000 sds - \$13.15 5,000 sds - \$24.45
10,000 sds - \$38.55

GRASSES, BROOM CORN**MIXED COLORS BROOM CORN - 1190**

☞ 84-120 in. - 1,000 S. Airy, spray-like seed heads. Mixture of many different varieties and colors; gold bronze, brown, black, burgundy, red, white, cream, natural. There is a percentage of Colored Uprights Sorghum seeds in this mixture.

500 sds - \$10.05 1,000 sds - \$13.65
5,000 sds - \$28.85 10,000 sds - \$44.45
(30B5)

RED BROOM CORN

Crop failure. As a substitute, we suggest Mixed Colors Broom Corn.

GRASSES, CAREX**AMAZON MIST (MULTI-SEED) - 1173MP**

8-10 in. - C. comans. Pale green leaves grow in a thick clump and curl over to make a unique spray of color resembling a fountain. Delicate flowers appear atop tiny stems in Mid-Summer. Fantastic in containers. MULTI-SEED PELLET contains 5-6 seeds per pellet. Weeks to finish: 10-14. Zones: 7

BRONCO (MULTI-SEED) - 1172MP

8-10 in. - C. comans. Deep bronze-brown variety makes a unique addition to the garden. Thin foliage is gracefully arching, forming an attractive mound. Winter and early season growth is tinged a beautiful coppery-pink, tipped with silver. Great for containers, rock gardens or as a border plant. Tidy up in the spring to remove any dead foliage to encourage new growth. Best of the group. MULTI-SEED PELLET contains 5-6 seeds per pellet. Weeks to finish: 10-14. Zones: 7

RED ROOSTER (MULTI-SEED) - 1170MP

24 in. - C. buchanii. Upright, deep bronze-red color. Great in the border, in mass plantings or near a water garden. MULTI-SEED PELLET contains 5-6 seeds per pellet. Weeks to finish: 10-14. Zones: 6-9

Each of the above: (25D5) 25 sds - \$12.25
50 sds - \$16.80 100 sds - \$23.10
300 sds - \$48.65 500 sds - \$68.65

GRASSES, JUNCUS-FUSEABLES**MULTI-SPECIES COLLECTION**

Delivers not only blue and green color contrast, but eye-catching mix of straight and twisted. For use in mixed containers or as an indoor lifestyle plant. MULTI-SEED PELLET which will include multiple seeds of each variety in one easy to sow pellet.

Twisted Arrows (multi-seed) - 3486MP

18-36 in. - Includes Juncus Blue Arrows and Juncus Spiralis (curly juncus). Zones: 5
25 sds - \$15.15 50 sds - \$20.50
100 sds - \$30.60 300 sds - \$62.00
500 sds - \$95.75 (25K5)

GRASSES, JUNCUS**BLUE ARROWS (MULTI-SEED) - 3495MP**

36 in. - J. inflexus. Stiff and upright, blue-green foliage. Heat tolerant in a wide range of environments. Can be grown as a pond plant, but it is quite drought tolerant when grown in the ground. MULTI-SEED PELLET contains 5-6 seeds per pellet. Perennial. Zones: 5-9

BLUE DART (MULTI-SEED) - 3488MP

14-16 in. - J. tenuis. Linear, blue foliage with strong vertical habit; more blue color than comparable varieties. Excellent alternative to spike Dracaenas Eye-catching foliage offers great texture. MULTI-SEED PELLET contains 5-6 seeds per pellet. Zone 5.

Each of the above: (25D5) 25 sds - \$12.25
50 sds - \$16.80 100 sds - \$23.10
300 sds - \$48.65 500 sds - \$68.65

EFFUSUS SPIRALIS (PELLETED) - 1197PE

12-18 in. - J. effusus. (Corkscrew Rush). A neat variety with spiraled, twisted stems. A true moisture lover suitable for a pond side or bog garden. Excellent in dried floral arrangements. Prefers full sun to part shade. Perennial. Zones: 3-7

50 sds - \$12.85 100 sds - \$17.05
200 sds - \$27.15 500 sds - \$42.85
1,000 sds - \$70.90 (26G5)

JAVELIN (MULTI-SEED) - 3494MP

48 in. - J. pallidus. (Giant Rush). Tall and stately green grass makes a dramatic statement. Rugged plant can grow in standing water, but also handles heat and drought well. Great Winter interest, maintaining its upright, stiff foliage in a straw color. Can grow up to 5 ft. MULTI-SEED PELLET contains 5-6 seeds per pellet. Zones: 7-10

TWISTER (MULTI-SEED) - 3493MP

12-14 in. - J. effusus spiralis. Interesting and fun curly green foliage that is heat tolerant, drought tolerant and will thrive in wet conditions. A great looking grass to spice up your bog, container or border. Zones: 5-9

Each of the above: (25D5) 25 sds - \$12.25
50 sds - \$16.80 100 sds - \$23.10
300 sds - \$48.65 500 sds - \$68.65

GRASSES, MILLET**AUREUM - 3419**

☞ 24 in. - 42,000 S. Milium effusum. (Golden Millet). A unique variety. Elegant clumps of arching, bright golden yellow leaves. Perennial. Zones: 6-8

50 sds - \$12.85 100 sds - \$17.05
200 sds - \$27.15 500 sds - \$42.85
1,000 sds - \$70.90 (26G5)

COPPER PRINCE - 3406

24-36 in. - 3,400 S. Beautiful deep caramel to bronze foliage. The accent of the rose-bronze panicles adds to late Summer interest in the garden. Wide blades and excellent tillering plus height and spread make this variety perfect for large containers and landscapes.

25 sds - \$15.15 50 sds - \$20.50
100 sds - \$30.60 300 sds - \$62.00
500 sds - \$95.75 (25K5)

CRAMER'S TAPESTRY - 4497

☞ 24-36 in. - 9,500 S. Eye-catching seed heads. Stiff stems are topped by upright, club-like 3-6 in. panicles in shades of blue, gray, green and purple. For fresh or dried use.

500 sds - \$9.75 1,000 sds - \$13.15
5,000 sds - \$24.45 10,000 sds - \$38.55
(30A5)

INKY - 2629

* New for 2026 ☞ 43 in. - Pennisetum glaucum. Striking, large, red flower spikes on reddish-brown foliage. Drought tolerant, vigorous millet. Eye-catching in mass landscape plantings, especially in autumn.

50 sds - \$10.90 100 sds - \$14.30
200 sds - \$21.20 500 sds - \$33.00
1,000 sds - \$51.40 (26C5)

JADE PRINCESS - 3428

24-30 in. - 3,500 S. (F-1 Hybrid). Pennisetum glaucum. Intense lime green leaves; controlled, mounded shape; and pollenless heads make this variety shine at retail and in landscapes and mixed or mono containers. Requires warmer temperatures than other millets to perform well.

JESTER - 3404

☞ 42 in. - 3,000 S. (F-1 Hybrid). Pennisetum glaucum. Multi-color appearance. Young leaves are chartreuse with some burgundy. Mature foliage becomes predominantly burgundy with increased light levels. Mid-season, the plants have dark mature leaves and bright green/purple new growth, ending the season similar in color to Purple Majesty. Weeks to flower: 14.

Each of the above: (25K5) 25 sds - \$15.15
50 sds - \$20.50 100 sds - \$30.60
300 sds - \$62.00 500 sds - \$95.75

LIMELIGHT SPRAY - 1169

☞ 36-48 in. - 8,500 S. Setaria italica. (Spray Millet). Upright, slender habit with arching, bright green panicles.

500 sds - \$9.75 1,000 sds - \$13.15
5,000 sds - \$24.45 10,000 sds - \$38.55
(30A5)

GRASSES, MILLET (continued)
PURPLE BARON - 3421

☞ 30-40 in. - 3,500 S. Pennisetum glaucum. Shiny, purple-burgundy foliage is more rich and the darkest of all Millets. Slightly darker than Purple Majesty, the leaves are shorter and wider. The young plants are green at first at the stem and mid-rib begin to develop the purple color as they mature and are better branched at the base. Add a dramatic, contrasting vertical punch to beds of lavender, pastel pink and white blooming annuals. With its full, thick massive habit, birds flock to the large flower spikes right up until frost.

10 sds - \$12.70	25 sds - \$19.25
50 sds - \$26.65	100 sds - \$41.95
250 sds - \$83.60	(24K5)

PURPLE MAJESTY - 3409

☞ 48-60 in. - 3,000 S. (F-1 Hybrid). (All America Winner - 2003). Pennisetum glaucum. Striking corn-like plant with deep purple foliage, stems and flower plumes. Cat-tail like plumes are 12-14 in. long, each plant has 1-3 main stems, with secondary shoots of 24 in. Excellent in borders and mass plantings, use in full to partial sun. Under full sun the foliage color deepens and leaves narrow; lower light produces wider, greener and more corn-like leaves.

25 sds - \$15.15	50 sds - \$20.50
100 sds - \$30.60	300 sds - \$62.00
500 sds - \$95.75	(25K5)

PURPLE MIST - 1181

☞ 36-48 in. - 14,000 S. M. capillaris. A stiff, upright, broad green habit with large green heads that have delicate purple awns.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

GRASSES, PANICUM

90,000 sds/oz 60°-65° F 15 Days

FROSTED EXPLOSION (MULTI-SEED) - 3489MP

☞ 24-30 in. - Panicum capillare. An elegant clumping grass composed of bright green foliage that produces an explosion of sensational, airy, creamy green plumes that glimmer like fireworks when backlit by the sun in late summer. Harvest stems when seed heads are green all the way to bronze tinged. The finely textured plumes and narrow foliage are excellent filler for both landscape plantings and cut flower arrangements. MULTI-SEED PELLETT contains 5-6 seeds per pellet.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

HERBS...

ORANGE (TETRA) - Discontinued. As a substitute, we suggest Cut Flower Mixture.

SILVER ROSE - Discontinued. As a substitute, we suggest Cut Flower Mixture.

WHITE - Discontinued. As a substitute, we suggest Cut Flower Mixture.

HELICHRYSUM, MINUS

72°-76° 7 days

SILVER MIST (MULTI-SEED) - 2775MP

6-8 in. - Plectostachys serphyllifolia. Silver foliage and stems. Round to oval shaped finely textured leaves that are 1/4 in. long. Full, mounded and spreading habit to 18-24 in., branches well without pinching. Silver color intensifies with high light. In lower light levels, such as early Spring, foliage will appear more green. MULTI-SEED PELLET contains 3 seeds per pellet; allow for 1 plug per 4 in. pot. Weeks to finish: 12-14.

25 sds - \$14.80 50 sds - \$19.85
100 sds - \$30.05 300 sds - \$60.20
500 sds - \$90.90 (25J5)

HELIOTROPE

50,000 sds/oz 75° 1-2 weeks

Will bloom from seed in 3-4 months. Needs heat and rich soil. For the best germination, do not cover seeds after sowing in indented rows. Light will help germination.

MINI MARINE (EXTRA DWARF MIX) - 2642

8 in. - 50,000 S. Very fragrant, large umbels of deep purple flowers on compact, uniform plants.

250 sds - \$10.65 500 sds - \$13.70
1,000 sds - \$17.75 2,000 sds - \$26.20
5,000 sds - \$49.10 (29B5)

Hollyhock.

Also see listing under Perennials

HOLLYHOCK

2,000 sds/oz 60° 10-15 days

Will attract hummingbirds all season.

INDIAN SPRING - 2654

✂ 48-60 in. - 2,000 S. (All America Winner - 1939). Will bloom in 5 months from seed. A mixture of semi-double flowers in light pink to crimson rose shades.

Each of the above: (29B5) 250 sds - \$10.65
500 sds - \$13.70 1,000 sds - \$17.75
2,000 sds - \$26.20 5,000 sds - \$49.10

HYPOESTES

Polka Dot Plant, Sanguinolenta

25,000 S. sds/oz 70°-75° 3-5 days

Cover seeds lightly after sowing. One of the easiest foliage plants to grow from seed.

Bright green leaves are splashed with polka dots. A good sized 4 in. pot can be made in 12 weeks from date of sowing.

CONFETTI COMPACT SERIES

6-8 in. - With a compact habit and decorative foliage this series is well suited as a indoor pot plant and can be used as a component item in mixed containers with other indoor foliage plants. It works equally well in outdoor mixed containers and baskets. Ideal for year round production. Weeks to flower: 10-11.

Pink - 1155

Red - 1156

Rose - 1157

White - 1158

Mixture - 1159

Each of the above: (28D5) 100 sds - \$11.15
200 sds - \$14.30 500 sds - \$21.70
1,000 sds - \$33.20 2,000 sds - \$52.90

SPLASH SERIES

10-18 in. - 21,500-27,000 S. Excellent shelf life and well suited for shaded garden beds. Weeks to flower: 12.

Pink Select - 1151

Red Select - 1150

Rose Select - 1152

White Select - 1153

Mixture - 1154

Each of the above: (28C5) 100 sds - \$10.40
200 sds - \$13.35 500 sds - \$19.75
1,000 sds - \$29.70 2,000 sds - \$46.80

IMPATIENS

40,000 sds/oz 72°-75° 3-5 days

Light required for germination. Cover seeds lightly with a medium grade vermiculite to retain a moist environment for germination.

8-10 weeks sowing to flower in packs. 10-12 weeks for 4-inch pots.

SOLARSCAPE SERIES

9-13 in. - (F- Hybrid). The first interspecific impatiens series from seed offers growers the flexibility of an input that is available all year round, making scheduling a breeze. Great low maintenance plant provides high impact color in full sun spaces, whether in the ground or in containers. Blooms have tropical appeal, with a satiny texture in vibrant, growing hues. XL plant height averages about 20% larger than standard Solarscape. Weeks to finish: 7-10.

Lilac Spark XI - 2731

Blue and pink flowers with a unique bicolor pattern.

Magenta Bliss - 2831

Vibrant, warm magenta/violet-purple color.

Orange Burst - 2833

Deep coral-orange flowers with some shading to a light salmon-orange.

Pink Jewel XI - 2732

(All America Winner - 2024). Vivid pink.

Salmon Glow XI - 2821

11-13 in. - Flowers start out a bright salmon color with shading to lighter salmon-coral.

Salmon Punch - 2715 ✱ New for 2026

White Pearl - 2824

Clean white, non blushing color with a small eye.

Brilliant Gems Mixture XI - 2720

✱ New for 2026

Bright mixture of Blush Shades, Hot Pink and Lilac.

Each of the above: (30X5) 500 sds - \$20.45
1,000 sds - \$30.60 2,000 sds - \$50.95
5,000 sds - \$111.25

WHITE SHIMMER - Crop failure. As a substitute, we suggest Solarscape White Pearl.

IMPATIENS DMR

DOWNY MILDEW RESISTANCE ! These two series have been bred to be **HIGHLY** downy mildew resistant. Now it is time to take back the shade!

Since 2011, *Impatiens* downy mildew (IDM) has decimated *Impatiens* beds across the globe. IDM is caused by a host-specific water mold, *Plasmopara obducens*. When present, and environmental conditions are met (high humidity and cool night temperatures), the disease can spread rapidly, resulting in flower drop and eventually plant collapse – a loss of *impatiens* in your garden! Both airborne and overwintering spores meant this popular shade garden flower couldn't be grown with confidence because of the threat of disease.

At first, gardeners planted alternatives for shade colour: *Begonia*, *Torenia*, *Coleus*, as well as New Guinea *Impatiens*, which are not susceptible to the disease. But nothing could take the place of the traditional *Impatiens* *walleriana* garden fill, color range and performance.

What is **HIGH RESISTANCE**? The plant highly restricts the growth and/or development of the pathogen/damage it causes under normal pressure when compared to susceptible varieties under similar environmental conditions and pressures.

BEACON SERIES

10-12 in. - 45,000 S. (F-1 Hybrid). No-Risk Colour for the Garden! Fill your gardens once again with bright, long-lasting color without the risk of disease! Breeder tests have proven Beacon's high resistance to *Impatiens* downy mildew from sowing all the way through the gardening season. It has the same plant structure, flowering time, flower size and culture as traditional garden *impatiens*. Now plant shade landscapes with confidence! Ideal in packs, pots, baskets and window boxes. More info available at www.beaconimpatiens.com Weeks to flower: 7-9 for packs. COATED SEED.

IMARA XDR SERIES

10-12 in. - 50,000 S. (F-1 Hybrid). Take back the shade! The first *Impatiens* *walleriana* with a high degree of resistance to downy mildew. Proven landscape performance that fights back with reliable flowering all season long. Revive your *impatiens* sales with this easy and economical to produce series, ideal for high density growing in packs and pots. Results for the resistance were confirmed in independent trials in North America and Europe including trials in 2017 and 2018 at Cornell University's Long Island Horticultural Research and Extension Center. More info available at www.germaniaseed.com/XDR Weeks to flower: 8-10 for packs; 10-12 for pots.

IMPATIENS, F-1 HYBRID

30,000 - 50,000 sds/oz 72°-76° 5-8 days

7-8 weeks sowing to flower in packs. The number one bedding plant in North America, *Impatiens* offer a wide array of brilliant colors and thrive with minimum care. Blooms continuously from mid-summer until frost. A most valuable bedding plant for shady places. As a pot plant they bloom the year round. *Impatiens* are easily grown from seed.

For satisfactory germination, soil temperature of 72°-76° must be maintained at all times with an even moisture level. Do not cover seeds with mix or media, light induces a more even and higher germination level. Use bottom heat if possible. (Keep seed flats out of direct sunlight.)

Due to the breeder's development efforts, we can assure you of a high germination percentage of at least 92% on all Super Elfin, Accent and Xtreme varieties.

ACCENT SERIES

10-12 in. - 40,000 S. (F-1 Hybrid). A gardener's choice! Early flowering, large flowers with compact, but vigorous growth habit. Ideal in pots, packs or baskets. Improved uniformity in flowering. Premium seed quality, minimum 95% germination of all varieties at NO premium price to you. Weeks to flower: 10-13.

Bright Eye Premium - 2773

IMPATIENS, NEW GUINEA (continued)

FLORIFIC MIXTURE - 4817

8-12 in. - 13,500 S. l. hawkeri. (F-1 Hybrid). Uniform and well-branched plants are paired with large, flat vibrant flowers held just over the foliage. Strong tolerance to downy mildew. Better branching and more compact than previous types. Use for premium packs, pots and hanging baskets. Weeks to flower: 12-14.

Each of the above: (26Z5)	50 sds - \$11.90
100 sds - \$15.60	200 sds - \$23.70
500 sds - \$37.60	1,000 sds - \$62.35

Kale, Flowering.

Also see listing of Kale under Vegetables.

KALE, FLOWERING

Brassica oleracea (Acephala Group)

5,000-10,000 sds. sds/oz 70-75° 10 days

Easily grown in organically rich, consistently moist, well-drained loams in full sun.

Ornamental cabbage and kale are cool weather plants that need cool temperatures to produce best leaf colors. In mild winter climates, plants often survive winter and remain attractive until they bolt in spring.

CRANE FEATHER SERIES

☼ 20-36 in. - 7,000 S. (F-1 Hybrid). The first uniform feather-leaf flowering kale. The texture brings a contemporary flair to arrangements and bouquets.

King (white) - 4705 ☼

Queen (red) - 4706 ☼

Each of the above: (26L5)	50 sds - \$15.80
100 sds - \$21.50	200 sds - \$35.35
500 sds - \$58.60	1,000 sds - \$97.35

CRANE SERIES

☼ 24 in. - 8,500-10,500 S. (F-1 Hybrid). A long lasting cut flower variety that can also be used as a cool season garden accent. The tight, colorful heads look like immense roses. Average temperature below 60 degrees needed for flowers to develop color.

Bicolor - 4698 ☼

Rose center surrounded by creamy white with green outer petals.

Red - 4699 ☼ Green leaf tips with a delicate rose-purple center.

White - 4700 ☼ Creamy white and pink.

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

GLAMOUR RED - 2627

12 in. - 9,000 S. (All America Winner - 2011). The first kale to win the AAS award since 1932! Unusually shiny fringed leaves that are waxless which create an intense, vivid color. Flower head is in the 10 to 12 inch range. Once night time temperatures dip and stay below 55 degrees for a couple of weeks, the leaves start exhibiting their bulls-eye coloring. Weeks to finish: 12-14.

25 sds - \$13.15	50 sds - \$17.45
100 sds - \$23.70	300 sds - \$51.10
500 sds - \$71.70	(25F5)

KALE, FLOWERING (continued)

NAGOYA SERIES

8 in. - 6,000-8,500 S. (F-1 Hybrid). Leaves are waved and fringed. Early with uniform growth habit.

Red - 2408 Red on green.

Rose - 2256

White - 2257

Mixture - 2650

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

PEACOCK SERIES

12-18 in. - 7,500 S. (F-1 Hybrid). Finely cut, feathery leaves. Dwarf, compact habit.

Red - 2624

White - 2625

Mixture - 2628

Each of the above: (28J5)	100 sds - \$16.00
200 sds - \$21.70	500 sds - \$36.50
1,000 sds - \$59.50	2,000 sds - \$98.90

PIGEON PURPLE - 1727

☼ 8-12 in. - 9,000 S. (F-1 Hybrid). Round shaped solid head with wavy leaves grows uniformly on dwarf, compact plants. Outer leaves remain a medium to dark green, while the centers turns a magenta purple.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

CORAL QUEEN

Crop failure. As a substitute, we suggest Peacock Red.

LAURENTIA

Isotoma

61°-64° 100-115 days

For best germination, plant in full light and maintain low humidity.

STARSHINE BLUE - 3545

12-14 in. - 282,000 S. (F-1 Hybrid). Soft green foliage disappears beneath a mass of gorgeous star-shaped flowers. Well branched and early flowering with amazing heat tolerance. Ideal for containers and baskets. This lovely variety emits a sweet evening fragrance making it a good candidate for placing near a door or window. Weeks to flower: 8.

50 sds - \$13.35	100 sds - \$17.75
200 sds - \$28.60	500 sds - \$45.45
1,000 sds - \$77.15	(26H5)

GEMINI BLUE (PELLETED)

Crop failure. As a substitute, we suggest Starshine Blue.

**10% Discount Off
your Seed Orders
of \$1,000 or more when

Larkspur. Also see listing of Delphinium under Perennials.

LARKSPUR

8,000 sds/oz 55° 21 days

For the best germination, cover seeds lightly after sowing. Darkness will help germination. Freeze seed 3-5 days before sowing.

Sow outdoors in late fall or in early spring as soon as the ground can be worked. 2 lbs. seed will grown an acre, 1 oz. a row 600-700 ft. For growing under glass, space 10 in. x 10 in. on raised benches and maintain a night temperature of not over 50°. Seed does not germinate well in hot weather. If a sowing must be made in a summer heat, chill it for several days in a refrigerator (45°-50°) or set the seed flat under a bench or in a cool shed. It takes from 2-3 weeks to germinate, sometimes longer. Following varieties are the best for growing under glass and outdoor cultivation. They retain the desirable height and basal branching habit of the Giant Imperials; have Delphinium-like florets on long, thick spikes. Will attract hummingbirds all season.

BLUE CLOUD - 2094

☞ 36-40 in. - 23,500-31,000 S. *Consolida regalis*. Unique alternative to baby's breath. Airy, sprays of 1/2 in. single, spurred blooms. Bushy plants produce loads of stems for for cutting over a long harvest period. Perfection addition to any bouquet.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05

(31A5)

FROSTED SKIES - 2287

☞ 38 in. - 11,000 S. 2 in. pure white, double flowers with picotee blue edges.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

IMPERIAL CARMINE KING - 4824

☞ 36-48 in. - 10,500 S. Bright candy-pink, double flowers have variation and streaking that give this variety extra dimension. Great in early season mixed bouquets and can also be dried for later use.

1,000 sds - \$11.60	2,000 sds - \$19.90
5,000 sds - \$26.85	10,000 sds - \$36.80

(31D5)

QIS SERIES

☞ 36 in. - 8,500-11,000 S. *Delphinium consolida*. An improved series with considerable improvement over standard varieties with regard to uniformity, color and stem quality. The best series for cut flower production.

Carmine - 4825 ☞ **Dark Blue - 4826** ☞

Light Blue - 4827 ☞

10,000 sds - \$51.50	

Lavandula.

Also see listing of Lavandula under Perennials and Herbs.

LAVANDULA

Lavender

65°-72° 14-20 days

Freeze seed for 5-7 days before sowing.

Needs light to germinate. Nice cutflower that will bloom June-September. Will attract butterflies and repel deer all season. Herb of the Year 1999.

SPANISH EYES - 2534

☞ 18-24 in. - 40,500 S. *L. multifida*. Quick to bloom; flowering 8 weeks after germination and keeps going throughout the summer. Perfect for flower arrangements. A fernleaf type with multi branching stems. It doesn't have the traditional lavender aroma, but makes up for it in beauty and performance. Great weather tolerance.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

LAVATERA (MALLOW)

4,500 sds/oz 70° 2 weeks

Well-drained soil of average fertility. Mix a light application of a balanced fertilizer into the soil prior to planting. In mid summer, drench plants with a liquid fertilizer to prolong bloom time. *Lavatera* is an annual hibiscus.

TRIMESTRIS ROSE - 2669

☞ 30-48 in. - 4,000 S. (Silver Cup). Thick stemmed spikes of satiny shades of white and pink, with maroon centers and veining on the petals. Hollyhock-like 4 in. blooms. Well-branched vigorous plants. Performs best in cool climate condition. Weeks to flower: 13-17.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20

LEONOTIS

LION'S EAR, LION'S TAIL

68-70° 14-21 days

STAIRCASE - 3093

☞ 36-72 in. - 12,000 S. Unique, showy and impressive! Whorls of brilliant orange burst from green orbs spaced 3-5 inches apart on strong, square stems. Perfect color for late summer and early autumn. Attractive spiny seed heads can also be used fresh or dried. Vigorous, base-branching plants produce loads of stems.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

Linaria. Also see Linaria under Perennials.

LINARIA

Maroccana (Baby Snapdragons)

600,000 sds/oz 65° 10 days

FAIRY BOUQUET - 2665

8-10 in. - 475,000 S. (All America Winner - 1934). *L. maroccana*. Compact, free, early blooming border plants. A blend of bright colors with beautiful snapdragon-like flowers. Weeks to flower: 6-8

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05

(31A5)

FANTASY VIOLET WITH YELLOW EYE (PELLETED) - 1203PE

6-8 in. - Long-spurred, snapdragon-like with violet flowers and yellow centers above finely textured, fuzzy, green leaves. Great as a bedding plant or in mixed borders.

SPRING MIXTURE (PELLETED) - 1204PE

6-8 in. - (Formerly Fantasy Mixture). A mixture of blooms in blue, magenta, pink, rose, white and yellows.

Each of the above: (28J5)	100 sds - \$16.00
200 sds - \$21.70	500 sds - \$36.50
1,000 sds - \$59.50	2,000 sds - \$98.90

LISIANTHUS, DOUBLE

Estuma

600,000 sds/oz 68°-75° 10 days

Lisianthus is sensitive to temperatures in excess of 75°. For the best germination, cover pelleted seed lightly with a thin layer of medium grade vermiculite. High temperatures trigger rosetting, an induced resting stage. Seedlings are most sensitive to rosetting until two sets of true leaves have formed. Seedlings that are affected by rosetting will have delayed or inhibited flower stem production. Transplant when 4-8 true leaves appear, keep shaded until they have rooted. *Lisianthus* is a slow growing crop in the seedling stage. It is important to keep seedlings actively growing to avoid inhibiting the flower stem length. Proper control of temperature, light and fertilizer are very important in producing a great crop of *lisianthus*.

ECHO SERIES

☞ 30-36 in. - Popular cut flower series for greenhouse or field production. Elegant, sprays of fully double blooms on strong stems. Best for flowering April to mid-June. Early-flowering - Group 3. Weeks to flower: 30-36. PELLETED SEED.

Blue - 6017PE ☞ **Champagne - 6000PE** ☞

Lobelia, Compact.

Also see listing under Perennials.

LOBELIA, COMPACT

700,000 sds/oz 70°-75° 14 days

Sow in sterilized media, do not cover seeds with soil after sowing. Maintain a 70° soil temperature with even moisture throughout germination period.

Please keep in mind that ALL varieties of White Lobelia will flower with a small percentage being blue. This is typical under any conditions as they revert back to their original parent line - Not a contamination or error problem when your order was being filled. Ideal for bedding, borders, pots, window boxes, rock gardens and hanging baskets.

CRYSTAL PALACE - 2688

6-8 in. - 970,500 S. Very dwarf. Deep blue flowers offset by dark, bronzed foliage. One of the best edging plants for continuous color.

5,000 sds - \$10.50	10,000 sds - \$17.90
25,000 sds - \$28.85	50,000 sds - \$45.25
	(34A5)

LOBELIA, COMPACT (continued)

CRYSTAL PALACE (MULTI-SEED) - 2688MP

6-8 in. - Very dwarf. Deep blue flowers offset by dark, bronzed foliage. One of the best edging plants for continuous color. MULTI-SEED PELLETT.

MARINE BLUE - Crop failure.

As a substitute, we suggest Regatta

Midnight Blue (multi-seed).

Lupinus. Also see listing under **Perennials**.

LUPINUS

Lupine

1,000 sds/oz 70° 21 days

For the best germination, freeze seed for 4-5 days and then soak seed in water for 5-7 days before sowing. After sowing seed, cover lightly. For best results, alternate soil temperature of 80° days and 70° nights. Darkness will help germination. Keep soil surface moist. Requires a well drained location and they like acid soil; partial shade or full sun will do. Nice cut flower. Will flower the first year from seed. Blooms May-August. Will attract butterflies and hummingbirds all season and will repel deer from the garden.

TEXENSIS - 2667

⌘ 6-18 in. - 800 S. L. texensis. (Texas Blue Bonnet or Texas Wildflower). Beautiful blue and white flowers will bloom all season.

Each of the above: (29D5)	250 sds - \$13.15
500 sds - \$17.45	1,000 sds - \$23.70
2,000 sds - \$36.70	5,000 sds - \$72.10

MARIGOLD, AFRICAN

8-10,000 sds/oz 72°-75° 4 days

Reduce temperature to 68-70° after initial germination and until transplant. Grows best if planted in full sun and can be planted in sandy, clay or loamy soil, although they thrive in a moist, but well-drained loam. These types need to be planted at least 18 in. from one another. Faded flowers should be removed to encourage new bud growth.

ANTIGUA SERIES

10-12 in. - 9,500 S. (F-1 Hybrid). Early flowering, naturally dwarf with 3 in. fully-double flowers. Superior pack and garden performance combine for an outstanding variety. Daylength neutral. Weeks to flower: 10-12. DETAILED SEED.

Gold - 2870DE

Orange - 2871DE

CRUSH SERIES

10 in. - 8,000 S. Beautiful Dolly-type 3 1/2 to 4 in. double flowers. Dwarf, compact habit and free-flowering. Resistant to Aster Yellows. (All the varieties in the Crush Series are of the Improved Strain). DETAILED SEED.

Papaya - 2961DE

Solid gold with lush dark foliage.

Pumpkin - 2963DE

Early flowering, deep orange flowers.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

PINEAPPLE - Crop failure. As a substitute, we suggest Disco Yellow (detailed).

MARIGOLD, DWARF (continued)

DISCO SERIES

10-12 in. - 3,500-9,000 S. Large 2 in. single flowers. Very early flowering compact plants with good weather tolerance. DETAILED SEED.

Granada - 3032DE

Orange and red bicolor.

Marietta - 3037DE

Golden yellow and mahogany bicolor.

Orange - 3033DE

Pure orange.

Red - 3029DE

Yellow - 3036DE

Bright yellow.

Mixture - 3038DE

DURANGO SERIES

12-14 in. - 9,500 S. Totally upgraded series! Early flowering, large anemone-type flowers. Uniform habit with base-branching habit. Weeks to flower: 6-7. DETAILED SEED.

Bee - 2965DE

Bolero - 2966DE

Flame - 2947DE

Mahogany edged with orange.

Gold - 2969DE

Orange - 2970DE

Red - 2967DE

Tangerine - 2971DE

Yellow - 2968DE

Mixture - 2953DE

Outback Mixture - 2972DE

A mixture of Bolero, Red, Tangerine and Yellow.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

FIREBALL (DETAILED) - 3027DE

10-12 in. - 10,000 S. Extra dwarf French crested type. Never seen before multicolored, 2 1/2 in. blooms of new red flowers and the older bronze-gold colored flowers on the same plant. Flowers age and change more slowly for maximum contrast. In warmer conditions, color changes faster with less distinct contrast. Weeks to flower: 6-7 (premium packs) and 7-9 (quarts, multi-plants in larger pots).

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

FLAMENCO (DETAILED) - 3026DE

10-12 in. - 9,500 S. Unique pattern of a yellow center and red tipped petals, this novelty color will look great in patio containers and gardens alike. In line with the Bonanza series for habit with flowering time being a few days later.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

MARIGOLD, DWARF (continued)

HAPPY SERIES

6-7 in. - 12,000 S. Joyful colors for the harsh high heat climates. Compact with superb basal branching and fantastic uniformity in the pack, with just the right amount of vigor to perform beautifully in hot garden conditions. Great for standard and premium packs, 4 in. pots and mixed containers. Weeks to flower: 8-11. DETAILED SEED.

Harmony - 2957DE

Orange - 2959DE

Yellow - 2960DE

Mixture - 2949DE

A blend of all colors.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

HOT PAK SERIES-COATED

6-7 in. - 10,000 S. Coated seed for the ease of sowing.

Fire - 3016PE

Golden flowers with a mahogany red center.

Flame - 3017PE

Red and gold bicolor.

Gold - 3018PE

Harmony - 3019PE

Mahogany red flowers with a orange center.

Orange - 3020PE

Spry - 3022PE

Maroon collar with a gold center.

Yellow - 3024PE

Mixture - 3025PE

A blend of all the above colors.

Each of the above: (29Z5)	250 sds - \$14.25
500 sds - \$19.25	1,000 sds - \$26.65
2,000 sds - \$41.95	5,000 sds - \$83.60

HOT PAK SERIES-DETAILED

6-7 in. - 10,000 S. Extra dwarf French crested type. Plants stay compact and continue to flower reliably even in locations with high temperature and high humidity nights. It was especially bred and trialed in areas of the world with high temperatures-developed in the heat for the heat. Weeks to flower: 3-4. DETAILED SEED.

Fire - 3016DE

Golden flowers with a mahogany red center.

Flame - 3017DE

Red and gold bicolor.

Gold - 3018DE

Harmony - 3019DE

Mahogany red flowers with a orange center.

Orange - 3020DE

Spry - 3022DE

Maroon collar with a gold center.

Yellow - 3024DE

Mixture - 3025DE

A blend of all the above colors.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

All Seed orders are shipped

most within 4 hours!

MARIGOLD, DWARF (continued)
JANIE SERIES

8-10 in. - 8,000-10,500 S. Very early, 1 1/2 in. crested blooms held above the foliage. Compact, uniform habit in pack and garden. Excellent performance, very heat tolerant with excellent garden vigor in warmer temperatures. Weeks to flower: 6-7. DETAILED SEED.

Bright Yellow - 2995DE

Bright yellow.

Deep Orange - 3003DE

Deep orange.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

LEMON DROP - 3011

8 in. - 12,000 S. Fully double, medium-sized canary yellow flowers on dwarf, compact plants.

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60 (31C5)

LITTLE HERO SERIES

6-8 in. - 11,000 S. A dwarf French crested-type. Early bloomer with very large 2-2 1/2 in. double flowers. An excellent performer in hot weather and ideal for late season sowings. With such a lovely display of color, you can depend on these to spruce up any garden with a lot of flower power. Weeks to flower: 9. DETAILED SEED.

Fire - 3001DE
Orange - 2997DE
Yellow - 2998DE
Mixture - 2992DE
MANGO TANGO (DETAILED) - 2922DE

* *New for 2026* 9 in. - Large, red and yellow anemone shaped blooms. Uniform and early flowering. Eye-catching intense color. Best if used in containers and the landscape.

MILLI VANILLI (DETAILED) - 2921DE

* *New for 2026* 9 in. - (All America Winner - 2026). Tetraploid type resulting in a vigorous in a vigorous plant. Large, dark yellow to light yellow, semi-double anemone blooms. Excellent heat tolerance. Weeks to flower: 7-12.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

MR. MAJESTIC DOUBLE (DETAILED) - 3039DE

12 in. - 11,000 S. Bushy, strong, robust and covered in fully double blooms that are golden with mahogany markings.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

MARIGOLD, DWARF (continued)
MR. MAJESTIC SINGLE (DETAILED) - 3031DE

12 in. - 8,000 S. Mahogany-red shapes on bright yellow petals surround gold centers.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

SAFARI SERIES

8-10 in. - 6,000-10,500 S. Large 3 in. Sophia-type flowers. Excellent garden performance. Weeks to flower: 6-7. DETAILED SEED.

Bolero - 2925DE

Orange with red markings.

Gold - 3023DE
Orange - 2917DE

Medium orange.

Red - 2929DE

The truest red available.

Scarlet - 2918DE

Scarlet dusted with yellow.

Tangerine - 2924DE

Intense orange.

Yellow - 2919DE
Yellow Fire - 2938DE

Unique-Yellow with red markings at each petals base.

Mixture - 2920DE

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

SOPHIA QUEEN - 2999

8-10 in. - 9,000 S. (All America Winner - 1979). Large 2 1/2 to 3 in. reddish-gold flowers completely cover the very uniform, compact growing plants. Very free-flowering and will bloom until frost.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55 (30A5)

STRAWBERRY BLONDE (DETAILED) - 3028DE

8-10 in. - 9,500-10,500 S. Extra dwarf French crested type. A completely new look. First flowers open to a deep pink shade with a rustic yellow crest. As the flower ages, it changes to more of a straw yellow color. Large, 2 1/4 in. new flowers produce more freely in the Summer than Fireball, so it maintains contrast between old and new flowers longer, however, the overall effect is paler since the oldest flowers fade to straw yellow color. Weeks to flower: 6-7 (premium packs) and 7-9 (quarts, multi-plants in larger pots).

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70 (28A5)
2,000 sds - \$34.50	

MARIGOLD, DWARF (continued)
SUPER HERO SERIES

10-12 in. - 10,000 S. Update to the original Hero series. Large 2 in. blooms holds up through the summer heat and continue to produce blooms up until frost. Early and uniform flowering with compact habit. Ideal for paks, containers and landscape borders. Weeks to flower: 7-9. DETAILED SEED.

Deep Orange - 2956DE

Deepest orange.

Deep Yellow - 2954DE
Gold - 2958DE
Harmony - 2943DE

Mahogany red with orange center.

Orange - 2944DE
Orange Bee - 2945DE

Orange with slight yellow fringe.

Orange Flame - 2946DE

Orange-red.

Spry - 2950DE

(All America Winner - 2018). Dark maroon lower petals and golden yellow upper petals.

Yellow Bee - 2951DE

Yellow-orange.

Mixture - 2952DE

A bold blend of the above varieties.

Each of the above: (29C5)	250 sds - \$11.90
500 sds - \$15.60	1,000 sds - \$20.70
2,000 sds - \$31.45	5,000 sds - \$60.60

ZENITH SERIES

14 in. - 9,200 S. (F-1 Hybrid). Unique Afro-French (triploid) with more branching, more flowers, more heat tolerance and more rain tolerance. With no seed set they require no dead heading to maintain its phenomenal flower power all summer long. Weeks to flower: 7-9. DETAILED SEED.

Deep Orange - 2926DE
Golden Yellow - 2927DE
Lemon Yellow - 2928DE
Red - 2939DE
Red & Gold - 2940DE
Yellow - 2941DE
Mixture - 2942DE

A wonderful mixture of all the above colors.

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

MARIGOLD, INBRED
CARNATION FLOWERED
Crackerjack Mixture - 3021

36 in. - 8,000 S. Fully double 4-5 in. blooms in shades of orange, gold and yellow. Fine variety, excellent for summer cutting.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05 (31A5)

MARIGOLD, MEXICAN

Signata Pumila

8-10,000 sds/oz 70°-75° 6 days

LULU - 3051

7 in. - 30,500 S. The first real yellow in the Tagetes type. A very compact dome-shaped, free-flowering plant with dainty, lacy foliage. Small, single 5-petaled lemon yellow flowers.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

ORANGE GEM - 3054

8-10 in. - 33,000 S. A unique heirloom. Compact, mounded habit. Leaves and dainty flowers have a subtle citrus aroma and flowers are edible. Single orange flowers enliven the garden with their warm color and lend a spicy flavor to salads.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

MARVEL OF PERU

Mirabilis Jalapa

75°-80° 10 days

Soak seeds for 7 days before sowing.

CAUTION: SEED AND PARTS OF THE PLANT COULD BE TOXIC IF INGESTED.

FOUR O'CLOCKS MIXTURE - 3061

36-48 in. - 400 S. The intensively colored flower of this easy to keep garden plant open in the evening and close in the morning. It is a true night flower and makes a special impression on lighted walk ways or near garden lights.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

MELAMPODIUM

5,000 sds/oz 65°-70° 7-10 days

For the best germination, cover seeds lightly with media after sowing.

DERBY - 3070

8-10 in. - 6,000 S. M. paludosum. Very heat and humidity tolerant. Free flowering with golden-yellow, daisy-like flowers that will bloom all summer.

GOLDEN GLOBE - 3081

6-8 in. - 5,500 S. M. paludosum. Very uniform and compact plants with deep golden-yellow flowers on rich green foliage. Weeks to flower: 8-9.

Each of the above: (28F5)	100 sds - \$12.35
	200 sds - \$16.30
	500 sds - \$25.65
	1,000 sds - \$40.20
	2,000 sds - \$65.20

MELAMPODIUM (continued)

JACKPOT GOLD - 3078

10-24 in. - 5,500 S. M. paludosum. Very durable to take cold springs, long dry summers and still look good well into the fall. Beautiful golden-yellow blooms maintain their appearance with very little care and will continue to flower until frost sets in.

LEMON DELIGHT - 3067

8-10 in. - 6,000 S. M. divaricatum. Profuse blooming, 1 in. light yellow, daisy-like flowers. Plants thrive in hot, humid locations.

Each of the above: (26G5)	50 sds - \$12.85
	100 sds - \$17.05
	200 sds - \$27.15
	500 sds - \$42.85
	1,000 sds - \$70.90

SHOWSTAR - 3062

⌘ 12-14 in. - 5,000 S. M. paludosum. Old-fashioned southern charmer. Easy to grow. Excellent heat and drought tolerance. Sturdy, branching plants covered with golden-yellow, 1 3/4 in. daisy-like blooms. Nice cut flower for country-style bouquets. Great garden performance and good for large container plantings.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

MESEMBRYANTHEMUM

100,000 sds/oz 65°-70° 15 days

Sow sterilized media, cover seeds lightly, maintain 65° soil temperature. Sow in February for May sales.

CRINIFLORUM - 3065

6 in. - 110,000 S. (Livingston Daisy). Plants are covered of carmine, pink and yellow. Ideal for bedding and rock gardens.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

MIMOSA

Sensitive Plant

4,500 sds/oz 80° 12 days

For the best germination, after sowing cover seeds 1/8 in. with soil and maintain 80° soil temperature. (Also, soaking seed in water for 3-5 days before sowing will help germination.)

PUDICA - 3074

24 in. - 5,000 S. A true novelty, fern-like plant with leaves that will close when touched.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

MIMULUS

Monkey Flower

500,000 sds/oz 65°-70° 1-2 weeks

For the best germination do not cover seeds after sowing in indented rows. Light will help germination.

MAGIC MIXTURE (PELLETED) - 3082PE

10 in. - (F-1 Hybrid). Very early with compact, uniform growth habit. Mixture contains cream, orange, pink, red, yellow and an occasional flower with a speckled throat. Ideal for containers or hanging baskets.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

MINA

Spanish Flag, Firecracker Vine, Exotic Love Vine

9,900 sds/oz 70°-75° 14 days

For the best germination, soak seeds in warm water for 5 days before sowing. After sowing, cover seeds lightly with media. Darkness will help germination. Do not overfeed with nitrogen or you will get leaf at the expense of flower. Seeds are highly toxic if ingested.

JUNGLE QUEEN - 3124

Climber. 60 in. - 10,000 S. M. lobata. An exciting colorful and exotic looking climber. Bred for intense color and contrast with masses of vibrant red, bright yellow, and orange tubular flowers held upright on a stocky vine. Excellent for containers and hanging baskets with loads of blooms that excel in heat and humidity.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

LOBATA - 6110

Climber. 1,500 S. Ipomoea lobata. An outstanding creeping vine. Clusters of 1 1/2 in. tubular flowers in shades of yellow, orange and red. An easy to grow vine that can reach 12 ft. on a wall or trellis. A tender perennial that requires protection.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

MORNING GLORY

1,000 sds/oz. sds/oz 65°-85° 5-14 days

Nick or file the seed coat prior to soaking seeds in warm water for 24 hours prior to sowing. Cover with plastic to retain moisture until germination occurs.

CARDINALIS - 3091

Climber. 72 in. - 1,000 S. (Cypress Vine). Ipomoea quamoclit. Bright red trumpet flowers with attractive bright green feathery foliage. An easy to grow, climbing vine that can reach 6-12 feet.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

Place your order today, and we'll have it shipped out the same day—most within just 4 hours!

MORNING GLORY (continued)
CARDINAL CLIMBER - 3088

Climber. 180 in. - 1,000 S. Ipomoea multifida. An absolutely beautiful twining vine with vivid crimson trumpet-shaped flowers that hummingbirds just adore. The attractive foliage is a lustrous emerald green and it is shaped like palm leaves. Great for decks, arbors, posts and trellises. Very long bloom season.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

CLARKE'S HEAVENLY BLUE - 3092

Climber. 72-96 in. - 900 S. Ipomoea tricolor. Bright blue, shading lighter toward the center. Most popular variety.

CRIMSON RAMBLER - 3086

Climber. 72-96 in. - 1,000 S. Ipomoea purpurea. Crimson-red flowers with a white center.

FLYING SAUCERS - 3075

Climber. 72-96 in. - 800 S. Ipomoea tricolor. (Mt. Fuji). Large sky-blue flowers, uniquely striped.

GRANDPA OTT - 3076

Climber. 72-96 in. - 1,000 S. Ipomoea purpurea. Dark purple flowers with a red star.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

HAPPY HOUR ROSE - 3097

Climber. 50 in. - 1,250 S. Lovely vines begin flowering when only 3 feet tall. Variegated foliage and abundant rose-red, white throated blooms make this a garden standout for containers, baskets and as a climber. If vines are too long don't be afraid to cut vines back, they will branch for more blooms.

MOONFLOWER - 3096

Climber. 72-96 in. - 100 S. Ipomoea noctiflora. Unusual relative of the Morning Glory opens its flowers at dusk and blooms throughout the night. Plant this fast-growing vine on a porch, near an entrance, or under a window where you can enjoy the evening performance and heady fragrance. The flowers unfold in 2-3 minutes, an event worth waiting for! The fragrant white blossoms reach up to 6 in. across and are well suited to a gothic or moon garden.

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

PEARLY GATES - 3094

Climber. 72-96 in. - 800-850 S. (All America Winner - 1942). Ipomoea tricolor. Large, satiny white flowers.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

MORNING GLORY (continued)
SCARLET O' HARA - 3095

Climber. 72 in. - 600-650 S. (All America Winner - 1939). Ipomoea nil. Improved climbing strain. Very large, wine-red, trumpet shaped flowers. Flowers open in the morning and fade by afternoon.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

SPLIT SECOND - 3089

Climber. 48-72 in. - 1,500 S. Ipomoea purpurea. It will only take less than a split second to be swept off your feet by these absolutely ravishing blooms, seemingly a tissue paper cluster of a flower. Unique, full, ruffled blossoms in a wash of shades from powder puff to lipstick pink. The margins of these individual petals are notched and frilled; the overall effect is that of a peony or parrot-tulip. Twining vines grow and flaunt loads of sensational flowers throughout the summer until frost. Give it a fence, railings or an arbor to climb or plant in containers where it can spill over the edge for a thrilling effect. It will bring full blown beauty and resilience to any garden party.

50 sds - \$9.90	100 sds - \$12.55
200 sds - \$18.25	500 sds - \$29.25
1,000 sds - \$44.40	(26A5)

SUNRISE SERENADE - 3098

Climber. 96-144 in. - 1,000 S. Ipomoea x imperialis. Unique double flowers. Vigorous vines covered with large heart-shaped leaves of deep blue-green are a striking backdrop for the double-petaled 2-3 in. blooms of cherry-red with white centers and wavy edges.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

Myosotis.

Also see listing under Perennials.

MYOSOTIS

44,000 sds/oz 55° 10 days

For the best germination, maintain 55° soil temperature and cover seeds lightly with soil after sowing. Blooms May - August. Does well in shade.

EARLY BLUE BIRD - 3211

⌘ 12 in. - 26,000 S. Fine for cutting during the winter months. Sow in August for November/December blooms or December/January for spring bedding or pot plants.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

NASTURTIUM

Tropaeolum majus

175 sds/oz 70° 7 days

Will repel aphids in the garden. Flowers and leaves are edible. Will attract hummingbirds and butterflies all season. For the best germination, soak seed for 3 days and then sow seeds on sterilized media and cover 1/8 in. Maintain 70° soil temperature with even moisture on the surface, needs darkness to germinate.

ALASKA MIXTURE - 3230

12 in. - 250 S. Beautiful 2 1/2 in. single flowers contrasting beautifully against the white, marbled variegated foliage.

1 oz. - \$10.30	2 oz. - \$16.15
4 oz. - \$24.60	8 oz. - \$40.20
1 LB. - \$64.50	(13Z5)

BABY SERIES

12 in. - 4,000 S. Petite-flowered, mounding variety with dark foliage. Great for containers and small gardens.

Gold - 3216

(All America Winner - 2025).

Orange - 3217
Red - 3218

(All America Winner - 2025).

Rose - 3219
Yellow - 3220

(All America Winner - 2025).

1/8 oz. - \$13.15	1/4 oz. - \$19.70
1/2 oz. - \$31.20	1 oz. - \$44.35
4 oz. - \$134.45	(09Z5)

TOP FLOWERING SINGLE

Orange - 3205

12 in. - 240 S. Compact, non-trailing with single spurred orange blooms well above the small bright green foliage. Great addition to Whirlybird series.

1/4 oz. - \$10.55	1/2 oz. - \$16.45
1 oz. - \$22.50	2 oz. - \$38.55
4 oz. - \$62.70	(10C5)

TRAILING MIXTURE - 3170

200 S. Exceptional trailing habit that will climb 7-8 ft. if attached to supports. All colors with green foliage.

1 oz. - \$10.30	2 oz. - \$16.15
4 oz. - \$24.60	8 oz. - \$40.20
1 LB. - \$64.50	(13Z5)

WHIRLYBIRD SERIES

10 in. - 250 S. Single upward-faced flowers without spurs, flowers well above foliage on compact, non-trailing plants. A very good bedding plant, ideal for pots, tubs, and bedding. Attractive flowers that are edible.

Golden Yellow - 3203

Red - 3200

Mixture - 3198

Double Mixture - 3202

Unique large double blooms in a wide range of colors.

Each of the above: (10C5)	1/4 oz. - \$10.55
1/2 oz. - \$16.45	1 oz. - \$22.50
2 oz. - \$38.55	4 oz. - \$62.70

NEMESIA

90,000 sds/oz 60° 7 days

After sowing on sterilized media, mist seed on the soil surface, cover seed lightly with soil mix and mist again lightly. Maintain 60° soil temperature, any temperature above this will hurt germination. Darkness will help germination.

DWARF CARNIVAL MIXTURE - 3231

9 in. - 154,000 S. Large flowers in a brilliant color range on base-branching compact plants. Fine for spring combination use.

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
	(30C5)

SUNDROPS MIXTURE - 3167

10 in. - 200,000 S. N. strumosa. A diverse color range of gold, red shades, rose and white. Early blooming, compact and ideal for small container growing. Useful as a cool-season crop to accompany Spring pansies. Beautiful in mixed baskets and color bowls and makes an excellent patio item for Spring.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

SEVENTH HEAVEN MIXTURE (PELLETED) - 3177PE

12-14 in. - (F-1 Hybrid). Mixture includes the first bicolor of its kind from seed. A mixture of Blue, Lavender Bicolor, Pink and White. Denser and better branched foliage with larger flowers than other seed varieties. Selected colors also have the added benefit of a very sweet fragrance. Weeks to flower: 10-11.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

NICOTIANA

Flowering Tobacco

250,000 sds/oz 70° 14 days

After sowing seeds on sterilized media, do not cover seed with soil. Maintain 70° soil temperature with even surface moisture. Needs darkness to germinate.

FRAGRANT CLOUD - 3236

36 in. - 208,000 S. Large, beautiful white flowers on strong upright plants. Very popular for its strong evening fragrance.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60
	(30D5)

ONLY THE LONELY - 3238

⌘ 60 in. - 769,000 S. Beautiful and very fragrant 1 1/2 in. white trumpet shaped flowers. Light green foliage. Ideal for background plantings with the flowers lasting all season until frost.

500 sds - \$12.50	1,000 sds - \$20.70
5,000 sds - \$44.15	10,000 sds - \$70.75
	(30F5)

NICOTIANA (continued)

PERFUME SERIES

16-18 in. - (F-1 Hybrid). Out of this world fragrance plus large blooms and plenty of them. Blooms are 2 in. long, shaped like magnificently long trumpets and very, very abundant. Unlike some Flowering Tobaccos, these blooms face upward. Enjoy their full splendor in planters, borders, edging the walkway or dotted around the patio garden. Weeks to flower: 9-10. PELLETTED SEED.

Antique Lime - 3214PE

Blue - 4448PE

Bright Rose - 3226PE

Deep Purple - 3215PE

20 in. - (All America Winner - 2006).

Lime - 3228PE Pure lime color.

Red - 3224PE

White - 3225PE

Mixture - 3227PE An aromatic blend of Bright Rose, Deep Purple, Light Blue, Lilac, Lime, Red and White.

SARATOGA SERIES

10-12 in. - (F-1 Hybrid). The earliest, most uniform series in its class. Bushy plants, eye-catching flowers and outstanding performance in either sun or shade. Weeks to flower: 9-11. PELLETTED SEED.

Appleblossom - 4446PE

Lime - 4441PE Soft green.

Purple Bicolor - 4442PE

Purple and white.

Red - 4443PE Deep red.

White - 4444PE Creamy white.

Mixture - 4445PE

A formula mixture of all colors.

Each of the above: (28B5)	100 sds - \$9.75
200 sds - \$12.35	500 sds - \$17.75
1,000 sds - \$26.20	2,000 sds - \$40.65

DAYLIGHT SENSATION MIXTURE - 3259

36 in. - 250,000 S. An old-fashioned, open-pollinated species that bears abundant branching sprays in carmine, crimson, pink, red and white. Sweetly perfumed blooms remain open all day.

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60
	(31C5)

NIEREMBERGIA

150,000 sds/oz 75°-80° 10-15 days

After sowing on sterilized media, cover seeds lightly with soil. Maintain 75°-80° soil temperature for the best results. A tender Perennial in some areas.

PURPLE ROBE - 3234

6 in. - 137,000 S. (All America Winner - 1942). The 1 in. deep violet-blue flowers are abundantly produced on dwarf plants. Retains its brilliance even under strong sunlight. Weeks to flower: 12-15.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

NIGELLA

Love In a Mist

11,000 sds/oz 60° 2 weeks

AFRICAN BRIDE - 3270

☞ 34-36 in. - 22,000 S. (Fleuroselect Quality Mark Winner). N. papillosa. Pure white petals with nearly black seed pods.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45 (30B5)

CRAMER'S PLUM - 3166

☞ 18-24 in. - 15,000 S. Plum colored pods with no stripes. Lovely pure white blooms and lacy foliage followed by unique pods. For fresh or dried use.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95 (30Z5)

MISS JEKYLL SERIES

☞ 24 in. - 11,000 S. Old-fashioned favorite. Pastel-colored 1-2 inch blooms float above green, fern-like foliage. Unique, balloon-shaped pods follow. For fresh or dried use.

Blue - 3237 ☞

Mixture - 3264 ☞

A mixture of Blue, Rose, Sky Blue and White.
Each of the above: (31B5) 1,000 sds - \$10.05
2,000 sds - \$15.60 5,000 sds - \$21.20

ORLAYA

White Lace Flower

60°- 65° 12-16 days.

Chill seed at 40°-45° for 1-2 weeks prior to sowing in the greenhouse. Transplant: Sow 4-5 weeks before planting outside. When the first true leaves appear transplant into larger containers.

WHITE FINCH - 3180

☞ 24-30 in. - 2,800 S. O. grandiflora. Pure white flowers are 2 1/2-3 1/2 in. with an intricate, lacy pattern. Full, well branched with strong, upright stems. The clusters of star-shaped, green seed pods also make a unique bouquet addition.

100 sds - \$14.35	200 sds - \$19.25
500 sds - \$31.55	1,000 sds - \$50.75
2,000 sds - \$83.60	(28I5)

ORNAMENTAL MINT

MINI MINT (MULTI-SEED) - 1980MP

1-2 in. - Origanum x hybrida. Corsican Mint. Attractive, highly fragrant groundcover or small pot plant. Healthy, more uniform plants make great looking pots, mix components and garden specimens. Can also be marketed as a lawn replacement. Leaves are non-toxic but do not have a palatable flavor. MULTI-SEED PELLET contains 8-12 seeds per pellet. Weeks to finish: 3-4.

50 sds - \$11.90	100 sds - \$15.60
200 sds - \$23.70	500 sds - \$37.60
1,000 sds - \$62.35	(26Z5)

ORNAMENTAL OKRA

BURGUNDY - 4788

☞ 30-36 in. - 500 S. (All America Winner - 1988). Looks as good as it tastes! Attractive plant with burgundy stems and green leaves produce excellent yields of bright red pods. The pods turn green when cooked, but are frequently dried and used in arrangements to preserve their unusual coloring and interesting shape. Unique addition to the landscape or in large scale planters.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20 (29B5)
5,000 sds - \$49.10	

ORNAMENTAL OREGANO

KIRIGAMI - 1990

8-10 in. - 43,500 S. This eye-catching, non-culinary oregano features large purple-green bracts, rose flowers and clear, light green foliage with a delicious fragrance to attract pollinators. Dense, mounded, slightly trailing plant has a tight and fuller habit than standard vegetative varieties. The perfect patio plant. Heat and drought tolerant.

Weeks to finish: 9-11.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

ORNAMENTAL PEPPER

Capsicum annuum

8,000 sds/oz 70° 2-3 weeks

Maintain an even 70° soil temperature. After sowing, do not cover seeds; keep surface of media moist. Once established, grow plants at 50°; do not let plants become pot-bound. An occasional pinch is suggested, but never after July 4th.

BASKET OF FIRE - 1984

10 in. - 6,500 S. (F-1 Hybrid). Want some red-hot hanging baskets? The first ornamental pepper that has been bred especially for hanging baskets. Unique plants develop cascading lower branches as well as continuing to fill in with new growth at the top, making it perfect for baskets and containers. Produces a profusion of 2 in. long, tapered fruits (more than 300 fruits per plant). Fruits change from deep purple through cream and orange to a bright red. Small leaves allow the brightly-hued fruits to take a center stage. Spicy hot fruits are edible. 80,000 Scovilles.

10 sds - \$10.05	25 sds - \$14.30
50 sds - \$18.75	100 sds - \$27.95
250 sds - \$52.90	(24C5)

ORNAMENTAL PEPPER (continued)

BLACK PEARL - 1978

☞ 14-18 in. - 6,000 S. (All America Winner - 2006). Capsicum annuum. Black-leaved bushy plants with shiny black fruit. Fruit is rounded, with a slightly pointed shape, matures to a dark red and are edible but VERY HOT to the taste. Foliage is greenish when young and becomes glossy black with maturity. Weeks to fruit: 20-24.

CALICO - 1968

10-12 in. - 8,000 S. (F-1 Hybrid). Strongly variegated tricolor foliage. Compact, rounded plants are uniform in size and habit. Great for combos and landscapes. Extremely hot fruit, not recommended for eating.

Each of the above: (25I5)	25 sds - \$14.15
50 sds - \$19.25	100 sds - \$28.85
300 sds - \$58.15	500 sds - \$87.95

BLAZE - 1983

4-8 in. - 5,500 S. Distinctive, large fruit starts yellow and matures to red. These eye-catching Autumn tones are sure to sell fast. Excellent branching for a large-fruited pepper, suitable for quarts and Mum Pals programs. Weeks to finish: 7-13 for Autumn.

CHILLY CHILI - 1925

9-10 in. - 9,000 S. (F-1 Hybrid). (All America Winner - 2002). This child-safe variety bears non-pungent fruit, making it ideal for indoor and outdoor use. Fruits start out a greenish-yellow, gradually changing to orange and then maturing to a dark red. Each fruit is 2 - 2 1/2 in. long and the dark red fruits are popular for Christmas/Valentine Day sales in 4-6 in. pots.

HOT POPS SERIES

4-5 in. - 10,300 S. Pump up your Autumn with this new fruit form and multicolors. Small, round peppers, simultaneously make a high impact display for indoor and outdoor decorating. Compact, heavily branched plants work in containers, color bowls and Mum Pal programs. Good getaway to gardening item for easy decor to attract and keep today's younger shopper. Grow like Medusa. Weeks to finish: 8-12 for Autumn.

Purple - 1985

Purple turning to orange. Very hot.

Yellow - 1993

Yellow turning to red. Medium hot.

MEDUSA - 1976

6-8 in. - 11,000 S. (F-1 Hybrid). This child-safe variety bears non-pungent fruit, making it ideal for indoor and outdoor use. Colorful 2 - 2 1/2 in. fruits have a twisted cone shape that starts out ivory, turns yellow, then orange and finally bright red. Each plant will produce 40-50 brightly colored fruits held on compact plants with dark green leaves.

Each of the above: (25D5)	25 sds - \$12.25
50 sds - \$16.80	100 sds - \$23.10
300 sds - \$48.65	500 sds - \$68.65

ORNAMENTAL PEPPER
(continued on next page)

ORNAMENTAL PEPPER (continued)

MIDNIGHT FIRE - 1982

9-12 in. - 11,000 S. Distinctive dark black foliage is accented by purple fruit which mature to bright red. Brilliant colors for eye-catching displays. Well-branched plants are perfect for stunning Autumn combination planters and large container programs. Weeks to finish: 7-13 for Autumn.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

PURPLE FLASH - 1979

13-15 in. - 8,000 S. Striking coloration, almost black with bright purple flashes. Compact, mounded plants have a layered, scaffolding growth habit. Extremely drought tolerant. Great for pots, combos and landscapes. Extremely hot fruit, not recommended for eating.

25 sds - \$14.15	50 sds - \$19.25
100 sds - \$28.85	300 sds - \$58.15
500 sds - \$87.95	(25I5)

SANGRIA - 1997

10-12 in. - 8,000 S. (F-1 Hybrid). Compact, rounded plants are uniform in size, plant has a full and somewhat spreading habit. Continuous color from child-safe purple and red fruits. Ideal for indoor and outdoor use. Drought tolerant, excellent in containers and landscapes.

SEDONA SUN - 1986

9-12 in. - 9,500 S. Massive of distinctive lemon yellow and carrot orange fruit. Put on a brilliant, multicolor display with every plant. Grow like Sangria, with similar timing. Weeks to finish: 8-12.

WICKED - 1989

6-8 in. - 4,000 S. Compact, extra-large fruit that starts purple and matures to red. These stunning peppers will certainly capture attention. Weeks to finish: 7-13 for Autumn.

Each of the above: (25D5)	25 sds - \$12.25
50 sds - \$16.80	100 sds - \$23.10
300 sds - \$48.65	500 sds - \$68.65

ORNAMENTAL RICE

BLACK MADRAS - 1981

☞ 16 in. - 1,000 S. *Oryza sativa*. Gorgeous pointed, upright, elegant green leaves generously streaked and shaded with burgundy-purple. Neat, dense, fountain shaped plant that is perfect in containers as well as the garden and makes the ideal mass planting for waterside areas. Late summer intensifies the color and brings arching spikes of chartreuse rice (edible) that add exciting contrast.

50 sds - \$12.35	100 sds - \$16.65
200 sds - \$25.65	500 sds - \$40.20
1,000 sds - \$65.20	(26F5)

OSTEOSPERMUM

2,000 sds/oz 70° 10 days

AKILA SERIES

16-20 in. - 1,800-3,400 S. Full, branched plants with beautiful blooms from seed are drought tolerant once established. Best seed-raised Osteo for both habit and seed quality. Excellent performance in the landscape. Branches without pinching. 90% germination standard. All colors flower within a 7-10 day window. Weeks to flower: 14-16.

Daisy White - 3310

(All America Winner - 2014). Unique clear white with yellow center.

Lavender Shades - 3316

Purple - 3317

White - 3318

White with dark purple center.

White Purple Eye - 3235

Mixture - 3319

A formulated blend in shades of cream, lavender, purple, rose-red, white and yellow.

Grand Canyon Mixture - 3323

First multicolors segregating mixture includes popular colors like magicians, rose-reds and yellow, as well as creams, lavender, purple and whites.

Each of the above: (24G5)	10 sds - \$11.40
25 sds - \$16.80	50 sds - \$22.70
100 sds - \$34.95	250 sds - \$68.25

PASSION MIXTURE

Crop failure. As a substitute, we suggest Akila Mixture.

OXYPETALUM

4,000 sds/oz 70° 7 days

HEAVENBORN - 3100

☞ 18-24 in. - 4,500 S. *Tweedia coerulea*. Beautiful 1 in. sky-blue single flowers with unique arrow shaped leaves. A fast growing annual (tender perennial in some climates) will flower all season with a durable and extended vase life as a cut flower. Bright days with 65 degree minimum temperature is suggested to produce better, well branched plants.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

**Personal service is
the foundation
of our business
since 1932.**

Pansy.

For Viola, refer to listing under Perennials.

PANSY

20,000 sds/oz 68-70° 7-14 days

Pre-chill seeds 3-5 days in refrigerator before sowing. After sowing on sterilized media, cover seeds lightly with soil. Do not keep too wet. Maintain 70° soil temperature and keep surface moist. Darkness will help germination.

ATLAS BLACK - 3349

7 in. - 18,000 S. (F-1 Hybrid). Unique black color. Perfect for combinations with bright colors and structure plants. Weeks to flower: 12-14 for Autumn, 27-28 for Spring.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

BLUEBERRY THRILL - 4567

7 in. - 21,000 S. (F-1 Hybrid). Bicolor blooms with a shocking electric blue and a splash of yellow. Large flowered, early flowering, uniform and non-stretching. Does not require cool temperatures to initiate flower buds. Blooms continuously and maintains a compact habit. Flower power is superior under the short day length and cold temperature conditions of winter and early spring.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

COLOSSUS SERIES

4-5 in. - 22,500 S. (F-1 Hybrid). Extra large, 4 in. blooms stand up to heat stress with less stretch even under hot and humid conditions. Tight, non-stretching habit developed specifically for high-density production requiring fewer PGRs. Well suited for late summer/early fall markets. Great as a garnish for cold fruit or cream soups.

Deep Blue With Blotch - 3357

Improved for 2026!

Fire - 3371

Ocean - 3372

Purple With Blotch - 3358

Red With Blotch - 3373

White With Blotch - 3360

Yellow - 3374

Yellow With Blotch - 3361

Mixture - 3355

A great combination of blue, red, rose, white and yellow blooms all with a dark centrally located blotch.

Blotched Mixture - 3356

A mixture of all blotched colors.

Each of the above: (26A5)	50 sds - \$9.90
100 sds - \$12.55	200 sds - \$18.25
500 sds - \$29.25	1,000 sds - \$44.40

PANSY (continued)

CATS PLUS SERIES

6-8 in. - 20,000 S. (F-1 Hybrid). Improved earliness, habit and better branching with the same great whiskers, but much easier to grow. Weeks to flower: Spring: 10-13, Fall: 8-11.

Blue And Yellow - 3348

Yellow - 3353 **Mixture - 3354**

CATS SERIES

6-8 in. - 20,000 S. (F-1 Hybrid). Distinctive flower patterns with whiskers. Improved habit, earliness and flower stem. Highly vigorous and develops well-branched, multi-shooted and hence free-flowering plants. Edible flowers that adds an alluring new tier to any course from salads to desert, also a stunning addition in cocktails. Weeks to flower: Spring: 25-26 Fall: 10-12.

Orange - 3350 Red & Gold - 3351

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

COOL WAVE SERIES

6-8 in. - 28,000-37,000 S. TRAILING. (F-1 Hybrid). Originally introduced as the PLENTIFALL SERIES, this series has been upgraded and renamed. Vigorous trailing variety. Extremely well branched. Incredibly unique, novelty baskets (trailing up to 30 in.) make eye-catching display. Holds up in the rain and weather better than larger flowered types. The earliest pansy to come back in the spring. No special culture needed. ENHANCED SEED for improved and more uniform germination. Weeks to flower: 9-10 in Spring (4in. pots) and 14-15 in Spring (12 in. baskets). Zones: 5

Blue Skies - 3306EN Mid-blue.

Fire - 3510EN

Rich dark red with a yellow face.

Frost - 3303EN White that matures with a light blue frost near edge.

Golden Yellow - 3500EN

Lemon - 3511EN

Clear, buttery lemon blooms show some genetic dark and light shading.

Morpho - 3320EN Upper petals are mid-blue with bright yellow lower petals and whiskers radiating from the center.

Purple - 3501EN

Raspberry - 3509EN

Velvety rosy-purple with white around flower center. Shows more white in the face in Summer/Autumn (warm season) production. In Winter/Spring (cool season) production, white diminished and more rose/purple shows in the bloom.

Raspberry Swirl - 3506EN

Red Wing - 3321EN

Strawberry Swirl - 3300EN

Violet Wing - 3305EN Blue lower petals with whiskers and darker purple cap.

Mixture - 3309EN A formula mixture of Frost, Lemon, Violet Wing, White and Yellow.

Berry N Cream Mixture - 3502EN

Each of the above: (25I5)	25 sds - \$14.15
50 sds - \$19.25	100 sds - \$28.85
300 sds - \$58.15	500 sds - \$87.95

PANSY (continued)

DELTA CLASSIC SERIES

3-5 in. - 20,000 S. (F-1 Hybrid). The market leader in Pansies! Large 2 1/2 - 3 inch blooms. Extreme, uniformity in timing and habit. Premium seed quality, minimum 90% germination of all varieties at NO premium price to you. Outstanding heat tolerance. Extra-early and more free flowering than other series. Overwinters well and rebounds better from severe weather. Weeks to flower: 12-14 in Spring; 10-12 in Fall.

Beaconfield Premium - 4605

Blue Morpho Premium - 4631

Unique color. Blue with yellow face marked with distinct blue whiskers.

Marina Premium - 4629

Pink Shades - 4593

Pure Red - 4620

Pure Rose - 4624

Tapestry Premium - 4598

Blend of rose, pink, apricot, primrose, and cream shades with dark faces.

Yellow With Purple Wing Premium - 4604

Watercolors Mixture - 4612 A mixture of Lavender Blue Shades, Pink Shades, Pure Deep Orange, Pure Light Blue, Pure Primrose Premium and Pure White Premium.

DELTA PRO SERIES

3-5 in. - 20,000 S. (F-1 Hybrid). Early and extremely uniform flowering, within varieties and across the series. Compact and heavily branched plants fill pots quickly, yet require fewer PGRs and can all be grown with the same protocol. Ideal for high-density finishing. Short, non-stretching, flower stems hold large blooms upward, providing long-lasting and impactful retail displays.

Clear Lemon Premium - 4625

Clear Light Blue - 4617

Clear Orange - 4622

Clear True Blue - 4626

Clear Violet - 4623

Clear White - 4621

Clear Yellow - 4619

Deep Blue With Blotch - 4599

Fire - 4608 Unique color combinations of red, scarlet, and yellow flowers with mahogany red wings.

Lavender Blue Shades - 4597

Neon Violet - 4596

Red With Blotch Premium - 4601

Rose With Blotch - 4603

Violet & White - 4610

Yellow With Blotch - 4607

All Colors Mixture - 4630

A blend of all colors in this series.

Blotched Mixture - 4614 A mixture of all Blotched, Faced and Wing colors.

Clear Colors Mixture - 4615

A mixture of all Clear colors.

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

PANSY (continued)

FRIZZLE SIZZLE SERIES

4 in. - 25,000 S. (F-1 Hybrid). Unique performance both in pots as well as flower beds. Compact, well branched habit with large ruffled flowers. Weeks to flower: 10.

Blue - 4955

Richest lavender and purple coloration with exquisite veining.

Burgundy - 4956

Rich burgundy purple with black streaks and blotches.

Lemonberry - 4951

Lemon-yellow fringed with lilac-purple edges and a deep burgundy blotch.

Orange - 4950

Raspberry - 4952

Striking dark face with a hint of yellow from a dark, inky purple to lilac, wine and lavender.

Yellow - 4953

Bright yellow with deep brown blotch.

Yellow Blue Swirl - 4954

Light blue and yellow with a deep burgundy blotch.

Mixture - 3507

A formula mixture of Blue, Burgundy, Light Blue, Violet-Purple, White, and Yellow.

Each of the above: (28G5)	100 sds - \$13.05
200 sds - \$17.30	500 sds - \$27.60
1,000 sds - \$43.70	2,000 sds - \$71.30

HALLOWEEN II - 3125

6-8 in. - 14,000 S. Mid-size blooms are a unique, uniform pure black color, making this a striking accent for container or garden mixes. Early, well-branched and floriferous plants overwinter with ease. Ideal for fall plantings but can be used in spring as well.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

IMPERIAL ANTIQUE SHADES - 3301

6-8 in. - 20,000 S. (F-1 Hybrid). Early blooming 3-3 1/2 in. flowers in beautiful shades of apricot and pale orange. Outstanding garden performance. Heat tolerant with nice compact habit.

50 sds - \$11.40	100 sds - \$14.80
200 sds - \$22.70	500 sds - \$34.95
1,000 sds - \$59.20	(26D5)

JOLLY JOKER - 3194

5 in. - 20,000 S. (All America Winner - 1990). Free-flowering, beautiful 2 1/2 in. purple flowers with an orange face. Compact mounded plants that have great heat tolerance and beautiful small leaves.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

PANSY (continued on next page)

PANSY (continued)

MATRIX SERIES

8 in. - 21,000 S. (F-1 Hybrid). Large 2 1/2 - 3 inch blooms. Superior branching means the plants cover the soil before initiating blooms without stretching. Short, strong peduncles hold the large, thick-petaled flowers beautifully cover the foliage. Due to unique branching architecture, Matrix resists stretching better than other pansies under stressful conditions and warm temperatures of Autumn production, so don't be cautious with fertility. An excellent variety for Summer and Fall production. Weeks to flower: 11-13.

Blue Blotch - 4909

Deep Blue Blotch - 4910

Blue with blotch shades.

Denim - 4934

Lavender Shades - 4933

Midnight Glow - 4935

Yellow center with a deep violet halo.

Morpheus - 4906

Vibrant blue cap with lower yellow petals.

Ocean - 4911

Shades of light lavender blue with blotch; can contain a small percentage of white with blotch.

Orange - 4917

Primrose - 4918

Purple - 4919

Red Blotch - 4912

Red and fire shades mature to scarlet red.

Rose - 4920

Rose Blotch - 4914

Light rose to rose blotch shades; can contain a small percentage of cream blooms with rose cap.

Rose Wing - 4907

Rose blotch with white halo.

Solar Flare - 4394

A fiery blaze of reds and oranges merging into yellow.

Sunrise - 4908

Peach, yellow and rose shades with blotch.

True Blue - 4932

Clear deep blue.

White - 4921

White Blotch - 4915

Yellow - 4922

Yellow Blotch - 4916

Yellow Purple Wing - 4936

Mixture - 4927

A blend of all colors in this series.

Blotch Mixture - 4924

A blend of all blotched colors.

Citrus Mixture - 4925

Orange, Primrose, White, and Yellow.

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

NATURE MULBERRY SHADES

Sorry, no longer available.

PANSY (continued)

MAJESTIC GIANT II SERIES

6-8 in. - 19,000 S. (F-1 Hybrid). Large, 4-4 1/2 in. flowers. Early flowering, even under short days. All varieties have a contrasting dark blotch. Performax quality seed, high germination and improved uniformity.

Blue And White - 3158

Deep Blue With Blotch - 3179

Fire - 3127

Dark blotch with yellow fading to red-orange at edges.

Marina Shades - 3159

Light blue with a yellow center.

Purple With Blotch - 3149

Red With Blotch - 3150

White With Blotch - 3156

(All America Winner - 1966).

Yellow With Blotch - 3157

Mixture - 3140

Each of the above: (28H5)	100 sds - \$13.70

PANOLA SERIES

6 in. - 24,500 S. (F-1 Hybrid). This series has the free-flowering characteristics of Violas, but with pansy-like 1 3/4 - 2 in. flowers. Panolas provide uniform flowering with good flower facing and have short flower stems to resist stretching in warm climates. Very early flowering. Weeks to flower: 7-9.

Mixture - 4677

Complete mixture of all colors.

Each of the above: (28G5)	100 sds - \$13.05
200 sds - \$17.30	500 sds - \$27.60
1,000 sds - \$43.70	2,000 sds - \$71.30

ULTIMA MORPHO - 4151

6-8 in. - 20,500 S. (F-1 Hybrid). (All America Winner - 2002). A distinct bicolor design, the upper petals are mid-blue with bright lemon yellow lower petals and whiskers radiating from the center. Named after the Morpho butterfly, which is blue and yellow. Very free-flowering with excellent performance.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

ULTIMA RADIANCE PINK - 3163

6 in. - 23,000 S. Unique colors and patterns on medium sized, 2 1/2 in. blooms for lovely designer displays in the garden bed or patio. Stunning and irresistible hot pink flowers with white overtones, yellow eyes and deep purple streaks at the ends of the stems that immediately command attention. Ideal for premium containers and baskets. Blooms through fall, winter and spring on vigorous plants.

50 sds - \$12.35	100 sds - \$16.65
200 sds - \$25.65	500 sds - \$40.20
1,000 sds - \$65.20	(26F5)

PANSY (continued)

TOP WAVE SERIES *New for 2026

7-9 in. - (F-1 Hybrid). The largest flowers of any spreading pansy series, it has 25% bigger blooms than Cool Wave. With improved structure and leaf shape, the plants nicely disguise all the branching as they mound up at point-of-sale. Once established the plants are vigorously trailing for use in window boxes, baskets and as container spillers. ENHANCED SEED for improved and more uniform germination. Weeks to flower: 7-8 in Spring and 4-5 in Autumn.

Blue Blotch - 4690EN *New for 2026

Marina - 4691EN *New for 2026

Bicolor blue and white pattern can vary slightly, depending on environmental conditions.

Orange - 4692EN *New for 2026

The first orange in a spreading pansy! The most vigorous in the series.

Pink Shades - 4693EN *New for 2026

Light to deep pink, all with a dark center blotch.

Purple Sunburst - 4694EN *New for 2026

Purple cap and cheerful yellow center. In cool season production, it can show more purple in the face.

Purple White - 4695EN *New for 2026

Nice two-tone coloration features a white center with blotch and a purple cap.

Rose Blotch - 4696EN *New for 2026

Rich, deep rose with a stable blotch. The most compact of the series.

Violet - 4697EN *New for 2026

EVENING SCENTSATION (PELLETED) - 0252PE

5 in. - (F-1 Hybrid). (All America Winner - 2017). Multiflora type. One of the best blue petunias ever seen. Nice mounding and spreading habit. Excellent fragrance too. Fragrance has notes of hyacinth, sweet honey and rose. As the name implies, the scent is stronger in the evening hours, though it can be experienced throughout the day as well. Scent is perceived differently by each individual. Works well in containers, hanging baskets and in mass plantings.

10 sds - \$11.05	25 sds - \$16.20
50 sds - \$21.70	100 sds - \$33.20

250 sds - \$64.40	(24F5)

QUINOA, ORNAMENTAL

BRIGHTEST BRILLIANT RAINBOW - 1131

24 in. - 9,500 S. 90-120 days. Selected for its vivid display of colorful seed heads, this ancient plant is a delicious and nutritious edible green and grain. The leaves are thick and succulent with a salty, savory flavor similar to spinach. The tiny grain is nutty, delicious and packed with protein. It's a practical and striking addition to ornamental beds, adding dazzling shades of fuchsia, burgundy, lime green, cream, orange and yellow. If planting for greens, sow seeds 1 in. apart and harvest entire plant when it reaches 6-8 in. tall. For grain production and enjoying selected leaves throughout the season, space plants 12-14 in. apart. Bloom in late summer to autumn. Organically grown seed.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

**RHODOCHITON**

100,000 sds/oz 70° 5-7 days

PURPLE BELLS - 3690

Climber. 120 in. - 95,000 S. R. atrosanguineus. Masses of bell-shaped, tubular maroon-purple flowers with deep purple corollas. Free-flowering and vigorous climbing vine growing 8-10 feet. Ideal as a climbing vine or in hanging baskets. A tender perennial in many areas that will need protection to winter over. Weeks to flower: 16.

RICINUS

Castor Bean

50-90 sds/oz 70° 2-3 weeks

A unique full sun annual used for specimen plants or as an exotic hedge. Grown primarily for the eye catching foliage than flowers. The plants will bloom June-October. CAUTION: SEEDS AND PARTS OF THE PLANT CAN BE POISONOUS, KEEP AWAY FROM CHILDREN OR PETS.

CARMENCITA PINK - 3696

60 in. - 65-90 S. Fast growing, tall and dramatic with huge leaves and interesting flower spikes that add drama to borders or beds. The palmate leaves have deeply incised lobes and grow to 12-30 in. across. Dark green foliage with red stems that have a silver shine. An added attraction is the attractive pink fruit. Remarkably architectural and can be used very effectively in the center of island beds or at the back of the border.

Salvia.

Also see listing of *Salvia* under *Perennials*.

SALVIA

70° -75° 12-18 days

For the best germination, sow seed on sterilized media and do not cover with soil. Light will help germination. Maintain soil temperature of 70°-75° and an even moisture level on the surface. NOTE: *Salvia* does not tolerate cool night temperatures, maintain at least 55°-60°. NEVER treat *Salvia* with any chemicals containing methyl bromide and high levels of salt in the soil.

BLUE BEDDER - 3765

✱ 36 in. - 19,000 S. *S. farinacea*. Deep blue flowers on long, graceful stems for cutting. Very effective in mass plantings.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55

RHEA - 3767

14 in. - 31,000 S. *S. farinacea*. A mini version of Victoria. Deep blue spikes on uniform plants that will flower July through the Summer.

SCARLEA (CLARY SAGE) - 3755

✱ 36 in. - 6,000 S. *S. scarlea*. An attractive biennial or short-lived perennial which forms a basal rosette of strongly scented, wrinkled, gray-green leaves. In late spring, the very showy inflorescence of tubular, two-lipped, creamy white to lilac flowers opens well above the foliage. Although the flowers are quite small, they are subtended by papery, mauve-pink bracts that attract attention. Adding a cottage flavor to the garden, this sage thrives on neglect and always creates real drama when in peak bloom. Very useful and adaptable in the garden. Zones: 3-9

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

SUMMER JEWEL SERIES

20 in. - 18,000 S. *S. coccinea*. Dwarf sized, compact plants have a prolific bloom count throughout the growing season. As a bonus, the blooms appear almost two weeks earlier than other salvias in this class. Leaves add beauty with their finer-textured, dark-green color. Of course, the hummingbirds love pink, just as much as they do red! Growers will appreciate the earliness, excellent pack habit performance and uniformity. Weeks to flower: 7-8.

Lavender - 3751 (All America Winner - 2016).

Pink - 3737 (All American Winner - 2012).

SALVIA, SPLENDENS

7,500 sds/oz

Will attract hummingbirds all season.

BONFIRE - 3754

26 in. - 9,000 S. Erect habit, bright red flower spikes, green foliage, the old standby. Popular for background plantings. Perfect for tall border for verandas and fences. Very free flowering. Weeks to flower: 10.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
(30B5)	

HOT JAZZ - 3747

17 in. - 9,000 S. (Red Pillar). Tightly packed spikes in great numbers of dazzling scarlet contrasted against glossy deep green foliage. Coming into bloom right after Blaze of Fire. Considered by many as the best all-around Salvia.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

LIGHTHOUSE PURPLE - 3769

24-30 in. - 8,800 S. Background music does not get lovelier than this. Upright, deep purple spikes with dark to black corollas, planted in the border behind Petunias, Marigolds or other low-growing flowers, become beacons of sense-drenching color. Showy in the garden bed and great for large patio containers. Upright and heat tolerant plants are low-maintenance and high impact.

LIGHTHOUSE RED - 3770

24 in. - Masses of beautiful, large spikes of bright red tubular flowers rising above the foliage. Its attractive pointy leaves remain dark green in color throughout the season. A beautiful addition to borders or containers with its dense and bushy form, looks fantastic in containers. Weeks to flower: 4-5.

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

MOJAVE SERIES

8-12 in. - 7,500 S. The absolute best for option for landscape performance. Excellent heat tolerance, branching, and repeat flowering. Densely formed, robust flower spikes and dark foliage provide excellent contrast in the garden.

Red - 3726

Mixture - 3724

Mixture includes Purple, Red, Red White Bicolor, Salmon and White.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

RED HOT SALLY - 4771

10 in. - 7,500 S. Deep red blooms form stocky spikes on compact, uniform plants. Excellent garden performance.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

SALVIA, SPLENDENS (continued)

ST. JOHNS FIRE - 3744

12 in. - 7,000 S. Dwarf and compact with incandescent flame red blossoms and dark green leaves. Flowers extremely early. Thrives in full sun. Great for borders. The bees, butterflies and hummingbirds love them. Weeks to flower: 10.

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
(30C5)	

VISTA SERIES

12-14 in. - 7,000 S. A new, improved Carabiniere type. For intense color saturation on neat, compact plants that really take the summer heat, this variety is unbeatable. This charmer begins flowering early (before the end of spring in most climates) and continues up to frost, filling the garden and containers with blinding colors. They take off like crazy, setting large toothy green foliage below the 4-5 in. flower spikes. Nice in the vase, its really a bedding extraordinaire, absolutely knockout beautiful in large plantings. Must be deadheaded or cut for new buds to appear. So keep the plant looking fresh and it will repay you with nonstop color from spring through summer and fall. Will attract hummingbirds, butterflies and compliments by the dozen.

Lavender - 4633

Scabiosa, Annual.

Also see listing under Perennials.

SCABIOSA, ANNUAL

Pincushion Flower

4,500 sds/oz 70° 10 days

A fine long-stemmed and free-flowering annual for spring greenhouse or outdoor summer cutting. 2-1/2 to 3 ft. tall.

BLACK KNIGHT - 3782

24-36 in. - 13,000 S. Dramatic dark maroon blooms with white stamens. Attracts butterflies like crazy, beneficial insects and bees. A cottage garden classic with a wonderful sweet honey fragrance that is enjoyed in the garden and bouquets. An easy, low maintenance cut and come again, with long wiry stems. Cutting or deadheading often will extend flowering into fall. Birds love the dried seed heads in late fall and winter. May self sow if happy.

FATA MORGANA - 3784

32-40 in. - 13,000 S. Sweet creamy apricot blooms with a blush of pink. The 2 in. blooms attracts butterflies like crazy. Cut flower growers dream of these to fill vases and gardens with soft sophisticated color and a light honey fragrance. Birds love the dried seed heads in late fall and winter.

FIRE KING - 3783

24-36 in. - 11,500 S. Bright red 2 in. blooms with white stamens (look like pins in a pincushion) on long stems. Does well in poor and dry soil once established and then somewhat drought tolerant after that so plan on some summer water for improved appearance and long season flowering. Attracts butterflies, bees and other beneficial insects too.

Each of the above: (29F5)	250 sds - \$15.70
500 sds - \$21.10	1,000 sds - \$29.60
2,000 sds - \$47.20	5,000 sds - \$95.10

GIANT FLOWERED IMPERIAL MIXTURE - 3781

30-36 in. - 5,500 S. Big, slightly irregular ball shaped flowers in a full range of colors. Blooms are carried on long stems, making them suitable for cut flower arrangements. Also useful in borders and mass planting. Will attract hummingbirds, butterflies and pollinators to you.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

QIS SERIES

36 in. - 4,000-5,500 S. Highly desirable, easy to grow free-flowering annual. Uniform height and flowering time. Masses of long, wiry stems topped by fluffy, round, 2-3 inch blossoms that resemble pincushions.

Dark Blue - 3993

Mixture - 3996

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

SCHIZANTHUS

Butterfly Flower

50,000 sds/oz 60° 2 weeks

After sowing on sterilized media, do not cover seeds with soil, place flat in a dark area and maintain soil temperature of 60°. Bushy plants with butterfly-like flowers. Sow in January for 3 in. blooming plants for spring combinations. A September to November sowing will produce larger pot plants for spring sales. Flowers can also be used in corsages.

ANGEL WINGS - 3716

18 in. - 38,500 S. A great improvement over other strains, has more compact, conical plants of uniform, dwarf character. The blooms all have a distinct gold center contrasting with bright and deep colors.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
(31B5)	

SNAPDRAGON, DWARF

Antirrhinum majus

180,000 sds/oz 60°-70° 7-10 days

For the best germination, we suggest pre-chilling the seed in the refrigerator for 3-5 days before sowing. Sow seed on sterilized media and do not cover seed with media. Light is helpful in germination. Will attract butterflies all season.

CANDY SHOWERS MIXTURE (MULTI-SEED) - 3812MP

5-7 in. - (F-1 Hybrid). The FIRST EVER trailing snapdragon from seed. Flowers initiate from the center of the plant and along the stems. Plants develop a mounded yet trailing habit, allowing a medley of color to spill over the edges of containers, hanging baskets or as a colorful ground cover. The strong, flexible stems hold up during shipping and later in the garden. Blooming easily under short days, this can be sold in the spring or fall. Colors include a formula mixture of Deep Purple, Orange, Red, Rose White and Yellow. MULTI-SEED PELLETT contains 5-6 seeds per pellet.

25 sds - \$15.15	50 sds - \$20.50
100 sds - \$30.60	300 sds - \$62.00
500 sds - \$95.75	(25K5)

FLORAL SHOWERS MIXTURE - 3854

6-8 in. - 156,000-175,500 S. (F-1 Hybrid). Very early flowering strain. Bred especially to flower under short daylight conditions. Very compact, uniform growth habit.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

SNAPSHOT MIXTURE - 3600

6-10 in. - 200,000 S. A variety of colors. For cool-season beds filled with color. Blooms deliver picture perfect garden beds and pots. Plant at the same time as pansies for best flowering. Occasional deadheading will promote even more flowering.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

SNAPSHOT, DWARF (continued)

SNAPTINI SERIES-PELLETED

6-8 in. - (F-1 Hybrid). A classic compact look that is well-branched and early flowering. Controlled and consistent blooms all season long. Versatile enough to be sold in packs, pots and gallons. They exhibit excellent garden performance and are perfect for beds, mass plantings and containers.

Burgundy Bicolor - 3868PE

Peach - 3869PE

Red - 3870PE

Rose Bicolor - 3871PE

Sunglow - 3873PE Orange bicolor.

Violet - 3874PE

White - 3875PE

Yellow - 3876PE

Mixture - 3877PE

A blend of all the above colors.
Each of the above: (29C5) 250 sds - \$11.90

Rose Bicolor - 3871

Sunglow - 3873 Orange bicolor.

Violet - 3874

White - 3875

Yellow - 3876

Mixture - 3877

A blend of all the above colors.

SCARLET - Discontinued. As a substitute, we suggest *Snaptini Red (raw)*.

TWINNY SERIES

12 in. - 165,000 S. (F-1 Hybrid). Unique, showy open double flowers on compact, basal-branching plants and exhibits exceptional weather tolerance to both hot and wet summer growing conditions. Excellent candidate for both borders and mixed color bowls.

Peach - 3594 (All America Winner - 2010). Soft shades of light orange, peach and yellow.

Rose - 3595

Violet - 3596 Bright crimson and magenta.

Yellow Shades - 3597

Mixture - 3598

A formula mixture of appleblossom, bronze, peach, rose, violet, white and yellow.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

SNAPDRAGON, GREENHOUSE

Antirrhinum majus (Forcing)

128,000 sds/oz 65°-75° 3-4 days

For the best germination, we suggest prechilling the seed in the refrigerator for 3-5 days before sowing. Sow seed on sterilized media and do not cover with soil. Light is helpful in germination.

MARYLAND SERIES

30-36 in. - 123,000-232,500 S. Group 1-2. Best suited for Autumn, Winter and early Spring production. Strong, clean stems with well defined flower spikes.

Appleblossom - 3905 

White and rose bicolor.

Bright Yellow - 4051 

Dark Orange - 3906 

Lavender - 4053 

Red - 3907 

Rose (flamingo) - 3908 

Bright salmon rose.

Royal - 4009 

Shell Pink - 3920 

Clear pink with a white tube.

White - 3895 

Pure white.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

POTOMAC SERIES

30-36 in. - 147,000-227,000 S. Group 3/4. The most widely produced series on the market. Perfect for production during periods of high light, long days and warm temperatures. Plants produce tall, strong stems and long spikes with good flower quality and can be grown year round with supplemental high-intensity lighting.

Appleblossom - 3958 

Rose and white bicolor spikes.

SNAPDRAGON, TALL (continued)

MADAME BUTTERFLY SERIES

⌘ 24-30 in. - 140,000 S. (F-1 Hybrid). Now available in separate colors! Unusual azalea-shaped flowers. Create a riot of color throughout the summer. The unique, double petals prevent insects from pollinating the flowers, so they last much longer than single-flowered varieties. Perfect for a long-lasting display in cottage garden beds, borders and containers. These pretty flowers can also be used as garnishes or dressings but can have a bland or sometimes bitter taste.

Pink - 3839 ⌘

Red - 3837 ⌘

Yellow - 3836 ⌘

Mixture - 3841 ⌘

24-30 in. - (All America Winner - 1970). Consists of bronze, bronze/white, cherry/bronze, ivory, pink, red, rose and yellow.

Each of the above: (29F5)	250 sds - \$15.70
500 sds - \$21.10	1,000 sds - \$29.60
2,000 sds - \$47.20	5,000 sds - \$95.10

ROCKET SERIES

⌘ 30-40 in. - 120,000-210,000 S. (F-1 Hybrid). Far superior to other garden types. Bred especially for heat resistance and summer bloom. Winter hardy in milder climates. Sow early and set out early for best results. Long, closely-set spikes on strong stems.

Bronze - 3824 ⌘

(All America Winner - 1960).

Golden Yellow - 3827 ⌘

(All America Winner - 1960).

Pink - 3823 ⌘

Red - 3821 ⌘

(All America Winner - 1960).

Rose Shades - 3822 ⌘

(All America Winner - 1960).

White - 3826 ⌘

(All America Winner - 1960).

Mixture - 3833 ⌘

Each of the above: (29B5)	250 sds - \$10.65

STOCKS

16,000 sds/oz 70° 10 days

Plant only in sterilized soil and benches to protect against root rot. After sowing seed, cover lightly with vermiculite. Light will help germination. For selectable varieties, double-flowering plants may be selected from single-flowering types by exposing seedlings with fully expanded cotyledons to 41°F for approximately 4-7 days. At this point, seedlings of double-flowering plants will appear a pale green, white singles remain dark green. After removal from cold treatment, double-flowering seedlings will appear yellow and chlorotic within 1-2 days, while single-flowering seedlings remain robust and green. This cold treatment may only be done once to selectable plugs.

CHEERFUL SERIES

☞ 24 in. - 11,000 S. (F-1Hybrid). Flowers are about 95% double. Very fragrant, full spikes bearing 2 in. blooms and glossy deep green foliage. Does not require low temperatures for bud initiation.

STOCKS (continued)
HARMONY SERIES

6-10 in. - More compact, better branched and earlier when compared to the Midget series. Approximately 50% doubles and is selectable for doubleness by the cotyledon. One stiff as this luxuriant fragrance will leave your utterly enchanted. Wonderfully sweet fragrance and vibrant, full colors. This is the best choice for an authentic Victorian country garden. Good for cool season production in pots or containers.

Purple - 4778

Mixture - 4777

Mixture includes Cherry Blossom, Cream Yellow, Deep Rose, Light Rose, Purple, Violet and White.

HOT CAKES SERIES

12 in. - 17,000 S. Amazingly versatile, producing very well-branched, dwarf plants with highly fragrant, brightly colored blooms. (Please note: Selectable is the key, fully double plants produce more attractive plants than comparable gray-leaf, non selectable types that can show up to 50% singles). Ideal for sowing in succession, adding its delightful fragrance to spring or autumn flowering displays in borders or containers. Weeks to flower: 10.

Hot Rose - 4781

Purple - 4783

White - 4784

Mixture - 4785 A blend of all colors.

MIME MIXTURE - 4786

15-18 in. - 14,500 S. Fragrant blooms grow abundantly atop true-green foliage. All colors flower uniformly. Mixture includes Light Pink, Pink, Purple Red and Rose. Weeks to flower: 10-12.

Each of the above: (29F5)	250 sds - \$15.70

STRAWBERRY, RUEGEN

75,000 sds/oz 70° 7-10 days

Sow in December/January for Mother's Day pot plants. Suggest 3 plants in a 5 in. azalea pot. Produces berries all summer and fall.

BARON SOLEMACHER - 4065

4 in. - 55,000 S. Red. Runnerless. Sow in December/January for Mother's Day pot plants. Suggest 3 plants in a 5 in. azalea pot. Produces berries all summer and fall.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05

(31A5)

SUNFLOWER

Helianthus annuus

70° 4-5 days

Do not overfeed. Excess nitrogen reduces the number and size of flower petals. Will attract butterflies and doves all season. Seed count varies from 400-1800 seeds per ounce.

BALLAD - 3984

24-30 in. - 2,600 S. (F-1 Hybrid). Pollen free. Shiny green leaves with 4-5 in., bright golden flowers that deepen to bronze in the center. Mildew tolerant. Great for containers and mixed pots. Weeks to flower: 9-12.

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

DOUBLE QUICK ORANGE - 4040

☞ 48-60 in. - 650 S. (F-1 Hybrid). Pollen free. Single stem. Fully double, 4-5 in. bright golden blooms. A favorite in sunflower trials.

FLORENZA - 4964

☞ 48-52 in. - 1,000 S. Branching. Flowers are 5 in., beautifully shaped light yellow petal tips which form a lovely contrast with the distinct rusty red ring. Use it for an attractive background in an annual bed or as a centerpiece in large patio containers. Blooms June-August.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

FULL SUN IMPROVED

Discontinued. As a substitute, we suggest Solara.

SUNFLOWER
(continued on next page)

SUNFLOWER (continued)

GOLD RUSH - 4089

☞ 48-64 in. - 500 S. Pollen free. Blooms rush to open. Flowers quickly and is covered with golden orange with a rich chocolate colored center disc. If you have ever wanted to stop and cut wild sunflowers along the road, you will find that this flower will satisfy that urge. Traditional-looking flowers are suitable for small bouquets. You will be cutting for days.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

MAMMOTH (JUMBO) - 4093

☞ 84 in. - 250 S. Heirloom. Enormous yellow flowers with brown centers up to 12 in. across yield heavy loads of seeds. Great for creating a sunforest for kids, a tall annual hedge or screen. Edible seeds attract birds and make great snacks. To save seeds, cut the stem beneath flower heads when the backs of the flower heads turn yellow. Hang upside down and let dry in a cool, dry place for about a month. Cover with netting or a paper sack with holes to keep seeds from falling. But watch out for squirrels! Weeks to flower: 9-10.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

MOONSHADOW - 4003

☞ 60-84 - 550 S. Shine in the garden with flower faces of creamy, lemon-custard colored petals surrounding dark chocolate centers. Full-framed beauties produce lots of striking 3-5 in. blossoms on open, multi-brancing stems. Bring lots of branching stems of these free flowering sunflowers indoors for charming, casual bouquets. Make a joyful and colorful border or flowering summer garden screen.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

PREMIER SERIES

☞ 48-60 in. - 700 S. (F-1 Hybrid). Pollen free. Single stem. An extra-early flowering series. Day-length neutral for year round sowing in the field and greenhouse. Flowers maintain their beautiful shape after harvest, with petals that are wide and overlapping.

Lemon - 4075 ☞

Bright yellow with velvety black center.

Light Yellow - 3692 ☞

Creamy yellow with a velvety black center.

Each of the above: (26Z5)	50 sds - \$11.90
100 sds - \$15.60	200 sds - \$23.70
500 sds - \$37.60	1,000 sds - \$62.35

RING OF FIRE - 4007

☞ 45 in. - 900 S. (All America Winner - 2001). Branching. This bicolor variety has dark red flower petals at the base and golden-yellow at the tips. Flowers are 6 in. in diameter with a dark red center.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

SUNFLOWER (continued)

PRO CUT SERIES

☞ 60-72 in. - 710 S. (F-1 Hybrid). Pollen free. Single stem. Flowers are 3-4 in. in diameter with a dark brown disk. Days to flower: 50.

Bicolor Dmr - 4006 ☞

Mahogany red petals with orange tips and a dark center. Downy mildew resistant variety.

Gold Lite Dmr - 4087

Light green golden centers with deep golden petals. Downy mildew resistant variety.

Orange Dmr - 4074 ☞

Golden-orange with dark disc. Downy mildew resistant variety.

Each of the above: (28Z5)	100 sds - \$11.70
200 sds - \$15.30	500 sds - \$23.70
1,000 sds - \$36.70	2,000 sds - \$58.90

Bicolor - 3988 ☞

Mahogany red petals with orange tips and a dark disc.

Brilliance - 4090 ☞

Buttery yellow petals. Rather than having a defined halo, the color gradually intensifies from light yellow at the petals tips to orange near the central disk.

Lemon - 3987 ☞

Lemon-yellow with dark disc.

Orange - 3991 ☞

Golden-orange with dark disc.

Orange Excel - 4043 ☞

Deepest orange. Slightly faster to flower than Pro Cut Orange.

Orange Horizon - 4044 ☞

Perfect upward facing blooms opening with rich overlapping orange petals surrounding a traditional dark disk.

Peach - 3986 ☞

Soft peach with brown center.

Plum - 4016 ☞

Muted plum to cream bicolor.

Red - 4076 ☞

Deep burgundy petals with dark disc.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

White Nite - 4042

Truly unique color. Amazing flowers that open with a creamy vanilla color quickly turning white in a few days of sunlight contrasted with a dark center. Try dying them for stunning bouquets!

50 sds - \$10.90	100 sds - \$14.30
200 sds - \$21.20	500 sds - \$33.00
1,000 sds - \$51.40	(26C5)

ROUGE ROYALE - 4094

☞ 48-96 in. - 500 S. (F-1 Hybrid). Formerly Moulin Rouge. Pollen free. Branching. The name is exotic and this variety is true to its name. Produces a profusion of burgundy red, 3-6 in. flowers. No other sunflower offers such a consistent rich velvety color. Excellent for bouquets.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

SUNFLOWER (continued)

SOLAR POWER - 4072

☞ 40 in. - 550 S. (F-1 Hybrid). Pollen free. Branching. Flowers are 4-5 in., rich burgundy with contrasting bright golden-orange tips and a deep maroon center.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

SOLARA - 4041

☞ 60 in. - 450 S. (F-1 Hybrid). Pollen free. Single stem. Golden-yellow, 6-in. flowers with dark center. Bred by Benary - a proven cut flower breeder with several top level sunflower varieties - to be an early to flower, strong production style variety with an extended vase life. Days to flower: 55-60.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

SONJA - 4070

☞ 40 in. - 1,700 S. Single stem. Early flowering. 4 in. orange flowers with a brown center.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

SORAYA - 4069

☞ 72 in. - 1,700 S. (All America Winner - 2000). Branching. The first sunflower to win this award. Produces big, richly-colored golden-orange flowers with cheery dark brown faces. The vigorous, self-supporting plants stand tall and will not tip over even in full bloom. They are so well branched that you can expect 20-25 flowers from each plant during the long bloom season. These 4-6 in. flowers arise on long, strong 20 in. stems, held well above the lush foliage. They make a great sight in the garden, held straight up and facing the sun. Prized for cut arrangements, where they are long-lasting.

STRAWBERRY BLONDE - 3693

☞ 66-72 in. - 850 S. Pollen free. Branching. A rainbow of colors. Produces a profusion of large blossoms, up to 5-6 in. across in shades of ruby-red to pale pink with a pale lemon tips and dark centers.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

SUN SERIES

☞ 84 in. - (F-1 Hybrid). Pollen free. Single stem. Beautiful 4-6 in. uniform flowers with rounded petals on strong stems. This series is daylength-neutral and can be grown year round for cut flower production.

Sunbright - 4096 ☞

Bright yellow petals with black centers.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

Sunbright Supreme - 4066 ☞

40-60 in. - 1,100 S. (2001 Cut Flower of the Year). One of the earliest sunflowers to mature. Weeks to flower: 9-10.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

SUNFLOWER (continued)
SUNFILL GREEN - 4045

☞ 48-72 in. - 500 S. Perfect to use as a green filler. Stems are cut when the buds are full before flowering to provide a fantastic new look to your arrangements. The window for cutting depends on the size of the bud you want. Cut early for small buds, wait a bit longer before flowering to have a larger bud. Mixes perfectly with spring colors to provide a fresh look to your vase.

50 sds - \$9.90	100 sds - \$12.55
200 sds - \$18.25	500 sds - \$29.25
1,000 sds - \$44.40	(26A5)

SUNFINITY - 4019

☞ 38 in. - 650 S. AMAZING PRODUCT !! Free-branching and ever-blooming makes this item truly unique from any other. 3-4 in. blooms makes this a sensational color choice. Due to this habit, plant benefits from the application of plant growth regulators (PGRs) during finish. For best branching, pinch off the main stem above the fourth or fifth pair of leaves as it's growing. Great for the landscape border or back of the garden planting. Plants won't set seed and are disease resistant.

10 sds - \$22.55	25 sds - \$37.75
50 sds - \$56.20	200 sds - \$183.30
500 sds - \$372.00	(2455)

SUNGOLD - 4107

☞ 48-60 in. - 800-850 S. Single stem. Large, fully double golden yellow chrysanthemum-like flowers. Sow outdoors in May for August blooming. (30B5)

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45

SUNRICH SERIES

☞ 36-60 in. - 500 S. (F-1 Hybrid). Pollen free. Single stem. Very early, large 5-6 in. pollen-less flowers with clear centers. This series is daylength neutral and can be grown year round for cut flower production.

Orange Dmr - 4100 ☞

Golden orange with dark center. Downy mildew resistant variety.

50 sds - \$11.40	100 sds - \$14.80
200 sds - \$22.70	500 sds - \$34.95
1,000 sds - \$59.20	(26D5)

Gold - 4082 ☞

Golden orange with green center.

Lemon - 4097 ☞

Bright yellow with dark center.

Orange - 4098 ☞

Golden orange with dark center.

Each of the above: (28J5)	100 sds - \$16.00
200 sds - \$21.70	500 sds - \$36.50
1,000 sds - \$59.50	2,000 sds - \$98.90

Summer Lemon - 3982 ☞ Bright lemon-yellow with dark center. 5-10 days earlier flowering than the rest of the series.

Summer Limoncello - 4002 ☞ Unique, stable bicolor of vibrant yellow transitioning to a light, creamy yellow at the tips.

Summer Provence - 4017 ☞

Deep orange with dark center.

Each of the above: (26D5)	50 sds - \$11.40
100 sds - \$14.80	200 sds - \$22.70
500 sds - \$34.95	1,000 sds - \$59.20

SUNFLOWER (continued)
TERRA COTTA - 3670

☞ 70 in. - 630 S. (F-1 Hybrid). 65 days. AKA Cappuccino. Pollen free. Large flower heads of golden russet petals with a dark brown central disk bring another distinctive color form to the cut sunflower market. Multi-branching plants produce 4-5 inch blooms, ensuring plenty of stems for cutting.

VINCENT'S CHOICE (BROWN DISK) - 4001

☞ 48-60 in. - 500 S. (F-1 Hybrid). Pollen free. Brown center with deep orange petals. Broad, well rounded overlapping petals form sturdy flower heads, with an extra ring of petals, provides a better filler and more attractive flower.

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

VINCENT'S CHOICE DEEP ORANGE DMR - 4011

☞ **New for 2026** ☞ 48-60 in. - (F-1 Hybrid). Pollen free. Deep orange with brown center. 5 1/2 in. blooms with an extra ring of flowers petals create better filled, more attractive flower heads. Strong neck and upward-facing flowers. Round, overlapping flower petals create a semi-double look. Well suited for producing smaller flowers for bouquets or extra large mature flowers. Downy mildew resistant.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

VINCENT'S CHOICE TANGY (BROWN DISK) - 4023

☞ **New for 2026** ☞ 48-60 in. - (F-1 Hybrid). Pollen free. Brown center with an extra ring of rounded, overlapping golden-yellow petals for better filled, more attractive flower heads.

VINCENT'S FRESH (GREEN DISK) - 4000

☞ 48-60 in. - 600 S. (F-1 Hybrid). Pollen free. Large orange petals with a crisp, green center and broad, well rounded overlapping petals. An extra ring of petals and upward facing flowers makes a very attractive flower head.

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

VINCENT'S FRESH DMR (GREEN DISK) - 4022

☞ **New for 2026** ☞ 48-60 in. - (F-1 Hybrid). Pollen free. Golden-yellow petals with green center and broad, well rounded overlapping petals. Downy mildew resistant variety.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

SUNFLOWER, DWARF
MISS SUNSHINE - 4047

10-16 in. - 900 S. (F-1 Hybrid). Pollen free. This delightful dwarf variety produces plentiful double yellow blooms with dark brown center. Low maintenance and mildew tolerant. Excellent for small sunny spaces and containers.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

PACINO SERIES

12-16 in. - 1,000 s. Dwarf, pot and bedding type series with improved lateral branching. High bud count, long flowering season. 4-5 in. flowers. Crop time varies with the time of year. Weeks to flower: 10-11.

Cola - 4275

(Fleuroselect Quality Mark). Golden yellow petals with dark center.

Gold - 4109

(Formerly Pacino). Golden yellow with green center.

Mixture - 4965

Mixture of Cola, Gold and Lemon.
Each of the above: (28D5)

100 sds - \$11.15
200 sds - \$14.30
500 sds - \$21.70
1,000 sds - \$33.20
2,000 sds - \$52.90

SMILEY - 4046

5-8 in. - 850 S. Pollen free. Broad, rich yellow petals surround an attractive dark brown disk. Early bloomer to kick off your pot crop sales.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

SUN BUZZZ - 4018

12-20 in. - 12,000 S. (F-1 Hybrid). Meet the pot sunflower they will want again and again. Clear, yellow-filled flowers make a real standout, pumping out more blooms thanks to the big show of secondary flowers. Great for pots! Compact, smaller-leaved plants are more manageable and programmable on the bench and more appealing in the store. Delivers better seed uniformity and needs fewer PGRs than similar varieties. Less long day sensitivity, faster flowering and a more compact habit.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

SUNTASTIC - 4079

10-24 in. - 825 S. (F-1 Hybrid). (All America Winner - 2014). 65 days. Gardeners will love the number of yellow with black center flowers each one produces, up to twenty, 5-6 in. flowers per plant in three successive blooming periods. Perfect as a cheery long blooming potted plant or window box accent or maybe to add a burst of color to a sunny garden bed.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

**SUNFLOWER, DWARF
(continued on next page)**

SUNFLOWER, DWARF (continued)

TEDDY BEAR - 4108

24 in. - 1,500 S. (Yellow Pigmy). Compact, dwarf free-flowering plants with medium sized fully double golden yellow flowers.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60

(30D5)

Sweet Pea. Also see listing of Lathyrus under Perennials.

SWEET PEA

Lathyrus odoratus

350 sds/oz 55° 14 days

For the best germination, soak seed in warm water for 48 hours before sowing. After sowing, cover seed 1/4 in. with soil and maintain 55° soil temperature with even moisture. Needs darkness to germinate.

CUTHBERTSON FLORIBUNDA

Formula Mixture - 4085 ⌘

Climber. 300-350 S. Spring flowering. This class is midway between the Multiflora Gigantea (winter flowering) and summer types, preferred by most growers for spring greenhouse blooming. Do not sow before October for this purpose. Also widely planted for outdoor use, being a week or two earlier than the summer class and more heat resistant.

1/4 oz. - \$8.85	1/2 oz. - \$13.40
1 oz. - \$23.45	2 oz. - \$40.20
4 oz. - \$73.70	(10F5)

KNEE HIGH MIXTURE - 4078

Climber. 24-30 in. - 250 S. Semi-dwarf, with very fragrant flowers in a wide range of attractive colors. Plants are heavy blooming and can be planted in mass without support or trained on low trellises. They also look great growing among low shrubs and are excellent in containers, hanging baskets or window boxes.

1/4 oz. - \$9.85	1/2 oz. - \$13.15
1 oz. - \$17.15	2 oz. - \$28.00
4 oz. - \$44.20	(10A5)

OLD SPICE MIXTURE - 4004

⌘ Climber. 60-72 in. - 300 S. Heirloom. Highly fragrant. Delicate 1-inch blooms with a scent of honey and orange blossom. Features unique bicolor blooms as well as the traditional solid shades of Purple, Rose, Scarlet and White. Heat resistant. Try them on a fence, trellis, or cascading from baskets or containers.

1/4 oz. - \$10.05	1/2 oz. - \$14.30
1 oz. - \$19.10	2 oz. - \$31.75
4 oz. - \$50.80	(10B5)

ROYAL FAMILY MIXTURE - 4457

Climber. 72 in. - 300 S. Bring the fabulous fragrance into your garden with a rainbow of colors in this stunning mixture. Mixture includes Lavender, Maroon, Mid Blue, Navy Blue, Pink, Rose Pink, Salmon Pink, Scarlet and White.

1/4 oz. - \$10.55	1/2 oz. - \$16.45
1 oz. - \$22.50	2 oz. - \$38.55
4 oz. - \$62.70	(10C5)

SWEET PEA (continued)

MAMMOTH MIXTURE - 4455

⌘ Climber. 350 S. Large flowers on long stems. This early flowering variety can withstand heat and drought unusually well. Mixture includes Blue, Deep Burgundy, Deep Rose, Lavender, Mid Blue, Rose Pink, Salmon, Scarlet and White.

1/4 oz. - \$9.85	1/2 oz. - \$13.15
1 oz. - \$17.15	2 oz. - \$28.00
4 oz. - \$44.20	(10A5)

WINTER ELEGANCE MIXTURE - 4086

⌘ Climber. 60-72 in. - 300 S. This series is the only true winter flowering series. Selected for cut flower qualities; long stems and large ruffled flowers. Colors include: Burgundy, Deep Blue, Mid Blue, Salmon Cream Pink, Scarlet and White. Excellent for greenhouse production, developed specifically for flowering under short days and low light conditions.

1/4 oz. - \$12.00	1/2 oz. - \$20.85
1 oz. - \$31.20	2 oz. - \$57.50
4 oz. - \$91.90	(10D5)

THUNBERGIA

Black-eyed Susan Vine

1,150 sds/oz 75°-80° 12-15 days

Sow on sterilized media and cover lightly with soil. Maintain 75° soil temperature with even surface moisture. For satisfactory germination, we suggest soaking the seed in water before sowing. Be sure to change the water daily.

AFRICAN SUNSET - 4291

Climber. 78 in. - 1,000 S. Unique shades of red, apricot and buff with dark burgundy eyes. Blooms May-October.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

ALATA - 4112

Climber. 96 in. - 1,000 S. Moderate-sized vine used as a ground cover or low climber with triangular and 5 petaled tubular flowers in orange, white and yellow with a dark brown eye.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

SUSIE SERIES

Climber. 60-72 in. - 900-1,500 S. A complete series available in separate colors or a mixture. Use in hanging baskets where the vine can twist around the basket supports. If given good support it will look stunning when left to climb over trellises, arbors, fences or other structures around the home. Alternatively, plant this creeper as a ground cover or on a bank or terrace where it can be left to roam.

Orange With Eye - 4101

White With Eye - 4103

Yellow With Eye - 4102

Mixture - 4111

Each of the above: (25A5)	25 sds - \$10.80
50 sds - \$14.45	100 sds - \$18.85
300 sds - \$38.75	500 sds - \$48.55

TITHONIA

Mexican Sunflower

3,600 sds/oz 70° 12-15 days

For the best germination, do not cover seeds after sowing.

FIESTA DEL SOL - 4005

⌘ 24-36 in. - 3,500 S. (All America Winner-2000). The first dwarf Mexican sunflower and the most compact on the market. Intense, bright orange, 3 in. single daisy type blooms enjoy extreme heat, are drought tolerant and will attract butterflies all summer long. A wind tolerant version for commercial cut flower production. There is an abundance of daisy flowers so that you can cut many for informal bouquets and numerous flowers will remain on the plant for the wildlife. Use in large patio containers or landscape. Basically, pest-free, not even deer find the hairy leaves worth eating.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

TORCH - 4116

⌘ 48 in. - 3,000 S. (All America Winner - 1951). A quick-growing summer annual that thrives on hot weather, easy to grow as a Zinnia. Brilliant orange-scarlet flowers, fine for cutting; blooms from August until frost.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

TORENIA

Wishbone Flower

375,000 sds/oz 75°-80° 7-10 days

Sow seeds on sterilized media and do not cover seed with soil. It is very important that you maintain 75° soil temperature throughout the germination process. Ideal as a pot plant, window boxes, hanging baskets or as a bedding plant; also called Florida Pansy.

KAUAI SERIES

8 in. - Unsurpassed color, more compact and better branched habit than Clown series. Superior performance in extreme heat and humidity and exotic appearance in small garden settings. Great for mixed combos and color bowls; also suited to indoor containers. PELLETED SEED.

Blue And White - 4500PE

Burgundy - 4489PE

Rich burgundy rim with white tube.

Deep Blue - 4490PE

Deepest blue variety on the market.

Lemon Drop - 4491PE Unique bright white flowers have prominent yellow spots.

Magenta - 4492PE

Rich magenta rim with white tube.

Rose - 4493PE

Vivid rose with white tube.

White - 4494PE Bright, clear white.

Mixture - 4495PE Very bright, attractive mixture includes Burgundy, Deep Blue, Lemon Drop, Magenta, Rose and White.

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

Verbena.**Also see listing under Perennials.****VERBENA****10,000 sds/oz 70°-75° 14 days**

For the best germination, we suggest freezing the seed for 5 days before sowing. Sow seed on sterilized media and cover very lightly. Keep surface of seed flat moist and maintain a soil temperature of 70° days and 60° nights after treating with Captan. (Cover flat with glass or plastic to maintain moisture). Once established, grow on at 65°; pinch early to avoid leggy growth. Darkness will help germination.

IMAGINATION (ENHANCED) - 4170EN

☞ 12-36 in. - 25,000 S. V. speciosa. (All America Winner - 1993). Intense violet-blue flowers contrast with the beautiful lacy foliage. The spreading habit makes this variety ideal in hanging baskets or tubs. Very heat and drought resistant under adverse conditions. Tender Perennial. ENHANCED SEED for better and more uniform germination.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

OBSESSION CASCADE SERIES

8-10 in. - 13,500 S. Well branched spreading habit will quickly fill pots and baskets with vibrant, one of a kind flower patterns. Hearty and will continue to perform and flower in the garden well after many other varieties have died from disease. ENHANCED SEED for better and more uniform germination. Weeks to flower: 8-16.

Pink Shades - 4989EN**Purple With Eye - 4993EN****Red With Eye - 4994EN****Scarlet - 4990EN****Twister Violet - 4991EN**

ROSE WITH EYE - Discontinued. As a substitute, we suggest Quartz Red With Eye XP.

SCARLET - SCARLET WITH EYE -

Discontinued. As a substitute, we suggest Quartz Red With Eye XP.

VINCA**Periwinkle, Catharanthus roseus****21,000 sds/oz 75°-80° 15 days**

For the best germination, several growers have suggested that freezing the seed for 5 days before sowing will help germination. Sow seed on sterilized media, cover seed lightly with soil, darkness will help germination. Maintain 75°-80° soil temperature, use bottom heat and keep the surface moist. Once established, grow at 65°. They are very sensitive to temperatures below 65°, and overwatering - this will affect the growth and flowering time and give disappointing results. Do not pinch as flowering could be delayed 3-4 weeks.

Water Vinca sparingly and let them dry out before watering again, this practice develops a proper root structure and prevents root rot. Always allow the plants to get established before applying fertilizer, then apply only at low rates. Low temperatures below 65° will cause yellowing of foliage, stunted growth, and a poor quality plant.

CORA CASCADE XDR SERIES

6-8 in. - 14,500 S. (F-1 Hybrid). There's none other like it. The only trailing vinca powered by high levels of resistance to multiple strains of aerial Phytophthora. Best in class genetic performance under disease pressure. Rigorous, controlled testing for disease resistance in laboratory and field settings. Ideal for summer baskets, mixed containers and large landscape beds.

Apricot - 4203 Soft pastel apricot with contrasting dark eye.

Bright Rose - 4215

Lavender With Eye - 4212 Soft lavender blooms with bright white center.

Lilac - 4205

Light purple with a red eye.

Polka Dot - 4208 White with red eye.

Shell Pink - 4213 Soft pink.

Strawberry - 4209

Bicolor pink blooms with a rosy center.

Violet - 4201

White - 4214 Pure white.

Mixture - 4210

A complete mixture of all colors.

VINCA (continued)

CORA XDR SERIES

14-16 in. - 12,000 S. The vinca that fights back! Offers season-long flowering and survival in landscape plantings. Highly resistant to ten of the most virulent isolates of *Phytophthora nicotianae* that cause *Phytophthora* blight on annual vinca. Easier to grow! Improved branching, uniformity, and free-flowering makes this series ideal for premium packs and small to larger pots. Higher consumer appeal with large showy flowers in the widest range of solid and high demand bicolor patterns of any disease resistant vinca on the market.

TIGER EYE SERIES

4-8 in - 35,400 S. (F-1 Hybrid). An absolute must for any Halloween promotion. Unique, no freak of nature, rather the result of an impressive breeding program. Flowers are 1 1/2 in. and have black vein-like loops radiating from a black center. Earlier flowering, much improved plant habit and better seed quality means it can be grown alongside mainstream Viola and Pansy crops. Create an eye-catching display in borders or containers. Culinary note: Some parts of these flowers are edible. The crystallised petals are great decorations for cakes and cookies or they can be added straight to green salads for an injection of color. Zones: 4-9

Red - 6476

ZINNIA, DWARF (continued)
ZINNITA MIXTURE - 4344

6-8 in. - 5,000 S. Naturally compact habit with an abundance of 1 1/2 - 2 in. fully double flowers. Well branched, globe shaped habit.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

ZAHARA SERIES

12-18 in - 14,000S. Z. marylandica. Larger, single flowers, with some double flowers, in stronger colors than the Profusion Series. Outstanding in sunny, hot and dry conditions. Superior disease tolerance. Weeks to flower: 4-6.

Cherry - 4416
Double Bright Orange - 4417

Intense bright orange color. Very floriferous, with slightly smaller flowers than the others in the series.

Double Cherry - 4427

(All America Winner - 2017).

Double Fire - 4428

(All America Winner - 2010).

Double Raspberry Ripple - 4450

Rose and white bicolor. Cooler temperatures accentuate the rose color; as flowers age and under more heat, the white comes out more.

Double Salmon - 4439
Double White - 4418

White with some blooms showing a pink blushing.

Double Yellow - 4424
Fire - 4391

Bright orange-red.

Raspberry - 4379
Red - 4389
Starlight Rose - 4392

(All America Winner 2010). White with rose stripe.

Sunburst - 4436

Ravishing bicolor orange-yellow.

White - 4382

Pure White.

Yellow - 4383
Mixture - 4384

Well-balanced mix of the above colors.

Double Brilliant Mixture - 4421

A mixture of Double Cherry, Double Fire and Double Yellow.

Double Duo Mixture - 4488

Mixture of Cherry and Fire.

Double Mixture - 4447

A formula mixture which contains all the Doubles in the series.

Raspberry Lemonade Mixture - 4487

A formula mixture of Coral Rose, Starlight Rose and Yellow.

Each of the above: (26C5)	50 sds - \$10.90
100 sds - \$14.30	200 sds - \$21.20
500 sds - \$33.00	1,000 sds - \$51.40

ZINNIA, DWARF (continued)
ZYDECO SERIES

14-20 in. - Coated seed. The show-stopping double flowered blooms with built-in disease resistance. Fully double flowers increase flower longevity with lasting impact. Excellent disease resistance partnered with heat and drought tolerance.

Cherry - 4226
Deep Yellow - 4227
Fire - 4228

(All America Winner - 2025).

White - 4230
Mixture - 4229

A mixture of all above colors.

Each of the above: (26B5)	50 sds - \$10.40

PUMILA DOUBLE

☞ 24-30 in. - 4,000 S. Cut and Come Again. This garden favorite is an important early cut flower. Intermediate flowers between Giants and Lilliputs.

Mixture - 4377 ☞

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

ZINNIA, TALL (continued)

QUEENY SERIES

☞ 24-30 in. - 3,500 S. Stunning, double to semi-double blooms in antique shades that stand out. Perfect for border plants, large landscapes and a favorite of many cut flower growers.

Lime - 4471 ☞

Unique lime green color.

Lime With Blotch - 4474 ☞

Lime with maroon center.

Lime Orange - 4465 ☞

24 in. - (All America Winner-2018). The unique color evolves from shades of lime, orange, peach, salmon and yellow, with a dark center as the flowers age.

Lime Red - 4472 ☞

Maroon-red petals, then crowded with lime green.

Each of the above: (26H5)	50 sds - \$13.35
100 sds - \$17.75	200 sds - \$28.60
500 sds - \$45.45	1,000 sds - \$77.15

STATE FAIR MIXTURE - 4288

☞ 36-48 in. - 4,000 S. A well balanced formula blend. A giant Tetraploid zinnia with thicker leaves and stockier growth than regular types with very large 5-6 in. flowers. Especially good in packs or flats for bedding plant sales, as the small plants present a much better appearance. Has more resistance to powdery mildew than California or dahlia flowered strains.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

UPROAR ROSE - 4371

☞ 30-36 in. - 3,000 S. (F-1 Hybrid). Vivid rose color. Well branched, bushy plants are covered with double flowers. Hybrid vigor creates exceptional uniformity and flower quality. Weeks to flower: 8-10.

ZOWIE YELLOW FLAME - 4390

☞ 24-30 in. - 4,000 S. (F-1 Hybrid). (All America Winner - 2006). Loaded with eye-catching 3-4 in. semi-double flowers of gold and magenta-orange. Upright habit makes for an ideal home garden cut flower. Weeks to flower: 8-10.

Each of the above: (25Z5)	25 sds - \$12.70
50 sds - \$17.20	100 sds - \$23.55
300 sds - \$49.80	500 sds - \$70.45

Not just specializing in Flower & Vegetable Seeds!

of over 15,500 varieties in over 50 sizes!

See select Plant Programs in this catalog, beginning on page 125.

Perennial Flower Seed

ACHILLEA

Yarrow or Sneezewort

175,000 sds/oz 70° 1 week

After sowing seed, cover lightly with vermiculite. Light is required for germination. Needs deadheading. Remove spent flowers for more buds. Inclined to spread, so site this carefully or plan to reduce the clumps each spring. Flowers June-September.

CLOTH OF GOLD - 5513

Perennial. 36-48 in. - 333,000 S.

A. filipendula. (Parker's Variety). A stiff, erect plant which features yellow, plate-like, dense, terminal flower clusters and elegant, deeply-cut, fern-like, deep green leaves. Foliage has a spicy odor when crushed. Good cut or dried flower. Zones: 3-8

5,000 sds - \$10.50	10,000 sds - \$17.90
25,000 sds - \$28.85	50,000 sds - \$45.25
(34A5)	

MARSHMALLOW (PELLETED) - 5504PE

① Perennial. 12 in. - 40,000 S. A. ptarmica. Floriferous with highly double flowers. Compact plant with masses of flowers. Short crop time; uniform flowering time. Weeks to flower: 11-13. Zones: 3

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(2925)

SUMMER BERRIES

Mixture - 5503 ✂ ①

Perennial. 24-28 in. - 125,000 S. A. millefolium. The most beautiful and long-lasting Yarrow. A cheery blend of magnificent colors in shades of apricot, cherry-red, pink and white. An upright, bushy plant with 3-5 in. clusters. Unlike most Achilleas, the blooms do not fade. This bouquet is contrasted with aromatic grey-green foliage. Great if used dried. Weeks to flower: 16. Zones: 3-9

SUMMER PASTELS MIXTURE - 5508

✂ ① Perennial. 24 in. - 140,000 S. A. millefolium. (All America Winner - 1990). A beautiful mixture of soft pastel flowers in shades of apricot, cream, lavender, pink, purple, red, rose, white and yellow. Foliage is fern-like and aromatic. Excellent in dried arrangements. Heat and weather tolerant, a hardy perennial. Deer resistant and attracts butterflies, bees and hummingbirds. Weeks to flower: 16. Zones: 2-9

Each of the above: (2825)	100 sds - \$11.70
200 sds - \$15.30	500 sds - \$23.70
1,000 sds - \$36.70	2,000 sds - \$58.90

ACONITUM

Aconite, Monk's Hood, Wolfsbane

8,000 sds/oz 60°-70° 25 days

Freeze seed for two weeks before sowing. Sow in a bag with moist seed mix and maintain at 70° temperature for three weeks, then place in the fridge for four weeks, move to 55° where germination will occur. Light will help germination. Flowers the third year. Be aware that all parts of the plant are poisonous.

NEWRY BLUE - 5517

✂ Perennial. 36 in. - 11,000 S. A. napellus.

A beautiful strain with upright tall spikes of the deepest blue hooded flowers over deep-cut foliage. Foliage is very attractive in the spring as it emerges out of the ground; leaves are very lacy and cut, shaped somewhat like a hand. Suitable for borders and woodland gardens. Will flower June-August. Zones: 3-8

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

AGASTACHE

Licorice Plant, Korean Mint

64,000 sds/oz 70° 7-10 days

After sowing, cover seeds very lightly. Light will help germination. Very fragrant, will attract birds and hummingbirds all season.

ARIZONA SANDSTONE ORANGE - 5487

① Perennial. 8-10 in. - 55,500 S.

A wonderful compact hybrid, featuring loose spikes of mint scented, terra cotta-orange, tubular flowers on dense spikes. Grey-green foliage. Extremely useful in containers or tubs, or integrated into the perennial border. Stunning when combined with dark red or bronze-leaved plants. Flowers are also edible and fun to sprinkle into salads or use as a garnish. Attracts butterflies and hummingbirds. Zones: 6-9

100 sds - \$14.35	200 sds - \$19.25
500 sds - \$31.55	1,000 sds - \$50.75
2,000 sds - \$83.60	(28I5)

GOLDEN JUBILEE - 5489

✂ ① Perennial. 20 in. - 65,000 S.

A. foeniculum. (All America Winner - 2003). Deep yellow to chartreuse Coleus-like foliage is incredible on its own, but the purple bottlebrush flowers in mid-summer tops it off beautifully. Wonderfully redolent of licorice, it perfumes the entire garden over a long season. Hot weather intensifies the scent. Irresistible to bees, butterflies and birds. Ideal for dried arrangements. Zones: 6-10

50 sds - \$9.90	100 sds - \$12.55
200 sds - \$18.25	500 sds - \$29.25
1,000 sds - \$44.40	(26A5)

AGASTACHE (continued)

LICORICE BLUE - 5506

✂ Perennial. 36 in. - 70,000 S. A. rugosa. Very aromatic licorice scented leaves. 4-6 in. flower spikes on strong stems. A magnet for bees and butterflies. For fresh or dried use. Weeks to flower: 10-12. Zones: 7

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

ZUNI - 5488

Perennial. 28-32 in. - 62,500 S. A. cana. Attractive violet flower spikes. Vigorous, bushy plant habit. Perfectly suitable for landscape applications. Attracts beneficial insects. Zones: 5-9

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

AGROSTEMMA

Rose Champion, Corn Cockle 5,000 sds/oz

CAUTION: SEED OR PARTS OF THE PLANT COULD BE TOXIC.

OCEAN PEARLS - 5486

✂ Perennial. 36 in. - 5,500 S. A. githago. A favorite cottage garden staple, the epitome of grace and charm. Pure white 2 in. blossoms, sport fascinating dots lining the throat. Produces a hundred or more blooms on slender, upright stems that sways with the slightest breeze.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

PURPLE QUEEN - 5485

✂ Perennial. 24-30 in. - 5,000 S. A. githago. Rosy-purple with white speckled 2 in. flowers on willowy grey stems. Nice cut flower.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
(3025)	

ALCHEMILLA

Lady's Mantle

42,000-85,000 sds/oz 65° 2 weeks

For the best germination, we suggest freezing the seed for 5 days before sowing. After sowing seed, do not cover seed with media. Light will help germination. Grows well in heavy clay soil and is quite drought tolerant once established.

THRILLER (ENHANCED) - 5524EN

✂ Perennial. 18 in. - 102,000 S. A. mollis. The grey-green hairy leaves are as decorative as the graceful lime-green flowers that are held in multiple clusters. Flowers June-July. For fresh or dried use. Enhanced seed for improved and more uniform germination. Zones: 3-7

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

Alyssum. Also see listing under Annuals.

ALYSSUM

Aurinia

30,000 sds/oz 68-70° 2-3 weeks

After sowing seed, cover lightly with vermiculite. Light will help with germination. Will attract butterflies all season. Nice covering for walls and rock gardens.

GOLD RUSH - 5170

Perennial. 5-8 in. - 33,000 S. A. saxatile. Shorter stem features a more uniform habit and earlier flowering. Evergreen early spring flowering that forms neat rosettes. Great in rock gardens. Weeks to finish: 26-32. Zones: 3-9

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

MOUNTAIN GOLD - 5531

Perennial. 4-6 in. - 17,000 S. A. montanum. Forms low, trailing mounds of silvery-grey leaves bearing masses of golden-yellow flowers. Perfect for rock gardens or spilling over the edge of a rock wall or container. Zones: 3-9

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60
	(31C5)

SAXATILE COMPACTUM - 5532

Perennial. 8-12 in. - 30,000 S. Aurinia saxatilis. (Gold Dust). Produces a carpet of lovely deep golden flowers. The spreading habit makes a perfect border edge or to cascade down walls. The flowers are said to bear the scent of sweet hay. Looks good on walls or in gravel. Zones: 3-7

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

ANACYCLUS

Mount Atlas Daisy

30,000 sds/oz 60°-65° 2 weeks

Does not like wet conditions

DEPRESSUS

Garden Gnome - 5538 ①

Perennial. 6 in. - 33,000 S. A. pyrethrum. A cute little daisy for the rock garden, forming a low mat of very fine, ferny grey-green leaves. Short stems of white daisies appear in late spring, each with a yellow eye, the petals often painted red or purple on the back side. Very useful as a ground cover, borders or rock gardens. Zones: 5-7

250 sds - \$16.80	500 sds - \$22.95
1,000 sds - \$32.55	2,000 sds - \$52.50
5,000 sds - \$106.55	(29C5)

ANEMONE

Windflower

60°-65° 3 weeks

Best time to sow is in early spring. Freeze seed for 5 days. Five petaled flowers are borne on thin stems, and have large toothed leaves at their bases. Blooms April-July.

SYLVESTRIS - 5027

⌘ Perennial. 12 in. - 57,000 S. A. sylvestris. (Madonna). Clean seed. Early flowering. Delicate nodding white flowers appear over a low mound of ferny foliage. Makes a useful over-planting for Narcissus or tulips, helping to disguise the bulb foliage in summer. Zones: 2-9

50 sds - \$11.90	100 sds - \$15.60
200 sds - \$23.70	500 sds - \$37.60
1,000 sds - \$62.35	(26Z5)

AQUILEGIA

Columbine, Granny's Bonnet

15,500 sds/oz 80° day - 70° night 3 weeks

For best germination, refrigerate seeds for a few weeks before sowing. Light helps germination. Sow seeds and do not cover with media. Maintain 70° night and 80° day soil temperature with even moisture. Blooms May-July. Will attract hummingbirds all season and repel deer and rabbits from the garden. The State flower of Colorado.

BARLOW SERIES MIXTURE

BIEDERMEIER MIXTURE - 5560

Perennial. 16 in. - 18,000 S. A. sibirica. Spurred double and single, star-shaped upward facing flowers. Colors include bright shades of Cream, Deep Red, Lilac, Pink and Violet. Ideal for border gardens, rock gardens and a source of nectar to attract birds and butterflies. Zones: 2-8

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
	(30C5)

CANADENSIS - 5562

⌘ Perennial. 18 in. - 30,000 S. A. canadensis. (Eastern Columbine). A nodding, red and yellow flower with upward spurred petals alternating with spreading, colored sepals and numerous yellow stamens hanging below petals. The compound leaves, divided into round-lobed threes and are attractive in their own right. Zones: 3-8

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(29Z5)

CHRYSANTHA - 5557

⌘ Perennial. 30 in. - 24,500 S. A. chrysantha. (Golden Queen). Mounds of mid-green, maidenhair-like foliage and large, soft golden-yellow flowers. The large blooms, each with long swept back spurs are upward facing and can measure 3 in. across.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

AQUILEGIA (continued)

EARLYBIRD SERIES

Perennial. 9-11 in. - 23,000 S. (F-1 Hybrid). Controlled habit, with relatively short stems on well-mounded plants. Low cold requirements and short juvenility for growing in warm winter climates. A flowering window of 10-12 days, plus a short harvest window, makes an excellent choice for early spring programs. Zones: 3-9

Blue White - 5536 Purple Yellow - 5544

Red White - 5537 Red Yellow - 5546

Mixture - 5539

Each of the above: (25F5)	25 sds - \$13.15
50 sds - \$17.45	100 sds - \$23.70
300 sds - \$51.10	500 sds - \$71.70

MC KANA'S GIANT - 5564

⌘ Perennial. 24 in. - 22,000 S. A. caerulea. (All America Winner - 1955). Large, showy extra long-spurred flowers in a gay mixture of colors. One of the showiest of all columbines. Zones: 3-9

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

STAR RED (CRIMSON STAR) - 5552

Perennial. 24 in. - 27,000 S. A. caerulea. Beautiful red and white bicolor. Very early to flower, long spurred 4 in. flowers. Heat and weather tolerant. Zones: 3-9

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
	(30C5)

YELLOW QUEEN - 5680

Perennial. 30 in. - 27,000 S. A. chrysantha. An awesome number of large, long spurred, fresh lemon-yellow flowers over very attractive fern-like leaves. The most bloomiferous and longest bloomer of all varieties. Zones: 3-10

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

ARABIS

Rock Cress

70,000 sds/oz 2 weeks

Light will germination. Beautiful in rock gardens. Blooms April - July. Will attract butterflies all season. Ideal for planting around banks or ponds.

ALPINA SNOWCAP - 5566

Perennial. 6 in. - 105,000 S. A. caucasica. A dwarf, mat forming evergreen literally covered with pure white flowers from mid-spring into summer. Beautiful as a ground cover or in a rock garden. Zones: 4-9

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

BARRANCA DEEP ROSE

Crop failure. As a substitute, we suggest Compinkie.

ARABIS (continued)**CATWALK PINK (PELLETED) - 5579PE**

Perennial. 6 in. - A. caucasica. Uniform and compact, globe shaped habit. Great for spring production with Pansies and Bellis. Versatile uses for containers, stone gardens and window boxes.

CATWALK WHITE (PELLETED) - 5565PE

Perennial. 6 in. - A. caucasica. Uniform compact, globe shaped habit. No vernalization required. Great addition to spring programs. Versatile uses in containers, stone gardens and window boxes.

COMPINKIE - 5568

Perennial. 6 in. - 108,000 S. A. caucasica. A vigorous evergreen produces a mat of tiny, fuchsia-pink, each mildly fragrant with small, oval, light gray-green leaves that are slightly hairy and held on loose rosettes along trailing stems. Zones: 5-8

Each of the above: (28D5) 100 sds - \$11.15
200 sds - \$14.30 500 sds - \$21.70
1,000 sds - \$33.20 2,000 sds - \$52.90

ARENARIA**Sandwort**

18,000 sds/oz 65°-70° 2 weeks

Low, alpine cushion plant with small, white flowers that resemble 5-pointed stars. Easily grown in rock gardens or as a ground cover. Thrives under moist conditions.

MONTANA - 5571

Perennial. 6 in. - 23,000 S. A. montana. A very classy little alpine or rock garden plant, that forms a low evergreen cushion of dark green leaves, bearing loads of rather large snowy-white flowers. Great for edging paths, between flagstones, in walls or trough gardens. Blooms April-July. Zones: 2-9

250 sds - \$16.80 500 sds - \$22.95
1,000 sds - \$32.55 2,000 sds - \$52.50
5,000 sds - \$106.55 (29C5)

ARMERIA**Thrift, Sea Pinks**

28,000 sds/oz 60°-65° 2 weeks

For the best germination, soak seeds in water 48 hours before sowing. Full sun and dry, light soil with good drainage. A low, mounding plant with grass-like evergreen leaves. Long stems bear 1 in. in diameter spherical heads with many small 5-petaled flowers. Blooms May-August.

BALLERINA SERIES RED - 5146

① Perennial. 6-8 in. - 25,000 S. A. pseudarmeria. Clean seed. This variety is early flowering and will produce an abundance of beautiful ball-shaped flower heads on short, strong stems. High in uniformity and compactness habit with heat tolerance. Weeks to flower: 12-14. Zones: 6-7

100 sds - \$13.70 200 sds - \$18.25
500 sds - \$29.60 1,000 sds - \$47.20
2,000 sds - \$77.45 (28H5)

ARMERIA (continued)**MARITIMA SPLENDENS - 5573**

Perennial. 8 in. - 35,000 S. A. maritima. Clean Seed. Compact, dense, tufted evergreen with stiff, grass like dark green leaves and slender, erect stems bearing compact, rounded clusters of reddish-pink flowers. Zones: 3-9

250 sds - \$11.90 500 sds - \$15.60
1,000 sds - \$20.70 2,000 sds - \$31.45
5,000 sds - \$60.60 (29C5)

MORNING STAR SERIES

① Perennial. 6 in. - 50,000 S. A. maritima. Free flowering compact habit. A multitude of long lasting flowers held above deep green grass like foliage. Very intense colors. A spring flowering favorite. Great for containers, rock gardens and borders. Weeks to finish: 16-20. Zones: 4-8

Deep Rose - 5118 ①**White - 5114 ①**

Each of the above: (28D5) 100 sds - \$11.15
200 sds - \$14.30 500 sds - \$21.70
1,000 sds - \$33.20 2,000 sds - \$52.90

ARUNCUS**Goat's Beard**

235,000 sds/oz 60° 15-20 days

Easily grown in average, medium to wet, well-drained soil in full sun to part shade. Prefers part shade, particularly in the southern part of its growing range and moist fertile soils.

DIOICUS - 5578

⌘ Perennial. 60 in. - 235,000 S. A. dioicus. Dense feathery plumes of tight creamy-white flowers rise well above the decorative finely-cut foliage. Will create a bold, showy effect for a moist or partly shaded spot all season. Excellent for backgrounds or grouped in a woodland setting. Blooms May-July. Zones: 3-9

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75
(31B5)

NOBLE SPIRITS - 5640

Perennial. 10 in. - 250,000 S. A. aethusifolius. Very compact habit with elegant ferny leaves that are held in a neat dense globular habit. Plants are covered with many astilbe-like white spikes. Easy to grow. After flowering, the flower spikes fade to decorative red as the seed pods ripen.

500 sds - \$10.30 1,000 sds - \$14.75
5,000 sds - \$33.90 10,000 sds - \$51.50

ASCLEPIAS

Milkweed 3,500 sds/oz 65°-75° 3 weeks

Light will help germination. Blooms June - September the same year from sowing. Will attract butterflies and hummingbirds all season. Nice cut flower with long vase life. Sear the ends of the cut stem over a flame to stop the milky sap from leaking out. Asclepios is the Greek god of healing.

CINDERELLA (ROSE) - 5125

⌘ ① Perennial. 36-40 in. - 25,000 S. A. incarnata. (Swamp Milkweed). So fragrant, colorful and carefree. Vanilla scented flowerheads are 2 in. across arise among the long, lush leaves all summer long and often right into fall. A magnet for butterflies. If you can bear to cut them, the cherry-rose blooms are long-lasting in fresh and dried bouquets. Zones: 3-8

250 sds - \$14.25 500 sds - \$19.25
1,000 sds - \$26.65 2,000 sds - \$41.95
5,000 sds - \$83.60 (29Z5)

GAY BUTTERFLIES MIXTURE - 5046

⌘ ① Perennial. 36-48 in. - 6,000 S. A. tuberosa. (Butterfly Milkweed). Tiny blossoms in shades of orange, red, pink or lemon yellow. Will attract butterflies all season. Weeks to flower: 12-16. Zones: 4-9

50 sds - \$11.90 100 sds - \$15.60
200 sds - \$23.70 500 sds - \$37.60
1,000 sds - \$62.35 (26Z5)

HELLO YELLOW - 5108

⌘ Perennial. 20 in. - 4,500 S. A. tuberosa. (Butterfly Milkweed). This drought-tolerant deciduous species makes a mound of stems clothed with index finger-sized green leaves. The flower colors range from lemony yellow to tangerine/yellow, you won't know until they flower which shade of yellow they will be. Zones: 4-9

25 sds - \$11.45 50 sds - \$15.90
100 sds - \$21.95 300 sds - \$47.45
500 sds - \$64.10 (25C5)

ICE BALLET (WHITE) - 5591

⌘ ① Perennial. 40-48 in. - 5,000 S. A. incarnata. (Swamp Milkweed). Forms gorgeous clouds clustered with small, fragrant tiny white 1/4 in. flowers. After the flowers come attractive seed pods, which release silky-haired seeds borne by the wind. Zones: 3-8

100 sds - \$9.75 200 sds - \$12.35
500 sds - \$17.75 1,000 sds - \$26.20
2,000 sds - \$40.65 (28B5)

INCARNATA (ROSE) - 5109

⌘ Perennial. 24-48 in. - A. incarnata (Swamp Milkweed, Pink Milkweed). Large, bright blossoms are made up of small, rose-purple flowers. Deep pink flowers clustered at the top of a tall, branching stem, bearing numerous narrow, lanceolate leaves. Opposite, narrow, lance-shaped leaves line the erect, open-branched stem. Elongated, tan-brown seed pods persist into winter.

500 sds - \$10.30 1,000 sds - \$14.75
5,000 sds - \$33.90 10,000 sds - \$51.50
(30C5)

ASCLEPIAS (continued on next page)

ASCLEPIAS (continued)

MILKMAID - 5126

⌘ ① Perennial. 40 in. - 4,000 S.
A. incarnata. (Swamp Milkweed). Beautiful clusters of creamy-white diminutive flowers atop medium-green, strong stems surrounded by spear shaped foliage with lighter green midribs and lacy veining. Zones: 3-8

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

PHYSOCARPUS HAIRY BALLS - 5614

⌘ ① Perennial. 42-48 in. - 5,500 S. syn. Gomphocarpus p. (Balloon Cottonbush). A tender perennial grown primarily for the large, rounded spiny fruits on long arching stems. Tall slender plants with insignificant flowers. Pinching plants at an early stage will promote side shoot development. Zones: 7-9

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

RED BUTTERFLY - 5501

⌘ ① Perennial. 28 in. - 11,000 S.
A. curassavica. (Silkweed). Unusual clusters of flat umbels with red corollas and bright orange hood. Thrives in hot weather. Zones: 7-10

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

SILKY SERIES

⌘ ① Perennial. 24 in. - 10,000 S.
A. curassavica. (Silkweed). Attractive blooms make an excellent cut flower. Bred for greenhouse or outdoor summer production. Prefers a warm, dry location. Typically grown as an annual. Zones: 8-11

Deep Red - 6684 ⌘ ①

Deep red with bronze foliage.

Gold - 5500 ⌘ ①

Golden-yellow flowers.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

SOULMATE (ROSE) - 5107

⌘ ① Perennial. 40 in. - 6,500 S.
A. incarnata. (Swamp Milkweed). Tall, upright clump of long green leaves, bearing clusters of cherry-rose flowers with a tiny white center. A delightful vanilla fragrance that is a favorite to butterflies. Seed pods are nice in dried arrangements, and may be picked just before they open. Good for cutting. Zones: 3-8

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(29Z5)

ASCLEPIAS (continued)

SYRIACA - 5106

⌘ ① Perennial. 30-60 in. - 4,000 S.
A. syriaca. (Common Milkweed). A must for any butterfly garden. Butterflies' favorite plant and will bring many winged friends to your garden or meadow. Leaves are glossy and thick, the large flower can vary in color from nearly white to deep pink-purple. The fragrance is very delicate and pleasing and numerous native pollinators will benefit during its long bloom time. It's beautiful and dependable. Very drought tolerant. Zones: 3-8

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

TUBEROSA - 5576

⌘ ① Perennial. 24 in. - 7,000 S.
A. tuberosa. (Butterfly Milkweed). Perennial plant of the year. A virtually hassle-free, very long lived perennial, offering three months of tangerine-orange blooms (occasionally red or yellow) from early spring through late summer. Excellent for dry spots in the border or on the banks. Zones: 4-9

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

ASTER, HARDY

19,000 sds/oz 70°-75° 2-3 weeks

For the best germination, refrigerate seed for 5 days before sowing. Light will help germination. Blooms May - August the same year from sowing. Nice cutflower. Will attract butterflies and songbirds all season and will help repel deer.

GOLIATH - 5582

Perennial. 12-15 in. - 19,000 S. A. alpinus. Beautiful pale lilac-blue daisy-like flowers with yellow eyes at the ends of the stems. Slender ray petals and golden discs are singly borne atop short, sparsely leaved stems. Perfect for the rock garden or the edge of a path. Deer resistant. Zones: 2-9

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

MIXTURE - 5581

Perennial. 12 in. - 20,000 S. A. alpinus. Lavender, blue and white flowers. Ideal rockery plant, blooms in early summer. Zones: 2-7

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

SEPTEMBER RUBY - 5585

⌘ ① Perennial. 36-48 in. - 50,000 S.
A. novae-angliae. (New England Aster). Vivid ruby-rose flowers with large yellow-orange centers on tall arching stems. Rich green, lance-shaped foliage. Pares nicely with ornamental grasses. Zones: 4-8

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

AUBRIETIA

Rock Cress

100,000 sds/oz 65° - 70° 2 weeks

After sowing, light will help germination. Likes semi-shade. Fine for the border, bed or rockery where spreading plants are desired. Starts blooming in early spring. Outstanding garden performance. Beautiful in rock gardens. Will bloom April-June.

CASCADE SERIES

Perennial. 4 in. - 68,500 S. A. deltoidea. (Royal Cascade). An old and reliable variety that produces large flowers. Forms a low carpet of evergreen leaves, literally smothered by flowers. Zones: 4

Blue - 5600

Red - 5603

Carmine-red.

Each of the above: (30C5)	500 sds - \$10.30

BAPTISIA

False Indigo

1,700 sds/oz 70° 3 weeks

Soak seed in warm water 48 hours and freeze for 5 days before sowing. Will attract butterflies all season.

AUSTRALIS - 5611

☞ Perennial. 24 in. - 2,000 S. B. australis. (Blue False Indigo). A spectacular specimen in the flower garden. Blue-green foliage resembles a small rounded bush with tall spikes of deep blue, lupine-like flowers. Showy large charcoal black seed pods appear in late summer that are often used in flower arrangements. Not fond of lime. Adaptable to the seashore. Deer resistant. Zones: 3-9

250 sds - \$11.90	500 sds - \$15.60

DEEP ROSE - Discontinued. As a substitute, we suggest Bellissima Rose (pelleted).

BERGENIA

Pigsqueak

100,000 sds/oz 70° 2 weeks

For the best germination, refrigerate seeds for 10 days before sowing. Cover very lightly with media after sowing, light will help germination. Tolerant of a wide range of soils, but prefers moist, humusy ones. Features large rosettes of leathery, glossy, toothed, rounded, dark green leaves which are heart-shaped at the base. Noted for its foliage which turns purplish-bronze in fall/winter. Makes a lovely ground cover in shady areas. A good cutflower, also leaves are often used in floral arrangements. Will bloom March-June.

CORDIFOLIA

Discontinued. As a substitute, we suggest Shoeshine Rose.

RED BEAUTY - 5407

☞ Perennial. 15 in. - 131,000 S. B. cordifolia. (Red Start). Thick glossy rich green leaves are evergreen and will slowly expand to make a great groundcover. Leaves take on an eye-catching deep red cast in fall as temperatures drop. Has a magnificent carmine red flower clusters held on stiff stems. Zones: 3-8

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

BERGENIA (continued)

SHOESHINE ROSE - 5408

Perennial. 12 in. - 150,000 S. B. cordifolia. Dark green glossy foliage tuns into a glossy bronze color under the cool nights of fall and winter. Rose colored flowers emerge in spring for a bright cheerful show of color. Excellent addition to spring offering for growers. Zones: 4-9

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

BERLANDERIA

7,500 sds/oz 3-4 days

CHOCOLATE DAISY - 6575

Perennial. 12 in. - 4,000 S. B. lyrata. When in flower the aroma of chocolate is quite evident. The quarter sized flowers are vibrant, yellow daisy with striking red striped undersides and chocolate-colored stemins. Will attract bees, butterflies and birds. Also has the ability to survive during periods of heat stress. Zones: 4-11

50 sds - \$15.80	100 sds - \$21.50
200 sds - \$35.35	500 sds - \$58.60

BUDDLEIA

Butterfly Bush

700,000 sds/oz 60° 12-18 days

DAVIDII MIXTURE - 5624

① Perennial. 72-96 in. - 900,000 S. B. davidii. Lilac shaped flowers that contains vibrant shades from bright pink to deep purple, plus clear white. Very floriferous and fragrant. Easy to grow from seed for plants that will flower the same year. Attractive shrub-like habit that is a great addition to the beneficial insect garden. Zones: 5-9

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

Campanula. Also see listing under Annuals.

CAMPANULA

65°-70° 2 weeks

For the best germination, freeze seed for 5 days before sowing. Expose seed to alternate dark and light periods with soil temperature at 70°. Do not cover seed with media after sowing. Light will help germination. Beautiful, 2-3 in. flowers with 5-petals fused into a bell. Blooms May - August. A nice cutflower.

PEACH-LEAF BELLFLOWER BLUE - 5661

☞ Perennial. 36 in. - 285,000-385,000 S. C. persicifolia. Most widely grown bellflower. Masses of nodding outward-facing blooms spring from vigorous, clumps of lance-shaped leathery leaves. Very nice cut flower and very desired for wedding work. Zones: 3-8

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

CAMPANULA

(continued on next page)

CAMPANULA (continued)

ROTUNDIFOLIA OLYMPICA - 5657

Perennial. 12 in. - 370,000 S. C. rotundifolia. Bright lavender-blue, nodding bells appear on wirey stems. Forms clumps of finely toothed, rounded dark green leaves. One of the most cold hardy bellflowers. Zones: 3-7
Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

SUPERBA - 5649

⌘ Perennial. 24-30 in. - 294,000 S. C. glomerata. Large clusters of rich violet. Nice cut flower, will flower the same year as sowing. Zones: 3-8
500 sds - \$9.75 1,000 sds - \$13.15
5,000 sds - \$24.45 10,000 sds - \$38.55
(30A5)

CAMPANULA, CARPATICA

CLIPS SERIES

Perennial. 8 in. - C. carpatica. Masses of upright 1-1/2 in. bellflowers. Compact habit makes it ideal for borders or rock gardens. PELLETED SEED. Zones: 3-8

Deep Blue - 5665PE

White - 5651PE

Each of the above: (28C5) 100 sds - \$10.40
200 sds - \$13.35 500 sds - \$19.75
1,000 sds - \$29.70 2,000 sds - \$46.80

RAPIDO SERIES

① Perennial. 5-7 in. - C. carpatica. The earliest variety on the market - up to 4 weeks earlier than Clips. Spring/Summer rock garden variety. Controlled, mounded plant with rich flowering. Grows best in moist but well-drained soil. Indoor plant: avoid overhead watering. Plant in full to partial sun (3-6 hours). Delivers better young plant vigor and uniformity and better vigor of finished plant. PELLETED SEED. Zones: 3-9

Blue - 5658PE ①

White - 5659PE ①

Each of the above: (28Z5) 100 sds - \$11.70
200 sds - \$15.30 500 sds - \$23.70
1,000 sds - \$36.70 2,000 sds - \$58.90

CAMPANULA, MEDIUM DOUBLE

CANTERBURY BELLS MIX - 5633

⌘ Perennial. 36 in. - 130,000 S. Masses of bells in an astonishing range of blues, pinks and whites. Attractive rosette leaves. A gentle reminder of the cottage gardens days. Popular in English gardens since the 1500's.

CUP & SAUCER MIXTURE - 5639

⌘ Perennial. 36 in. - 115,000 S. Attractive rosette leaves. Habit and growth similar to Canterbury Bells, but with an additional flat corolla around the base of each flower.
Each of the above: (31B5) 1,000 sds - \$10.05
2,000 sds - \$15.60 5,000 sds - \$21.20
10,000 sds - \$28.75

CAMPANULA, MEDIUM SINGLE

CANTERBURY BELLS MIXTURE - 5632

⌘ Perennial. 24-36 in. - 100,000 S. Sturdy, upright plants with large bell-shaped flowers. Excellent as a cut flower and will add grace and elegance to any garden. Zones: 4-10
1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

Carnation.

Also see listing under Annuals.

CARNATION

Dianthus, Caryophyllus

14,000 sds/oz 65°-70° 2 weeks

We suggest you NEVER use chemicals containing methyl bromide on Carnations. Cover very lightly, needs light to germinate.

GRENADIN SERIES

⌘ ① Perennial. 20 in. - 16,000 S. C. caryophyllus. Freely produce large double, wonderfully fragrant flowers on long, stiff stems. Blooms attract butterflies and make superb cut flowers. Flowers appear in flushes throughout summer and into fall. Bushy, base-branching plants with grassy, blue-gray leaves. Good for cutting or background planting. Zones: 4

King Of Blacks - 5681 ⌘ ①

Darkest red.

Pink - 5684 ⌘ ①

White - 5685 ⌘ ①

Mixture - 5688 ⌘ ①

Well balanced blend.
Each of the above: (30A5) 500 sds - \$9.75
1,000 sds - \$13.15 5,000 sds - \$24.45
10,000 sds - \$38.55

CATANANCHE

Cupid's Dart, Blue Cupidone

6,000 sds/oz 65° - 75° 1-2 weeks

Excellent cutflower. Can be dried for winter use. Blooms June-August. Drought tolerant. Will flower the first year.

CAERULEA - 5695

⌘ ① Perennial. 24 in. - 8,000 S. C. coerulea. A favorite of flower arrangers. Papery lavender-blue centaurea-like flowers. Excellent for cutting, fresh and dried. Blooms June-August. Drought tolerant. Zones: 3-9

500 sds - \$10.85 1,000 sds - \$17.45
5,000 sds - \$39.50 10,000 sds - \$65.60
(30D5)

Centaurea, Perennial.

Also see listing of *Centaurea* under Annuals.

CENTAUREA, PERENNIAL

2,100 sds/oz 60° 10-15 days

After sowing, cover seeds lightly with media. Darkness will help germination. Beautiful 2 -3 in. flowers. Will bloom May-August. Will help repel deer all season.

DEALBATA - 5712

⌘ Perennial. 24 in. - 3,500 S. C. orientalis. (Persian Cornflower). Deeply fringed, button-like, rose- pink flowers, complemented by finely-cut, gray-green leaves. Hardy and drought tolerant. Butterflies can't resist the sweet nectar of the showy blooms. A touch of pink in the garden all summer long. Zones: 3-8

MACROCEPHALA - 5713

⌘ Perennial. 48 in. - 2000 S. C. macrocephala. (Armenian Basketflower). Unusual ramrod-stiff flower stems with fat, rusty buds that open into large, golden-yellow, shaggy, thistle-like flowers the size of a small fist. Big coarse oval-shaped leaves. Outstanding fresh or dried. Zones: 3-7

MONTANA - 5711

⌘ ① Perennial. 18 in. - 2,000 S. C. montana. Mountain Blue. Erect and stoloniferous featuring spidery, deeply fringed, rich blue cornflowers with reddish blue centers and black edged involucre bracts. Gray-green, lance-shaped lower leaves. Zones: 3-7

Each of the above: (29C5) 250 sds - \$11.90
500 sds - \$15.60 1,000 sds - \$20.70
2,000 sds - \$31.45 5,000 sds - \$60.60

CENTRANTHUS

Red Valerian, Jupiter's Beard

17,500 sds/oz 60°-65° 2 weeks

Easily grown in average or sandy, medium moisture, well drained soils in full sun to part shade. Prefers slightly alkaline soils in full sun. Does well in poor, infertile soils where it usually grows in a more compact form. Will flower May-August of the same year from sowing. Will attract butterflies all season.

RUBER - 5716

⌘ ① Perennial. 24-36 in. - 20,000 S. C. ruber. Red-rose flowers are formed from clusters of tiny star-shaped florets atop strong, branching stems. Fine, fragrant addition for your garden. Zones: 5-8

WHITE - 5717

⌘ ① Perennial. 24-36 in. - 14,000 S. C. ruber. (Snowcloud). Airy clusters of fragrant white flowers with succulent-like, mid-green leaves that contrast perfectly with the vibrant flowers. Zones: 5-8
Each of the above: (30D5) 500 sds - \$10.85
1,000 sds - \$17.45 5,000 sds - \$39.50
10,000 sds - \$65.60

CERASTIUM

Silver Carpet, Snow-in-Summer
39,000 sds/oz 65° 2 weeks

Light will help germination. One of the most valuable plants for the rock garden. Blooms May - July.

TOMENTOSUM COLUMNAE - 5722

Perennial. 8 in. - 80,000 S. C. tomentosum. (Snow-In-Summer). Highly valued for its wooly grey foliage and smothered in luminous white flowers. Great for rock gardens or for poor, dry soil. Beautifully used as a path edging or a lawn substitute for areas with light foot traffic. Plant in pockets of a stone wall for a cascading effect, on steep slopes or cascading over the edges of containers. Zones: 2-7

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

CHEIRANTHUS

Common Wallflower

19,000 sds/oz 60° 5 days

After sowing, do not cover with media. Will flower the first year from seed. Will attract butterflies all season.

ORANGE BEDDER - 5725

⌘ Perennial. 18 in. - 30,000 S. C. cheiri. Clusters of clove scented, vivid deep orange flowers above lance-shaped, dark green leaves. Old fashioned wallflower with a neat and compact habit. Ideal for edging and low bedding, especially suitable for patio containers or where border space is limited. Zones: 5-9

1,000 sds - \$11.60	2,000 sds - \$19.90
5,000 sds - \$26.85	10,000 sds - \$36.80
	(31D5)

COREOPSIS

Tickseed

10,000 sds/oz 60° - 65° 18 days

After sowing seed, cover lightly with vermiculite. Light will help germination. Real valuable plant for cutting. Blooms June-September the same year sown. Will attract butterflies and songbirds and help repel deer all season. Nice cutflower.

DOUBLE THE SUN - 5706

① Perennial. 12-14 in. - 15,000 S. C. grandiflora. Earliest, compact and large 2 1/2 in., semi-double blooms in a straight yellow color. 2-3 weeks earlier to finish than Presto. Zones: 4-9

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

GOLDEN GLOBE - 5733

⌘ ① Perennial. 15-20 in. - 12,500 S. C. grandiflora. Large double, golden orange balls on bright green foliage. Zones: 5

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

COREOPSIS (continued)

EARLY SUNRISE - 5734

① Perennial. 18 in. - 11,000 S. C. grandiflora. (All America Winner - 1989). Produces spectacular semi-double, 2 in., golden yellow petals surrounding a honey-brown eye and crowded atop neat, compact plant. Self-cleaning, so no need to deadhead. Heat and drought tolerant. Ideal for packs or container sales.

Weeks to flower: 14. Zones: 3-9

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

PRESTO - 5709

① Perennial. 10 in. - 17,000 S. C. grandiflora. Large and very showy blooms cover this super compact plant. Each bloom measures 2 - 2 1/2 in., with a small golden-red center and frizzled, serrated petals that stand out beautifully. Unpalatable to deer, tolerant of drought, withstands unseasonable heat, humidity and even cold without dropping a leaf. It thrives in poor soils as well as moist enriched ones and sets new buds continuously, especially when the flowers are cut or deadheaded promptly. Ideal for pots, window boxes and rock gardens. Zones: 4-9

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

SUNFIRE - 5693

① Perennial. 20-36 in. - 10,000 S. C. grandiflora. Large flowers are yellow with a burgundy red center. Flowers the first year, well-matched to Rising Sun for timing and habit. Weeks to flower: 10-12. Zones: 4-9

SUNKISS - 5704

① Perennial. 12-14 in. - 14,000 S. C. grandiflora. Primed seed. A color breakthrough. The brightest yellow with large blotch. Larger, deep red blotch and larger flowers than Sunfire. Fast finish with timing similar to Rising Sun. Excellent heat tolerance for novice and expert gardeners alike, reliable, easy to grow and the color blends well with almost everything. Zones: 4-9

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

SUNRAY - 5737

⌘ ① Perennial. 12 in. - 14,000 S. C. grandiflora. An extravagant bloomer that will light up the garden with its double, deep golden yellow flowers. Excellent for borders or rock gardens. Zones: 4-9

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60
	(30D5)

DAISY, SHASTA

Leucanthemum Maximum

20,000 sds/oz 70° 12 days

Needs light to germinate. Plant where soil is well drained. Blooms May-September the same year sown. Will attract butterflies all season. Outstanding cut flower.

ALASKA - 5747

⌘ Perennial. 24-36 in. - 25,000 S. Leucanthemum superbum. One of the oldest and still one of the best. Explodes in a burst of pure white petals that radiate from the soft yellow eyes. Under the flowers, there's a neat backdrop of the glistening, deep green foliage. The long-lasting 3-4 in. across blooms look great in a vase or bouquet. Mix with lady's mantle, salvias, star zinnias and coreopsis for a vibrant, dramatic display. Zones: 4-9

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

CRAZY DAISY - 5094

⌘ ① Perennial. 24-28 in. - 22,500 S. Leucanthemum superbum. No two blooms are alike on this incredible daisy. The 2 1/2 in. blooms are fully double, in fact, they're so crammed with petals you might be tempted to call them triple. The petals take just about every form you can imagine, from quilled to frilled to twisted to flat. Solid white petals around a small, buttery center. Zones: 4-9

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

DIENERS EXHIBITION DOUBLE - 5752

⌘ Perennial. 28-30 in. - 21,500 S. Leucanthemum maximum. Large 6 in., frilly white flowers with yellow centers, produces over 50% double and semi-double flowers with nice large single flowers on the rest. The finest large double Shasta from seed. Zones: 4-9

G. MARCONI DOUBLE WHITE - 5748

⌘ Perennial. 28-36 in. - 20,000 S. Leucanthemum maximum. Large double and semi-double flowers up to 6 in. in diameter carried on long stems. The finest of the double shasta daisies. Zones: 4-9

Each of the above: (30D5)	500 sds - \$10.85
1,000 sds - \$17.45	5,000 sds - \$39.50
	10,000 sds - \$65.60

MADONNA - 5745

① Perennial. 8-10 in. - 26,000 S. Leucanthemum x superbum. (F-1 Hybrid). Covered with pretty, clear white flowers with a yellow center. Some petals may have laced-edge petals for a unique look. Compact, sturdy plants build a new layer of flowers on top of the old ones. Features excellent vigour and leaf quality of optimal finishing in quarts to large containers using multiple plugs. Better uniformity in height and habit. Zones: 3-9

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

DAISY, SHASTA (continued on next page)

DAISY, SHASTA (continued)

SILVER PRINCESS - 5751

⌘ ① Perennial. 12 in. - 30,000 S. Chrysanthemum maximum. (Little Miss Muffet). Lovely dwarf verison of the much taller ones. Bright white flowers with sunny-yellow centers cover the petite plant early summer. Excellent in the front of the perennial border. Very hardy and reliable. Zones: 4-9

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60 (31C5)

SNOW LADY (ENHANCED) - 5746EN

① Perennial. 10 in. - 26,000 S. Leucanthemum superbum. (F-1 Hybrid). (All American Winner - 1988). Will bloom the first year as a hardy perennial and is very early to flower. Pure white 2 1/2 in. flowers with contrasting yellow eye in the center. Ideal in 3 1/2 or 4 in. pots as they begin to flower at 6 in. tall. Enhanced seed 95% + germination. Zones: 4-9

WHITE LION - 5744

Perennial. 8-10 in. - 33,000 S. Leucanthemum x superbum. (F-1 Hybrid). Compact and early flowering, featuring huge white, flowers with a yellow center. Flowers earlier than most varieties, usually in early spring. Zones: 3-9

Each of the above: (26Z5)	50 sds - \$11.90
100 sds - \$15.60	200 sds - \$23.70
500 sds - \$37.60	1,000 sds - \$62.35

Delphinium.

Also see listing of Larkspur under Annuals.

DELPHINIUM

10,000 sds/oz 80° days - 65° nights

8-15 days

For the best germination, freeze seed for 5 days before sowing. Sow seed, cover lightly and alternate temperature of 80° days and 65° nights. Do not let media dry out; maintain even moisture level on surface. (Belladonna and Bellamosum types germinate best at 70° constant temperature.) Small pots and packs are not recommended for growing Delphiniums. Like Zinnias, they are susceptible to root rot brought on by overwatering. Outstanding cut flower. Blooms June - September, the same year sown. Will attract hummingbirds and butterflies all season.

AURORA BLUE - 5412

⌘ ① Perennial. 36-48 in. - 9,000 S. D. elatum. (F-1 Hybrid). Dense flower spikes on strong stems. Large 2-2 1/2 in. fully double flowers with white bees. Excellent uniformity and vigor.

Weeks to flower: 18 weeks. Zones: 3-7

10 sds - \$11.70	25 sds - \$17.60
50 sds - \$23.70	100 sds - \$36.70
250 sds - \$72.10	(24H5)

DELPHINIUM (continued)

BLUE BUTTERFLY - 5794

① Perennial. 10-12 in. - 25,000 S. D. grandiflorum. (Butterfly compacta). A bushy well behaved mound of finely dissected foliage that never needs staking. A unique color difficult to find in any annual or perennial, produces racemes of gentian blue flowers, a rich true gentian blue. Hints of violet can be seen at the tips of some petals and the centers. Perfect for front of the border, it also makes an excellent container plant. Zones: 3-7

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60 (31C5)

BLUE DONNA (VIOLET BLUE)

Crop failure. As a substitute, we suggest Clivedon Beauty (Belladonna).

BLUE MIRROR - 5770

⌘ ① Perennial. 16 in. - 24,000 S. D. grandiflorum. Beautiful navy blue flowers without spurs. Will flower first year sown. Zones: 2-7

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

CLIVEDON BEAUTY (BELLADONNA) - 5764

⌘ ① Perennial. 48 in. - 9,000 S. D. belladonna. (Clivedon Beauty). The most popular light blue. Will flower the first year from seed. Zones: 3-7

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

DELPHINA SERIES

Perennial. 18 in. - 12,000 S. D. elatum. First genetic dwarf Delphinium, it needs no or very little PGR's yet they will make a well branched plant with strong flower spikes.

Dark Blue / White Bee - 5789

Light Blue / White Bee - 5790

Each of the above: (28G5)	100 sds - \$13.05
200 sds - \$17.30	500 sds - \$27.60
1,000 sds - \$43.70	2,000 sds - \$71.30

GUARDIAN BLUE - 5250

⌘ Perennial. 48-60 in. - 12,500 S. (F-1 Hybrid). D. elatum. A breeding breakthrough, with very uniform blooming within each variety, especially under short days. Outstanding as a tall landscape, bedding variety, commercial cut flower, or in potted plant programs. Premium seed quality, minimum 90% germination standard and more uniform germination.

25 sds - \$13.15	50 sds - \$17.45
100 sds - \$23.70	300 sds - \$51.10
500 sds - \$71.70	(25F5)

DELPHINIUM (continued)

MAGIC FOUNTAIN SERIES

⌘ ① Perennial. 24-30 in. - 15,500 S. D. elatum. A dwarf version of the Pacific Giants. A balanced blend of beautiful colors. Outstanding cut flower. Will flower the first year sown. Zones: 3-8

Select mix of white bee colors.

PACIFIC GIANT SERIES (ENHANCED)

⌘ ① Perennial. 48-60 in. - 14,500 S. D. elatum. (Benary's Pacific Giants Hybrids). One of the most common series grown in the garden. An upright, herbaceous perennial with strong stems and divided, dark-green foliage. Will bloom from late spring until mid summer. Nice cut flower. ENHANCED SEED for improved and more uniform germination. Weeks to flower: 16-18. Zones: 2-7

Astolat - 5771EN ⌘ ①

Shades in pale blush, lilac, pink, raspberry-rose with dark bees.

Black Knight - 5773EN ⌘ ①

Deep midnight violet.

Blue Bird - 5772EN ⌘ ①

Clear medium blue, white bee.

Blue Jay - 5774EN ⌘ ①

Brilliant true medium blue, dark bee.

Galahad - 5776EN ⌘ ①

The finest clear white delphinium.

Guinevere - 5777EN ⌘ ①

Pinkish-lavender with white bee.

King Arthur - 5778EN ⌘ ①

Royal violet with white bee.

Summer Skies - 5780EN ⌘ ①

Clear light blue with white bee.

Mixture - 5788EN ⌘ ①

A formula blend of the above colors, not a field grown mixture.

Dianthus-Sweet William. Also see listing of *Dianthus* under **Annuals**.

DIANTHUS-SWEET WILLIAM

Sweet William

26,000 sds/oz 64°-68° 7-14 days

D. barbatus. Including both tall and dwarf varieties, as well as single and double flowers, this class of dianthus is often referred to as Sweet William and is typically grown as a biennial. Likes well drained soil and full sun. Blooms June-September. Will flower the same year as sown. Will attract butterflies all season.

DOUBLE MIDGET MIXTURE - 5822

Perennial. 6-8 in. - 33,000 S. *D. barbatus*. (Pinocchio Dwarf Mixture). Produces a low mound of light green leaves, bearing showy clusters of bright double flowers in mixed shades from white through to pink, salmon and red, often with a contrasting eye. Excellent for edging or massing. Zones: 2-9

OESCHBURG - 5769

⌘ Perennial. 24 in. - 28,000 S. *D. barbatus*. Crimson-black foliage and deep violet purple flowers. Beautiful in the border and perhaps one of the most attractive cut flowers. Zones: 3-8

SINGLE FINEST MIXTURE - 5811

⌘ Perennial. 24 in. - 34,500 S. *D. barbatus*. A mixture of a bicolor red and white, pink, red and white. The blooms make an excellent cut flower. Scented flowers that attract butterflies and hummingbirds. Zones: 3-8

Digitalis. Also see listing under **Annuals**.

DIGITALIS

Foxglove 65° 10 days

For the best germination do not cover seeds after sowing in indented rows. Light will help germination. Blooms May - September. Nice cutflower. Will repel deer from the garden. A source of the heart healing drug. Does well in shade. Will attract hummingbirds and butterflies all season.

AMBIGUA - 5853

⌘ Perennial. 30 in. - 128,000 S. *D. grandiflora*. Leaves form tight rosettes and send up 2 ft. spikes of large, bell-shaped butter-yellow flowers with tawny freckles inside. Use at the edge of a path or nestle into a rock garden. Looks especially nice when planted along fences, at the woods edge or in large containers. Zones: 3-8

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55

(30A5)

APRICOT BEAUTY - 5854

⌘ Perennial. 48 in. - 238,000 S. *D. purpurea*. Soft apricot-pink flowers create the classic cottage garden look. Easy to grow in full sun to part shade. Prefers moist soil. Zones: 4-8

5,000 sds - \$10.50	10,000 sds - \$17.90

CANDY MOUNTAIN - 5229

☞ Perennial. 36-48 in. - 295,000 S.
D. purpurea. Peach flowers which turn
lilac as blooms mature, encircle the tall,
straight stems of this delectable Foxglove.
The individual bell-shaped blooms face
upwards, showing charming speckled
throats irresistible to hummingbirds and
gardeners alike. These large flower spikes
are supported by thick stems that defy wind
and rain. Zones: 4-8

D. purpurea. Exciting and interesting as
the white blooms with speckled throats
and dark bold wine red markings have an
intriguing split lower lip, giving a beautifully
full ruffled effect. Unique in producing
several elegant upright stems from the
crown giving a more impressive and longer
lasting summer display. Eye catching in
borders or cottage gardens. Zones: 5-9

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

DORONICUM

Leopard's Bane

35,000 sds/oz 60°-70° 21 days

For the best germination do not cover seeds
after sowing. Light will help germination. 2 to
2-1/2 in. Gerbera-like flowers, fine for cutting.

LEONARDO COMPACT - 6633

① Perennial. 8-12 in. - 43,000 S.
D. orientale. One of the earliest daisy-
flowered perennials to bloom, these make a
bright display in the spring garden. Uniform
flowering up to two weeks earlier than other
varieties. Plants form a bushy mound of
fresh green leaves, bearing loads of large
yellow daisies for several weeks. Excellent
for combining with tulips or other spring
blooming bulbs. Foliage may go dormant in
summer, particularly in hot, humid regions.
Clumps may be easily divided in early fall.
This strain boasts an even, uniform habit.
Compact habit works great in quart and
gallon pots. Weeks to finish: 17-20.
Zones: 4-7

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

LITTLE LEO - 5850

Perennial. 12-15 in. - 28,000 S. D. orientale.
Very early, 2 1/2 in. bright yellow semi-
double blooms. Dwarf, compact habit make
it ideal for spring pot sales.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

ECHINACEA

Coneflower (Formerly Rudbeckia purpurea)
7,000 sds/oz 70° 20 days

Outstanding cut flower, blooms July-
September. Will flower the first year from
seed. Will attract butterflies, hummingbirds,
and songbirds all season as well as help
repel deer. Praised for their cheerful brightly
colored flowers, coneflowers are a mainstay
in today's garden. Be sure to leave some
spent blooms on the plants in the fall
because their seeds provide winter food for
finches and other birds. Echinacea is best
known for its ability to stimulate the body's
immune system, especially against colds, flu
and other acute infections. Today, science
uses this herb to treat burns, eczema, cold
sores, herpes, and arthritis.

ARTISAN COLLECTION

☞ ① Perennial. 6,000 S. E. hybrida.
(F-1 Hybrid). The first F-1 hybrid Echinacea
collection from seed. Offers consistency
of plant structure for a uniform, highly
branched plant full of 3-4 in. blooms. It
also provides uniformity of flowering, so
all plants are ready to sell at the same
time. The benefit of a seed input provides
flexibility for production so its fits better in
your schedule. For uniform flowering plants,
production under short days (less than 10
hours of daylight) should be done until 7
true leaves have developed. ENHANCED
SEED for improved and more uniform
germination. Weeks to flower: 18-22.
Zones: 4-10

Red Ombre - 6687EN ☞ ①

16-28 in. - Flowers open red and soften in
color with age.

Soft Orange - 6688EN ☞ ①

16-28 in. - Flowers open deep orange and
soften as they mature.

Yellow Ombre - 6690EN ☞ ①

24-34. - (All America Winner - 2023).
Golden yellow. More upright habit and the
foliage is a lighter mid-green.

Each of the above: (24N5)	10 sds - \$18.60
25 sds - \$36.05	50 sds - \$50.95
100 sds - \$94.55	250 sds - \$198.55

BRAVADO - 6224

☞ Perennial. 48 in. - 8,000 S. E. purpurea.
The ultimate selection in ornamental
Echinaceas. Extra large rosy-red flowers
with a maroon center. If the petals are
removed, the center can be used as an
ornamental; dried or fresh. Heat tolerant
and winter hardy. Zones: 3-8

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45

ECHINACEA (continued)**CHEYENNE SPIRIT - 6217**

☞ ① Perennial. 18-30 in. - 7,000 S.
E. hybrida. (All America Winner - 2013).
Brilliant color range features sought after
shades of red, orange, purple, scarlet,
cream, yellow and white in an interesting
mixture. Excellent genetics for extremely
well-branched plants means more
flowers on every plant. Attracts birds and
butterflies.

10 sds - \$11.40	25 sds - \$16.80
50 sds - \$22.70	100 sds - \$34.95
250 sds - \$68.25	(24C5)

GREEN TWISTER - 6492

☞ ① Perennial. 24-36 in. - E. purpurea.
A unique and striking bicolor. Abundant
blooms with horizontally-arranged, lemon-
green petals. The lively green bloom will
show natural variations in the color and size
of the green edge. Petals will transition to
a light pink or carmine-red color near the
center cone. Zones: 3-8

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

MAGNUS - 6231

☞ Perennial. 40-48 in. - 7,500 S.
(Perennial Plant of the Year). E. purpurea.
Large, 4 in. rose-red blooms with a dark rose
center. Ideal for borders or cut flower. Very
hardy. Zones: 3-8

250 sds - \$11.90	500 sds - \$15.60

5,000 sds - \$60.60	(29C5)

MELLOW YELLOWS - 6459

☞ ① Perennial. 30 in. - E. purpurea.
Beautiful spectrum of yellow shades,
creamy, lemon and dark yellow. Abundant
and long lasting blooms. Attracts butterflies
and other pollinators. Zones: 4-8

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

POLLY NATION SERIES

☞ ① Perennial. 26 in. - 6,500 S.
E. purpurea. First year flowering Echinacea
from seed. Very early flowering. Large
flowers with striking colors. Well branching
plant habit. Perfect patio and garden plant
with excellent heat and drought tolerance.
Attractive to bees and a wide range of
insects. ENHANCED SEED for improved and
more uniform germination. Weeks to flower:
12-16. Zones: 4-9

Magenta - 6294EN ☞ ①**Orange Red - 6295EN** ☞ ①**White - 6297EN** ☞ ①**Yellow - 6296EN** ☞ ①

Each of the above: (24C5)	10 sds - \$11.40
	25 sds - \$16.80
	50 sds - \$22.70

	250 sds - \$68.25

**PINK SHADES - Crop failure. As a substitute,
we suggest Polly Nation Magenta
(enhanced).**

ECHINACEA (continued)**POW WOW WHITE - 6603**

☞ ① Perennial. 16-24 - 7,000 S.
E. purpurea. Pure, clean white with yellow
center. More flowers per plant than any
Echinacea on the market both first and
second year. Well-branched and more
uniform for a fuller look. Weeks to flower:
20. Zones: 4-9

POW WOW WILD BERRY - 6460

☞ ① Perennial. 16-24 in. - 7,000 S.
E. purpurea. (All America Winner - 2010).
Gardeners will love the deep rose-purple 3-4
in. flowers that will retain color on the plant
longer. More flowers per plant compared
to other Echinacea varieties on the market.
Weeks to flower: 20. Zones: 4-9

Each of the above: (25H5)	25 sds - \$13.95
50 sds - \$18.65	100 sds - \$26.75
300 sds - \$56.20	500 sds - \$79.75

PRAIRIE SPLENDOR SERIES

① Perennial. 6,000-8,000 S. E. purpurea.
Extra large blooms are presented atop
compact, well-branched plants. Makes very
distinctive potted plants. Vernalization is
beneficial, but not necessary. Weeks to
flower: 11-13. Zones: 3-9

Compact Rose - 6226 ①

14-16 in. Deep-rose.

Compact White - 6680 ①

14-16 in. Ivory white.

Each of the above: (25D5)	25 sds - \$12.25

	(30C5)

ECHINOPS**Globe Thistle****2,000 sds/oz 65°-70° 2 weeks**

*For the best germination do not cover seeds
after sowing. Light will help germination.
Blooms July-September. Nice cutflower, fresh
or dried. Will attract butterflies all season.*

RITRO - 5871

☞ Perennial. 24-36 in. - 2,000 S.
E. bannaticus. Clean Seed. Globular,
metallic blue flower heads on wooly stems.
Outstanding fresh or dried. Zones: 3-8

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

STAR FROST - 5870

☞ ① Perennial. 36-40 in. - 1,800 S.
E. bannaticus. Shorter and better branched
than other species, with golf-ball size, silver
white blooms and deep green foliage with
silver undersides. Dries well for winter
arrangements. Zones: 3-8

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

ERIGERON**Fleabane, Spanish Daisy****65°-70° 2 weeks**

*Will bloom May-August of the same year
from sowing. Roman naturalists detected
that this herb repelled fleas - this is where
the name fleabane was derived from. Grow
in your garden to control insects by rubbing
the leaves on your clothing or pets to repel
fleas, mosquitoes, ticks, gnats, and flies.
Nice cut flower.*

PROFUSION - 5876

Perennial. 8-10 in. - 400,000 S.
E. karvinskianus. This hardy perennial will
flower in just 3 months from seeding. The
beautiful white changing to pink flowers
will bloom all summer. The 1/2 to 3/4 in.
daisy-like flowers are outstanding for beds,
borders, tubs and hanging baskets.
Zones: 6-9

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

ERYNGIUM

Sea Holly

6,000 sds/oz 65°-75° 7-10 days

For the best germination, freeze seed 3 -5 days before sowing. Will bloom June-September.

BLUE GLITTER - 5916

⌘ ① Perennial. 36-40 in. - 20,000 S.

E. planum. Only first year flowering Eryngium! Small, shimmering blue pincushion flowers. A durable perennial with long stems, ideally used for garden borders and as a fresh and dried cut flower.

Zones: 4-8

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

BLUE HOBBIT - 5917

Perennial. 10-12 in. - 27,000 S. E. planum.

First genetically compact Eryngium on the market! Tight silver-blue stems form a globe-like flower head. Requires vernalization. Weeks to flower: 28-32.

Zones: 4-8

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

ERYSIMUM

18,000 sds/oz 68° 14 days

CANARIES YELLOW - 6052

Perennial. 12 in. - 20,500 S. E. hybridum. First color to kick off early spring. Clusters of delicate canary golden yellow flowers from March-May will provide early season bee pollen. A great plant for a rock garden or a flowering pot plant for the patio. Zones: 4

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

CITRONA ORANGE

Sorry, no longer available.

CITRONA YELLOW

Crop failure. As a substitute, we suggest Canaries Yellow.

EUCALYPTUS

65°-75° 2 weeks

ALBANY - 6694

⌘ Perennial. 32-40 in. - E. preissiana.

Oval shaped, large, green leaves. Mature plants can produce attractive yellow flowers under the required conditions. Suitable for floral arrangements.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

EUCALYPTUS (continued)

BABY DWARF FLORIST BLUE - 6691

⌘ Perennial. 12-30 in. - 31,500 S.

E. pulverulenta. An absolute favorite with floral artists. The more you pick, the bushier the plant becomes, giving you more useful foliage. Foliage is an intense silvery blue with round leaves that appear to grasp the stem. Good species for the smaller garden plot or grow in an air-pot on your terrace.

Zones: 8-11

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

GLOBULUS (BLUE) - 5881

⌘ Perennial. 42,000 S. (Blue Gum). Broad, shiny leaves on smooth gray-white stems.

50 sds - \$11.90	100 sds - \$15.60
200 sds - \$23.70	500 sds - \$37.60
1,000 sds - \$62.35	(26Z5)

LEMON BUSH - 5464

Perennial. 36-60 in. - 5,600 S. A quick and easy to grow species with slender stems and unusual sword shaped silvery green foliage, which becomes tinged with red as autumn approaches. Crush the foliage and it gives off a refreshing spicy lemon aroma which is known to deter mosquitos. Ideal for indoor or patio. Zones: 9

10 sds - \$10.40	25 sds - \$14.90
50 sds - \$19.75	100 sds - \$29.70
250 sds - \$56.75	(24D5)

MURRAY - 6693

⌘ Perennial. 24-32 in. - 264,000 S.

E. populnea. Oval shaped, large, green-blue leaves. Compact plant habit. Light menthal scent. Perfect for pots and containers.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26C5)

SALIGNA - 6681

⌘ Perennial. 8,800 S. (Sydney Blue Gum).

Bark is smooth with a powdery white or grey color. Typically grown as a cut flower Annual. Young leaves are ovate and are glossy green to dark green. Adult leaves are narrow tapering toward the base and are dark green. Could reach up to 150 feet tall.

Zones: 9-10

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

SILVERDOLLAR - 6682

⌘ ① Perennial. 72-120 in. - 45,000 S.

E. cinerea. Attractive blue-green, coin shaped juvenile leaves, opposite on the pendulous stems. Elegant for cut foliage. A choice evergreen rounded shrub or shade tree, withstanding heat, dry conditions and wind when established. Suitable as a container specimen for patio, conservatory or in a bright indoor space. Zones: 8-10

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

EUCALYPTUS (continued)

SILVERDOLLAR GUM - 6689

⌘ Perennial. 43,500 S. E. polyanthemus.

A fast growing tree with an upright, rounded to irregularly shaped habit. The gray green oval leaves are attached to the white stems by long leaf petioles which make the leaves dangle. A peppermint scent is released when leaves are crushed. Popular variety in cut flower arrangements.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

STYX - 6692

⌘ Perennial. 80-100 in. - 10,300 S.

E. globulus. Attractive, large, silvery-blue elongated leaves. Fast growing and vigorous plant with extraordinary branching.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

EUPHORBIA

Cushion Spurge, Donkeytail, Spurge or Wolfmilk

For best germination, alternate soil temperature from 85° days, 70° nights.

Cover seeds lightly after sowing 3-4 weeks.

For the best germination, freeze seed for 5-7 days before sowing. Blooms April-June. Will attract birds and help repel deer all season.

MYRSINITES - 5883

Perennial. 6 in. - 2,500 S. Gray trailer, succulent-like silvery green foliage with brilliant yellow flowers in April-July.

Zones: 5-9

100 sds - \$14.35	200 sds - \$19.25
500 sds - \$31.55	1,000 sds - \$50.75
2,000 sds - \$83.60	(28I5)

POLYCHROMA - 5884

Perennial. 15-18 in. - 8,000 S.

E. epithymoides. Bushy plants with bright yellow bracts in April changing to rosy bronze in the fall. Zones: 4-7

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20

ENLIGHTENED PERSPECTIVE

I've learned..... That just one person saying to me, 'You've made my day!' makes my day.

GAILLARDIA

Blanket Flower

7,000 sds/oz 70° 5-15 days

After sowing seed, cover lightly with vermiculite. Light will help germination. Showy, daisy-like flowers held above lobed, hairy foliage. Excellent for borders or as a cut flower. Blooms June-September. Will flower the first year from seed.

ARIZONA APRICOT - 6810

① Perennial. 12 in. - 10,400 S. (All America Winner - 2011). *G. grandiflora*. Distinctive apricot flower color of the 3-3 1/2 in. daisy-like flowers, described as exceptionally lovely and lighter in color than traditional gaillardia. Blooms have yellow edges that deepen to a rich apricot in the center. Compact, free-flowering plants offer bright green foliage and a tidy uniform habit. Great impact in pots, mixed containers or the landscape. Zones: 2-10

ARIZONA RED SHADES - 6811

① Perennial. 12 in. - 10,800 S. *G. grandiflora*. Produces masses of deep crimson flowers. Flowers as early and uniform as highly awarded Arizona Sun. Thrives under a wide variety of climatic conditions. Weeks to flower: 13-14. Zones: 2-10

ARIZONA SUN - 5893

① Perennial. 8-10 in. - 10,500 S. *G. grandiflora*. (All America Winner - 2005). (Fleuroselect Gold Medal). Compact, bushy plants are early blooming and thrive in the hot sun; very heat and drought tolerant. Abundant, 2-3 in. flowers are bright red with yellow tips. Weeks to flower: 13-14. Zones: 2-10

Each of the above: (28H5)	100 sds - \$13.70
200 sds - \$18.25	500 sds - \$29.60
1,000 sds - \$47.20	2,000 sds - \$77.45

BURGUNDY - 5896

⌘ ① Perennial. 28 in. - 10,000 S. *G. grandiflora*. Wine-red flowers. Will flower the first year from seed. Zones: 2-9

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

GOBLIN - 5898

① Perennial. 12 in. - 12,000 S. *G. grandiflora*. Add a flamboyant color scheme to the garden. Pleasing banded flowers with sunny yellow-gold serrated tips surround red petals and centers to give it a ruffled appearance. Compact low mounds of downy, olive green leaves are highlighted by the bold, long-blooming flowers. Very drought resistant. Spent flower heads can be left to attract goldfinches to the seed. Zones: 2-10

250 sds - \$16.80	500 sds - \$22.95
1,000 sds - \$32.55	2,000 sds - \$52.50
5,000 sds - \$106.55	(29G5)

GAILLARDIA (continued)

MESA SERIES

① Perennial. 16-18 in. - 7,100 S. *G. grandiflora*. (F-1 Hybrid). Clean seed. Intense, non-fading color all season on upright, well branched plants that perform well in landscapes and mixed containers. Vigorous, but still maintains a controlled height. Very drought tolerant once established. Weeks to flower: 16-18. Zones: 5

Bright Bicolor - 5452 ①

Bright red flowers with a bright yellow band.

Peach - 5454 ①

Bright yellow blooms with orange at the base of the petals.

Red - 5455 ①

Yellow - 5453 ①
(All America Winner - 2010). Clean, bright yellow (not gold).

Each of the above: (25B5)	25 sds - \$10.90
50 sds - \$14.75	100 sds - \$19.90
300 sds - \$39.35	500 sds - \$55.50

GAURA

1,500 sds/oz 70° 10-20 days

Light will help germination.

LINDHEIMERI (THE BRIDE) - 5901

⌘ ① Perennial. 36-42 in. - 3,000 S. Plants will produce 1 in. single white flowers which mature to pink early every spring and fall. Outstanding cut flower. Will flower the first year from seed.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

SPARKLE WHITE - 5902

① Perennial. 10-12 in. - 1,750 S. (All America Winner - 2014). Bring a touch of airy elegance to the garden with long slender stems sporting a large number of dainty white flowers tinged with a pink blush. This beauty is perfect mass planted in sun-drenched landscape beds, in groupings with other perennials or in larger containers. Home gardeners will appreciate that this season-long bloomer also has excellent heat tolerance and a more uniform flowering habit than other seed gauras.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

GERANIUM, PERENNIAL

2,500 sds/oz 65°-75° 10-14 days

Cover seed lightly. Sow July through August to vernalize plants for flowering sales the next spring. Sow 3-4 months in advance for green plant sales. Will attract butterflies and songbirds all season.

VISION SERIES

Perennial. 10-16 in. - 2,500 S.

G. sanguineum. Spreading masses of color from late spring into summer, providing striking red foliage in the fall. The flowers add a nice contrast to the deeply lobed dark green leaves. ENHANCED SEED for better and more uniform germination. Drought tolerant. Excellent series for rock gardens, stone walls or as a ground cover. Zones: 3-8

Light Pink - 5498EN

Pink flowers with ornate red veins.

Violet - 5905EN Rosy-purple.

Each of the above: (25I5)	25 sds - \$14.15
50 sds - \$19.25	100 sds - \$28.85
300 sds - \$58.15	500 sds - \$87.95

GEUM

7,000 sds/oz 3 weeks

For the best germination, cover seeds lightly after sowing and maintain soil temperature of 85° days and 70° night. Light will help germination. Blooms May-August. Nice cutflower. Will attract butterflies and songbirds all season.

BLAZING SUNSET - 6458

⌘ ① Perennial. 20-24 in. - 12,000 S. *G. avens*. (Double Bloody Mary). Large 2 in. bright red fully double flowers that will bloom all summer. Outstanding garden performance and ideal cut flower, will flower the first year from seed. Zones: 3-9

25 sds - \$15.60	50 sds - \$21.10
100 sds - \$31.45	300 sds - \$65.95
500 sds - \$101.80	(25L5)

KOI (ENHANCED) - 6599EN

① Perennial. 8 in. - 25,000 S. *G. coccineum*. The name really says it all. Lively orange flowers are held above downy, slightly scalloped, semi-evergreen foliage from early spring into summer. Ideal for pots on the patio, in border fringes or raised beds. A hardy plant which will survive normal winter conditions outside, especially if protected from the worst frosts. ENHANCED SEED for better and more uniform germination. Zones: 5-7

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35

HIBISCUS

Rose Mallow

2,100 sds/oz 70° - 80° 10-14 days

For the best germination, let the seed soak in warm water for 48 hours before sowing. Be sure to change the water daily. Cover seeds lightly after sowing. Darkness will help germination. Blooms July - September. Will attract butterflies and songbirds all season.

DISCO BELLE SERIES

① Perennial. 20 in. - 2,000 S. H. moscheutos. (F-1 Hybrid). Beautiful 9 in. diameter flowers. Basal branching habit with compact growth make it an outstanding garden performer. (Will require protection where winters are very severe.) Zones: 5-9

Pink - 5963 ① White - 5960 ①

Mixture - 5958 ①

A mixture of all the above.

Each of the above: (24L5) 10 sds - \$13.70

25 sds - \$21.10 50 sds - \$29.60

100 sds - \$47.20 250 sds - \$95.10

ROSY RED - Discontinued. As a substitute, we suggest *Luna Red*.

HIBISCUS (continued)

LUNA SERIES

① Perennial. 24-36 in. - 2,800 S.
H. moscheutos. Very dramatic and impressive plant with many large, eye catching, 6-8 in. flowers. A big, bushy, well branched plant. Excellent show in the ground, will make a neat hedge with multiple blooms. Also well-suited to large containers. Zones: 5

Pink Swirl - 6578 ①

Dark eye and pink picotee pattern.

Red - 6573 ①

Rose - 6574 ① Deep clear rose.

White - 6579 ①

White flower with large red eye.

Mixture - 6580 ①

Each of the above: (24K5)	10 sds - \$12.70
25 sds - \$19.25	50 sds - \$26.65
100 sds - \$41.95	250 sds - \$83.60

MAHOGANY SPLENDOR - 5910

Perennial. 36-60 in. - 2,250 S. H. acetosella. Deep burgundy, maple shaped leaves with serrated edges-are similar to a Japanese Maple. The foliage will have green/rust tones in the greenhouse, but will mature to burgundy in full sun outdoors. Fantastic as a pond plant, it can be grown directly in water. Drought and heat tolerant. Deer resistant. Supplied as scarified seed with an 85% germination standard. Weeks to flower: 9-11. Zones: 8-9

25 sds - \$14.80	50 sds - \$19.85
100 sds - \$30.05	300 sds - \$60.20
500 sds - \$90.90	(25J5)

Hollyhock.

Also listing of Hollyhock under Annuals

HOLLYHOCK

Alcea Rosea

2,000 sds/oz 60° 10 days

Will attract hummingbirds and butterflies all season.

CHATERS DOUBLE SERIES

⌘ Perennial. 72 in. - 5,500 S. Tall spikes of 3-5 in., soft, ruffled, fully double flowers. Perfect for the back of borders and along fences and walls. Blooms June-September. RAW SEED. Zones: 5-8

Maroon - 5970 ⌘

Scarlet - 5973 ⌘

Yellow - 5975 ⌘

Mixture - 5977 ⌘

Each of the above: (29B5)	250 sds - \$10.65

HIBISCUS (continued)

HALO MIXTURE (ENHANCED) - 5985EN

⌘ Perennial. 60-70 in. - 6,500 S.
An assortment of eight unique, distinctive colors and that no other hollyhock looks like these. Extra large, two-tone single blooms. Very hardy, surviving frigid winters and sweltering summers. Destined to become a showstopper in a sunny border, meadow garden or perfect behind shorter, bushier plants. These stunning cottage garden perennials make a beautiful cut flower for vases indoors and the edible flowers can even be added to salads for an attractive, tasty treat. Zones: 3-9

PEACHES 'N DREAMS (ENHANCED) - 6501EN

⌘ ① Perennial. 48-60 in. - 3,000 S.
The ultimate cottage garden plant. Tall, stately flower spikes covered with fully double 4 in. soft creamy peach flowers tinged in raspberry pink. Easy to grow, sow seed in the fall for spring blooms. Will flower the first year from seed. ENHANCED SEED for better and more uniform germination. Zones: 2-9

Each of the above: (25F5)	25 sds - \$13.15
50 sds - \$17.45	100 sds - \$23.70
300 sds - \$51.10	500 sds - \$71.70

SINGLE FLOWERED

Black Beauty - 5961 ⌘

Perennial. 70 in. - 2,000 S. Heirloom. Attention getting deep black satin single flowers with a deep maroon center. Easy to grow, will bloom all summer. Zones: 5-8

Nigra - 5979 ⌘

Perennial. 60 in. - 2,000 S. (The Watchman). Unique dark maroon single flowers. Zones: 5-8

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75

KENILWORTH IVY

Linaria Cymbalaria
600,000 sds/oz

Trailing plants for rock gardens. Small lilac flowers; foliage in long drooping sprays.

KENILWORTH IVY - 6013

Perennial. 6 in. - 170,500 S. Trailing plants for rock gardens. Little scalloped leaves form a low mat, studded with tiny lilac-blue, snapdragon-like flowers. Often included in hanging baskets or containers. Zones: 3-8
1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

Lathyrus (Sweet Pea). Also see listing of Sweet Pea under Annuals.

LATHYRUS (SWEET PEA)

Hardy Sweet Pea

500 sds/oz 55°-65° 3 to 4 weeks

Soak seed in water for 24 hours before sowing. Sow 2 in. deep. A climbing vine that's useful as a screen. Flowers are nice for cutting. Thrives in cool climates with full sun. Will bloom June-September.

MIXTURE - 6022

Perennial. A mixture of pink, red and white.
100 sds - \$11.15 200 sds - \$14.30
500 sds - \$21.70 1,000 sds - \$33.20
2,000 sds - \$52.90 (28D5)

Lavandula.

Also see listing of Lavandula under Annuals and Herbs.

LAVANDULA

LAVENDER

28,000 sds/oz 65°-72° 14-20 days

Freeze seed for 5-7 days before sowing. Needs light to germinate. Nice cutflower that will bloom June-September. Will attract butterflies and repel deer all season. Herb of the Year 1999.

BANDERA SERIES

Sorry, no longer available.

BLUE SPEAR - 6616

⌘ ① Perennial. 11-13 - 27,000 S.
L. angustifolia. The showiest English Lavender you can grow and sell! Bigger and taller spikes than any other lavender, with more upright flower stems that stand closer to each other for huge impact from a distance. Very easy to grow, with high uniformity, good habit and earliness. Weeks to finish: 11-15. Zones: 6-8

50 sds - \$10.90 100 sds - \$14.30
200 sds - \$21.20 500 sds - \$33.00

LAVANDULA (continued)

BLUE SCENT - 6597

⌘ ① Perennial. 14 in. - 28,000 S.
L. angustifolia. Beautiful spikes of fragrant lavender flowers with blue overtones rising above the foliage from early to late summer, which are most effective when planted in groupings. The flowers are excellent for cutting. It has attractive grayish green foliage. The fragrant needles are ornamentally significant and turn coppery-bronze in fall. Lends an extremely fine and delicate texture to the landscape composition which should be used to full effect. Relatively low maintenance shrub and can be pruned at anytime. Good choice for attracting butterflies and bees to your yard, but is not particularly attractive to deer. Has no significant negative characteristics. Weeks to finish: 8-12. Zones: 6

50 sds - \$9.90 100 sds - \$12.55
200 sds - \$18.25 500 sds - \$29.25

SYLVESTRIS - 6109

Perennial. 60 in. - 900,000 S. Nice branching habit, pure white fragrant flowers all season.

500 sds - \$12.50	1,000 sds - \$20.70
5,000 sds - \$44.15	10,000 sds - \$70.75
(30F5)	

OENOTHERA

Evening Primrose

70° days-60° nights 2 weeks

After sowing seed, cover lightly with vermiculite. Light will help germination. Pre-chill seed in refrigerator for 8-10 days before sowing. Blooms June-September. Will attract hummingbirds and songbirds all season.

MISSOURIENSIS - 6122

Perennial. 12 in. - 6,000 S. (Ozark Sundrops, Macroparpa, or Missouri Primrose). A low growing profuse bloomer from June to September. Large 3-4 in. yellow flowers. Zones: 3-8

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
(30A5)	

SPECIOSA - 6124

① Perennial. 8-14 in. - 147,000 S. (Showy Evening Primrose). The outstanding light pink to creamy-yellow flowers will bloom spring to early summer. The plant has a deep root structure and is drought tolerant. Will spread rapidly under high moisture conditions. Will flower the first year from seed.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
(30Z5)	

PENSTEMON

Beards tongue 60° 2-3 weeks

Nice cut flower that will bloom the same year from sowing. Plants bear open clusters of showy, tubular 5-lobed flowers. Will attract hummingbirds and songbirds and help repel deer all season. Will flower the first year from seed. June-September.

ELECTRIC BLUE - 6710

① Perennial. 18 in. - 45,000 S. P. heterophyllus. Multi-stems with branched spikes of intense Delphinium-type blue, tubular flowers. Will flower the first year from seed. Can be grown as an annual as vernalization is not required for flowering.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

PENSTEMON (continued)

HUSKER RED - 6177

☞ Perennial. 36-48 in. - 94,000 S. P. digitalis. (Perennial Plant of the Year - 1996). Beautiful bluish lilac flowers with deep green bronzy-purple foliage. Zones: 3-8

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

MYSTICA (ENHANCED) - 6709EN

☞ Perennial. 28-32 in. - 76,000 S. P. digitalis. Re-selection and improvement to Husker Red, similarities abound with lilac flowers and deep changing foliage. Requires vernalization, but can be sold for its bronze-red leaf coloring. Enhanced seed for improved and more uniform germination. Zones: 4-8

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

RED - 6112

☞ Perennial. 50 in. - 32,500 S. P. barbatus var. coccineus. (Jingle Bells). Attractive 1 in. tubular bell-shaped scarlet flower completely cover the numerous flower spikes and accenting evergreen foliage. An easy to grow variety that is outstanding in the garden and attracts hummingbirds.

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
(30C5)	

PEROVSKIA

Russian Sage

34,000 sds/oz 3-4 weeks

BLUE STEEL - 6596

① Perennial. 18-36 in. - 33,500 S. P. atriplicifolia. Aromatic, silvery foliage carries clouds of small blue flowers on strong silver stems that do not break or split easily. Pinch for optimal branching. Heat and drought tolerant. Very hardy. Weeks to flower: 9-15. Zones: 4-9

25 sds - \$13.95	50 sds - \$18.65
100 sds - \$26.75	300 sds - \$56.20
500 sds - \$79.75	(25H5)

BLUESETTE - 6595

① Perennial. 14-22 in. - P. atriplicifolia. The first and only compact, branching and early Perovskia from seed. Works well at the front of the landscape, as well as in a single premium patio container or mixed combo. Features a long flowering period with ornamental foliage, a pleasing fragrance and attracts bees and butterflies. Weeks to finish: 10-14. Zones: 4-9

10 sds - \$11.40	25 sds - \$16.80
50 sds - \$22.70	100 sds - \$34.95
250 sds - \$68.25	(24G5)

Phlox. Also see listing under Annuals.

PHLOX

3,000 sds/oz 60° 3 weeks

Frost germinator. For the best germination, we suggest freezing seed for 2 weeks before sowing and soaking in warm water for 7 days. Darkness will help germination. Nice cutflower, will bloom June-September the same year sown. It will attract hummingbirds and butterflies and help repel deer all season.

DECUSSATA NEW HYBRIDS - 6129

☞ Perennial. 36 in. - 4,000 S. A strain that blooms in the most beautiful free-flowering color mixture from white, salmon, salmon rose and salmon red to deep rose, purple, violet, burgundy and carmine. The sweetly fragrant, evening scent is captivating. Zones: 3-9

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

PHYSALIS

Chinese Lantern

16,000 sds/oz 65° 12-18 days

Light will help germination. Blooms July-September the same year sown. Nice cutflower, fresh or dried. Attractive lantern-like fruits with star shaped flowers.

FRANCHETTII - 6131

☞ Perennial. 24 in. - 19,800 S. Unique orange-red calyx that resemble illuminated lanterns. Great for fall floral arrangements. Zones: 5-8

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
(30A5)	

PHYSOSTEGIA

Obedient Plant, False Dragonhead

16,000 sds/oz 65°-70° 2 weeks

For best germination, alternate day and night temperatures. Trumpet-like flowers on nice strong stems. Ideal for borders and cutflowers. Blooms July-September.

CRYSTAL PEAK WHITE - 6601

Perennial. 16 in. - 10,000 S. P. virginiana. A dense, well branched habit produces a multitude of bright white flower spikes that do not fade or brown as they age. Excellent for mass plantings, or used as a filler in mixed combination planters. Zones: 4-9

50 sds - \$12.35	100 sds - \$16.65
200 sds - \$25.65	500 sds - \$40.20
1,000 sds - \$65.20	(26F5)

VIRGINIANA ALBA - 6133

☞ Perennial. 24 in. - 11,000 S. P. virginiana. Snow. Pure white flowers. Zones: 2-9

VIRGINIANA ROSE - 6132

☞ Perennial. 24 in. - 14,000 S. P. virginiana. Rose-pink flowers. Zones: 2-9

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

PLATYCODON

Tufted Harebell or Balloon Flower

28,000 sds/oz 65°-70° 10 days

Light will help germination. A showy plant with balloon-shaped flower buds that open into 3 in. cupped flowers with 5 pointed lobes. Nice cutflower. Will bloom June-August the same year sown.

ASTRA SERIES

Perennial. 8 in. - 25,000-31,500 S. (F-1 Hybrid). Long lasting 2-3 inch blooms with thick, durable petals. Zones: 3-8

Blue - 6315 Pink - 6670

Semi-double White - 6669

White - 6671

HEAVENLY HABIT - 6191

Perennial. 10 in. - 25,000 S. P. haydenii. Covered with a profusion of delicate flowers and fuzzy foliage. The pale violet-blue, lightly scented flowers bloom from early to late summer with yellow halos and white eyes. Attractive fern-like foliage adds even more texture.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

Poppy. Also see listing under Annuals.

POPPY

Papaver

175,000 sds/oz 70° 10 days

After sowing seeds, do not cover with media, place flat in a dark area and maintain 70° soil temperature. Cover seed flat with glass and place in dark area. Cup shaped 3-4 in. flowers with 4 broad crepe-like petals borne on stout stems held above the lobed hairy foliage. Blooms May - July the same year sown. Nice cutflower. Will repel aphids in the garden.

GARDEN GNOME - 6179

Perennial. 12-24 in. - 260,000 S. P. nudicaule. A blend of bright orange, red, yellow and white single flowers on long wiry stems. Smooth blue-green lobed foliage rosettes. Zones: 2-6

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

POPPY, ORIENTALE

125,000 sds/oz

Makes colorful beds and borders.

BRILLIANT - 6147

Perennial. 36 in. - 105,000 S. Large paper-thin petals form a bowl around dark ornamental centers. Sunlight makes the translucent fiery, scarlet petals positively glow with color. Zones: 2-7

PRINCE OF ORANGE - 6146

Perennial. 36 in. - 93,500 S. Huge bright orange flowers with crepe paper-like petals that light up the late spring garden. Easy to grow and long lived. Thrives in clay and loves cold winters. Zones: 2-7

Each of the above: (31A5)	1,000 sds - \$9.75
2,000 sds - \$13.15	5,000 sds - \$19.35
10,000 sds - \$28.05	

PRINCESS VICTORIA LOUISE - 6148

Perennial. 36 in. - 104,000 S. One of the most spectacular poppies. Salmon cup-shaped blooms with dark blotches at the petal bases bloom in late spring, then disappear in the summer, to reappear with foliage in the fall. Zones: 2-7

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
	(30C5)

PRIMULA

60°-65° 3 weeks

Sow seed on a light, well drained soil mix. Do not cover seed with media. Maintain soil temperature and keep surface moist. After sowing seed, cover lightly with vermiculite. Light will help germination. Refrigerate seed for 7 days before sowing. Will flower the same year from sowing. Does well in the shade.

SUPERNOVA SERIES

Perennial. 8 in. - 29,000 - 41,000 S. (F-1 Hybrid). Fabulous early spring color. Deep green leaves forms rosettes with extra large 2 in. blooms on multiple flower stems. A vigorous grower with a long bloom times. It has better disease resistance and tolerance to a wider range of temperatures. Great for container plantings. Zones: 5

Blue - 6716 Red - 6718

Mixture - 6719

A formula mixture of Blue, Cream, Fire, Golden Yellow, Pink, Purple Bicolor, Red, Rose Bicolor, White and Yellow.

Each of the above: (26K5)	50 sds - \$15.15
100 sds - \$20.50	200 sds - \$34.05
500 sds - \$55.10	1,000 sds - \$91.25

PRITZELAGO

Chamois Cress (Crystal Carpet) 68°

Rapidly germinating, keep seed in constant moisture (not wet). Seeds must be covered thinly. Do not cover very small seeds, but tightly press into the earth. Keep in cooler conditions after germination.

ICECUBE - 6724

Perennial. 2-4 in. - 100,000 S. Hutchinsia alpina. Low growing mat-forming evergreen that forms a nice solid tufted clump with small pinnate fresh green leaves that look good all year round, even in winter. In spring it bears cluster of small white flowers. The flowers are slightly fragrant. As flowers fade, the flowering stem elongates and new flowers are formed on the same stem. Perfect to use in rock gardens, as a border plant and between stones. Zones: 4-9

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

PYRETHRUM ROSEUM

Painted Daisy

18,000 sds/oz 60°-70° 2-3 weeks

Darkness will help germination. Beautiful 2-3 in. flowers with fern-like leaves. Excellent cutflower. Blooms May-September. Will flower the first year from seed.

ROBINSON DARK CRIMSON - 6209

Perennial. 18-24 in. - 9,000 S. Large, vibrant, crimson red daisies with bright yellow centers. Ideal for cottage gardens, mixed borders and make pretty long-lasting cut flowers. Will flower the first year from seed. Zones: 3-7

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95

RUDBECKIA

30,000 sds/oz 70°-75° 20 days

These varieties requires special treatment for satisfactory germination. Before sowing, freeze seed for 5 days, refrigerate for 5 more days. Sow seed and maintain 70° day temperature, 60° nights. Do not use bottom heat as seed will rot! Nice cutflower. Will attract butterflies all season. Flowers July-September.

GOLDBLITZ (ENHANCED) - 6251EN

⌘ ① Perennial. 24-28 in. - 32,000 S.
R. fulgida var. *sullivantii*. Slightly smaller leaf and flower size than Goldstrum. Will flower fully as an annual crop if sown in early Spring in natural conditions, assuming that Summer provides a minimum of 14.5 hours daylength. Provides a more economical input option for natural daylength growers, as the plugs do not require special treatment. ENHANCED SEED for improved and more uniform germination. Weeks to finish: 15-20. Zones: 3-9

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

GOLDSTURM (ENHANCED) - 6220EN

⌘ Perennial. 24-36 in. - 30,500 S.
(Perennial Plant of the Year). *R. fulgida*. 4 in. golden flowers with dark disks. Will flower August to September. ENHANCED SEED for improved and more uniform germination.
Zones: 3-9

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

RUDBECKIA (continued)

GREEN WIZARD - 6481

⌘ Perennial. 48-60 in. - 15,000 S.
R. occidentalis. Extraordinary and unusual plant. Dark black cones, bright green sepals and no petals! Interesting cut or dried flower. Novel addition to the perennial border. Zones: 3-9

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

TRILOBA (BROWN-EYED SUSAN) - 6482

⌘ ① Perennial. 24-60 in. - 28,000 S.
(Brown-eyed Susan). Outstanding bloom power for 2 months or longer! Sprays of showy yellow flowers with jet black centers that fade to brown. Vigorous plants produce masses of stems for cutting. Perfect addition to any bouquet. Blooms late August to frost first year, July to frost second year. Hardy biennial that may be grown as an annual. Zones: 4-7

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

SAGINA

Irish Moss 70° 14 days

SUBULATA (IRISH MOSS) - 6266

Perennial. 4 in. - 1,428,500 S. (Formerly *Spergula pilifera*). Evergreen creeper, densely tufted, covering the ground like a sheet of moss. White flowers on slender stems. Excellent for rock walls. Will flower June to September. Zones: 4-7

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

Salvia.

Also see listing of *Salvia* under *Annals*.

SALVIA

Flowering Sage

26,000 sds/oz 70° 15 days

Refrigerate seed 5 days before sowing. Sun-loving, erect plants topped with narrow, dense spikes of tubular, 1/2 in. flowers with prominent lips. Aromatic foliage. Nice cut flower. Will bloom July-September the first year sown. Will attract hummingbirds and songbirds all season as well as help repel deer.

MERLEAU SERIES

Crop failure. As a substitute, we suggest *New Dimension Blue*.

NYMPH SERIES

⌘ Perennial. 16 in. - 28,000 S. *S. coccinea*. (Texas Sage). Zones: 7-9

Coral - 6249 ⌘

Coral-salmon and white bicolor flowers.

White - 6250 ⌘

(Snow Nymph) Pure white flowers.

Each of the above: (28Z5)	100 sds - \$11.70
200 sds - \$15.30	500 sds - \$23.70
1,000 sds - \$36.70	2,000 sds - \$58.90

SALVIA (continued)

NEW DIMENSION SERIES

⌘ ① Perennial. 8-10 in. - 31,000 S.
S. nemorosa. Economical and easy to produce creates large, compact and well branched plants topped by strong colored flowers on deep purple stems that are long lasting in the landscape. Leaves are aromatic when brushed against. Perfect for the front of the border, edging or containers. Long blooming, and as a bonus, a quick shearing after blooming will bring fall re-bloom. A real heat lover. Rabbit and deer resistant, attracts butterflies, birds and beneficial for bees. Good for beginner gardeners. Zones: 5-7

Blue - 6795 ⌘ ① Blue-violet.

Rose - 6794 ⌘ ① Deep rose.

Each of the above: (28F5)	100 sds - \$12.35
200 sds - \$16.30	500 sds - \$25.65
1,000 sds - \$40.20	2,000 sds - \$65.20

PATENS (BLUE)

Sorry, no longer available.

PATIO SERIES DEEP BLUE - 6788

Perennial. 12 in. - 3,400 S. *S. patens*. Compact plants with soft green triangular foliage and spikes of unique blue shades with wide open mouths. Heat tolerant. Zones: 8-9

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

QUEEN SERIES

① Perennial. 20,000-25,000 S. *S. x superba* (*S. nemorosa*). Clump forming habit, with fragrant foliage and masses of pencil thin flower spikes, so densely set that they present a solid wall of color in any border. Not fussy about soil, it flourishes in blazing sun, tolerating drought and often reblooms. Zones: 4-9

Dwarf Blue - 6245 ①

12 in. Vibrant violet-blue.

Rose - 6233 ⌘ ①

24 in. Rosy-pink.

Each of the above: (29Z5)	250 sds - \$14.25
500 sds - \$19.25	1,000 sds - \$26.65
2,000 sds - \$41.95	5,000 sds - \$83.60

SALVATORE BLUE - 6246

Perennial. 10-12 in. - 28,500 S. *S. nemorosa*. Tallest spikes and the deepest blue color with black stems. Extremely vigorous which means better suited for gallons. Weeks to flower: 9-12. Zones: 4-8

100 sds - \$14.35	200 sds - \$19.25
500 sds - \$31.55	1,000 sds - \$50.75

SAPONARIA

Rock Soapwort

5,600 sds/oz 60°-70° 2 weeks

Darkness will help germination. Blooms May-August. Will flower the first year from seed.

BEAUTY SERIES

☼ ① Perennial. 24 in. - 6,000 S. S. vaccaria. Outstanding 3/4 in. single flowers closely resemble Gypsophila, but are larger and unscented. Will flower the first year from seed.

Pink - 6234 ☼ ①

White - 6236 ☼ ①

Each of the above: (31B5)	1,000 sds - \$10.05
2,000 sds - \$15.60	5,000 sds - \$21.20
10,000 sds - \$28.75	

OCYMOIDES - 6235

① Perennial. 8 in. - 15,000 S. Trailing habit with rose flowers. Nice groundcover. Will flower the first year from seed. Zones: 2-7

1,000 sds - \$11.60	2,000 sds - \$19.90
5,000 sds - \$26.85	10,000 sds - \$36.80

(31D5)

SCABIOSA, PERENNIAL

Pincushion Flower

2,400 sds/oz 65°-70° 2 weeks

Needs light for good germination. Blooms from June to September. Nice cut flower, fresh or dried. Will attract butterflies, hummingbirds, and songbirds all season as well as repel deer.

FAMA SERIES

☼ ① Perennial. 20 in. - 1,300 S. S. caucasica. A compact variety that provides many long-lasting flowers for cutting or border decoration. Grayish-green, lance shaped basal leaves and slender, pinnatifid, stem leaves. COATED SEED. Zones: 4-9

Deep Blue - 6805PE ☼ ①

A unique deep blue flower color that is sure to draw attention.

White - 6806PE ☼ ① A true pure white.

Each of the above: (25G5)	25 sds - \$13.50
50 sds - \$18.05	100 sds - \$25.75
300 sds - \$54.30	500 sds - \$75.90

SEDUM

Stonecrop

80° days - 70° nights 2 weeks

For the best germination, use a loose, well drained media. After sowing seeds, do not cover with media. Alternate soil temperature of 80° day and 70° nights. Light will help germination. Blooms May- July. Nice groundcover. Will attract butterflies all season.

ACRE (GOLDEN CARPET) - 6241

Perennial. 3 in. - 525,000 S. (Creeping Moss). Has small leaves and bright yellow star-like flowers in June - September. Zones: 3-8

Each of the above: (31B5)	1,000 sds - \$10.05
2,000 sds - \$15.60	5,000 sds - \$21.20
10,000 sds - \$28.75	

SEDUM (continued)

ALBUM - 6205

Perennial. 4 in. - 1,250,000 S. S. crassulaceae. (Worm grass). A mat forming, slow spreading evergreen, with small white flowers held above foliage. Zones: 4-10

Each of the above: (31B5)	1,000 sds - \$10.05
2,000 sds - \$15.60	5,000 sds - \$21.20
10,000 sds - \$28.75	

LIZARD - 6812

① Perennial. 4 in. - 1,000,000 S. S. rubens. Low-growing with tight, rosy-green cushion of needles with reddish tips. Throughout the summer the plant is covered with many tiny, star shaped white flowers. Perfect for containers and for use as a groundcover. Zones: 8-10

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

MANY SPECIES MIXTURE - 6244

Perennial. 485,500 S. Complete blend of the species. Zones: 4-8

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75

(31B5)

ORACLE - 6512

Perennial. 10 in. - 714,000 S. S. forsterianum. Silver-green whorls of foliage provide bright yellow flowers in late summer. This succulent beauty is a wonderful accent plant for mixed containers or xeriscape containers.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

REFLEXUM - 6243

Perennial. 8 in. - 255,000 S. (Stone Orpine). Creeping evergreen forming mats, golden yellow flowers. Blooms July - September. Zones: 4-9

1,000 sds - \$12.70	2,000 sds - \$23.75
5,000 sds - \$40.20	10,000 sds - \$65.40

(31F5)

SPURIUM COCCINEUM - 6247

① Perennial. 6 in. - 450,500 S. (Dragon's Blood). Creeping evergreen forming mats with pink flowers. Will flower the first year from seed. Zones: 3-9

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75

(31B5)

SPURIUM VOODOO - 6280

Perennial. 6 in. - 625,000 S. Deep, intense color of dark red leaves contrast with bright rose colored flowers. Outstanding garden performance. Zones: 3-9

250 sds - \$16.80	500 sds - \$22.95
1,000 sds - \$32.55	2,000 sds - \$52.50
5,000 sds - \$106.55	(29G5)

SEMPERVIVUM

Houseleek, Perennial "Hens and Chicks"

400,000 sds/oz 65°-70° 3 weeks

For the best germination, do not cover seeds after sowing in indented rows. Light will help germination. Blooms June - August.

HIPPIE CHICKS MIXTURE (PELLETED) - 6257PE

Perennial. 2-3 in. - Very popular succulent. Attractive structural plant for rock gardens, mixed containers and green roofs. Great as an indoor plant.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

SILENE

Catchfly, Cushion Pink

61,000 sds/oz 65°-70° 10 days

Nice cutflower. Will bloom July - October the first year from seed.

ORIENTALIS - 6264

☼ Perennial. 26 in. - 250,000 S. Beautiful 3-4 in. single bright carmine rose flowers are clustered in 4 in. dense flower heads. Blooms will resemble a lychnis flower. Will bloom June-September. Zones: 4-8

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95

(30Z5)

SOLIDAGO

Goldenrod

475,000 sds/oz 65°-70° 2 weeks

BABY GOLD (GOLDEN BABY) - 6263

☼ Perennial. 24 in. - 625,000 S. Compact, rigid, upright growth. Dense, small golden-yellow flowers. Fine plants for the perennial border; produces good flowers for cutting. Will attract butterflies all season. Will bloom June-September the same year sown. Zones: 3-10

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75

(31B5)

STACHYS

Lamb's Ear

16,000 sds/oz 65°-70° 2 weeks

After sowing seed, cover lightly with vermiculite. Light will help germination. Refrigerate seed 7 days before sowing. Blooms May - August. Tolerates drought conditions and helps repel deer all season.

LANATA - 6269

☼ Perennial. 12-18 in. - 20,000 S. S. byzantina. Plants are clothed with densely soft white wooly leaves. Small bright purple flowers, but mainly grown for its decorative foliage. Zones: 3-8

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55

(30A5)

STATICE

Limonium Species

65°-70° 18 days

Good for cutting, can be dried and dyed. Darkness will help germination. Blooms June-September.

DUMOSA (TATARICA) - 6272

☞ Perennial. 18-20 in. - 25,000 S. (German Statice). Clean seed. Produces clusters of snowy white frilly flowers. Delicate and exquisite, they look like they are made from paper. Grow them as bedding plants, in containers or window boxes.

Zones: 4-9

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

INDIE - 6270

* New for 2026 ☞ Perennial. 22 in. - Limonium perezii. Violet-blue blooms on healthy, dark green leaves. Suitable for pots up to premium containers. Optimal use in dry bouquets. Attracts many beneficial insects.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

LATIFOLIA - 6273

☞ Perennial. 18 in. - 30,000 S. (Sea Lavender). Clean seed. Dozens of slender, multi-branched stems topped with masses of tiny, blue-violet flowers. Zones: 3-9

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

PEREZII - 6271

☞ ① Perennial. 18 in. - 26,000 S. (Blue Sea). Clean seed. Rich, deep blue heads. Flowers first year from seed. A tender perennial in many areas. Zones: 8-10

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

THALICTRUM

AQUILEGIFOLIUM MIXTURE

Sorry, no longer available.

Thymus. Also see listing under Herbs.

THYMUS

Mother of Thyme

224,500 sds/oz 70°-75° 2 weeks

Will help repel deer from the garden.

Blooms June - September.

SERPHYLLUM - 6286

Perennial. 2 in. - 250,000 S. (Mother of Thyme). Creeping, sweet scented foliage, purple flowers. Will flower June - September. Zones: 3-9

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

TRACHELIUM

Throatwort

65-75° 7-14 days

Do not cover seeds. Needs 16 hour daylengths for faster flowering. Cutflower types bloom 17-27 weeks from sowing. Pot and bedding types bloom 16-20 weeks from sowing.

LAKE MICHIGAN SERIES

☞ Perennial. 30-42 in. - T. caeruleum. Mid-season flowering, fragrant cut flower type with a large central umbel and smaller side umbels. Transplant mid-winter to early spring for spring to early summer flowering. May also be transplanted late summer to early autumn for autumn to early winter flowering. PELLETED SEED. Zones: 6-9

Blue - 6514PE ☞

Purple - 6468PE ☞

Violet - 6515PE ☞

White - 6513PE ☞

Mixture - 6520PE ☞

Complete mixture of all colors.

Each of the above: (28D5)	100 sds - \$11.15
200 sds - \$14.30	500 sds - \$21.70
1,000 sds - \$33.20	2,000 sds - \$52.90

TRITOMA

Kniphofia

20,000 sds/oz 70°-75° 3 weeks

After sowing seed, cover lightly with vermiculite. Light will help germination. A cylindrical cluster of small, tubular flowers held above tufts of bright, evergreen leaves. The flower cluster is bright red at the tip and yellow at the base, in which the nickname "Red Hot Poker" is derived. Blooms July - September, nice cutflower.

FLAMENCO (ENHANCED) - 6290EN

☞ ① Perennial. 30-32 in. - 15,000 S. (All America Winner - 1999). Beautiful 8 in. early flowering spikes of creamy-white, orange, yellow, and red. Excellent cut flower, will flower the first year from seed. ENHANCED SEED for improved and more uniform germination. Zones: 5-9

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

STARKS EARLY HYBRID - 6291

☞ Perennial. 36 in. - 10,500 S. (Pfitzers Hybrid). Giant spikes of brilliant red, orange and yellow shades.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

TROLLIUS

Globe Flower 8,000 sds/oz 60°

Frost germinator. Freeze seed 2 weeks before sowing. Nice cut flower. Will flower April - July.

LEDEBOURI GOLDEN QUEEN - 6311

☞ Perennial. 24-30 in. - 17,500 S. Prized for its flower, it produces globular shaped multi-petalled orange blossoms. Use as groundcover and suitable for bog gardening. Zones: 3-6

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

VERBASCUM

Mullein

125,000 sds/oz 55°-60° 2-3 weeks

Will flower the same year from sowing.

SOUTHERN CHARM (PELLETED) - 6480PE

☞ Perennial. 24-30 in. - This unique variety offers a blend of creamy yellow, soft lavender, and peachy-rose shades, each marked with a fuzzy-like bee. Will bloom June-August from seed the first year sown. A tender perennial in many areas.

Zones: 6-9

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

Verbena, Half Hardy.

Also see listing under Annuals.

VERBENA, HALF HARDY

95,000 sds/oz 70° 15 days

For the best germination, cover seed lightly after sowing and alternate temperatures from 75° days and 60° nights. Be sure to provide winter protection as these are tender perennials. Will attract hummingbirds, butterflies and songbirds all season.

BONARIENSIS BUENOS AIRES (ENHANCED) - 6317EN

☞ Perennial. 40-50 in. - 116,300 S. V. bonariensis. Tall, free-flowering, tightly clustered, rich purple florets with an opened plant habit. Use as a pretty accent plant or height divider in the border. ENHANCED SEED for improved and more uniform germination. Zones: 7-9

BONARIENSIS FINESSE (ENHANCED) - 6322EN

☞ ① Perennial. 36-48 in. - 96,000 S. (Finesse). One of the best plants for attracting butterflies. This is a long-blooming, tough, drought tolerant plant that is among the easiest perennials to grow. An abundance of magenta-purple blooms are tiny and extremely profuse. ENHANCED SEED for improved and more uniform germination. Zones: 7

Each of the above: (28C5)	100 sds - \$10.40
200 sds - \$13.35	500 sds - \$19.75
1,000 sds - \$29.70	2,000 sds - \$46.80

VERBENA, HALF HARDY
(continued on next page)

VERBENA, HALF HARDY (continued)

BONARIENSIS VANITY (ENHANCED) - 6338EN

☞ ① Perennial. 31 in. - 126,500 S.

V. bonariensis. (All America Winner - 2022). Fragrant flowers with an intense purple-blue color. Compact habit and excellent branching. Great for borders and containers. ENHANCED SEED for improved and more uniform germination. Zones: 7-11

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

SANTOS (ENHANCED) - 6319EN

① Perennial. 12 in. - 35,500 S. V. rigida. Compact and upright, well-branched plants are early-flowering and high Powdery Mildew resistance. Single flowers are deep purple to magenta. ENHANCED SEED for improved and more uniform germination. Zones: 7-11

250 sds - \$15.70	500 sds - \$21.10
1,000 sds - \$29.60	2,000 sds - \$47.20
5,000 sds - \$95.10	(29F5)

VERONICA

Speedwell

225,000 sds/oz 65°-70° 2 weeks

After sowing seed, cover lightly with vermiculite. Light will help germination. Free-flowering plants of great value in the perennial garden. Blooms June - August. Nice cut flower. Will attract butterflies, hummingbirds and songbirds all season.

REPENS - 6326

Perennial. 2 in. - 278,000 S. V. repens. Dwarf, creeping habit with bluish flowers. Great as a groundcover that will spread and flourish in your flower bed or work perfectly between stepping stones or in a rock garden. Will tolerate light foot traffic and deer usually will avoid.

500 sds - \$13.45	1,000 sds - \$22.00
5,000 sds - \$45.35	10,000 sds - \$73.30
	(30G5)

ROYAL BLUE - 6329

☞ Perennial. 12 in. - 86,000 S. (Germander Speedwell). V. teucrium. Gentian blue flower on bushy plants. Fine for rockeries and border. Zones: 3-8

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20

BALM

LEMON BALM - 7754

24 in. - 40,000 S. (Melissa Officinalis). 70 days. Leaves have a mild lemon aroma and are used to make medicine and tea. Use for digestive problems, including upset stomach, bloating, intestinal gas (flatulence), vomiting, and colic; for pain, including menstrual cramps, headache and toothache; and for mental disorders, including hysteria and melancholia. Many people believe lemon balm has calming effects so the take it for anxiety, sleep problems and restlessness. Also used for Alzheimer's disease, attention deficit-hyperactivity disorder (ADHD), an autoimmune disease involving the thyroid (Graves disease), swollen airways, rapid heartbeat due to nervousness, high blood pressure, sores, tumors and insect bites. If inhaled as aromatherapy for Alzheimers disease.

BALSAM

BALSAM - 7712

12-18 in. - 3,000 S. Impatiens balsamina. Dwarf and compact growth habit. Large double flowers displayed above the foliage. Chinese herbalists use as a tea to clear blockage in the throat. Concentrated water extract from the foliage will ease the pain and lesions associated with Herpes. Flowers can be used as a textile dye or used to color the skin and nails. Annual.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

BASIL

13,000-28,000 sds/oz 70° 7-10 days

Will grow in rich, moist soil, but well drained with a pH of 6 to 7. Likes warm weather and cannot withstand frost, as it will show cold damage such as blackened leaves when exposed to cool temperatures below 50°. If flowers appear simply pinch them to keep the plant producing tasty leaves. Because basil is harvested continually for lots of leaves it needs a little fertilizer. When planting, add a coated, slow release fertilizer such as 19-19-19 at the rate recommended or work plenty of organic nutrients from compost, blood meal or cottonseed meal into the soil. Keep moist, not wet, dry soil stunts its growth. Water on the leaves can damage them so it is best to water the base of the plant or use drip irrigation.

ARISTOTLE - 7724

6-12 in. - 25,000 S. Ocimum basilicum. (Greek Basil). A stylish, compact variety with tightly packed, tiny leaves that create pretty pale green mounds. Perfect for patio gardens, containers and window boxes.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

BONSAI - 7402

6-12 in. - 24,000 S. Ocimum basilicum. 23-28 days. The Kitchen Minis Collection. A compact, quick and uniform fine leaf basil. Can be grown inside on a sunny windowsill or counter without a garden. Can also be grown outside as a tabletop patio variety.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

CINNAMON - 7737

26-30 in. - 16,000 S. Ocimum basilicum. (Mexican Spice, Vietnamese Basil or Saigon Basil). 65 days. A tender annual with sturdy stems that are dark purple-red with dark green, cinnamon scented leaves. Very useful as an accent with tea, fish, poultry and as an all-purpose seasoning in Asian or Indian dishes. Annual.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

DARK OPAL - 7797

16-18 in. - 20,000 S. Ocimum basilicum. (All America Winner - 1962). 80 days. Attractive, dark purplish-bronze foliage with slender lavender white flower spikes. Excellent for borders and mass plantings and versatile as an herb for culinary purposes. Annual.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

Herb Seed

Harvest your favorite Herbs from June until frost. Collect your favorite varieties for drying indoors. Pick the flowers when the blossoms are fully open, leaves should be harvested before the plants bloom. When drying, strip the leaves from the bottom 6-8 inches of each stem. Gather into a bundle by tying the stems together and hanging upside down to dry. The leaves and flowers are very popular and have great medicinal value. Please refer to individual varieties for their specific uses. Before using the stems, branches, oils from any plant, consult a physician or health reference book as many can be toxic if used incorrectly or in excess.

Do not mix herbal remedies or teas with medical prescription. Remember, self diagnosis and/or self medication is irresponsible and can be dangerous. Consult a health care professional or doctor in your area whenever in doubt. Herbs are essential in adding the zest and flavor to foods and drinks as a flavoring or seasoning. When leaves are used, cut and gather when the flower buds just start to form. During the past 4-5 years herbs have become more popular. They are easy and economically grown either in plant trays or pots.

Gourmet Tip: Many varieties are easily dried in the microwave or frozen to be used later in the year by yourself or friends.

BASIL (continued)

EVERLEAF EMERALD TOWER - 7794

24-36 in. - 12,000 S. *Ocimum basilicum*. 30-45 days. Dark green, glossy foliage. Traditional Genovese flavor. Flowers up to 10-12 weeks later than standard types. Well-branched variety with short internodes makes a beautiful columnar plant with huge harvest potential that stays tidy for many uses, including in-ground, container gardens and hydroponics. Perfect for eating fresh in caprese salad or chopped fresh in recipes.

EVERLEAF GENOVESE - 7726

18-24 in. - 10,000 S. 30-45 days. *Ocimum basilicum*. Compact, well branched variety with short internodes makes a beautiful columnar plant that stays tidy in both in-ground or container gardens. The robust flavor stands up to cooking, perfect for pesto and adding to sauces. Later flowering than most basil allows for very large harvests.

EVERLEAF LEMON - 7403

24-36 in. - 14,000 S. *Ocimum basilicum*. 45-60 days. The first lemon basil bred for season long harvest. Flowers up to 8 weeks later than the standard. The lemon flavor makes a delicious addition to dressings and marinades.

EVERLEAF THAI TOWERS - 7799

24-36 in. - 16,500 S. *Ocimum basilicum*. Well branched variety with short internodes makes a beautiful, columnar plant that stays tidy for many uses. Flowers up to 10-12 weeks later than standard Thai basil with huge harvest potential. Masses of medium-green leaves with occasional purple flecks and soft purple stems will brighten any retail display. Aromatic and vibrant licorice flavor complements any dish, especially Thai cuisine. Blends well when cooking in a curry or chopped fresh on Pad Thai to experience full licorice aroma. Excellent for in-ground, container gardens or hydroponics.

Each of the above: (28D5)	100 sds - \$11.15
	200 sds - \$14.30
	1,000 sds - \$33.20
	500 sds - \$21.70
	2,000 sds - \$52.90

BASIL (continued)

HOLY (GREEN) - 7736

12-18 in. - 60 days. *Ocimum americanum*. (Kapoor Tulsi). Unique, spicy aroma with hints of chocolate and coffee. Compact but very full, attractive plants. Mild spice flavor. Fast growing. The purple flowers make a nice beneficial and ornamental. Good for teas, culinary and medicinal use.

HOLY (RED) - 7735

18 in. - 66,000 S. 70-90 days. *Ocimum sanctum*. Pointed purple-tinged leaves have a spicy, clove-like, musky flavor and aroma. This basil is an essential herb in the Thai kitchen and used in the popular Gai Pad Gra Pow dish. Great for stir-frying and in soups. Grows well in containers and has an ornamental appeal.

Each of the above: (30A5)	500 sds - \$9.75
	1,000 sds - \$13.15
	5,000 sds - \$24.45
	10,000 sds - \$38.55

LEMON - 7738

18-24 in. - 15,000 S. *Ocimum citriodorum*. (Mrs. Burns). Heirloom. 60 days. A tender annual. Attractive, spreading silver-green leaves. Flavor is great for potpourris, tea, fish, chicken, vegetables and herb vinegars. Just lightly touching the narrow leaves will release a lemony fragrance. Add the blooming stalks to flower arrangements for a citrus scented bouquet. Annual.

LETTUCE LEAF - 7889

18-24 in. - 16,000 S. *Ocimum basilicum*. 85 days. A somewhat frilly large leaf, fragrant and flavorful. A culinary delight, it can be used in any recipe calling for regular basil. Ideal for salads, pesto, many Italian dishes and other ethnic cuisine.

LICORICE - 7817

12-15 in. - 25,000 S. *Ocimum basilicum*. 75-90 days. Similar in habit to Cinnamon Basil with a licorice flavor. Used to flavor tea, candy and desserts. Used as a cough remedy in China for thousands of years as a tea. Annual.

BASIL (continued)

LIME - 7400

16-20 in. - 18,000 S. *Ocimum americanum*. 60 days. The compact plant has 2 in. long, bright green leaves. Add the distinct zesty aroma of lime and a citrus flair to fish or salads. 60 days to harvest. Organically grown seed. Annual.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

MINNETTE - 7690

10 in. - 25,000 S. *Ocimum basilicum*. 75-90 days. An outstanding variety for pot plant sales. Attractive, bushy, very small-leaved variety that forms a tight, compact mound that keeps its shape all season without pinching. Good spicy, flavor. Clouds of tiny white flowers appear in late summer. Annual.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

NEWTON - 7727

24-30 in. - 17,500 S. *Ocimum basilicum*. 74 days. A fast-growing, highly fusarium-resistant variety with a traditional Genovese flavor with no licorice aftertaste. Large, bright green and crinkled leaves. Great for vegetable wraps and fresh chopped herbs.

NUFAR - 7729

24-30 in. - 15,000 S. *Ocimum basilicum*. 77 days. A fusarium and disease resistant strain. Very strong aromatic variety with leaves up to 4 in. long. Excellent in pesto dishes and gourmet cooking. Organically grown seed. Annual.

PISTOU - 7768

10 in. - 24,000 S. *Ocimum basilicum*. (Greek Basil). 60-90 days. Compact plants with very small leaves. Much more uniform in terms of habit and leaf size than many of the classic compact varieties. Bred for pot plant production. Good flavor. Annual.

Each of the above: (30A5)	500 sds - \$9.75
	1,000 sds - \$13.15
	5,000 sds - \$24.45
	10,000 sds - \$38.55

BASIL (continued on next page)

BASIL (continued)
PURPLE RUFFLES - 7739

18 in. - 21,000 S. *Ocimum basilicum*. (All America Winner - 1987). 85 days. Glossy, deep purple crinkled leaves. Each leaf is ruffled and serrated. Outstanding in the garden or a border, great for flavoring. Annual. (Only 75% are purple-leaved. High PH or heavy peat content increases the % of green leaves). Annual.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
(30B5)	

RED RUBIN - 7723

18-24 in. - 17,000 S. *Ocimum basilicum*. 76 days. Vigorous, purple, flat-leaved talian type produces 3 in. long leaves. High yielding variety has a great flavor and a cooper colored tinge to its purple leaves. A must grow for lovers of flavored vinegars and oils. Sweet scented foliage.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
(30A5)	

RUTGERS DEVOTION DMR - 7728

18-20 in. - 19,500 S. *Ocimum basilicum*. 70-80 days. Uniform, upright growth. Dark green color with large, flat to cup-shaped leaves. Slightly sweet and spicy aroma. An excellent aromatic sweet Genovese-type for potted, greenhouse and field production for fresh markets. Down Mildew Resistant.

RUTGERS OBSESSION DMR - 7772

21,000 S. *Ocimum minimum*. 70-80 days. Genovese leaf type. Very attractive, compact growth with dark green, large leaves and great flavor. Plants have a high leaf to stem ratio. Suitable for field or potted plant production.

Each of the above: (30C5)	500 sds - \$10.30
1,000 sds - \$14.75	5,000 sds - \$33.90
10,000 sds - \$51.50	

SPICY GLOBE - 7755

8-14 in. - 22,000 S. *Ocimum minimum*. 70 days. Very round, compact shape and tiny, flavorful leaves. Hearty flavor makes a good candidate for spicier Thai and Italian dishes, in sparing amounts. Perfect for edging in small gardens or in containers and window boxes. Annual.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55

BASIL (continued)
SWEET ITALIAN DOLCE FRESCA - 7725

10-24 in. - 16,000 S. *Ocimum basilicum*. (All America Winner - 2015). 70 days. Produces sweet tender leaves. An attractive, compact shape that's both versatile and beautiful. Use the leaves as you would any Genovese basil and makes an excellent pesto. After harvest, the plant is quick to recover and keeps the desired ornamental shape that's perfect for containers, borders or as a focal point. Great for gardeners looking for drought tolerant, hearty plants, foodies interested in a new and better basil and anyone who wants that great Mediterranean taste added to their cuisine.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
(30A5)	

SWEET ITALIAN LARGE LEAF - 7742

24-30 in. - 17,000 S. *Ocimum basilicum*. Heirloom. 78 days. Italian Lettuce leaf type. Green or dried, chiefly used for seasoning. Annual.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
(31A5)	

THAI - 7694

16-20 in. - 14,000 S. *Ocimum basilicum*. (Queen of Sheba). Green 2 in. long leaves have a spicy, anise-clove flavor. Attractive purple stems and blooms. Used in large amounts in red and green curry and spicy stir-fried dishes. Annual.

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
(30C5)	

THAI SIAM QUEEN - 7758

24 in. - 21,000 S. *Ocimum basilicum*. (All America Winner - 1997). 60-90 days. An improved Thai basil or tropical basil. More tender and intensely flavored than Sweet Basil. Highly aromatic with licorice basil aroma. In many Thai dishes, this is added last, just prior to serving for its fragrance and flavor, also used as well in Italian dishes.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60
(30D5)	

TRY BASIL (MULTI-SEED) - 8928MP

12-24 in. - *Ocimum basilicum*. Simply Herbs Collection. 65 days. Three different Basil! Each pellet contains a large-leaf Genovese basil, a serrated green leaf type and a burgundy-leaf variety. PRECISION MULTI-SEED PELLETS contains 8-14 seeds per pellet and assures a high level of uniformity of germination, making this a great variety for use in hydroponic systems.

50 sds - \$10.90	100 sds - \$14.30
200 sds - \$21.20	500 sds - \$33.00
1,000 sds - \$51.40	(26C5)

BORAGE

Tailwort 1,300 sds/oz 70° 7-14 days

Grows best if direct seeded. Barely cover the seeds with soil and keep well watered. Tolerant to any soil type, even poor dry soil. Leaves should be harvested when young; old leaves are tough and hairy. Flowers can be harvested anytime.

BORAGE - 7744

18 in. - 1,500 S. *Borago officinalis*. Heirloom. 50-60 days. Thick soft stems and large leaves that have the flavor of cucumbers, both of which are covered in fine bristly hairs. The flowers are star-shaped and a vivid sky blue, although an occasional pink bloom does appear. Often grown in vegetable gardens where it attracts pollinating bees and is considered a good companion plant for tomatoes, squash and strawberries. It's even supposed to deter tomato hornworms and improve the flavor of tomatoes growing nearby. Used to treat fevers, bronchitis, pleurisy, cirrhosis, nephritis, acne and as a hormonal balancer. Annual.

Each of the above: (30A5)	500 sds - \$9.75
1,000 sds - \$13.15	5,000 sds - \$24.45
10,000 sds - \$38.55	

BURNET

Lesser Burnet, Salad Burnet

3,000 sds/oz 68° 7-14 days

Barely cover seed no more than 1/4 in. Not particular about soil as long as it drains well. Harvest the leaves as needed. The young leaves that have not flowered are the best flavor. Will spread by rhizomes, but it is not considered to be invasive. Known to self-seed, but deadheading the flowers will prevent seeds from spreading in the garden.

BURNET - 7748

12 in. - 3,000 S. *Sanguisorba minor*. Heirloom. 70 days. Leaves are deeply toothed; crimson flowers are thimble-shaped. A nutty, cucumber flavor to salads, vinegars, cream cheese and tomato juice. Perennial.

Each of the above: (30A5)	500 sds - \$9.75
1,000 sds - \$13.15	5,000 sds - \$24.45
10,000 sds - \$38.55	

CATNIP

Catswort, Catmint

45,000 sds/oz 60°-70° 7-21 days

Plant in any ordinary, well drained soil. To prevent cats from flattening the plant, insert several twigg sticks into the center. If the soil is particularly poor, fertilize a little with weak solution of liquid fertilizer.

CATNIP - 7763

18 in. - 45,000 S. *Nepeta cataria*. Heirloom. 80-90 days. Green or dried leaves used for seasoning and as a tea for nervous headaches and upset stomachs. Perennial.

Each of the above: (31A5)	1,000 sds - \$9.75
2,000 sds - \$13.15	5,000 sds - \$19.35
10,000 sds - \$28.05	

CARAWAY

10,000 sds/oz 70° 10-20 days

Direct sow in prepared seed beds in spring when frost danger has passed. Plant in rows and lightly cover with soil. The first year plants look like carrots, reaching 8 in. tall sending down a deep taproot. The second year will produce flowers.

CARAWAY - 7745

18-24 in. - 10,000 S. Carum carvi. Heirloom. 70 days. Seeds used for flavoring bread, meat and liquors. Used for flavoring in breads, soups, salads, stews, cheeses, pickling brines, and meat dishes. Will help in the digestion of heavy, rich meals. Caraway seeds were so revered by the 6th century Persians that citizens used them to pay taxes. Biennial.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

CELERY LEAF

70,000 sds/oz 55°-60° 14-21 days

Not frost tolerant so only plant outdoors once all risk of frosts has passed. A very thirsty plant and must have a strong continuous supply of water. Suited to grow very well in a container, water well and move undercover in winter to extend the cropping season.

CELERY LEAF - 7821

12-15 in. - 70,000 S. 85 days. Solid, thick stalks that are topped with upright green foliage. Leaves are aromatic in seasoning of stews, soups, meats and poultry. Annual.

5,000 sds - \$12.70 10,000 sds - \$23.35
25,000 sds - \$39.80 50,000 sds - \$64.40
(34B5)

CHERVIL

French Parsley

14,000 sds/oz 60°-70° 17-14 days

Sow in a cool, shady spot. Use well drained, compost enriched, alkaline soil of average fertility. Also adapts well to container growing. Grows very quickly, so it is important to water regularly.

CHERVIL - 7771

8-16 in. - 12,000 S. Anthriscus cerefolium. 60 days. Slow-bolting, vigorous. Curly type leaves resemble Parsley with an anise-tarragon like flavor. For culinary use, both the roots and leaves are used. Popular of salads, micro greens, and garnishing. The flavor lends itself well to fish, crab, meats, vegetables, sauces and soups. Also used as a diuretic and for skin ailments. Organically grown seed. Annual.

1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

CHAMOMILE

165,000-270,000 sds/oz 65°-80° 10-14 days

Sow in well drained, neutral to slightly acidic soil. Will grow in a relatively wide pH range between 5.6 (acidic) and 7.5 (neutral). Seeds need light to germinate. Best planted outdoors. Press 1 in. into soil but do not cover.

GERMAN - 7776

18-24 in. - 270,000 S. Matricaria chamomilla. Heirloom. 60-90 days. Attractive white flowers make this plant an attractive ground cover. Apple scented foliage. Dried flowers used for tea, and an aid for digestion. Research shows that Chamomile tea stimulates the immune systems's infection fighting cells and reduces discomfort of the cold and flu anxiety. Hardy Annual.

Each of the above: (34A5) 5,000 sds - \$10.50
10,000 sds - \$17.90 25,000 sds - \$28.85
50,000 sds - \$45.25

ROMAN - 7730

4-6 in. - 165,000 S. Chamaemelum nobile. Heirloom. 60-65 days. Tends to stay low to the ground making a good ground cover. Flowers are similar to daisies in appearance and the gives off an almost apple-like scent. Use in teas to calm the nerves and bring relaxation. Perennial.

5,000 sds - \$12.70 10,000 sds - \$23.35
25,000 sds - \$39.80 50,000 sds - \$64.40
(34B5)

CHIVES

6,000-23,000 sds/oz 68°-70° 10-14 days

Sow indoors at a depth of 4 times the size of seed. Alternatively, sow outdoors in early spring when the soil is still cool. When sowing outdoors, a maximum depth of 4 times the width of seed. Transplant when there are at least two sets of true leaves. Clumps may be lifted in the fall and grown indoors in a sunny windowsill for winter harvesting. Chives reward you with long-lived plants that set lovely blooms, offer good garden protection and can be snipped as needed for cuisine. Edible flowers: Pull the florets apart and sprinkle on salads, dips, sauces, soups, stir-fries and pizza.

GARLIC - 7747

10-12 in. - 6,000 S. Allium tuberosum. (Chinese Leeks). Heirloom. 85 days. Mild garlic-onion flavor. Thin flat foliage and edible, fragrant, white star-shaped flowers. Popular in salads and stir-fry recipes. If they begin to stretch, cut back for dense growth. Perennial.

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75
(31B5)

STARO - 7795

12-18 in. - 20,000 S. Allium schoenoprasum. 75-85 days. Heaviest leaf for processing and freezing. Best for markets demanding a thicker leaf for freezing, drying and fresh use.

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75

CHIVES (continued)

GRASS ONION - 7577

10-12 in. - 23,000 S. Allium schoenoprasum. Heirloom. 90 days. Waxy, grass-like clumps of tubular leaves with light purple blooms. Used in China over 3,000 years ago. Adds great flavor to salads, creamy soups, potatoes, and egg dishes. Great for containers and also makes a neat border. Enjoy the light purple blooms in the spring-- they are edible. Perennial.

1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

CILANTRO

Coriander, Chinese Parsley

2,000 sds/oz 65°-75° 7-14 days

Directly sow when frost has passed. Not fussy about soil, but it does need full sun and regular moisture with a pH of 6.0-6.7. Both the seeds (Coriander) and the leaves (Cilantro) are aromatic and flavorful being used in numerous foods around the globe. Use leaves after cooking. Before seed begins to fall, cut stems 8 in. long, bundle stems together with rubber bands, place a bag over the bundle and hang up-side down, allowing the dried seeds to fall into the bag. Once it sets seeds, the plant quickly starts to degrade.

CALYPSO - 7897

12-18 in. - 3,400 S. Coriandrum sativum. 50-55 days to leaf harvest; 120-150 days to seed. Full, bulky plants provide a high leaf yield. This British bred coriander has excellent bolting resistance and can be cut back and allowed to re-grow at least 3 times throughout the summer due to its extremely low growing point. A quick growing annual herb which is best grown for its delicious foliage that can be added to salads, curries and soups. 3 weeks slower to bolt than Santo. Spread is 10 inches.

1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

CORIANDER OR CHINESE PARSLEY - 7746

24 in. - 4,000 S. Coriandrum sativum. Heirloom. Leaves are sweet and spicy, used to season pickles and meats. Seeds are used in breads, curry powder, and pastries. Excellent in Mexican, Chinese and Latin American dishes. Seeds used in meats, sauces, sausages, pickles, etc., young green leaves in soups, salads and salsa. Annual.

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75
(31B5)

CRUISER - 7749

8-16 in. - 2,500 S. 50-55 days. Slow to bolt! Vigorous growing variety with large leaves and sturdy stems. Ideal variety for bunching and fresh market sales. Tidier, more upright habit will produce a continuous supply of dark green, glossy leaves. Similar to Calypso for bolt resistance, but more productive.

Each of the above: (30A5) 500 sds - \$9.75

CILANTRO (continued on next page)

CILANTRO (continued)

SANTO - 7898

12-24 in. - 2,000 S. *Coriandrum sativum*. 50-55 days. Slow to bolt type. Fast growing with broad, celery-like leaves that are perfect for bunching. Its unmistakable sharp scent and taste have made it the staple herb in salsas and other Mexican dishes. Best when leaves are used fresh for its full flavor. Herbalists use the leaves in a tea to aid digestive problems.

Each of the above: (30A5) 500 sds - \$9.75

CORNFLOWER

Bachelor's Buttons

5,000 sds/oz 59°-68° 7-14 days

Very adaptable and will grow in the poorest of soils. Ideally they prefer a neutral to slightly alkaline soil. Best performance in cool weather. Does not transplant well. Self-sows.

CORNFLOWER - 7828

⌘ 36 in. - 5,000 S. *Centaurea cyanus*. Heirloom. Bright blue flowers all season. Herbalists believe the tonic has a curative and calming action for nervous disorders. As an eye wash it will clear and strengthen weak eyes. Annual

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

CULANTRO

MEXICAN CORIANDER - 7793

77,000 S. *Eryngium foetidum*. (Saw Tooth Mint). 80-90 days. Same earthy fragrance and flavor of cilantro but with a great pungency. Serrated leaves are both long and wide. A staple in many Caribbean and Latin dishes. Can be used in marinades, soups, stews, atop salads and in any other way cilantro would commonly be used. Use during cooking. Medicinally, it has been used for a variety of illnesses from epilepsy to burns, fevers, snake bites and constipation. Zones: 8-11

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35

EDELWEISS

250,00 sds/oz 68° 20-35 days

Seeds are very small, so do not cover them, just gently press into the soil in a starter tray. Water from underneath the tray. Blooming may not occur the first season, but healthy plants should produce beautiful flowers the second season. Rock gardens, raised beds or even containers are ideal environments. Gritty, well-drained soil with a pH 6.8-7.8.

EDELWEISS - 7803

6 in. - 250,000 S. *Leontopodium alpinum*. White woolly star-like flowers. A familiar plant to many Europeans as this is a popular plant throughout the countryside and mountain roads. Popular as a tea to treat diarrhea and dysentery. Used widely as a cosmetic cream to aid healing and control facial wrinkles. Perennial.

250 sds - \$10.65 500 sds - \$13.70
1,000 sds - \$17.75 2,000 sds - \$26.20
5,000 sds - \$49.10 (29B5)

FENNEL

6,000-10,000 sds/oz 65°-70° 14-21 days

Prefers fertile, well drained soils, high in organic matter with a pH range of 6.5-7.5. Adequate irrigation is needed. Whenever possible, should be planted to mature in shortening days with cooler temperatures, as high heat and long days encourage bolting.

SMOKEY-BRONZE - 7751

30 in. - 9,000 S. *Foeniculum vulgare*. 50-60 days. Very decorative bronze-hued lacy foliage with lacy golden flower umbels that ripen mellow anise flavored seeds. Its unusual color makes a striking accent plant. A sophisticated addition in salad or an elegant garnish. Tea made from the aromatic leaves or sweet seeds soothes upset stomachs and calms the nerves. Organically grown seed. Perennial.

(31A5)

HOREHOUND

22,000 sds/oz 60°-65° 7-10 days

Sow seeds indoors on sterile starting mix. Keep seed moist until germination. Once frost season has passed and two leaves have formed on the seedlings, they are ready to transplant into the garden in a sunny location. Do not over water, likes to dry out in between waterings.

HOREHOUND - 7761

⌘ 24 in. - 22,500 S. *Marrubium vulgare*. Heirloom. 85 days. Member of the mint family has a pleasant fragrance and a menthol-like flavor. Early settlers used this herb as a honey flavored tea remedy for coughs, colds, tuberculosis, hepatitis, and as a laxative. Current herbalists suggest using it as a gargle for tonsillitis, sore throat, and coughing. Perennial.

1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

HYACINTH BEAN

Dolichos Lablab

80 sds/oz 65°-70° 10-20 days

Sow directly into your flower garden after all danger of frost has past. Plant 1 1/2 in. deep. For indoor starts, try a seedling germination mat. For more successful germination, soak seeds overnight, prior to planting.

HYACINTH BEAN - 7411

120-240 in. - 80 S. *Lablab purpureus*. 110-120 days. A very showy climber with green foliage and purple flowers and pods. Chinese herbalists use as a tonic for the treatment of diarrhea, stomach disorders and internal bleeding. In India, they believe the entire plant can be eaten - leaves, flowers, pods, seeds, and sprouts. A healthy addition to their diet. Perennial.

50 sds - \$9.90 100 sds - \$12.55
200 sds - \$18.25 500 sds - \$29.25
1,000 sds - \$44.40 (26A5)

HYPERICUM

St. John's Wort

240,000 sds/oz 60° 10-20 days

Sow thinly, using a packaged sterile seed starting mix. Barely cover and press firm.

PERFORATUM - 7798

18 in. - 240,000 S. *H. perforatum*. Beautiful yellow flowers in many flowered terminal clusters. Nice garden performance with medicinal and herbal qualities. Perennial. Zones: 4-8

250 sds - \$10.65 500 sds - \$13.70
1,000 sds - \$17.75 2,000 sds - \$26.20
5,000 sds - \$49.10 (29B5)

HYSSOP

25,000 sds/oz 60°-75° 7-21 days

Sow indoors or directly in the garden about 8 weeks before the last frost. Plant just beneath the soil surface or about a 1/8 in. deep. Requires little maintenance except for pruning occasionally and removing spent flower heads. Harvest just before the flowers begin to open. Tie bunches of stem together, hang upside down in a warm, well ventilated room. After drying, remove the leaves and flowers and store in airtight containers. Cut the plants back to 8 in. in the fall.

HYSSOP - 7762

18 in. - 27,000 S. *Hyssopus officinalis*. Heirloom. 85-90 days. Strongly scented flowers used as a perfume base. Attracts butterflies all season. The Book of Psalms says - Purge me with Hyssop and I shall be clean. (It was used as a poultice to cure cold sores and genital herpes). Current herbalists suggest using it as a gargle for tonsillitis, sore throat, and coughing. Perennial.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
(30A5)	

LEMONGRASS

75°-80°

Germination can be erratic. This grass rarely flowers, but is considered mature at 4-8 months. Soil should be fertile, moist loams with a pH level of 6-7-8. Harvesting occurs when the plant is 4-8 months old or when plant is approximately one foot tall. From thereon, can be harvested every 3-4 months for approximately 4 yrs. This is done by cutting the entire stalks and using fresh in teas. Make sure to cut the stems below the white swollen ends.

LEMONGRASS - 7756

☞ 36-60 in. - *Cymbopogon flexuosus*. (East Indian Lemon Grass). Raw seed. Good for mass plantings. Grows in dense clumps, erupting from tough bulbous base with a spread of about 1 meter wide and about 3 feet in height. Its leaves are bright green with sharp edges with an appearance similar to that of grass. Refreshing, citrus-scented imparts unique flavor to recipes. Its coarse tufted stems and leaf buds are among the most sought after herbal parts used in an array of cuisines all over South and East Asian regions. Zones: 8-10

LEMONGRASS (DETAILED)

Discontinued. As a substitute, we suggest Herb Lemongrass (raw).

LOVAGE

Maggi Plant

8,000 sds/oz 60° 10-14 days

Sow outside just beneath the soil before last frost in spring. Keep are cultivated until well established. Divide after 2 years full growth.

LOVAGE - 7775

50 in. - 8,000 S. *Levisticum officinale*. 90 days. Heirloom. Beautiful clusters of yellow flowers. Aromatic seeds used in cakes. Celery-like plant, ideal in soups and salads. Herbalists believe the root can be used as a natural diuretic, like Parsley. Perennial.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
(31B5)	

MARJORAM

Joy of the Mountains, Wintersweet

120,000 sds/oz 70° 7-14 days

Will grow in a relatively wide pH range between 6.1(mildly acidic) and 8.5 (alkaline) with a preferred range between 6.5 and 7.5. Propagates well through softwood and semi-hardwood cuttings. Pinch off the top when the plant is 2-3 in. tall to encourage side growth.

SWEET MARJORAM - 7764

☞ 20 in. - 105,000 S. *Origanum majorana*. 80-95 days. Aroma is similar to oregano, but sweeter and more balsam-like. Fresh or dried leaves for seasoning. Great with veal, beef, lamb, fish and poultry as well as vegetables, potatoes and mushrooms. It complements garlic, onion, thyme, and basil often used as a substitute for oregano. Roman herbalists believed this herb could heal bruises, treat snakebite, soothe sore muscles and joints, and treat eye infections. Marjoram tea will help settle the stomach and help avoid motion sickness. Appropriate for containers or the herb garden. Annual.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
(31A5)	

Mint. Also see listing under Annuals.

MINT

50,000-350,000 sds/oz 68°-75° 10-15 days

The most popular way to grow any of the mints is in a pot where you can keep it in check. Add water-retaining polymer to the potting soil to be sure it stays moist. Sow outdoors, place them on top of well-worked soil, then sprinkle a fine layer of vermiculite on top of them, consider placing a row cover over the seeds until they sprout. In the ground select a damp area in either full sun or part shade. Prefers fertile soil with a pH from 6.0-7.0. Vigorous on its own, but will appreciate a little fertilizer every few weeks, especially if you harvest alot. Harvest springs in the morning when the flavorful oils are strongest.

LEMON MINT - 7773

☞ 40 in. - 65,000 S. *Monarda citriodora*. Heirloom. 60 days. Similar to Balm with larger lemon-scented leaves. Will attract butterflies all season. Perennial.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
(31B5)	

PEPPERMINT - 7778

20 in. - 350,000 S. *Mentha piperita*. Heirloom. 84 days. As a tea, it may help to prevent stomach ulcers and stimulate bile secretion. Used as an antacid. Grow in your garden to control insects, rub leaves on your clothing to repel fleas, mosquitos, ticks, gnats, and flies. Perennial. Zones: 3-8

1,000 sds - \$12.70	2,000 sds - \$23.75
5,000 sds - \$40.20	10,000 sds - \$65.40
(31F5)	

SPEARMINT - 7779

10 in. - 350,000 S. *Mentha spicata*. 90-200 days. Sweet-scented leaves for flavoring. Will attract butterflies all season. Perennial. Zones: 3-7

NEPETA

Catnip, Catswort, Catmint

36,000 sds/oz 65°-70° 10-15 days

Sow in trays of a well structured compost which have been previously watered. Its recommended the use of an approved pre sowing fungicide drench on the compost. Unless the seed is particularly fine it should be lightly covered with compost or a 50:50 mix of compost and Vermiculite. The trays should be wrapped in polthene or covered with glass and paper to restrict moisture loss. Once germination has taken place the covering should be removed and the seedlings allowed to develop in a cool, shaded and well ventilated greenhouse.

CATMINT - 7422

☞ 12 in. - 39,000 S. N. mussini. 75-85 days. Beautiful 1 in. mid-blue flowers that will flower all season. Cats love it and it will help repel deer in some areas. Will flower the first year from seed. Herbalists use the leaves in tea for nervous headaches and upset stomachs. Perennial. Zones: 4-8
500 sds - \$9.75 1,000 sds - \$13.15
5,000 sds - \$24.45 10,000 sds - \$38.55
(30A5)

OREGANO

250,000 sds/oz 60°65° 12-14 days

Sow indoors 6 weeks prior to the end of frost season. For areas with a longer growing season, sow in well-drained to dry, neutral to alkaline soil in full sun after danger of frost is over. Performs best in rows 18-24 in. apart. Thin seedlings to 8-12 in. apart when they are 2 in. tall.

GREEK (HERACLEOTICUM) - 7766

☞ 14-24 in. - 270,000 S. O. heracleoticum. (Greek Oregano). Heirloom. 80-90 days. Used for sauces and seasoning. Strong, spicy flavor. Add to sauces and pasta salads. As a tea, herbalists believe it can be used as a digestive aid, relief from arthritis, relieve discomfort for chest congestion, colds, flu and effective as a tranquilizer. Perennial. Zones: 4-9

1,000 sds - \$10.05 2,000 sds - \$15.60

1,000 sds - \$51.40 (26C5)

PARSLEY

12,000-17,000 sds/oz 65° 21-56 days

Requires a well prepared soil. Use general purpose fertilizer when preparing soil. Moist soil preferred. Soak seeds overnight before sowing, seeds take a while to get going. Indoors sowing, be sure to transplant as soon as they have two sets of true leaves (and the soil is warm), they have a long root and resent being transplanted once they have begun to leaf out. Keep the area as weed-free as possible so the tiny, slow growing seedlings don't have to compete with a jungle when they sprout. If growing in a pot, select a container that is long and narrow rather than wide and shallow, to give the root room to run. Best to start new plants each year, the leaf flavor is not as good in the second season.

EXTRA CURLED DWARF - 7770

12 in. - 17,000 S. Petroselinum crispum. Heirloom. 75 days. Finely curled, compact dark green leaves, very productive. Early herbalists believed this herb to be a diuretic for kidney problems, fluid accumulation and a substitute for quinine to treat malaria. It is very high in Vitamins A and C and is an excellent natural breath freshener, digestive aid and tea to treat high blood pressure and rheumatism. More compact growing than the standard garden variety. Annual. Zones: 6-9
1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

GIANT OF ITALY

Discontinued. As a substitute, we suggest Single or Italian Leaf.

SINGLE OR ITALIAN LEAF - 7846

16 in. - 12,000 S. Petroselinum neapolitanum. Heirloom. 40-60 days. Plain or flat, deep cut dark green leaves with a very strong flavor. Flat leafed is far more nutritious than the curly type. Excellent drying variety that has strong taste and crisp stems. An excellent addition to salads, cooked vegetables, soups and stews. Taller and stronger flavor than the standard strain. Annual. Zones: 6-9
Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

PENNYROYAL

380,000 sds/oz 70° 14-21 days

Indoor sowing recommended in flats 6-8 weeks before the last frost. Sprinkle seeds on fine soil and cover lightly. Does best in rick, sandy loams in full sun to partial shade.

FLEABANE - 7767

370,000 S. Mentha pulegium. Heirloom. Creeping growth habit. Leaves are used in tea to aid stomach disorders and digestion. Good edging to repel insects and fleas. Roman naturalists detected that this herb repelled fleas - this is where the name fleabane was derived from. Grow in your garden to control insects and rubbing the leaves on your clothing or pets to repel fleas, mosquitoes, ticks, gnats and flies. It is the main ingredient found in natural insect repellants. Perennial. Zones: 6-9
Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35

ROSEMARY

20,000 sds/oz 75°-85° 14-21 days

Grows slowly in the beginning, but given time they will pick up speed and grow faster. Plant in well-drained, light soil with full sun for best results. Fairly drought-tolerant.

ROSEMARY - 7787

☞ 24 in. - 22,000 S. Rosmarinus officinalis. Heirloom. 80-100 days for stem tips. 120-180 days for bunches. Intensely fragrant leaves have a distinctive pungent flavor. Excellent seasoning for meat or vegetable dishes. Use dried for sachets and herbal crafts. May grow to the size of a small shrub where hardy. Can be wintered indoors in a pot. Needs high humidity. Ancient herbalists believe that a sprig of Rosemary under your pillow will ward off bad dreams and if planted in the garden will repel witches. Traditional herbalists use it to treat stomach disorders, headache, insomnia, indigestion, depression, muscle pain, and as a gargle for bad breath. Medieval Greek students once wore garlands of fresh Rosemary around their heads believing the Herb would improve their memory. Perennial. Zones: 6-10

SAGE

Common Sage

3,000 sds/oz 60°-70° 20 days

Sow under about 1/8 in. of soil and and keep moist until they sprout. Cut stems will root very easily. Harvest before flowering. Do not dry in direct sunlight.

GARDEN SAGE - 7777

☞ 24 in. - 3,100 S. *Salvia officinalis*. Heirloom. 75 days. Fresh or dried leaves for seasoned poultry, sausage, meats, dressing, and fillings, etc. Will attract butterflies and repel insects all season. Gargle with sage tea to soothe sore throats. *Salvia* comes from the Latin word meaning to heal. Physicians will often suggest a cup of hot Sage tea to soothe the stomach or as a gargle for tonsillitis. Perennial. Zones: 4-8

500 sds - \$13.45	1,000 sds - \$22.00
5,000 sds - \$45.35	10,000 sds - \$73.30
(30G5)	

SORREL

Common Sorrel, Garden Sorrel

25,000 sds/oz 50°-70° 15 days

Sow seed uncovered. Prefers a soil pH of 5.5 to 6.8. Be sure to keep any seed stalks cut.

SORREL - 7780

18 in. - 28,000 S. *Rumex acetosa*. Heirloom. 60 days. Salad and seasoning green with lemony tasting leaves. Medium-green, thick, large spinach-like leaves that easily snap off their succulent stems. The popular large leaved French type. Used in sauces, soups, gravy and salads. High in vitamin C. Perennial. Zones: 4-8

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60
(31C5)	

SAVORY

40,000-66,000 sds/oz 65°-68° 14-21 days
 Sow in a well-drained, neutral to alkaline soil in full sun. Pick both leaves and flowers all summer to use fresh or dried.

SUMMER - 7753

12-18 in. - 40,000 S. *Satureja hortensis*. Heirloom. 60-70 days. Slender bronze green leaves and lilac tubular flowers. Aromatic mild peppery flavor. As a tea, will reduce fever, aid in digestion and soothe bee stings. Widely used as an herb in soups, stuffings, sausages and stews. One of the essential ingredients in Herbs de Provence (along with rosemary, thyme and oregano). Repels insects from the garden. Annual. Zones: 3-10

SUMMER MIDGET - 7646

10-12 in. - 66,000 S. *Satureja hortensis*. 60 days. Improved selection with higher essential oil content and better foliage mass than the standard. Compact variety and fast growing. Leaves are so tender they can be added fresh to salads or used as a garnish. Brings out the best in stews and vegetable dishes and shines as a seasoning for roasting meats, fowl and fish. Bottled in vinegar it will preserve the fresh summery flavor. Annual. Zones: 3-10

Each of the above: (34A5)	5,000 sds - \$10.50
10,000 sds - \$17.90	25,000 sds - \$28.85
50,000 sds - \$45.25	

WINTER - 7765

8-15 in. - 66,000 S. *Satureja montana*. Heirloom. 100 days. Flavor is more pungent and biting. Has a higher proportion of Thymol than Summer Savory. A great mixing herb said to bring all other herb together in a unique taste. Add to meat, poultry or fish. Its small leaves are the perfect complement to herb cheeses or as last minute additions to sautees. Even though it has a strong flavor when fresh, it does not hold up well to prolonged stewing. Perennial. Zones: 4-8

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
(31B5)	

SEA LAVENDER

Ink Root, Marsh Rosemary

30,000 sds/oz 55°-64° 10-20 days

Grows well in salty, windy and sandy conditions. Outdoors, grow in preferably sandy, well drained soil in full sun. Deadhead spent blooms to promote continued blooming. To dry the blooms, cut the flowers when the blooms are three-quarters open and hang upside down in a dark area.

SEA LAVENDER - 7850

☞ 24 in. - 30,000 S. *Limonium latifolium*. 100-110 days. Beautiful masses of tiny lavender-blue blossoms. The sprays should be picked when the majority of flowers are open and dried in an upright position. May be used as a fabric dye for a more natural means of coloring, fresh or dried. Indians used this as a tonic to control diarrhea and dysentery. Perennial. Zones: 4-9

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

STEVIA

Yerba Dulce, Sugar Plant

83,000 sds/oz 80°-85° 7-14 days

Germination of seeds tends to be spotty, so keep seed-sown plants under bright lights until the weather warms in spring. To maximize leaf production, you must trim back the plants several times to induce branching, first when plants are about 8 in. tall and again in early summer. You can use the leaves from the pinched-back stem tips or root them in moist potting soil to increase your supply. Consistent moisture is important during the summer. Harvest leaves in the morning after dew has dried. Leaves are crisp and bright green when fully dry.

SWEET HERB - 7441

26-36 in. - 83,000 S. *S. rebaudiana*. 100-120 days. A natural dietary supplement. Leaves are estimated to be 150 to 300 times sweeter than refined sugar. Add a fresh bruised leaf to iced tea or harvest the leaves, dry and grind to a powder for use in drinks and cooking. Many have said one small piece of the leaf will keep the mouth sweet for an hour. Perennial. Zones: 9-11

50 sds - \$13.85	100 sds - \$18.55
200 sds - \$30.10	500 sds - \$48.10
1,000 sds - \$81.15	(26I5)

TARRAGON

Dragons Wort

143,000 sds/oz 40° 14-21 days

Grow in a pH range between 6.5 (neutral) and 7.5 (mildly alkaline) with a preferred pH of 6.5. Plants have a shallow root system, care must be taken not to damage the roots when weeding and special care must be shown during the winter after transplanting, as the root systems will not have developed fully.

TARRAGON, RUSSIAN - 7784

18 in. - 143,000 S. *Artemisia dracunculoides*. 85 days. Branching stems of narrow pointed, aromatic leaves. Sharp, licorice-like flavor. Very popular in French cuisine. Use to flavor gourmet vinegars and spice up salads, meat, poultry, fish, vegetables, sauces (main ingredient in bearnaise sauce), mayonnaise and omelettes. Ancient Greeks used Tarragon to numb the mouth by chewing the leaves to relieve pain from tooth aches. Traditional herbalists believe that Tarragon contains chemical Rutin that strengthens capillary walls and prevents plaque deposit associated with heart disease and strokes when taken as a tea. Perennial. Zones: 3-8

Each of the above: (31A5)	1,000 sds - \$9.75
2,000 sds - \$13.15	5,000 sds - \$19.35
10,000 sds - \$28.05	

THYME

Mother of Thyme, Creeping Thyme, Common Thyme, Garden Thyme

147,000 sds/oz 70° 14-21 days

Suitable for light (sandy) and medium (loamy) soils, prefers well-drained soil and can grow in nutritionally poor soil with a pH neutral and basic (alkaline) soils. Cannot grow in shade, prefers dry or moist soil. Easy to maintain, does not take over and can easily be confined to a specific area. Tolerates many soil types, including heavy clay. A versatile, low maintenance groundcover, uses in the garden are almost unlimited.

SERPHYLLUM - 7786

6-8 in. - 147,000 S. Thymus serpyllum. Heirloom. 90-95 days. Creeping, sweet scented foliage. Produces tiny pink to purple flowers. Versatile groundcover, use between stepping stones, near a patio adjoining walkways or at the base of a rockery for a sweet aroma. It is widely used in mouth washes and decongestants. For centuries, it has been used as an antiseptic, cough remedy and digestive aid. Used as a tea, it will aid patients with emphysema. Perennial. Zones: 4-8

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

THYME (MULTI-SEED) - 8924MP

12-18 in. - Thymus vulgaris. Simply Herbs Collection. (Winter Thyme). 90-95 days. MULTI-SEED PELLETT contains 6-12 seeds per pellet. Zones: 5-9

50 sds - \$10.90 100 sds - \$14.30
200 sds - \$21.20 500 sds - \$33.00
1,000 sds - \$51.40 (26C5)

VULGARIS (SUMMER) - 7792

6-12 in. - 116,000 S. T. vulgaris. (Summer Thyme). 90-95 days. Spicier, more pungent flavor than Winter Thyme in a smaller plant. Wonderful flower displays are much visited by bees. Makes an excellent tea (dry it first) that has strong antimicrobial and antitussive activity. Zones: 6-8

1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

VULGARIS (WINTER) - 7785

18 in. - 100,000 S. T. vulgaris. Heirloom. (Winter Thyme). 90-95 days. Broad-leaved; widely used for seasoning. Helps digestion of fatty foods. For centuries, it has been used as an antiseptic, cough remedy and digestive aid. Used as a tea, it will aid patients with emphysema. Perennial. Zones: 5-8

5,000 sds - \$10.50 10,000 sds - \$17.90
25,000 sds - \$28.85 50,000 sds - \$45.25
(34A5)

VALERIAN

All Heal, Garden Heliotrope

14,000 sds/oz 65°-70° 7-21 days

Grow in fertile, weed free soil and fertilize accordingly. Barely cover the seeds (light helps but not direct sunlight). Germination rate is usually low, so a one-week soak in cold water that is changed for fresh daily or a cold stratification to increase germination can also be done. If growing for medicinal herb, cut flower stalks as soon as they appear to direct more energy to the root, but if growing as an ornamental, let the plant flower, as they have a sweet, cherry pie fragrance.

VALERIAN - 7435

⌘ 24 in. - 20,000 S. Valeriana officinalis. Heirloom. 500-550 days. Compact, bushy plant with fragrant red flowers that will bloom all summer. Fragrant flowers will attract bees and butterflies all season. Young leaves can be eaten in salads or as cooked greens. Roots and leaves are used to calm tension, relieve headaches, insomnia and migraines. Perennial. Zones: 3-9

500 sds - \$10.85 1,000 sds - \$17.45
5,000 sds - \$39.50 10,000 sds - \$65.60
(30D5)

Vegetable Seed

Arugula.

Also see listing of Arugula under Herbs.

ARUGULA

Rucola, Eruca Vesicaria

14,000 sds/oz 70° 10 days

ARUGULA-(MULTI-SEED) - 8190MP

⌘ 30-45 days. Simply Salad Collection. Quick to establish and can be harvested at a young leaf size for a mild, nutty flavor. Leaves become spicy as they mature or are exposed to high temperatures. Upright type is perfect for bunching. Leaves have a mixture of lobes and smooth shapes that is perfect for salads or braising. PRESION MULTI-SEED PELLETT assures a high level of uniformity of germination, making this a great variety for use in hydroponic systems.

50 sds - \$11.40 100 sds - \$14.80
200 sds - \$22.70 500 sds - \$34.95
1,000 sds - \$59.20 (26D5)

ROCKET- ROQUETTE - 7782

12-18 in. - 17,000 S. Eruca sativa. Heirloom. 35 days. Tender smooth leaves with robust, peppery flavor. Cook mature leaves with other greens or use as a zesty accent in salads. An essential ingredient in the Provençal mixed green, mesclum. Best when picked minutes before your meal. Annual.

1,000 sds - \$9.75 2,000 sds - \$13.15
5,000 sds - \$19.35 10,000 sds - \$28.05
(31A5)

ARTICHOKE

650 sds/oz 14 days

For the best germination, soak seeds in warm water for 4-6 days before sowing. Attractive, ornamental perennial with edible flower buds. Needs winter protection from severe freezing conditions. Herbalists believe artichokes are useful in treating indigestion, liver protective properties and cholesterol reducer.

GREEN GLOBE - 7511

⌘ 650 S. 80-90 days, Large edible flower heads. Ferny thistle-like foliage is also useful in the landscape. Under ideal conditions they can be harvested the second year. Steam them and they are great for dipping in butter or sauces.

100 sds - \$10.40 200 sds - \$13.35
500 sds - \$19.75 1,000 sds - \$29.70
2,000 sds - \$46.80 (28C5)

ASPARAGUS

1,500 sds/oz

For the best germination, soak seeds in warm water for 4-6 days before sowing. 1 oz. will produce 250 roots. About 1 oz. for 100 ft. row, when planting, space rows 18 x 24 in. About 2-3 lbs. per acre when direct seeding.

MARY WASHINGTON - 7513

1,500 S. 14-21 days. Developed by Dr. J. B. Norton, U.S. Department of Agriculture, for resistance to asparagus rust and considered the most desirable of the Asparagus family.

500 sds - \$10.30 1,000 sds - \$14.75
5,000 sds - \$33.90 10,000 sds - \$51.50
(30C5)

BEANS

100 sds/oz

Plant beans in rows 2 ft. apart. 1 lb. will plant a 50 ft. row. Space 4 x 18 in. when direct seeding, about 75 lbs per acre.

BLUE LAKE POLE - 7517

90 S. 60 days. Pole Bean. Pods are round, smooth, meaty and slow to develop seed. Stringless pods capture a rich, distinctive flavor. Cooks up tender with full-bodied flavor. Great fresh or frozen and yields plenty for canning.

BUSH ROMA II - 7509

85 S. 56 days. An attractive Romano bush bean that delivers savory kitchen garden flavor, tender pods, and impressive yields. Vigorous 20 in. plants produce large 6 in., medium-green, smooth, flat beans that are slow to develop seed or tough strings. That means a longer period of optimum eating quality. One of the very best canning white seeded Romanos.

Each of the above: (15Z5) 2 oz. - \$10.35
4 oz. - \$15.35 8 oz. - \$22.25
1 LB. - \$31.45

Vegetable Seed

BEANS (continued)

BUSH ROYAL BURGUNDY - 7507

105 S. 55 days. This bean is absolutely gorgeous. Violet-purple outside and bright green inside. Fun for kids to grow and has great flavor. The 6 in. long pods turn green after cooking, providing a built in blanching indicator. Upright, 24 in. tall plants hold their pencil-shaped pods off the ground. Performs exceptionally well under cool conditions. Rich, delicious bean flavor.

Each of the above: (15Z5) 2 oz. - \$10.35
4 oz. - \$15.35 8 oz. - \$22.25
1 LB. - \$31.45

JADE BUSH - 7514

100 S. 53 days. Long attractive pods that are 6-7 in., slender, deep green and are exceptionally tender and delicious. Large, upright plants keep beans clean and straight. Heat tolerant and high yielding even under heat or cold stress. Organically grown seed.

250 sds - \$11.90 500 sds - \$15.60
1,000 sds - \$20.70 2,000 sds - \$31.45
5,000 sds - \$60.60 (29C5)

KENTUCKY WONDER - 7518

75 S. (Old Homestead). Heirloom. 58 days. Green pole bean. 9 in. pods are oval, thick, gently curved, meaty and tender and stringless when young. Exceptional flavor. Delicious fresh, frozen or dried for shell beans.

TENDERGREEN - 7520

70 S. 53 days. Bush habit, stringless. 6 in. pods are rich green and outstanding in tenderness and rich flavor. Ideal for canning or freezing. Disease resistant.

Each of the above: (15Z5) 2 oz. - \$10.35
4 oz. - \$15.35 8 oz. - \$22.25
1 LB. - \$31.45

YARD LONG (DARK BEAN) - 7530

200 S. 78 days. Pole Bean. (Python). Graceful, 16-20 in. long, dark green pods. No bigger than the diameter of a pencil. Stringless, sweet, and richly flavored for steaming, curries and stir-fry. Edible bean is reddish-brown in color. Use a tall trellis.

YARD LONG (WHITE BEAN) - 7505

80 S. 85 days. Pole Bean. (Orient Wonder). Open-pollinated variety that is popular in Asian and oriental cuisines. Also known as asparagus bean, yard-long bean or Chinese noodle beans, these beans are long and slender. Slow seed development that leaves the edible bean with a white color. As a result, the pods stay nice and tender even at longer lengths. Best harvested at 15-18 in. long, but can get up to 30 in. long if left on the vines.

Each of the above: (28D5) 100 sds - \$11.15
200 sds - \$14.30 500 sds - \$21.70
1,000 sds - \$33.20 2,000 sds - \$52.90

BEETS

1,200 sds/oz 75° 15 days

For the best germination, cover seeds lightly after sowing. Space rows 18-24 in. apart. 4 ozs. for a 175 ft. row. About 10 lbs. per acre, when direct seeding. Beets are delicious, tops are excellent when cooked for greens. Beets are known to promote a diuretic washing action via the liver and kidneys. High in iron content that serves as a strong agent for flushing away fatty deposits and impurities.

BULLS BLOOD - 7512

1,500 S. Heirloom. 35 days (baby leaf). 58 days (roots). Grown for its tender, sweet, deep red-burgundy foliage. Very sweet and delicious, the baby leaves are a rage in salads. The foliage color intensifies as the plant matures. Striking, both baby and full size. Roots show attractive candy-striped zoning when sliced.

1/4 oz. - \$9.85 1/2 oz. - \$13.15
1 oz. - \$17.15 2 oz. - \$28.00
4 oz. - \$44.20 (10A5)

DETROIT DARK RED - 7523

2,000 S. Heirloom. 55 days. The most popular garden variety. Perfectly round 3 in. fruits have striking deep red flesh that's incredibly sweet. Baby beets make excellent eating and harvesting them helps promote the growth of the remaining beets.

GOLDEN GLOBE - 7537

1,900 S. 50-60 days. This specialty beet has round orange roots with a rich gold interior that will not bleed like the red type. The roots are becoming increasingly popular in the small beet bunching market. Tender green leaves with attractive yellow stems add color and flavor to a salad mix.

Each of the above: (10B5) 1/4 oz. - \$10.05
1/2 oz. - \$14.30 1 oz. - \$19.10
2 oz. - \$31.75 4 oz. - \$50.80

BITTER MELON

150 sds/oz 70°-75° 15 days

For the best germination, we suggest that before sowing, soak seed in warm water for 4-5 days, changing the water daily. Cover seeds lightly and maintain 75° soil temperature. Bitter gourds are packed with nutrients and are recommended as a healthy food by the American Diabetic Association.

LONG FRUITED - 7531

150 S. 70 days. This is an Indian variety climbing up to 12 feet and has yellow flowers. Fruits grow to 12 in. long and have a green warty skin. Young fruit, leafy shoots and leaves are all edible. Pick the fruit early for less bitterness. The young fruit works well in soups, especially with pork and black beans. Mature fruit is parboiled then used in stir-fry.

Each of the above: (09Z5) 1/8 oz. - \$13.15
1/4 oz. - \$19.70 1/2 oz. - \$31.20
1 oz. - \$44.35 4 oz. - \$134.45

BITTER MELON (continued)

SHORT FRUITED - 7541

120 S. 40-55 days. (Karella). Indian Hybrid. Dark green skin with 6-8 in. fruits that are heavily warted. The spindle-shaped melons taper at both ends and overall they are narrower than a Chinese bitter melon. The young fruits and the immature shoots and leaves are edible. Growers prefer this variety for its early maturity and long-lasting generous yield.

Each of the above: (09Z5) 1/8 oz. - \$13.15
1/4 oz. - \$19.70 1/2 oz. - \$31.20
1 oz. - \$44.35 4 oz. - \$134.45

BROCCOLI

6,000 sds/oz 70° 10 days

For the best germination, cover seeds lightly after sowing. Plants can be ready for sales about 4-5 weeks after seeding. Space plants 36 x 24 in. outdoors. About 1/4 oz. for a 100 ft. row or 2 lbs. per acre when direct seeding. Broccoli is very high in Vitamins A and C. Being a member of the Brassica (Broccoli and Cabbage) family, it is an excellent source of antioxidants that medical research suggests may prevent cancer.

ARTWORK - 7544

6,000 S. 55 days. (All America Winner - 2015). Grow your own baby (or stem) broccoli, a gourmet treat. Instead of focusing its energy on producing one large head, this will yield tender, dark green side shoots with bite-size heads and long, edible stems perfect for stir fries and sauteing. Pinch the main head when it reaches 1-1 1/2 in. to trigger side shoot formation. Harvest the smaller heads that follow when stems are 6-7 in. long. Plants should yield many side shoots through the growing season. Resists warm temperature bolting better than similar. A true broccoli bouquet.

100 sds - \$11.15 200 sds - \$14.30
500 sds - \$21.70 1,000 sds - \$33.20
2,000 sds - \$52.90 (28D5)

ASPABROC - 7540

4,000 S. 50-60 days. Resembles broccoli raab with an asparagus-like stem, mild tasting. Plants produce tiny broccoli heads plus 3-5 shoots in 10 days. Continues producing heads for 4 weeks. Famous new product in grocery stores and restaurants.

50 sds - \$11.90 100 sds - \$15.60
200 sds - \$23.70 500 sds - \$37.60
1,000 sds - \$62.35 (26Z5)

BROCCOLI (continued on next page)

BROCCOLI (continued)

CASTLE DOME - 7526

4,500 S. 75 days. Used primarily for extra early crown cuts in late spring or early summer. Compact plants have good holding ability and offer good heat tolerance as well as cold vigor. Uniform, medium green, heavy and deep domed heads have small, tight heads. Good tolerance to hollow stem and Brown Bead.

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(29Z5)

DIPLOMAT - 7532

9,000 S. (F-1 Hybrid). 75 days. Attractive blue-green heads with a small bead size make an excellent choice for the roadside and fresh market trade. Good heat and cold tolerance, and it produces uniform semi-domed heads.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

GREEN SPROUTING - 7529

7,000 S. Heirloom. 70 days. The flavor of this broccoli will make you never buy store-bought again. Plants bear good crops of 5-6 in. heads. Early, valuable all-season.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

GYPSY - 7538

7,500 S. (F-1 Hybrid). 91 days. Well-domed and uniform with a medium-small bead size and medium-sized stem. Large, healthy plants have intermediate resistance to downy mildew and good heat tolerance. Suitable for bunching or crown cut. Good side shoot production. For summer harvest.

MARATHON - 7546

4,000 S. (F-1 Hybrid). 97 days. Multi-use variety and widely adaptable. High dome, small bead and heavy head. A versatile variety which can be used in the garden for spring and autumn crops and though the winter.

Each of the above: (29C5)	250 sds - \$11.90
	500 sds - \$15.60
	1,000 sds - \$20.70
	2,000 sds - \$31.45
	5,000 sds - \$60.60

ROMANESCO - 7524

6,500 S. 75-100 days. A preeminent Italian heirloom variety that was first documented in Italy in the 16th century. Crisp, beautiful apple-green whorled heads impart an altogether pleasing, nutty taste. Most often enjoyed raw, if lightly cooked, will retain its flavor and unique texture.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

BRUSSEL SPROUTS

7,000 sds/oz 70° 10 days

Same culture as Broccoli. Sow in March and again in mid-June for fall crop. For the best germination, cover seeds lightly after sowing. Space 36 x 18 in. outdoors, about 1-1/2 lbs per acre when direct seeding.

JADE CROSS - 7533

5,500 S. (F-1 Hybrid). (All America Winner - 1959). 85 days. Is early, has excellent color and is very productive. An outstanding variety.

250 sds - \$15.70	500 sds - \$21.10
1,000 sds - \$29.60	2,000 sds - \$47.20
5,000 sds - \$95.10	(29F5)

LONG ISLAND - 7534

8,000 S. 90 days. The most popular, they yield amazing amounts of sweet, medium-sized heads. Sweeter after temperatures fall below freezing. Good keeper.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

RED BALL - 7535

8,000 S. 85 days. A special variety that offers high yields of dark red sprouts, but has a milder, delicate, nuttier flavor than standard green types. The red color is enhanced with the first light frost and develops great intensity after a hard frost. It is retained when the sprouts are cooked, steamed or microwaved. The plants are ornamental enough for flower borders.

CABBAGE (CHINESE CABBAGE)

10,000 sds/oz sds/oz 75°-80° 5-10 days

Sow from early spring through midsummer.

In the South, greens are well adapted to fall plantings. Sow 15 seeds/ft., 1/4 in. deep in 2 in. wide bands in rows 18 in. apart. Thin plants to 6 in. for mini heads, 8-12 in. for full-sized heads. Harvest before flowering. For baby-leaf, sow in a 2-4 in. wide band sow 60 seeds/ft. Clip 4-5 week-old leaves.

BLUES - 7624

9,500 S. (F-1 Hybrid). 57 days. Napa type. Green leaves with white ribs. Produces good yields of 4 1/2 lb. size heads. Slow to bolt. Perfect for spring and early summer crops.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

CABBAGE (CHINESE CABBAGE) (continued)

JOI CHOI - 7607

11,000 S. (F-1 Hybrid). (Pak Choi). 50 days. Large dark green leaves and thick, flattened white petioles. Remarkably juicy and a pleasing mild flavor with a hint of mustard. Slow to bolt. Can be harvested at various stages of development. Tolerant of heat and cold. Can be steamed, stir-fried, and braised. Use in soups for ohitashi and pickles. Top choice for the market gardener.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

RED CHOI - 7608

10,000 S. (F-1 Hybrid). (Pac Choi). 45 days. An attractive touch of red. Quick growing dark green baby leaves mature to dark maroon tops with green undersides and green petioles at full size. Excellent at micro green, baby leaf and full size.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

Cabbage.

Also see listing of Cabbage, Flowering under Annuals.

CABBAGE

7,000 sds/oz 70° 7-10 days

For the best germination, cover seeds lightly after sowing. Sow in March. Grow cool after transplanting. Space plants 18 in. apart in rows 3 ft. apart. Never plant cabbage in the same location 2 years in a row. About 1/4 oz. for a 100 ft. row or 2 lbs. per acre when direct seeding. Cabbage is high in Vitamin C and Potassium. Being a member of the Brassica (Broccoli and Cabbage) family, it is an excellent source of antioxidants that medical research suggests may prevent cancer. To keep the smell of Cabbage out of your kitchen when cooking or boiling Cabbage, add several stalks of Celery to the pot.

CHARMANT - 7604

5,000 S. (F-1 Hybrid). 66 days. Suited for close plantings, forming solid, 3-4 lb., blue-green heads that are 6-8 in. across. They will stand for weeks in the garden without splitting. Great for slaw or kraut, especially good with a bit of lemon juice and roasted pine nuts tossed with melted butter.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

COPENHAGEN MARKET - 7633

7,000 S. Heirloom. 67 days. Good for early market, home garden or kraut.

DANISH BALLHEAD - 7634

7,000 S. Heirloom. 105 days. Large, solid round heads. Best late variety.

Each of the above: (31A5)	1,000 sds - \$9.75
	2,000 sds - \$13.15
	5,000 sds - \$19.35

CABBAGE (continued)
EARLY JERSEY WAKEFIELD - 7635

5,000 S. Heirloom. 62 days. Solid, pointed or conical heads. Very early and uniform strain.

GOLDEN ACRE RESISTANT - 7623

7,000 S. Heirloom. 65 days. An excellent early summer variety. Small to medium-sized green round solid heads on compact plants with few outer leaves. 3 lb heads. Ideal for confined areas.

LATE FLAT DUTCH - 7641

7,500 S. Heirloom. 100 days. Introduced here in the US around the 1860s, a very dependable variety with very large, solid, flat top heads weighing 12-15 lbs. Excellent flavor. Makes great sauerkraut. Heck one head can easily fill 28 jars. Keeps very well for processing. Maintains peak quality for months.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

RUBY PERFECTION - 7621

5,000 S. (F-1 Hybrid). 80 days. Solid 6-8 in., 2-3 lb., deep red heads. Few outer leaves. Heavy yielding. Very flavorful and crisp. Good field holding ability. Ideal for smaller gardens or growing at closer spacing. Tasty and reliable. Slow to burst.

250 sds - \$15.70 500 sds - \$21.10
1,000 sds - \$29.60 2,000 sds - \$47.20
5,000 sds - \$95.10 (29F5)

SAVOY ACE - 7615

7,300 S. (F-1 Hybrid). 75 days. Darker green color than the original. Holds better in the field and is cold tolerant. Produce large 3 1/2 lb. heads. The interior is excellent. Nice globe shape for early fall harvests. No Yellows tolerance.

250 sds - \$16.80 500 sds - \$22.95
1,000 sds - \$32.55 2,000 sds - \$52.50
5,000 sds - \$106.55 (29G5)

SAVOY KING - 7613

3,500 S. (F-1 Hybrid). (All America Winner - 1965). 85 days. Very vigorous high yielding heads weighing between 5-6 lbs. Deep green color. Heat and disease resistant.

250 sds - \$15.70 500 sds - \$21.10
1,000 sds - \$29.60 2,000 sds - \$47.20
5,000 sds - \$95.10 (29F5)

STONEHEAD - 7617

8,000 S. (F-1 Hybrid). (All America Winner - 1969). 50 days. Yellow resistant. About 6 in. very solid heads with a short core makes storage and spacing ideal. Slow to bolt.

Each of the above: (29C5) 250 sds - \$11.90
500 sds - \$15.60 1,000 sds - \$20.70
2,000 sds - \$31.45 5,000 sds - \$60.60

CARDOON

750 sds/oz

Plant seeds early in greenhouse; transplant into rows 36 x 12 in. 1 oz. for 100 ft. row.

Soak seed 5-7 days before sowing.

TENDERHEART - 7539

750 S. (Large Smooth, Green Globe). Heirloom. 120 days. Clump forming tender perennial with pinnatifid (Spiny) silver gray leaves that develop up to 20 in. long. Purple 2-3 in. flower heads will develop throughout the summer growing season. Blanched ribs are a favorite in antipasto. Slightly spicy, celery-like flavor. Flowers are great for dried arrangements.

Each of the above: (29C5) 250 sds - \$11.90
500 sds - \$15.60 1,000 sds - \$20.70
2,000 sds - \$31.45 5,000 sds - \$60.60

CARROT

18,000 sds/oz

1 oz. will plant 100 ft. row. 3-1/2 to 4 lbs. per acre. Sow as early as the ground can be worked, sow direct in rows 12-18 in. apart. Make successive plantings until August 1st. About 2-3 lbs. per acre when direct seeding. Carrot fly can be a nuisance insect. If a problem every year; grow Herb, Sage nearby to repel the insects. The brighter the orange color, the higher the level of Beta Carotene and vitamins. Breeders began developing orange carrots about 400 years ago - before that time, they were purple and considered undesirable! A study at Harvard Medical School found that Beta Carotene found in carrots, pumpkin, squash and red peppers can reduce the risk of stroke by 68%. Also known to reduce the risk of smoking related cancers, lowering the blood pressure and preventing constipation.

ATOMIC RED - 7578

22,000 S. 75 days. Distinctively beautiful scarlet-coral color. Produces long tapered roots, around 9 in. in length. Crisp and strong flavored when eaten raw and especially good cooked when it develops its remarkable color and flavor. Turns deeper red when steamed, roasted or baked. Particularly suitable for stir-frying and great for coloring up sushi and salads. The hue comes from the anti-oxidant lycopene which is highly regarded as a cancer-preventing nutrient. The more color the higher the content of beta-carotene and vitamins.

1,000 sds - \$10.05 2,000 sds - \$15.60
5,000 sds - \$21.20 10,000 sds - \$28.75
(31B5)

LITTLE FINGERS - 7584

Nantes type. 50-60 days. A superb baby type with deep orange color. Sweet 3-6 in. carrots are great for snacks. Developed in France for canning and pickling.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

CARROT (continued)
NANTES SCARLET - 7550

17,500 S. 65-74 days. Cylindrical, half long, 7 x 1.25 in. bright red-orange flesh, fine grained and nearly coreless. Fine flavor, sweet and brittle. Colors up early for baby carrots, for bunching, freezing or storage. Excellent juicer.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

RAINBOW BLEND - 7583

26,000 S. 60-75 days. Unique combination of color and taste sensations. A mixture of Atomic Red, Cosmic Purple, Lunar White and Solar Yellow.

Each of the above: (31B5) 1,000 sds - \$10.05
2,000 sds - \$15.60 5,000 sds - \$21.20
10,000 sds - \$28.75

CAULIFLOWER

7,000 sds/oz 70° 10 days

For the best germination, cover seeds lightly after sowing. Sow February-March. Culture is the same as for cabbage. Handle in plant bands or peat pots. Space 18-24 in. Begin using cauliflower as the heads fill out, otherwise the quality will diminish. They love fertilizer and are heavy feeders. About 1/4 oz. for 100 ft. row or 1-1/2 lbs. per acre when direct seeded.

EARLY SNOWBALL - 7555

6,000 S. (Burpeeana Super Snowball A). Heirloom. 55 days. Large, 2 lb. pure white solid heads.

SELF BLANCHING - 7558

8,000 S. 65 days. Pure white 3 1/2 - 4 lb. well shaped heads with a fine texture.

Each of the above: (31B5) 1,000 sds - \$10.05
2,000 sds - \$15.60 5,000 sds - \$21.20
10,000 sds - \$28.75

SNOW CROWN - 7551

5,000 S. (F-1 Hybrid). (All America Winner - 1975). 50 days. Early and vigorous growing snowball type. Head is well rounded, very smooth pure white, weighing about 2 lbs. and of excellent quality. Ideal for fresh or frozen market use.

100 sds - \$11.70 200 sds - \$15.30

most within 4 hours!*

CELERY

10,000 sds/oz 60°-65° 14-21 days

1 oz. will produce about 7,000 plants or a 150 ft. row. Sow February-March. Space rows 6 x 28 in. Days indicated are from date of planting. Soak seeds 3-5 days before sowing. After sowing, cover seeds lightly with media, needs darkness to germinate. Very high in Vitamin A which reduces arthritis pain and helps flush fat from the body.

CELERIAC (BRILLIANT) - 7566

30,000 S. 110 days. Medium-large, round and relatively smooth roots with buff-colored skin. Interiors are white and flavorful, and resist pithiness and hollow heart. Excellent in soups, stews and used for making vegetable juices. Shredded and used in salads with greens.

250 sds - \$14.25	500 sds - \$19.25
1,000 sds - \$26.65	2,000 sds - \$41.95
5,000 sds - \$83.60	(29Z5)

GIANT PASCAL Crop failure. As a substitute, we suggest *Tango*.

GOLDEN SELF-BLANCHING - 7563

80,000 S. Heirloom. 90 days. Stocky, solid, thick stalks blanch easily. Vigorous growing with upright medium green foliage. The roots are round smooth and have good inner quality with high yields.

TALL UTAH - 7565

100,000 S. 90-100 days. The most dependable variety ever. Dark green stalks and a very compact habit. This open pollinated variety yields vigorous, stocky plants with thick, solid, tender yet crisp stalks.

Each of the above: (34A5)	5,000 sds - \$10.50
10,000 sds - \$17.90	25,000 sds - \$28.85
50,000 sds - \$45.25	

TANGO - 7562

63,000 S. 80 days. Pascal type. Early, very heavy yield with extremely smooth stalks. Some field tolerance to Fusarium. Excellent eating quality, tender and sweet.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20

Chicory. Also see listing of *Radicchio* under *Vegetables*.

CHICORY

25,000 sds/oz

1/2 oz. for a 100 ft. row. Plant as early as possible. Thin plants to 6 in. apart. About 1 lb. per acre if direct seeded.

WITLOOF OR FRENCH ENDIVE - 7571

20,000 S. (Frisee). Heirloom. 45 days. Easy to grow, makes an appetizing salad. Medium sized heads are extra frilly, deep hearted, self blanching with compact growth habit.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

COLLARDS

7,000 sds/oz 70° 10-14 days

1/2 oz. for a 100 ft. row. Rows should be spaced 18 x 24 in. when direct seeding, about 3-4 lbs. per acre.

GEORGIA - 7649

6,250 S. 70 days. Non-heading, juicy blue-green wavy leaves will stand light freezing which improves the cabbage-like flavor.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

CORN, SWEET

125 sds/oz

Plant in hills 3-1/2 ft. apart with the rows 3 ft. apart. Thin to 2 plants per hill. About 1 lb. for 125 hills or 175 ft. row. About 2,000 S. per lb. or 10 lbs. per acre when direct seeding. Miniature Corn - for small, 3-4 in. ears used as an appetizer or in Chinese cooking - plant the seed close (4-6 in. apart) and harvest when the "silks" start to emerge. The earliest written record of corn (maize) is found in *Popol Juh*, the sacred book of the Quiche Indians of Guatemala and Mexico dating back to the 8th century! The first Europeans to see corn growing were the crew members of Columbus' ships exploring Cuba in 1492.

BODACIOUS - 7687

200 S. 75 days. Large, 8 in. ears have 18 rows of exceptionally tender yellow kernels. This is a sugar enhanced variety with exceptional sweet flavor. Outstanding variety with stress tolerance.

SILVER QUEEN - 7689

170 S. 90 days. Uniform 8 in. ears with 14-16 rows of snow white kernels. Very sweet and tender. Disease resistant.

Each of the above: (11Z5)	1/2 oz. - \$10.05
1 oz. - \$16.15	2 oz. - \$24.60
4 oz. - \$34.40	8 oz. - \$57.10

SUPER SURPRISE (BICOLOR) - 8112

200 S. 76 days. Improved disease package, and ear length, with less propensity to tassel tip.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

CUCUMBER, BURPLESS

1,000 sds/oz 75° 5-7 days

1 oz. for 50 hills or a 150 ft. row. Sow seed in hills, thin out to 3-4 plants per hill. Space hills 1 ft. apart in rows 3 ft. apart. About 3-5 lbs. per acre when direct seeding. Plant radishes between the rows to deter the cucumber beetle. Fruits should be picked before they begin to turn yellow to avoid hollow centers. For straight fruit, grow on a trellis or fence.

BURPLESS BUSH - 7664

900 S. 55 days. Compact, bush habit. 10 in. dark green, firm fruit. Sweet, bitterfree fruits for those who want a compact plant without the after taste. Disease resistant.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

BURPLESS NO. 26 - 7654

1,000 S. (F-1 Hybrid). 60 days. Tasty Green. A new variety for those who shun cucumbers as being bitter and indigestible. They should be picked and eaten like celery when they are young; no peeling since the skin is soft and tender. Stake for best results. 9 in. long and 1-1/2 in. in diameter. Suited for greenhouse culture.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

EARLY SPRING BURPLESS BUSH - 7661

1,000 S. (F-1 Hybrid). 58 days. Long, slender fruits offer a crisp, mild, bitter-free and burpleess bite all season long. Firm and easy to peel, they should become your cucumber of choice. Fruits are 10-12 in. and are pale green in color. Fruits are smooth and white spined. Excellent home variety. For straight fruit, stake them on a support, or if you like the look of curly fruits, let them grow on the ground where they will twist up. Bush habit.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

MUNCHER - 7710

* *New for 2026* 860 S. Heirloom. 65-70 days. One of the most reliably productive and tolerant grows on the farm or in the home garden. An exceedingly popular crop for replete, steady harvests. A disease-hardy vining crop with a long harvest window of 8-9 in. long, seedless fruits. Thin-skinned and low-acidic fruits. Ideal for slicing, canning and fresh eating. Excellent with balsamic, in salads or even makes a good pickle.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

SUMMER TOP - 7680

1,000 S. (F-1 Hybrid). 65 days. This is a Japanese burpleess variety that produces an abundance of uniform glossy, deep green fruit, 8 1/2 to 9 in. in length, with a diameter between 1 and 1 1/4 in. Highly resistant to both powdery mildew and downy mildew.

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

CUCUMBER, BURPLESS (continued)

SUMMER DANCE - 7643

1,500 S. (F-1 Hybrid). 60 days. Japanese Burpless. Best known for its extremely uniform fruit. Fruits are 9 in. long and more than 1 in. in diameter that are very straight with fine white spines on their glossy skin. Incredibly crisp with a sweet, mild and refreshing flavor. Grows vigorously and delivers a high yield from its many lateral vines. Highly resistant to downy mildew and powdery mildew, it has an intermediate resistance to corynespora blight and target spot. Monoecious flowering habit (plants produce both male and female flowers).

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

SUYO LONG - 7703

900 S. 65 days. A traditional variety from China that offers an abundance of delicious, burpless and crispy fruits. Growing to 16 in. long on vigorous vines, the sweet ribbed fruits can be picked at any stage from very young to fully mature. Perfect for eating fresh or for pickling. Grow it on a trellis for more straight fruits.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

SWEET SUCCESS - 7658

760 S. (F-1 Hybrid). (All America Winner - 1983). 55 days. Early maturing, bitterfree and burpless type. It is not necessary to peel the medium dark green skin from the 12-14 in. fruits. The interior is crisp and white - ideal for summer salads. Disease resistant.

10 sds - \$11.05	25 sds - \$16.20
50 sds - \$21.70	100 sds - \$33.20
250 sds - \$64.40	(24F5)

TASTY GREEN - 7705

1,000 S. (F-1 Hybrid). 62 days. Incredibly tender skin. Dark green with shallow ridges and small white spines. Flesh is crisp, juicy and delicious. The fruits are 9 in. long, arising on vigorous vines that are resistant to Powdery Mildew and Downy Mildew. A favorite for taste.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

CUCUMBER, PICKLING

BOSTON PICKLE - 7652

1,000 S. Heirloom. 55 days. One of the big favorites that has been around since the 19th century. Vigorous vines give large yields of smooth, 3 in. long green fruit with black spines. Excellent for pickles and very crisp to cut up for salads.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

CUCUMBER, PICKLING (continued)

CUCAMELON (MOUSE MELON) - 7656

9,000 S. Melothria scabra. 60 days. Diminutive oval melons look like miniature watermelons and are surprisingly crunchy, with a refreshing tart taste that is great for pickles, stir fries, and fresh salads. Very attractive ornamental vines are ideal for growing on a trellis. Also known as Mexican Sour Gherkins are virtually carefree, have good disease resistance and are extremely easy to grow. Very heavy yields.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

EUREKA - 7642

1,000 S. 57 days. Developed for hand harvesting and the trellising trade. Strong, vigorous plants set good yields of uniform, firm, white spine, dark green 3 in. fruits. Intermediate resistance to mosaic virus and Powdery mildew, making it an excellent choice in regions that are heavily affected by these diseases. If you want a pickle with a good disease resistance package, you've found it!

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

GHERKING - 7657

1,300 S. (F-1 Hybrid). 50-55 days. Produces high yields of early maturing, cylindrical, dark green, 3-5 in. fruits with white spines. Large yields allow for harvest of bitter-free fruit which can be picked at multiple sizes for processing or fresh eating whole or sliced.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

HOMEMADE PICKLES - 7670

1,000 S. 55 days. Bush type. This variety was developed for the home gardener and home pickling use. A heavy producer of solid, crisp pickles. Can be harvested when 2 in. long or full maturity at 5 in. A very high yielding variety. Over an eight week period, ten plants yielded about 450 fruits or an average of 45+ fruits per plant.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

PARISIAN GHERKIN - 7665

1,000 S. (F-1 Hybrid). (All America Winner - 2015). 50 days. Excellent mini fruits can be picked either at the midget size or small pickle stage and processed. The numerous black spined fruits can also be enjoyed fresh in salads and slaws. Crisp, sweet flavor processes into pickles well. The semi vining plants can be planted in the garden or staked patio cucumbers. Very easy to grow disease resistant variety, well adapted to container gardens or raised beds.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

CUCUMBER, PICKLING (continued)

PICK-A-BUSHEL - 7667

1,000 S. (F-1 Hybrid). (All America Winner - 2014). 50 days. A semi-bush variety that yields 10-20 white spined pickles per plant. Sweeter tasting with a nice firm texture. Best harvested when 3-6 in. long. Great option for gardeners looking to grow in patio containers.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

PICKLING - 7675

1,000 S. Heirloom. 58 days. Good medium dark green fruit 6 1/2 x 2 1/2 in. in diameter. Highly productive vigorous vine. Excellent black spined variety for home or commercial pickling. Disease resistant.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

PIONEER - 7673

1,000 S. (F-1 Hybrid). 48 days. A gynoecious, black spine, medium green pickling cucumber. Will produce an excellent quality of high yielding, uniform fruit. This variety is disease resistant and very popular in northern areas.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

CUCUMBER, SLICING

ARMENIAN - 7663

900 S. Heirloom. 60 days. Long, pale green ribbed fruits are 18 to 30 inches in length, with crisp, sweet flesh. Very thin skin does not require peeling.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

BURPEE HYBRID II - 7653

1,000 S. (F-1 Hybrid). 55 days. An excellent improved variety for the home garden, market grower, shipper and greenhouse culture. Fruits are dark green with white spines, 8 in. or more long and 2-1/4 in. across. A high yielding, disease resistant variety.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

BURPLESS SUPREME - 7648

1,000 S. 55 days. Fruits are very smooth and sweet. The skin is not bitter, and the entire fruit can be eaten without peeling. These heavy yielders should be picked when 3-5 in. long.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

CUCUMBER, SLICING
(continued on next page)

CUCUMBER, SLICING (continued)

DASHER II - 7639

1,500 S. (F-1 Hybrid). 58 days. Early maturing, produces high yields of 8 to 10 in. long, dark green fruits. One of the most disease resistant cucumbers on the market. Excellent for home gardens, farmer's markets, open production and commercial production.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

DIVA - 7676

1,000 S. (F-1 Hybrid). (All America Winner - 2002). 58 days. Distinctly tender, crisp, sweet, bitter-free and seedless fruit. Foliage is nonbitter, hence it is not as attractive to cucumber beetles as some varieties. This variety can set fruit without pollination. Plants naturally produce only female flowers which increase their overall yield of large, sweet and genetically non-bitter 6-8 in. fruits. Especially flavorful when harvested small. Disease resistant.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

GREEN LIGHT - 7685

(F-1 Hybrid). (All America Winner - 2020). 30-37 days. Compared to similar seedless varieties, yields were higher, maturity was earlier and more attractive, with a superior taste. Pick at 3-4 in. for sweet, crisp mini cukes that can be enjoyed with or without peeling. Makes a good pickler as well.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

LEMON APPLE - 7674

1,000 S. Heirloom. 60 days. Vigorous and productive variety that produces fruits about the size and color of a lemon. Flesh is crispy white, sweet, and burpless. Use the tops for salads or pickling. Fruits are ripe when first starting to turn yellow, but can be used green or ripe.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

MARKETMORE 76 - 7677

1,000 S. 66 days. Dark green fruits are 8 in. long and 2 1/2 inch in diameter.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

MARTINI - 7702

1,000 S. (F-1 Hybrid). 55-60 days. White to very light green exterior. Very tender skin when harvested at 5-6 in. No peeling needed. Larger fruit will need to be peeled. Bitter-free. Very crunchy. Skin does not yellow as it matures.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

CUCUMBER, SLICING (continued)

MINI-ME - 7707

1,300 S. 45 days. The perfect snacking cucumber, these 3-4 in. fruits are crispy and delicious. Attractive, uniform fruits are dark green and shiny, smooth skin that does not need to be peeled. Intermediate Resistance to Cucumber Mosaic Virus, downy mildew and powdery mildew. Organically grown seed.

25 sds - \$13.15	50 sds - \$17.45
100 sds - \$23.70	300 sds - \$51.10
500 sds - \$71.70	(25F5)

MINICRISP - 7709

1,200 S. (F-1 Hybrid). 40-45 days. Smooth, thin skinned, sweet and crispy. Cocktail sized fruits are 3 1/2 in. long and are nearly seedless. Extremely early producing and high yielding with continuous harvest. Perfect for snacking, appetizer trays or slicing in salads.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

PATIO SNACKER - 7659

1,000 S. 40 days. Controlled, yet vigorous, variety produces short, branching vines that make it a great fit into gardens or planters. Can be sold in large containers with a small trellis, and works as well in pack/pot programs. The dark green skinned, 8 inch long by 1-1/2 inch wide fruit has good flavor, crunchy texture and non-bitter peel. Free flowering, monoecious plants are high yielding with continuous harvests. Short crop times for multiple Spring turns.

50 sds - \$14.10	100 sds - \$19.25
200 sds - \$31.55	500 sds - \$50.75
1,000 sds - \$83.60	(26J5)

QUICK SNACK - 7708

1,500 S. 38-45 days. Delicious, 1-1/2 to 2-1/2 in. long x 1 in. fruits that are crisp and sweet. Produces handfuls of small, cocktail-sized fruits over a few weeks. Perfect for growing indoors or on a balcony. If grown on its own, fruit will be seedless. Eat fresh off the plant or add to a vegetable platter or fresh salad.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

SALAD BUSH

Crop failure. As a substitute, we suggest Saladmore Bush.

SALADMORE BUSH - 7645

1,000 S. (F-1 Hybrid). (All America Winner - 2014). 55 days. This semi bush vine sets sweet crisp cucumbers as long as you keep them picked. Fruit size is 7-8 inches with an average of 10-12 fruits per plant. Good garden performance due to the multiple disease resistances. Has dual use, pick small for processing as pickles and harvest larger for fresh slices or spears.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

CUCUMBER, SLICING (continued)

SLICE MORE - 7640

850 S. 62 days. Ideal consistent burpless slicer type with excellent L/D ratio. Perfectly straight, glossy smooth, 8 in., dark skinned fruit and exceptional taste.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70

10,000 sds - \$38.55	

DILL

Anethum graveolens

10,000 sds/oz 60°-65° 15 days

For the best germination, cover seeds lightly after sowing. Darkness will help germination. About 1/2 oz. for a 100 ft. row. A favorite seasoning with many uses. For over 3,000 years Dill has been used as a digestive aid. It helps relax the muscles of the digestive tract and act as an antifoaming agent in preventing the formation of intestinal gas bubbles and in controlling diarrhea.

BOUQUET - 7885

☞ 30 in. - 14,000 S. 40-60 days.

Early flowering selection with large seed umbels and mid to dark green foliage. Flowers are edible. Seeds flavor pickles: leaves enhance salads, soups, omelets and vegetables.

DUKAT - 7668

☞ 26-36 in. - 21,000 S. 45 days.

Heat tolerant Bouquet type. Used for a filler in many flower arrangements when not being used as a culinary herb. Large, attractive flower heads are very desirable for their odoriferous flavor in cooking and pickling. Use leaves for soups, the stalks and seeds are best suited for pickling.

Each of the above: (34A5)	5,000 sds - \$10.50
10,000 sds - \$17.90	25,000 sds - \$28.85

1,000 sds - \$12.70	2,000 sds - \$23.75
5,000 sds - \$40.20	10,000 sds - \$65.40
	(31F5)

DILL (continued)

LONG ISLAND MAMMOTH - 7699

30 in. - 14,000 S. 50 days. A favorite seasoning with many uses. For over 3,000 years Dill has been used as a digestive aid. It helps relax the muscles of the digestive tract and act as an antifoaming agent in preventing the formation of intestinal gas bubbles and in controlling diarrhea. This herb variety is more compact growing than the standard garden variety. Annual.

5,000 sds - \$10.50	10,000 sds - \$17.90
25,000 sds - \$28.85	50,000 sds - \$45.25
	(34A5)

EGGPLANT

6,000 sds/oz 80° 14 days

Sow February-March for plant sales. Space 18 x 24 in. Requires warm house and bottom heat for the best germination. About 1/4 oz. for a 100 ft. row or 2 lbs. per acre when direct seeding. For the best taste and flavor, pick before interior seeds are fully mature.

BABY JACK - 7693

* New for 2026 58-62 days. Small purple round fruits can be harvested at an early stage for baby fruit, cropping over a very long period. Very compact variety with well-branching habit that makes it perfect for container and patio gardening.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

BARBARELLA (SICILIAN) - 7718

7,000 S. 65 days. Unique squat shape that is round with slightly grooved sides. Fruits are medium size measuring about 4-6 in. in diameter. The outer skin is glossy with a deep purple hue and when ripe forms a tender white halo under its purple calyx. The inner flesh is dense and a creamy white color and offers a mild nutty flavor with a slight sweetness.

50 sds - \$13.35	100 sds - \$17.75
200 sds - \$28.60	500 sds - \$45.45
1,000 sds - \$77.15	(26H5)

BLACK BEAUTY - 7716

7,000 S. Heirloom. 80 days. Solanum melongena var. esculentum. Excellent market type. Dark purple fruits, broad egg-shaped. Bushy spreading 24-30 in. plant with 4 to 6-inch purplish black smooth oval 6.5 x 5 inch diameter fruit, blunt & broad at blossom end, retains color well. Average fruit is 1-3 lbs. holds well, high quality, fine flavor, yields well in the North if the season is long.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

BLACK BELL - 7711

4,500 S. (F-1 Hybrid). 68 days. Widely adapted variety with good production results. Superior round-oval shape and deep glossy purple color. Disease resistant.

25 sds - \$13.95	50 sds - \$18.65
100 sds - \$26.75	300 sds - \$56.20
500 sds - \$79.75	(25H5)

EGGPLANT (continued)

BLACK SHINE - 7682

6,500 S. (F-1 Hybrid). 65-70 days. Asian type. Deep purple, nearly black long slim 8 oz. fruits with purple calyx. Skin is tender and glossy. Extra early maturity, very prolific; long shape with thicker neck than Millionaire. Mild flavor, great for every eggplant use from grilling, to stir fries, and even an easy to serve Eggplant Parmigiana. Productive and reliable.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

CLASSIC - 7688

5,500 S. (F-1 Hybrid). 76 days. Teardrop shaped, green calyxed fruit are the size and shape well known in markets. Fruits are 8-9 in. The glossy, deep purple-black color is preferred by customers and its erect, vigorous plants supports heavy yields of high quality fruit.

50 sds - \$11.40	100 sds - \$14.80
200 sds - \$22.70	500 sds - \$34.95
1,000 sds - \$59.20	(26D5)

EPIC - 7492

5,500 S. 65 days. Glossy black, premium quality fruits are oval, 3-6 1/2 in. with only a very small blossom scar.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

FAIRY TALE - 7493

8,500 S. (F-1 Hybrid). (All America Winner - 2005. 49-51 days. Attractive 2-4 in. long mini fruits are white with violet/purple stripes and a green calyx. Wonderful flavor with no bitterness and very few seeds. Some fruits are harvested in clusters.

GRETEL - 7683

8,000 S. (F-1 Hybrid). (All America Winner-2007). 55 days. This petite plant with its beautiful, mini white fruit can be grown in beds or large containers. Produces many little elongated-teardrop shaped fruits. Harvest fruit when small for the most tender skin, the fewest seeds and sweetest flavor. The fruits are glossy white, have a green calyx and will set in clusters. Excellent sliced for grilling or sauteed.

HANSEL - 7684

7,800 S. (F-1 Hybrid). (All America Winner-2007). 55 days. The stunning, glossy, dark-purple fruits are borne in finger-like clusters and display a contrasting, bright-green calyx color. Great for smaller gardens. An abundance of fruit is produced so be prepared to bake, broil, stew, or grill these tender non-bitter fruits.

Each of the above: (25C5)	25 sds - \$11.45
50 sds - \$15.90	100 sds - \$21.95
300 sds - \$47.45	500 sds - \$64.10

EGGPLANT (continued)

LITTLE FINGERS - 7647

6,000 S. 65 days. Certified organic. Unique, small fruited variety producing 5-8 in. slim, deep purple fruit. Determinate habit holds fruit above ground.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

LONG PURPLE ITALIAN - 7491

6,000 S. Heirloom. 70-80 days. Solanum melongena var. esculentum. Dark purple productive Italian type, with a green calyx. Slender and cylindrical fruit is mildly flavored. Plants at 22-38 inch with 8 to 10 in. x 2.5 in. diameter fruits, producing 4 or more per plant. This variety dates back to the 1850's in America. A classic Italian eggplant, best when harvested young. Wonderful for adding to stir fry or any eggplant dish.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

ORIENT EXPRESS - 7691

6,500 S. (F-1 Hybrid). 58 days. Slender, glossy black Asian type fruits are 8-10 in. long with thin skin, mild flesh and delicate flavor. It matures very quickly and sets fruit in a wide range of temperatures, which makes harvests last even longer. Enjoy these grilled, roasted or stir-fried.

50 sds - \$12.35	100 sds - \$16.65
200 sds - \$25.65	500 sds - \$40.20
1,000 sds - \$65.20	(26F5)

PATIO BABY - 7697

5,400 S. (F-1 Hybrid). (All American Winner - 2014). 75-80 days. Very early and highly productive with a compact habit. Deep purple, egg-shaped fruit should be harvested at baby size of 2-3 inches and weighing 2 oz. Delicious roasted or in dips and salads. Thornless leaves and calyxes allow for painless harvesting that makes it child-friendly. A great choice for containers or in the garden.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

PINSTRIPED - 7714

6,000 S. (F-1 Hybrid). 60-65 days. Unusual light purple fruits with streaks of white. This is an Italian variety that will produce a 4-5 oz. fruits. Especially bred for container gardens. Basal branching habit.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80

EGGPLANT (continued on next page)

EGGPLANT (continued)

ROSA BIANCA - 7692

6,000 S. 70-85 days. Lovely and delicious Italian heirloom. Rosy-lavender with white shading, the fruits of this beautiful heirloom are large, round and 5-6 in. long. With a mild, non-bitter flavor, the fruits robust shape is ideal for slicing, baking or roasting. Very low number of seeds.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

TYCOON - MILLIONAIRE - 7715

5,000 S. (F-1 Hybrid). 59 days. Ichiban Improved. A definite improvement over Ichiban with a smaller seed cavity. Shiny, medium purple fruit is shaped long (8-10 in.) and very slim (1-1/4 in.), similar to a cucumber. Adaptable for slicing, frying and baking. Heavy producer.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

VIOLET DELITE - 7719

7,000 S. (F-1 Hybrid). 50-55 days. Formerly Asian Delite. Slender, 9-12 in. elongated fruits are glossy with bright purple skin and white, tender, non-bitter flesh. Upright and semi-spineless. Fruits can be sliced lengthwise for grilling or lightly frying and tender skin does not need to be peeled. Sliced or diced fruit is great for a stir-fry or curry; its non-bitter flavor and tender texture will complement any sauce. Great in an in-ground garden or large container.

50 sds - \$12.35	100 sds - \$16.65
200 sds - \$25.65	500 sds - \$40.20
1,000 sds - \$65.20	(26F5)

WHITE STAR - 7695

6,000 S. 75 days. Classic, tapered, teardrop shape and white fruit that are sweeter and less bitter than the purple types. The 5-7 inch long fruit are smooth when mature and measure 2 in. at the top and 3 1/2-4 in. at the bottom. The tall, vigorous plants are high yielding and provide good coverage to the fruit.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

ENDIVE

Escarole

20,000 sds/oz 65° 14 days

1 oz. for a 100 ft. row. 2 lbs. will plant an acre with rows 18-24 in. apart. About 4 lbs. per acre when direct seeding. Tie outer leaves if you want to blanch the centers.

FULL HEART (ESCAROLE) - 7890

⌘ 14,000 S. 90 days. Large thick dark green leaves, compact head, easy blanching. Zones: 4-7

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

Kale.

Also see listing of Kale under Annuals.

KALE

10,000 sds/oz 55°-75° 5-17 days

Short-season crop that performs best in cool weather and can tolerate frost when established. Cover seeds with fine vermiculite or sifted compost for best germination. The outer leaves can be picked when they are about 8-10 inches. Avoid picking the inner leaves to prevent damaging the growing plant. A light frost will bring out the sweetness.

BLACK MAGIC - 8202

9,200 S. 30-60 days. Deep green, almost black color and exceptionally sweet, rich flavor set this outstanding Lacinato type apart from others. The narrow strappy leaves are deeply puckered for a gorgeous appearance. The upright plants are easy to harvest and offer improved bolt tolerance over traditional strains. The dark color is striking when displayed in mature bunches and it also adds an unexpected element to baby mesclun blends.

DWARF GREEN CURLED - 7722

8,000 S. 60 days. Popular, compact, produces attractive, dark bluish green, tightly frilled leaves of excellent quality.

LACINATO - 7721

6,000 S. (Tuscan or Dinosaur Kale). 30 days baby. 60 days full. A rather primitive open kale with strap like blue-green leaves, 3 in. wide x 10 in. long. Ornamental as well as edible with lots of earthy, nutty flavor. The leaves are so hearty that even when well cooked they retain a wonderful firm texture. Well suited to braising in a bit of broth, or simply blanch in boiling water, then saute in olive oil with garlic and a chile or two. A sprinkle of salt and a squirt of lemon are nice too. Flavor is enhanced by frost. Extremely winter hardy.

PORTUGUESE - 8205

7,500 S. 85 days. (Couve Tonchuda). A bit more heat tolerant than other kales, for a longer harvest period on either end of winter season. Leaves are large flat, rounded, similar to collard, but very large and with very prominent white veins, earning some strains a variety name of costata, meaning ribbed. The leaves are more succulent and the flavor is more cabbage-like than other varieties. The fleshly stems are enjoyed as well. Definitely an exciting addition to an already illustrious group.

Each of the above: (30A5)	500 sds - \$9.75
1,000 sds - \$13.15	5,000 sds - \$24.45
10,000 sds - \$38.55	

RED BOR - 8199

8,000 S. 55 days. Highly decorative with lots of crinkled purple-red leaves. Redness and curling are enhanced by cold weather.

50 sds - \$11.90	100 sds - \$15.60
200 sds - \$23.70	500 sds - \$37.60
1,000 sds - \$62.35	(26Z5)

KALE (continued)

RED RUSSIAN - 8200

8,500 S. 45-60 days. Attractive, green-red frilly leaves that are tender, sweet and highly nutritious. Tall growth habit.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

RED URSA - 8203

24-30 in. - 55-65 days. Beautiful red stems and leaf veins of Red Russian with the frilliness of a Siberian type. Great raw flavor for salads, especially the young leaves of fully grown plants. The bolting purple stems of overwintered plants are very sweet and colorful. Perfect for steaming or stir fries. Produces vigorous plants that are surprisingly cold hardy. Many people feel that the flavor of kale improves after frost, so plant some more in mid-summer for harvesting in the fall and early winter.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

SCARLET BOR - 8204

36-40 in. - 10,500 S. 50-60 days. Very uniform and vigorous, with vivid show stopping dark red color. Decorative, dark green, red veined leaves which show more color as colder weather approaches. The stalks, when harvested regularly, produces generous yields of large sturdy and tightly, heavily curled leaves. Pretty in the flower garden or on the plate. Rich in nutrition and flavor.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

WHITE RUSSIAN - 8201

24 in. - 9,500 S. 50-60 days. The most cold-hardy and moisture resistant ever grown. A pale Siberian variety brings tender sweet flavor to either gourmet baby greens or full-sized leaves. Gently lobed, slender-leaved variety with a gray-green base and white veins. Flavorful and succulent even at a very young age. Makes a great choice for kitchen gardens and gourmet dining. Though tasty eaten raw in salads can be blanched first, then used in soups, stews, casseroles and side dishes.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

KOHLRABI

6,000 sds/oz 70° 7 days

For the best germination, cover seeds lightly after sowing. Darkness will help germination. 1/2 oz. will plant a 100 ft. row; 3-5 lbs. an acre in 18 in. rows, when direct seeding. For the best flavor, harvest when plants are young.

EARLY PURPLE VIENNA - 7733

10,000 S. 55-69 days. Purple skinned bulbs with greenish white flesh. Small tops. Slightly larger and later than Early White Vienna.

Each of the above: (31A5)	1,000 sds - \$9.75
2,000 sds - \$13.15	5,000 sds - \$19.35
10,000 sds - \$28.05	

KOHLRABI (continued)

EARLY WHITE VIENNA - 7732

8,000 S. Heirloom. 55 days. Mild creamy white flesh; when cooked has a more delicate flavor than turnips. Edible bulb grows above the ground and should be eaten when young (2-2 1/2 in. across).

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

WINNER - 7560

5,300 S. (F-1 Hybrid). 54 days. Produces very smooth, light green bulbs that grow to be about 18 oz. in weigh. Its vigorous, upright plant has a fresh, fruity taste. Good holding ability. While the leaves are still young and tender, they can be cooked like kale or collards.

100 sds - \$9.75 200 sds - \$11.35
500 sds - \$15.80 1,000 sds - \$22.70
2,000 sds - \$34.50 (28A5)

LEEK

10,000 sds/oz

1 oz. will plant a 100 ft. row; 2-3 lbs. an acre in rows 18 in. apart. About 3-4 lbs. per acre when direct seeding.

BROAD SCOTCH - 7796

7,000 S. (London Flag). Heirloom. 75 days. Thick, straight necks. A close relative within the Allium family, popular since ancient cultivation. A welcome addition to sauces, gravy and soups.

1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

LETTUCE

15,000 sds/oz 70° 7-12 days

1/2 oz. for a 100 ft. row; 3 lbs. will plant an acre with rows 6-12 in. apart. Plants are readily transplanted in plant bands. Lettuce is high in iron and magnesium. Will add tone to the liver and spleen.

BIBB FORCING - 7822

29,500 S. Heirloom. 60 days. Bibb type. Fine flavor, dark green leaves, firm and tender. Good for forcing.

BLACK SEEDED SIMPSON - 7811

25,000 S. Heirloom. 40 days. Leaf type. An old reliable lettuce that remains on of the most tender and delicately flavored. Slow to bolt and very dependable. Leaves are large, but lightly crispy and ruffled.

BUTTERCRUNCH - 7825

25,000 S. (All America Winner - 1963). 60 days. Bibb type. Quite compact, heavy butterhead; crisp, but juicy. Should replace regular Bibb. Very tender.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35

DUET DA TAGLIO MIXTURE - 7818

34,000 S. 50 days. Leaf Type. Two for the cutting! This duo mixture of Salad Bowl (Green) and Salad Bowl (Red) will brighten up all your summer salads. A crisp and tender variety where the leaves can be picked a few at a time whenever they are required. The combination of green and red makes an attractive and useful edging to the vegetable plot or even the flower garden.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35
10,000 sds - \$28.05

FIVE STAR MIXTURE - 7802

35,000 S. 35 days. Beautiful blend of ruffled lettuces! Includes Green Oakleaf, Red Oakleaf, Green Romaine, Red Romaine, Lollo Rossa and Redleaf lettuces. Improved downy mildew resistance for fall/winter production under protected cover.

1,000 sds - \$10.50 2,000 sds - \$18.20
5,000 sds - \$22.95 10,000 sds - \$30.60
(31C5)

INFERNO (PELLETED) - 7820PE

75 days. Romaine type. Outstanding dark green color. Head is very tall, narrow and slightly blistered leaves. Small framed, open habit makes for the perfect upright variety for hearts. Good bolting resistance and tip burn tolerance. Great versatility from the desert to the coast.

100 sds - \$9.75 200 sds - \$11.35
500 sds - \$15.80 1,000 sds - \$22.70
2,000 sds - \$34.50 (28A5)

GREAT LAKES - 7816

26,000 S. (All America Winner - 1944). Heirloom. 82 days. Head/iceburg type. Large heads with crisp, well-folded and fine-flavored leaves. Very well adapted to hot and adverse conditions.

LITTLE GEM - 7823

20,000 S. Heirloom. 50 days. Bibb type. A small lettuce often described as a combination of Butter and Romaine. Crisp like Romaine and sweet like Butter, but the texture and the flavor are still its own. No more then eight in. tall and one of the earliest to mature. A nutty flavor, walnut in particular and a sweetness that is more reserved. Works well in mixed salads and in sandwiches. A classic use for this is to cut in half lengthwise and serve each half, dressed as a salad, also separated leaves can be used for dipping, the ruffled texture will pick up any dip or dressing.

MERLOT (DARK RED) - 7819

21,000 S. 55 days. Leaf type. Striking, deep red, almost purple frilly leaves. Very crisp and open headed leaf type that stands upright with a waxy shine that makes an ideal salad lettuce at every stage. A real eye-catcher in the garden and one of the darkest you can grow. Very high in antioxidants and bitter-free.

Each of the above: (31A5) 1,000 sds - \$9.75
2,000 sds - \$13.15 5,000 sds - \$19.35

SIMPSON ELITE - 7809

33,000 S. 45 days. Leaf type. An improved Black Seeded Simpson type. Fast to grow, slow to bolt. Large, loose heads with light green leaves that have crumpled, frilled leaves. Holds its flavor without bitterness.

VALLEY HEART (ROMAINE) - 7805

28,000 S. 75 days. Romaine type. Tall plants produce large, slightly savoyed, green leaves. Good tolerance to cold, heat and bolting. This multi-use variety is perfect for salads, hearts and full heads.

Each of the above: (30B5) 500 sds - \$10.05
1,000 sds - \$13.65 5,000 sds - \$28.85
10,000 sds - \$44.45

LETTUCE, SIMPLY SALAD

65°-73° 35 days

These unique multi-seeded pellets contains 3 or more seeds each of different mix greens. A very special benefit is the fact that the various seeds in each pellet will germinate right around the same time, ensuring that maturity is even at sales time. Can be sold in 4-6 in. pots and color bowls, then enjoyed as both a colorful, mixed -texture ornamental and a delicious, nutritious edible. Can be sown direct into the final container, cutting down an already short crop time. Harvest every 3 weeks by cutting back to 2 in. for more fresh salad. Cooler temperatures with high light will enhance foliage color. Fill vegetable sales void in early Spring and Fall.

ALFRESCO BLEND - 8187MP

Red and green leaf lettuces with arugula, endive and radicchio give a true Mediterranean flavor and look. MULTI-SEED PELLET which will include multiple seeds of each variety in one easy to sow pellet.

Each of the above: (25C5) 25 sds - \$11.45

GIANT RED - Sorry, no longer available.

TOMATOES

*We inventory over 100 varieties
of standard tomatoes and
58 Heirloom varieties!*

MUSKMELON, CANTALOUPE

800 sds/oz 80° 10 days

1 oz. of seed will plant 50 hills; 3 lbs. per acre. Rows should be about 2 ft. apart with hills 4 ft. apart in the row. About 1/2 oz for 100 ft. row. Plant Radishes between the rows to repel Cucumber beetles. For the sweetest melons - about 2 weeks before the melons should ripen, start withholding water. This is called "water stress" and the frantic vines will pour sugar into the fruits to sustain them. A melon is ripe when the first leaf on the stem turns pale and begins to brown.

AMBROSIA - 7840

950 S. (F-1 Hybrid). 86 days. A melt in your mouth petite melon. Fruits are 6 in., pale orange in color and offer a sweeter flavor with a slight floral nuance and a more juicy consistency than the common cantaloupe. When ripe it will have a sweet melon aroma and the blossom end will be slightly soft to the touch.

25 sds - \$13.15 50 sds - \$17.45
100 sds - \$23.70 300 sds - \$51.10
500 sds - \$71.70 (25F5)

BURPEE HYBRID - 7831

1,000 S. (F-1 Hybrid). 82 days. The heavily netted fruits are distinctly ribbed, round to slightly oval, averaging 7 in. long, 6 in. across and weigh 4 to 4 1/2 lbs. Flesh is deep orange, thick, firm, juicy and one of the most delicious flavor. Vines are vigorous growing and produce good early yields of large fruited melons.

25 sds - \$15.60 50 sds - \$21.10
100 sds - \$31.45 300 sds - \$65.95
500 sds - \$101.80 (25L5)

GODDESS - 7829

1,200 S. (F-1 Hybrid). 68 days. Unlike many early melons where quality and flavor are sacrificed for earliness, this one is one of the best looking highest quality melons on the market, yielding 4 to 6 lb. eastern-type fruits that are oval-shaped with fine netting. The golden-orange flesh is thick, juicy and extra sweet with wonderful flavor and aroma. It comes with a powerful disease resistance package, too, so yields are plentiful.

25 sds - \$12.25 50 sds - \$16.80
100 sds - \$23.10 300 sds - \$48.65
500 sds - \$68.65 (25D5)

HALE'S BEST JUMBO - 7833

1,000 S. 85 days. Thick, salmon flesh. Oval shaped fruit, heavy netting. 3 1/2 to 5 lbs. each.

250 sds - \$10.65 500 sds - \$13.70
1,000 sds - \$17.75 2,000 sds - \$26.20
5,000 sds - \$49.10 (29B5)

PRIDE OF WISCONSIN - 7832

950 S. Heirloom. 90-100 days. Produces heavy yields of 4-8 lb. ribbed and netted fruits. Large with excellent sweet flavor and bright orange flesh. Lovely melon aroma with very little musky aftertaste. Originally grown for the Milwaukee markets in the 1920's.

250 sds - \$16.80 500 sds - \$22.95
1,000 sds - \$32.55 2,000 sds - \$52.50
5,000 sds - \$106.55 (29G5)

Okra. Also see listing under Annuals.

OKRA

400 sds/oz 65°-70° 7-10 days

For the best germination, soak seed 5 days before sowing. 1 oz. of seed per 50 ft. row. Pick the pods when they are young and not too large. About 8 lbs. per acre. The pods will offer excellent flavor in soups, stews and other relishes. It can also be used alone as a vegetable.

BURGUNDY - 7868

500 S. 50-65 days. Green leaves with burgundy stems, leaf ribs, and branches. The burgundy-colored 6-8 in. long pods turn green when cooked. Used as a thickening agent in Cajun gumbo, but it also can be boiled, fried, roasted, broiled, steamed, canned or pickled. Use dried pods in flower arrangements, also has attractive, edible flowers.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20

JAMBALAYA - 7865

600 S. 50 days. Super quick, very productive and delicious. Tender-meaty pods are 4-5 in. long, nicely tapered and very evenly sized. Compact, just the right size for the home gardener. Great for canning or pickling them whole.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

ONION

8,000 sds/oz 65°-70° 10 days

For selling onion plants in flats, seed 7-10 seeds per in. of row and 1 1/2 to 2 in. apart in row about 6 weeks before offering the plants for sale. Short day length varieties like Bermuda and Sweet Spanish have been particularly good sellers. An ounce will plant a 100 ft. row; 3-4 lbs. an acre in rows 18 in. apart. If plants start to stretch, they can be cut back for dense growth. Darkness will help germination. Many customers have inquired about the health advantages on Quercetin. Quercetin is the onion chemical that fights the formation of blood clots and may protect you from elevated levels of cholesterol. It is found in the yellow and red onions, but almost none in white onions and only in some forms of garlic. To stop the itching and stinging of a bee or mosquito bite, rub the area with an onion. Eating raw onions will help flush fat from the body and lower cholesterol. Herbalists used raw onions to treat dysentery and other hot climate diseases. George Washington ate a hot, roasted onion before he went to bed whenever he had a cold. Be kind to your eyes - place raw onions in the freezer for 30 minutes before cutting and this will eliminate tearing.

CANDY - 7882

7,000 S. (F-1 Hybrid). 100 days. A day neutral variety producing early maturing jumbo onions, golden-straw colored, with a sweet, mild flavor.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

EVERGREEN LONG WHITE BUNCHING - 7873

9,500 S. Heirloom. 100 days. Long, silvery white stalks. Does not form bulbs under moist conditions.

2,000 sds - \$13.15	5,000 sds - \$19.35
10,000 sds - \$28.05	

RED BURGUNDY - 7878

8,000 S. 95 days. Red Hamburger. Smooth, glossy skin, purplish-red in color. Flesh is white with pink shading near the skin. Good keeper. Short day.

SWEET SPANISH, UTAH STRAIN - 7874

9,000 S. (Yellow Sweet Spanish). 115 days. Yellow skin, 5 in. across globe-shaped, quite mild, sweet flesh. Long day, good keeper.

Each of the above: (31A5)	1,000 sds - \$9.75
2,000 sds - \$13.15	5,000 sds - \$19.35
10,000 sds - \$28.05	

TEXAS GRANO 1015 - 7881

9,000 S. 168 days. Large, sweet flavored globe shaped variety with light yellow flesh. High yielding and a good keeper. Good keeper. Short day.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

ONION (continued)

VIDALIA - 7880

8,000 S. (F-1 Hybrid). 80 days. Very sweet with light yellow flesh and oblate in shape. High yielding variety with consistently uniform production. Short day.

WALLA WALLA SWEET - 7883

6,500 S. Heirloom. 110 days. Very sweet and juicy variety. Popular with home gardeners everywhere.

Each of the above: (31C5)	1,000 sds - \$10.50
2,000 sds - \$18.20	5,000 sds - \$22.95
10,000 sds - \$30.60	

WHITE SWEET SPANISH - 7875

7,000 S. 110 days. White skin, 5 in. across globe shaped. Quite mild, sweet white flesh. Good keeper. Bunching type.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75
	(31B5)

PARSLEY

10,000 sds/oz 75°-80° 5-10 days

1/4 oz. for a 100 ft. row. Seed 9-10 weeks before offering plants for sale. Transplant pots 15-21 days after seeding. For the best germination if you are direct seeding, freeze seed 3-5 days and soak in warm water 3-5 days before sowing. Cover seed lightly; darkness will help germination. About 3 lbs. per acre when direct seeding. Ideal as a garnish or in soups or salads. Fresh Parsley is a breath aid and natural diuretic. Add to tea, it will relieve the pain from rheumatism. Early herbalists believed this herb to aid kidney problems, high blood pressure, fluid accumulation, and a substitute for quinine to treat malaria. It is very high in Vitamins A and C.

EXTRA CURLED DWARF OR MOSS CURLED - 7899

14,000 S. Heirloom. 70 days. Finely curled, compact, dark green; very productive.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

GIANT OF ITALY

Discontinued. As a substitute, we suggest Plain (Single or Italian).

HAMBURG ROOTED - 7895

19,000 S. (Arat, Parsley Root). 90 days. Root 8-10 in. long, parsnip-like, used for flavoring. Leaves plain, deeply cut, hollow stem.

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60
	(31C5)

PLAIN (SINGLE OR ITALIAN) - 7896

13,000 S. Heirloom. 72 days. Plain, deep cut, dark green leaves with a rich strong flavor.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05
	(31A5)

PEAS

About 1,000 S. per lb.; 2 lbs. for a 100 ft. row. Plant in rows 20 in. apart. About 100 lbs. per acre when direct seeding.

GREEN ARROW - 7867

125 S. 70 days. Shelling type variety, which means its pods should be allowed to grow to maturity before being harvested, then the shells should be removed and only the peas inside eaten. Produces double pods at each node and grows outward for quick and easy harvesting. Up to 11 ultra-sweet peas in every plump pod.

LITTLE MARVEL - 7922

100-150 S. 64 days. The most satisfactory pea in the average home garden. Very productive, hardy, luscious and sugary.

OREGON SUGAR POD II - 7852

110 S. 65 days. Very productive Snow Pea with 3-4 in. long, 1/2 in. wide edible pods that are sweet and crispy. The shorter vines can be grown without support. Seed treated with Captan.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

SUGAR SNAP - 7923

100-150 S. (All America Winner - 1979). 70 days. The entire pod can be eaten when fully mature. The pod flesh is thick and tender and filled with very sweet, delicious peas.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

PEPPER, HOT

4,000 sds/oz 75° 10-15 days

Transplant 10-15 days after seeding; germinate seed warm. Hot peppers and the capsicum oil in hot peppers can not be neutralized by water. Wash hands or rinse mouth in vinegar to alleviate discomfort in an emergency. Bread, bananas, pasta, or potatoes will alleviate any burning sensation. Never touch your face or eyes after handling hot peppers. (Warm growing temperatures develop the hottest peppers). Hot peppers are rated by their Scoville level. (The higher the number, the hotter the Pepper). The rating we list is for normal, moderate conditions. Peppers grown under stress, high temperatures and high humidity will be 10-15 times hotter after drying. Hot or Chili Peppers will help relieve respiratory problems, prevent blood clots, help lower cholesterol, will speed up metabolism and lower the risk of heart related problems. Keep in mind that most of the "super hot" peppers should be allowed 20-30 days germination.

AJI RICO - 8156

Chili type. 6,000 S. (F-1 Hybrid). (All America Winner - 2017). 50-55 days. First of its kind that matures early for short-season production or early summer enjoyment. The large plant produces many thin-walled crunchy fruits which have a narrow conical shape. Fruits matures from green to red and can be eaten at any stage. Fruits are 3-4 in. by 1 1/4 to 1 3/4 in. The name refers to chili in South America. These fruits have a refreshing citrus flavor and warm heat level, perfect for eating fresh or cooking into salsas or hot sauces. Simply incorporate the desired number of seeds from the pepper to add some heat, also dries well for a flavorful homemade paprika. 40,000-50,000 Scovilles.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

ANAHEIM - 7945

Chili type. 3,000 S. 77 days. Very pungent. Long, tapered dark green fruits 7 in. long by 1 1/2 in. wide turning red when ripe. Popular in Chili rellenos. Also known as the New Mexican Chile, this medium hot fruit is deep green but turns red at full maturity. Excellent used fresh, dried or frozen. 3,000 Scovilles.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

BIG JIM (NUMEX) - 8161

Chili type. 3,000 S. 75-80 days. The largest of the Chili peppers, with medium-hot fruits measuring 10-12 in. long and weighing up to 4 oz. Excellent for Chile Rellenos. Sturdy 24-36 in plants yield 24-30 pods per plant which tend to ripen all at the same time. 1,500-2,500 Scovilles.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60
	(30D5)

PEPPER, HOT (continued)

BASKET OF FIRE - 8081

Chili type. 6,500 S. (F-1 Hybrid). 90-95 days. A prolific fruiting variety which is dripping with small hot fruits on a compact, leafy, semi-trailing plant. The fruits mature from deep purple through cream and orange to mature to a bright red. Unique plant habit makes it a perfect choice for hanging baskets or containers. Good tolerance to cooler weather lasting well into autumn. Harvested fruits are easy to dry as well as being ideal for fresh use. 80,000 Scovilles.

10 sds - \$10.05	25 sds - \$14.30
50 sds - \$18.75	100 sds - \$27.95
250 sds - \$52.90	(24C5)

CARIBBEAN RED - 7947

Habanero type. 7,000 S. 80-100 days. Fruits are 1-2 in. long, featuring wrinkly, bright red skin and a lantern or bell-like shape. 445,000 Scovilles.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

CAROLINA REAPER - 8157

Chili type. 6,000 S. (AKA HP22B). 70-90 days. VERY HOT! Better described as the demon pepper child that was invented by man. There is nothing normal about this pepper. Fruits are red and has a gnarled, lumpy pot with a tail like a scythe. It was bred for heat and that is it. Oddly enough this pepper has excellent sweet and fruity flavor, that is right before the heat kicks in. Keep in mind that most of the "super hot" peppers like this should be allowed 20-30 days germination. 1,500,000+ Scovilles.

10 sds - \$11.05	25 sds - \$16.20
50 sds - \$21.70	100 sds - \$33.20
250 sds - \$64.40	(24F5)

CAYENNE (LONG SLIM RED) - 7952

Cayenne type. 4,500 S. Heirloom. 70 days. Long skin, 6 x 1/2 in. green fruits turning red when mature. Slender, twisted, elongated peppers are fiery hot. An essential ingredient in many spicy foods, they can be used fresh or dried. Green fruits mature to red. For pickles, canning or drying. 5,000 Scovilles.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

CAYENNE LARGE RED THICK - 8172

Cayenne type. 4,000 S. 75 days. Fruits are large-shouldered, wrinkled, tapered and curved around 6 in. long. The flesh is twice as thick as other cayenne varieties. Fruit color is dark green turning to scarlet when ripe. Great for making hot sauces, drying or dehydration. 30,000-40,000 Scovilles.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

PEPPER, HOT (continued)

CHILE DE ARBOL - 7905

Cayenne type. 7,250 S. 80 days. Narrow, curved chiles that start out green and mature to bright red. Very hot and resembles a small Cayenne pepper. Be careful during preparation, these are the ones that are dried after turning red and used in many holiday wreaths. 15,000-30,000 Scovilles.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

CHILTEPIN - 8025

Chili type. 6,500 S. 90 days. Very hot miniature chili pepper. Don't be fooled by the unassuming size of these pea-like, 1/2 in. fruits-they pack a wallop! 100,000-250,000 Scovilles.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

FATALII - 8078

Habanero type. 8,000 S. 95 days. Plant produces good yields of 2 1/2 in. wrinkled hot peppers. Fruity, citrus flavor with a searing heat that is comparable to the standard habanero. Fruits are extremely hot! Pale green fruits mature to a bright yellow. Because of such flavor and heat it makes for a unique hot sauce that usually compromises of other citrus flavors like lime and lemon. The walls are very thin which makes it very easy to dry. After drying they can be crushed to be used as powders. 125,000-325,000 Scovilles.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

FRESNO CHILE - 7908

Fresno type. 4,500 S. 75-80 days. Produces good yields of 3 in. long by 1 1/4 in. wide hot peppers. Fruits turn from green to red when mature. Excellent for roasting, pickling, or for making salsa. Tobacco Mosaic resistant. 5,000-10,000 Scovilles.

500 sds - \$10.30	1,000 sds - \$14.75
5,000 sds - \$33.90	10,000 sds - \$51.50
	(30C5)

GIANT RISTRA - 8061

Chili type. 4,300 S. (F-1 Hybrid). (All America Winner - 2014). 80 days. Heavy yield of bright red very hot 7 in. chile peppers. Has the appearance of a Marconi but the spicyness of a Cayenne. Fruits can either be consumed fresh, roasted or diced and used as a herb. As its name states it can be strung together in long bunches and dried and displayed and used throughout the winter months. Makes a very attractive large container plant. 30,000-50,000 Scovilles.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

PEPPER, HOT (continued)

GHOST PEPPER - JOLOKIA - 8162

Chili type. 6,500 S. (F-1 Hybrid). 95 days. C. chinense. VERY HOT! Many consider this variety to be the hottest available. Green peppers ripening to a red, yellow orange and chocolate color are 2 to 3-inches long and 1-inch wide. The rough, dented fruit is very unique and abundant under the best of conditions. This variety should not be taken lightly as the fruits are astonishing in their scoville and heat rating. They should not be eaten by themselves and care should be used when handling. A prized variety for the hot pepper gardener! This variety is associated with many common names including Bhut Jolokia, Naga Jolokia, Ghost Chili. Keep in mind that most of the "super hot" peppers like this should be allowed 20-30 days germination. 950,000+ Scovilles.

10 sds - \$10.75	25 sds - \$15.60
50 sds - \$20.70	100 sds - \$31.45
250 sds - \$60.60	(24Z5)

GOLDEN CAYENNE - 8175

Cayenne type. 4,000 S. 85-90 days. 3-5 in. fruits will mature from green to golden yellow and increase in heat as they ripen. Excellent for cooking or fresh eating in salsa and sauces, or dried and ground into a unique, golden yellow powder.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

HABANERO ORANGE - 7984

Habanero type. 7,000 S. 90-100 days. The original and most common of the Habanero varieties. Blazing hot fruit is excellent for sauce production and blending. The wrinkled fruit taper to a point and measure 2 in. by 1 in. The thin flesh is light green to orange-pink at full maturity. One of the hottest peppers, excellent for chili or homemade salsa. Fruit and seeds can be used fresh or dried as seasoning for foods. 200,000-350,000 Scovilles.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

HABANERO PRIMERO RED - 8152

Habanero type. 10,000 S. (F-1 Hybrid). 75-80 days to full ripe. 60-65 days to green. Habanero type. The earliest ripening habanero you can grow! Harvest lots of lantern-shaped fruit that ripen from green to bright red. Great for fresh salsa or cooking. Fruits have about 1/3 the heat of a standard habanero, letting you appreciate the rich flavor.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

HOT SUNSET - Crop failure. As a substitute, we suggest Inferno.

JAMAICAN HOT RED

Discontinued. As a substitute, we suggest Habanero Red.

PEPPER, HOT (continued)

HABANERO RED - 7980

Habanero type. 8,000 S. 100 days. A high yielding variety of 2 in. long by 1 1/2 wide wrinkled fruits. Fruits are extremely hot and turn from green to shiny red when mature. 350,000-575,000 Scovilles.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

HUNGARIAN YELLOW WAX BANANA - 7956

Banana type. 4,500 S. (Hungarian Hot Banana). Heirloom. 70 days. Tapering 6 in. x 1 1/2 in. long fruit is yellow, turning red when mature. Banana-shaped fruit starts out yellow and turns red when ripe. Perfect for pickling. Plants are strong and upright. 4,000 Scovilles.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

INFERNO - 7944

Banana type. 4,500 S. (F-1 Hybrid). 60 days. A heavy yielding, moderately hot banana pepper. Large 1 1/2 in. x 8 in. fruits are ultra smooth with medium thick flesh and outstanding flavor. Fruit ripens from lime green, to orange and to red. 12,000 Scovilles.

JALAFUEGO - 8174

Jalapeno type. 3,000 S. (F-1 Hybrid). 70 days for green, 93 days for red. Big, smooth, dark green, 3 1/2 to 4 in. fruits that are resistant to small cracks on the skin. Highly disease resistant plants tolerate and produce through many climate variable. Fruits are resistant to cracking, have wonderful flavor and have the perfect amount of heat. High yields allow plenty for eating fresh in salsas, nachos, guacamoles and chilis. Also large enough to stuff and perfect for poppers. 4,000 to 6,000 Scovilles.

Each of the above: (25D5)	25 sds - \$12.25
50 sds - \$16.80	100 sds - \$23.10
300 sds - \$48.65	500 sds - \$68.65

JALAPENO - 7961

Jalapeno type. 3,000 S. 72 days. Dark green tapered fruit 3 x 1 in. , deep green fruit mature to an intense red. Add some spice to your salsa with these tapered chili peppers! Plants have a long harvest period. Also good for pickling, drying, roasting and stuffing. Good for picking or fresh market. 5,000-8,000 Scovilles.

JALAPENO EARLY - 8160

Jalapeno type. 6,250 S. 60-68 days. Just like the traditional Jalapeno but earlier and better adapted to cool coastal conditions. Thick-walled, 3 in. cone-shaped fruits ripen to red. Hottest when fully ripe. 3,000-4,000 Scovilles.

Each of the above: (30A5)	500 sds - \$9.75
1,000 sds - \$13.15	5,000 sds - \$24.45
10,000 sds - \$38.55	

PEPPER, HOT (continued on next page)

PEPPER, HOT (continued)

JALAPENO M - 8083

Jalapeno type. 4,000 S. 73 days. This is the pungent little dark green pepper found in rings atop nachos and chopped in Mexican sauces, both sweet and hot, with an addictive flavor that has made it one of the most popular seasonings in American dishes. Just 3 1/2 in. long and about 1 1/2 in. wide, these rounded, thick-walled fruits are borne in great numbers on very vigorous plants. They are ready to pick when dark green. 5,000 Scovilles.

Each of the above: (30A5) 500 sds - \$9.75
1,000 sds - \$13.15 5,000 sds - \$24.45
10,000 sds - \$38.55

LA BOMBA II - 7941

Jalapeno type. 4,800 S. (F-1 Hybrid). 56 days. Thick walled, dark green, 1 in. wide x 2 3/4 in. long fruit has very little netting. Excellent fresh or used for 'poppers'. Good-looking fruit for use in gourmet recipes. 3,000 Scovilles.

25 sds - \$12.25 50 sds - \$16.80
100 sds - \$23.10 300 sds - \$48.65
500 sds - \$68.65 (25D5)

LARGE RED CHERRY HOT - 7964

Chili type. 5,000 S. Heirloom. 75 days. Fruits are nearly round, 1 to 1 1/4 in. in diameter. Very productive. 2,000 Scovilles.

500 sds - \$10.85 1,000 sds - \$17.45
5,000 sds - \$39.50 10,000 sds - \$65.60
(30D5)

LEMON DROP - 8167

Chili type. 6,500 S. (AKA Lemon Chile). 100 days. This hot, citrus-flavored fruit is a popular seasoning in Peru, its country of origin. Bright yellow, crinkled, cone-shaped fruits are about 2 1/2 in. long and 1/2 in. wide. Typically covered with neon-bright fruits making this an excellent choice for container gardening. 30,000-100,000 Scovilles.

100 sds - \$11.15 200 sds - \$14.30
500 sds - \$21.70 1,000 sds - \$33.20
2,000 sds - \$52.90 (28D5)

MUCHO NACHO - 7958

Jalapeno type. 3,000 S. (F-1 Hybrid). 68 days. A larger version of Jalapeno that develops to 4 in. long fruit that is fatter and thicker than the standard Jalapeno, but without all of the heat. Dark green, turning to red when ripe. Excellent for salsa and sauces. The red fruits are often smoked over mesquite wood. Disease resistant. 4,500 to 6,000 Scovilles.

25 sds - \$13.15 50 sds - \$17.45
100 sds - \$23.70 300 sds - \$51.10
500 sds - \$71.70 (25F5)

PEQUIN - 8164

Chili type. 10,000 S. 100 days. A tiny chili at only 1 in. long, but don't let that fool you they pack a punch! Fruits change from green to orange and finally red. Very closely related to the wild Tepin Chile. Used in Mexico to create spicy dishes. 50,000 Scovilles.

250 sds - \$10.65 500 sds - \$13.70
1,000 sds - \$17.75 2,000 sds - \$26.20
5,000 sds - \$49.10 (29B5)

PEPPER, HOT (continued)

PORTUGAL - 7906

Chili type. 1,000 S. 60-65 days. This vigorous, upright plant supports a large number of 6-7 in. long, thin, wrinkled fruits that are dark green and ripen to a brilliant, glossy red. Fiery hot, pointed shape, heavy yields, twice as large as old Giant Cayenne. 5,000 Scovilles.

100 sds - \$10.40 200 sds - \$13.35
500 sds - \$19.75 1,000 sds - \$29.70
2,000 sds - \$46.80 (28C5)

POT A PENO - 8176

Jalapeno type. 5,000 S. (F-1 Hybrid). (All America Winner-2021). 65 days. Unique cascading habit. Fruits have that traditional mild heat and produce an abundance of 3-4 in. peppers. When fruits turn red they have a sweet, spicy flavor. Perfect for growing in containers and hanging baskets.

25 sds - \$12.70 50 sds - \$17.20
100 sds - \$23.55 300 sds - \$49.80
500 sds - \$70.45 (25Z5)

RED PETER PEPPER - 8158

Banana type. 4,000 S. 95 days. Unique shape. Large blocky fruits. The fruits can be used green but they mature to a beautiful red color and can be dried and ground for chili powder. Fruits range from medium-hot to pretty darn fiery and are good tasting. Great for spicing up salsas. 10,000-23,000 Scovilles.

ORANGE BLAZE (ORANGE BELL) - 7921

Bell type. 4,000 S. (F-1 Hybrid). (All America Selections Winner - 2011). 65 days. An early maturing bell pepper variety that has a sweet flavor which will reach its sweetest at the full orange color. Produces 3-4 in. long fruits about 3 inch wide with 2-3 lobes. High resistance to Bacterial Leaf and Tobacco Mosaic Virus.

10 sds - \$10.40	25 sds - \$14.90
50 sds - \$19.75	100 sds - \$29.70
250 sds - \$56.75	(24D5)

ORANGE SUN (ORANGE BELL) - 8169

Bell type. 4,500 S. 75-80 days. Beautiful, big bright orange fruits are 4-5 in. long. Maturing from green to vivid creamsicle orange. Plants yield an abundant harvest of uniform, 3-4 lobed fruits with thick, crunchy, sweet flesh. Great for salads and stuffing.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

PEPPERONCINI (GREEK GOLDEN) - 8098

5,000 S. Heirloom. 65 days. This variety from Greece is sweet, crunchy and only mildly-hot. Great for pickling, salads and salsas but tasty fresh too. The plants are prolific and productive, even in cooler, short-season areas, yielding fruits that grow to be about 4 in. long by 1 in. wide. Harvest them when they are light yellow and 2-3 in. long.

500 sds - \$10.85	1,000 sds - \$17.45
5,000 sds - \$39.50	10,000 sds - \$65.60
	(30D5)

PEPPERONCINI (ITALIAN) - 7972

5,000 S. 65 days. Tapered green fruit is 4 in. long and 3/4 in. wide. This popular, light green pepper has just the right amount of zing to add flavor and zest to Mexican-American cuisine, appetizers, and fresh or pasta salads. Harvest when still green. Very useful in the early stages, but will turn bright red when mature. For picking, canning, or salads.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

PEPPER, SWEET (continued)

PIMENTO ELITE - 7925

3,000 S. (F-1 Hybrid). 72 days. A heavy producer of sweet, oval to heart-shaped fruit 3 in. x 3 1/2 in. with thick fleshy walls. Green, turning red when ripe. Disease resistant.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

PIMENTO PERFECTION - 7976

4,000 S. Heirloom. 73 days. Standard sweet variety for home and market. Heart-shaped, smooth fruit 3 1/2 x 2 1/2 in. High yielding plant produces heavy-walled, heart-shaped fruit that starts green and matures to red. A mild, sweet pepper ideal for salads, garnishes and canning.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

PRISM (RED BELL) - 8140

Bell type. 4,500 S. 60-65 days green; 75-80 days ripe. Multi-color sweet peppers on one plant! Produces tasty fruit that is halfway between mini and standard size bell peppers. Matures from light green to orange and then to red on the plant at the same time, this multi-color mix is attractive in the ground or in containers and the fruit makes a delightful mix in baskets on farms and tables.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

PURPLE BEAUTY (PURPLE BELL) - 7975

Bell type. 4,000 S. 70 days. A truly PURPLE pepper. The 4 in. x 3 1/2 in. blocky fruits have thick flesh and is highly productive. Slice the fresh peppers up and add bright color to salads or vegetable trays and cooking. Also use for stuffing or to season cooked casseroles.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

RED BARON (RED BELL) - 7995

Bell type. 3,000 S. (F-1 Hybrid). 70-72 days. An early-main season bell with excellent red quality that works well for fresh market or processing. The smooth, blocky, thick-walled fruits are medium large and mature from green to red. Resistant to Tobamo Po Disease.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

RED KNIGHT (RED BELL) - 8451

Bell type. 2,500 S. (F-1 Hybrid). 72 days. Large, thick walled fruit that measures 4-1/2 in. wide and long. The shiny, attractive fruits ripen from a dark green to an intense red color. The strong upright plants are tolerant to BLS (race 1, 2 & 3) and PVY.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

PEPPER, SWEET (continued)

ROUMANIAN SWEET - 7967

4,000 S. Heirloom. 50 days. Smooth, pale yellow fruits are 4 in. long, tapering to 2 in. at the tip, maturing to a bright red when ripe. Although called sweet, this variety does have a slight bite and is considered mild/hot by some. Attractive fruit has a wonderful sweet flavor and are great for eating fresh or ideal for frying.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

SAVANNAH - 8178

Banana type. 3,500 S. (F-1 Hybrid). 53 days. Very early and continuous set which often includes two, 8in. banana type fruits at a node. Fruits are large and shiny. Produces fruit that is very sweet.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

SHISHITO - 8154

6,000 S. 60 days. This medium early, small, sweet, thin-walled, slightly wrinkled, glossy green pepper is popular in Japan. The fruits grow up to 3-4 in. long. Spreading habit and produces prolifically. Good for garden, greenhouse and open field growing. Prized by restaurants and is a favorite among chefs. Usually used when green (though also fine to eat when red), the thin walls make them ideal for tempura and stir fries. Widely popular as an appetizer, just toss with oil, then char-grilled or pan-seared to a blackened, blistered state and salted. Absolutely the best thing to nibble on with drinks.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

SNACKABELLE RED - 8155

Bell type. 4,000 S. (F-1 Hybrid). 55-60 days to green; 70-75 days to full ripe. Mini-bell pepper ripens from green to deep red. Perfect for eating at any stage of ripeness. Thick fruit walls and rich sweet flavor are great for snacking or cooking, while the small fruit size 2-2 1/4 in. long, means no leftovers. Perfect for stuffing because the broad fruit stay upright.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

SUNBRIGHT (YELLOW BELL) - 8173

Bell type. 4,500 S. 75 days. Sweet and bright yellow when mature, most of these blocky bells are 4-5 in., but often produce some huge, 7 in. fruits. The thick flesh is perfect for vegetable platters, salsas and cooking.

SWEET CHERRY - 7986

4,000 S. 75 days. Smooth skin and thick-meated. Sweet flesh, shaped like cherries but of good size. Nice for salads, canning or pickling; can be used in the green stage or in the ripe stage which is red.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

PEPPER, SWEET (continued)

SWEET HEAT - 7959

4,000 S. 56 days. The earliest to bear fruit, compact and bushy. A great choice for growers that want to ship larger containers with developing fruit on the plant. The 3-4 in. x 1 1/2 in. fruits are sweet and mildly spicy like the Pepperoncini, with a great smoky flavor. Can be harvested green or red and is perfect for grilling or salsa. Excellent for garden or patio containers.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

SWEET SUNSET - 8060

Banana type. 3,300 S. (F-1 Hybrid). (All America Winner-2015). 85 days. A blend of yellow, orange and red create a gorgeous medley of color. Perfect for container gardening. Great for fresh and canning uses as well as for frying, pickling, and cutting into pepper rings for salads, sandwiches and pizza toppings.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

TEQUILA (LILAC BELL) - 7970

Bell type. 3,500 S. (F-1 Hybrid). 70 days. Improved vigor with 3 1/2 x 4 in. fruits that will become lilac in color before maturing to red.

10 sds - \$10.75	25 sds - \$15.60
50 sds - \$20.70	100 sds - \$31.45
250 sds - \$60.60	(24Z5)

TRAILBLAZER (YELLOW BELL) - 8141

Bell type. 4,000 S. (F-1 Hybrid). 50-55 days (green), 70-75 days (ripe). Tall, upright plants yield early-maturing, vibrant yellow, medium-to-large, blocky bell peppers. Holds its yellow color longer, so it is slower to turn gold-orange. Sweet, bright flavor and thick walled fruit add crunch to salads. Multiple disease resistance.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

WIZARD (GREEN BELL) - 7950

Bell type. 3,000 S. 72-74 days. Produces high yields of dark green fruit and is well adapted for spring and summer production. 3-4 lobed, blocky, smooth, attractive fruit that matures from green to red. A higher quality bell pepper that is darker in color than Bell Boy and has a better plant habit with larger leaves and is an X3R variety for better disease resistance.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

YOLO WONDER - 7987

Bell type. 3,500 S. 70 days. An excellent, 4 lobed, thick walled variety. Dark green 4 in x 4 in. fruit maturing to bright red. Disease resistant.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45

HOOLIGAN - 8001

500 S. (F-1 Hybrid). 95 days. Bicolored "Jack Be Little" hybrid with orange and white mottled colors. Fruit weighs a 1/4 lb. Slice off the top, scoop out the seeds, replace the top and microwave for 4 minutes to enjoy its delicious flavor.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

JACK O LANTERN - 8020

185 S. 75-115 days. All around great pumpkin for carving. Oblong fruits weigh 10-18 lbs. Smooth medium-orange skin with shallow ribs. Sweet fine grained pale orange flesh makes this also good for cooking.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

JARRAHDALE - 8009

150 S. 100 days. Medium to large, avg. 6-10 lbs. Drum-shaped fruit with heavy, rounded ribs and slate-gray skin. Medium-sweet, thick orange flesh. Long storage and very decorative for fall displays and food use.

50 sds - \$10.90	100 sds - \$14.30
200 sds - \$21.20	500 sds - \$33.00
1,000 sds - \$51.40	(26C5)

LUMINA - 8007

100 S. 95 days. Large and white. Excellent for both carving and painting. Fruits average 12-16 lbs. and shapes can vary from near globular to deeply oblate. Blue patches may appear on fruit under some growing conditions. Bright orange flesh. Stores well.

25 sds - \$13.50	50 sds - \$18.05
100 sds - \$25.75	300 sds - \$54.30
500 sds - \$75.90	(25G5)

MINI WHITE (BABY BOO) - 8016

400 S. 95 days. Miniature variety, grows like Tiny or Jack Be Little. Immature fruits retain the best pure white color and best results are obtained when planted 2-4 weeks later than normal planting dates. A real novelty.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

ORANGE SMOOTHIE - 8005

180 S. (F-1 Hybrid). (All America Winner - 2002). 90 days. Fruits weigh 5-8 lbs., great orange color with almost perfect shape and only slight ribbing. Semi determinate, compact habit. Disease resistant.

50 sds - \$13.85	100 sds - \$18.55
200 sds - \$30.10	500 sds - \$48.10
1,000 sds - \$81.15	(26I5)

SMALL SUGAR PIE - 8014

240 S. Heirloom. 100 days. Rich orange flesh. Rounded, slightly ribbed, about 7 in. in diameter.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

PUMPKIN (continued on next page)

PUMPKIN (continued)

SPOOKIE - 8017

222 S. 90-110 days. A cross between Sugar Pie and Jack O Lantern these fruits are 6-10 lbs. and have a smooth, hard, red-orange skin color. Excellent quality, fine textured, sweet, thick, yellow-orange flesh that is great for pies. Also good for painting or carving.

TINY - 8015

420 S. 90 days. This variety is truly an edible pumpkin and is about 2 in. high and 3 in across, which can easily fit into the palm of your hand. Each vine will produce about 6-8 fruits.

Each of the above: (28A5)	100 sds - \$9.75
200 sds - \$11.35	500 sds - \$15.80
1,000 sds - \$22.70	2,000 sds - \$34.50

RADICCHIO

24,000 sds/oz 70° 7-10 days

RED (RED CHICORY) - 8019

17,000 S. 90 days. This is the Chioggia type; 8 oz., rounded heads, burgundy red color with white veins. A very healthy vegetable, aids digestion and is a tonic for the liver and blood. Use in salads, boil, grill or sauteed.

1,000 sds - \$9.75	2,000 sds - \$13.15
5,000 sds - \$19.35	10,000 sds - \$28.05

(31A5)

RADISH

2,000 sds/oz 70° 7-10 days

1 oz. for a 100 ft. row. Plant 12 in. apart and space 2 in. apart in the rows. About 10-15 lbs. per acre. Will help repel insects and bean beetles from the garden. Very high in Iron and Magnesium and will help flush fat and impurities from the body.

CHERRY BELLE - 8021

3,000 S. (All America Winner - 1949). Heirloom. 23 days. Excellent variety for bunching or packaging, widely grown for greenhouse and frame forcing or outdoor use.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75

(31B5)

SPINACH

70° 10 days

Sow early or late as it does not do well when day length is long. 1 oz. for a 75 ft. row. Ideal for canning or freezing.

BLOOMSDALE LONG STANDING - 8082

2,000 S. (Savoy). 48 days. A heavy yielder of glossy, dark green crinkled leaves. (31C5)

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60

GREEN BERET - 8216

2,500 S. (F-1Hybrid). 30 days. Very dark and thick, semi savoyed leaves. Great downy mildew resistance. Uniform. Can be grown for baby or large leaves.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75

(31B5)

SPINACH (continued)

NEW ZEALAND - 8213

700 S. Heirloom. 50 days. Produces small, lime green, arrowhead-shaped leaves. Slow to bolt and thrives in hot weather. Best when picked all summer and fall. Good source of vitamin C.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95

(30Z5)

NOBEL - 8035

2,500 S. (All America Winner - 1933). Heirloom. 46 days. Produces very large and flavorful dark green leaves. An enormous yielder. Delicious raw or cooked. Good fresh, canned and frozen. Slow to bolt variety.

OLYMPIA - 8215

2,500 S. 45 days. The best and most productive dark green plain leaf spinach for year-round sowing and harvests. Slower to bolt and displays better eating quality than others. An excellent choice for cooking and year round fresh salads.

Each of the above: (31B5)	1,000 sds - \$10.05
2,000 sds - \$15.60	5,000 sds - \$21.20
10,000 sds - \$28.75	

RED MALABAR - 8214

950 S. 85 days. A striking shift from ordinary greens, this vigorous, climbing, tropical vine grows 6 ft. with spinach-like, dark green foliage on burgundy stems. Fleshy, glossy leaves have a pleasant nutty Swiss Chard flavor. Use the edible fresh leaves in salads or stir-fries. May be grown on the ground or trellised for easier harvest. High in protein and a great source of phosphorus and potassium. It's an excellent source of iron, calcium, Vitamin C and Vitamin A.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

SEASIDE - 8217

4,500 S. (F-1 Hybrid). 25-40 days. A very uniform baby leaf variety with a moderate growth rate and an upright plant habit. Spade-shaped leaves are nice, smooth, thick and very dark green.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45

(30B5)

TATSOI - 8211

13,000 S. 20-25 days. for baby leaves or 40-50 days for mature. Compact, with low growth and glossy, dark green leaves. Makes attractive borders, mass plantings provide rich color and texture. Harvest entire plant or a few leaves at a time. Mustard-flavored leaves are packed with nutrients. When quickly braised with garlic in oil, it softens into a tapestry of sweet leaves and tender stems that are hard to beat. Great baby item in salads, stir-fry or as a garnish. Once you've discovered its charms, your garden will never be without it.

1,000 sds - \$10.05	2,000 sds - \$15.60
5,000 sds - \$21.20	10,000 sds - \$28.75

(31B5)

SQUASH

120-200 sds/oz 75° 7 days

Plant radishes and potatoes between the rows to deter insects and beetles. 1 oz. for 25 hills, 4 ft. apart in the row. 3-4 lbs. per acre. About 1 oz. for 100 ft. row.

AUTUMN FROST - 8052

Butternut (Hybrid) type. 350 S. (F-1 Hybrid). 100-105 days. Winter squash. Uniquely ribbed, round, 5-7 in. long fruit ripens to dark tan with a frosted overlay. Fruit is similar in taste to a butternut type, with superior quality, rich flavor and shelf life of up to 4 months after maturity. Fruit can be prepared like a winter squash; cut lengthwise or cut the top 2 in. off, scoop seeds out and roast. Perfect for stuffing.

50 sds - \$14.10	100 sds - \$19.25
200 sds - \$31.55	500 sds - \$50.75
1,000 sds - \$83.60	(26J5)

BUTTERBABY - 8120

Butternut type. 375 S. 100-105 days. Produces an abundance of sweet, personal-size fruit with classic light tan skin color. Fruit has excellent storage quality and will last many months after harvest. Restricted vines will not take over the garden and resistance to Powdery Mildew will improve the ability to harvest high quality fruit.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

BUTTERCUP - 8062

Buttercup type. 150-200 S. 90 days. Winter squash. Fruit 4 1/2 x 6 1/2 in. thin skin, dark green with narrow gray stripes or mottlings, orange flesh. The smoothest, best flavored squash yet produced, 3-4 lbs. each.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

BUTTERNUT - 8063

Butternut type. 300-350 S. (Waltham). 95 days. Winter squash. Spreads like butter without any sign of stringiness when baked. Skin is dull yellow. Good keeper.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

BUTTERSCOTCH - 8045

Butternut type. 350 S. (F-1 Hybrid). (All America Winner - 2015). 100 days. A delicious, single-serve, mini butternut squash. Unusually rich, sweet, starchy flavor for a butternut type. Small, 1-2 lb. fruits mature early. For 1 lb. sized fruits, we recommend giving each plant only 6 square feet. Limited storage, best up to 3 months after maturity. Short, space-saving vines resist powdery mildew. Average yield is 3-4 fruits per plant.

50 sds - \$13.85	100 sds - \$18.55
200 sds - \$30.10	500 sds - \$48.10
1,000 sds - \$81.15	(26I5)

SQUASH (continued)

CANESI (BUTTERNUT) - 8043

Butternut type. 270 S. (F-1 Hybrid). 80 days. An early-maturing large butternut type that produces fruits of excellent quality. Fruits are large with wide necks, weighing about 6 lbs. and measure about 10-12 in. in length. The seed cavity is small so you get more flesh per fruit. The interior is bright yellow and has a firm texture and sweet flavor. The exterior is smooth and tan.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26C5)

CORNELL'S BUSH DELICATA - 8076

360 S. (All America Winner - 2002). (Sweet Potato Squash). 70 days. Winter squash. The fruits are a typical delicate shape; cylindrical, about 8 in. long by 4 in. diameter and have green striping over a white background. Very flavorful, sweet and smooth with a nutty flavor and compact bush spreading habit, only about 3 feet.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

CREAM OF THE CROP - 8097

Acorn type. 230 S. (F-1 Hybrid). (All America Winner - 1990). 75-85 days. Winter Squash. Bush type plant that produces high yields of 3 lb. acorn type squash. Creamy white skin and golden-cream flesh with a nutty flavor.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

DELICATA - 8085

480 S. (Sweet Potato Squash). 100 days. Summer squash. An oblong shaped cream colored winter variety 7-9 in. long and 3 in. in diameter with dark green stripes and flecking. Very sweet orange flesh on short vines producing 5-7 fruits weighing 1 1/2 - 2 lbs. each. Outstanding flavor with good storage capabilities.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

EARLY BUTTERNUT - *Crop failure. As a substitute, we suggest Canesi.*

EARLY SUMMER CROOKNECK - 8057

370 S. Heirloom. 58 days. One of the most delectable summer squash varieties, this crookneck is mild, sweet and full of flavor. Steam, stuff, bake or use raw in salads.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

GREEN LIGHTNING - 8121

*New for 2026 Scallop type. (Patty Pan). 40-45 days. One of the first on the market with such a vivid green-striped coloration. Exceptional yield and flavor that help set it apart from other patty pans.

50 sds - \$13.85	100 sds - \$18.55
200 sds - \$30.10	500 sds - \$48.10
1,000 sds - \$81.15	(26I5)

SQUASH (continued)

HONEYNUT - 8065

Butternut type. Butternut type. 350 S. 85 days. Produces mini fruits on a compact and space-saving bush type plant. The 5 in. long fruit weigh from 1-1 1/2 lbs. Very sweet and rich flavored deep orange flesh. The rind starts off a dark green, turns tan and then a rich burnt orange color at full maturity. Intermediate resistance to powdery mildew. Plant as early as possible due to long maturity.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

HUBBARD - 8067

120 S. Heirloom. 110 days. (Blue Hubbard, New England Hubbard). An improved strain producing larger fruits. This high yielding strain produces hard, blue-green squash for good storage.

100 sds - \$11.70	200 sds - \$15.30
500 sds - \$23.70	1,000 sds - \$36.70
2,000 sds - \$58.90	(28Z5)

PROLIFIC STRAIGHTNECK - 8066

300 S. (All America Winner - 1938). Heirloom. 55 days. Summer squash. Bush habit. Fruit 14 x 3 in., straight, lemon-yellow, slightly rough.

100 sds - \$9.75	200 sds - \$12.35
500 sds - \$17.75	1,000 sds - \$26.20
2,000 sds - \$40.65	(28B5)

SCALLOP YELLOW BUSH - 8058

Scallop type. 370 S. Heirloom. (Patty Pan). 49 days. Produces good yields of flat, round fruits. Harvest at the 2-3 in. size when they are delicate and tender. Excellent when lightly steamed, seasoned and plated with the main course. Bush habit.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

SPAGHETTI - 8042

180 S. 95 days. Slightly sweet, nutty flavor. Oblong in shape with ivory skin that changes to pale yellow at maturity. 3-5 lb. fruits can be stored for many months in a cool dry place. An excellent pasta alternative. Bake or boil, fork out the flesh and top with your favorite sauce.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

SWEET MAMA - 8096

Buttercup type. 240 S. (F-1 Hybrid). (All America Winner - 1979). 85 days. Big yield of fruits with dark green skin and are 2-3 lbs. each. Flavorful, thick yellow flesh. Semi-vining habit.

25 sds - \$13.95	50 sds - \$18.65
100 sds - \$26.75	300 sds - \$56.20
500 sds - \$79.75	(25H5)

SQUASH (continued)

SUGARETTI - 8102

Spaghetti type. 250 S. (F-1 Hybrid). (All America Winner - 2017). 90 days. Prolifically produces a generous crop of mid-sized orange fleshed vegetables. These green with white striped beauties are the perfect size for culinary gardeners who want to grow a great tasting, healthy fall treat on semi-bushy vines that spread only about two feet wide/long. The nutty sweet flesh (somewhat reminiscent of a sweet potato) can be used as a pasta substitute simply roasted or blended in soups. Good hard shells that protect the flesh for a long shelf life.

50 sds - \$10.90	100 sds - \$14.30
200 sds - \$21.20	500 sds - \$33.00
1,000 sds - \$51.40	(26C5)

TABLE ACE - 8047

Acorn type. 300 S. (F-1 Hybrid). 70 days. Winter squash. This variety has a semi-bush growing habit that allows many fruits to be produced in a small amount of space. Fruits are 4-6 inch, dark green, flesh is bright orange, thick and textured.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

TABLE QUEEN (OR ACORN) - 8064

300 S. (All America Winner - 1939). Heirloom. 80 days. Winter squash. Fruit 5 x 4 in., thick, deeply ribbed, dark green skin and thick orange flesh that cooks dry and sweet. Good keeper.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

TAYBELLE - 8069

Acorn type. 310 S. (F-1 Hybrid). 72 days. Winter squash. A high quality acorn squash that matures from a dark green to jet black. It has a semi-bush plant habit that allows for higher density planting and a high yield potential. Resistant to powdery mildew.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

TIVOLI - 8048

Spaghetti type. 210 S. (F-1 Hybrid). (All America Winner - 1991). 100 days. High yielder that produces fruits that are 8-10 in. long and 3-4 lbs. at maturity. Fruits have pale beige skin and delectable, creamy flesh on compact plants.

50 sds - \$13.35	100 sds - \$17.75
200 sds - \$28.60	500 sds - \$45.45
1,000 sds - \$77.15	(26H5)

YELLOW CROOKNECK - 8119

525 S. 58 days. A favorite summer squash, bearing many lemon-yellow, 6 in. fruit, with a slightly bent neck. Firm, tender, pale cream flesh that's ready to harvest just after the blossoms fall from the fruit.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

SQUASH (continued on next page)

SQUASH (continued)

YELLOW CROOKNECK (DIXIE) - 8087

500 S. (F-1 Hybrid). 40 days. Summer squash. Shiny, 5-6 in. yellow fruits that are early, uniform and hold well after packing. Produces gigantic yields of high-quality fruits.

50 sds - \$11.40	100 sds - \$14.80
200 sds - \$22.70	500 sds - \$34.95
1,000 sds - \$59.20	(26D5)

SQUASH, ZUCCHINI

ARISTOCRAT (COMMANDER) - 8041

150 S. (F-1 Hybrid). (All America Winner - 1973). 50 days. Baby Zucchini. Dark green, 7 in. fruits are a beautiful summer squash with tasty white flesh. Delicious in stir-fry, grilled, pasta dishes or added to salads. Bake into dessert bread for a wonderful moist treat. Commander was the original name that it was first sold under in the U.S.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

BLACK BEAUTY - 8068

200 S. (All America Winner - 1957). Heirloom. 60 days. Bush type plant with fruits that are long and straight. Fruits should be harvested when 7-9 in. long while young and tender. Not being an F-1 Hybrid, do not compare productivity with other hybrids listed.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

BOSSA NOVA - 8070

200 S. (F-1 Hybrid). (All America Winner - 2015). 30-45 days. Beautiful dark and light green mottled exterior is more pronounced than other varieties on the market. Bush type with fruits weighing 8-10 oz. Compact and produces fruits earlier in the season and continues producing for three weeks longer than comparison varieties. Smooth flesh texture and sweet, mild taste.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

COCOZELLE - 8089

230 S. (Italian Zucchini). Heirloom. 45 days. A bush type plant with long, cylindrical 12-15 in. dark green fruits with light green stripes, maturing to yellow. Very firm, greenish-white flesh.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

CUCUZZI - 8095

150-200 S. (Italian Zucchini). Heirloom. 100 days. Trailing (or vine) habit producing fruits 5 inches in diameter and 40-48 inches long when fully mature. Fruits have a light grey-green skin with white flesh. Popular Italian squash, a favorite in soups, stews and Italian cooking.

100 sds - \$12.35	200 sds - \$16.30
500 sds - \$25.65	1,000 sds - \$40.20
2,000 sds - \$65.20	(28F5)

SQUASH, ZUCCHINI (continued)

EASY PICK GOLD II - 8039

180 S. (F-1 Hybrid). 32 days. Slender gold skinned variety Good traditional zucchini variety with open habit making it easy to harvest. Slender fruit can be twisted to release nicely at the base of the receptacle with no neck damage. Short crop time, excellent eating quality, strong and uniform fruit color as well as continuous harvests make this a excellent variety. Slender fruit up to 10-inches but can be harvested at a smaller size if preferred. Enjoy fresh, roasted, steamed or baked.

25 sds - \$10.90	50 sds - \$14.75
100 sds - \$19.90	300 sds - \$39.35
500 sds - \$55.50	(25B5)

EIGHT BALL - 8086

220 S. (F-1 Hybrid). (All America Winner - 1999). 35 days. Speckled, shiny dark green round baseball-sized zucchini fruit. Uniform in habit, vigorous growing, bush-type plants.

50 sds - \$15.80	100 sds - \$21.50
200 sds - \$35.35	500 sds - \$58.60
1,000 sds - \$97.35	(26L5)

GOLD RUSH - 8054

250 S. (F-1 Hybrid). (All America Winner - 1980). 52 days. Deep golden color on zucchini type fruit contrasting with the rich green stem. Fruits are 8 in. long, smooth and very uniform. A heavy producer of superior quality fruit with excellent flavor.

50 sds - \$16.40	100 sds - \$24.50
200 sds - \$38.10	500 sds - \$63.25
1,000 sds - \$104.80	(26M5)

GREEN GRILLER - 8105

180 S. (F-1 Hybrid). 38 days. Fire up the barbeque and look no further for the perfect grilling summer squash. Very attractive, dark green appearance and have a rectangular shape. The unique shape of these 1lb. fruits make it easy to slice the long way to put on the grill and will not be difficult to turn over. Features a low, open bush habit with low spine count.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

SPINELESS BEAUTY - 8038

180 S. (F-1 Hybrid). 43 days. Fruits are 7 1/2 to 8 1/2 in. long, glossy medium green and cylinder shaped. Produces outstanding yields of high quality, uniform fruits.

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

SPINELESS PERFECTION - 8055

150 S. (F-1 Hybrid). 44 days. Attractive, medium size straight fruits are borne on a spineless, open plant which makes harvesting easy. Multiple disease resistances keep the plants bearing over an extended period.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

Strawberry.

Also see listing under Annuals

STRAWBERRY

60,000 sds/oz 60°-62° 20 days

Strawberries are healthy for you, they will lower the risk of cancer; producing Lycopene, a cancer fighting anti-oxidant. Also will help flush fat from body cells. Sow seed about 6-10 weeks prior to sale. After sowing, cover seeds lightly with media. Maintain good moisture and 65° soil temperature. (Poor germination will result above 72°). Normal germination period is 14-25 days.

ALEXANDRIA - 8108

63,000 S. 100-120 days. A gourmet treat and easy landscape plant. These decorative little plants produce delicious, aromatic red fruits, about twice the size of wild berries but much smaller than the standard type. Compact and produce few runners, making them suitable for rock gardens.

1,000 sds - \$10.50	2,000 sds - \$18.20
5,000 sds - \$22.95	10,000 sds - \$30.60
	(31C5)

BERRI BASKET WHITE - 8093

20,000 S. (F-1 Hybrid). 75-85 days. Early, everbearing variety with compact, bushy plants creating bushy hanging baskets. Easy to grow, attractive creamy-white flowers above the deep green, shiny leaves. Will produce large, deep red full flavored berries until frost. (Use 3 plants per 10 in. basket).

BERRIES GALORE ROSE - 8094

26,000 S. (F-1 Hybrid). 75 days. A runner-producing, everbearing variety that will yield large, tasty fruits until frost. Large, early pink blooms with deep green shiny leaves. Ideal for sales in tubs, baskets, beds, planters and window boxes.

Each of the above: (24L5)	10 sds - \$13.70

SWISS CHARD

8,000 sds/oz 75° 8 days
1 oz. for a 50 ft. row.

BRIGHT LIGHTS - 8075

1,000 S. (All America Winner - 1998). Maturity is 28 days for baby salad leaves or 55 days for mature bunching sized leaves. An attractive multicolored swiss chard with various colored stems including gold, pink, red, and white. Outstanding in a salad or for bunching.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

LUCULLUS - 8077

1,250 S. Heirloom. 52 days. Most popular type; yellowish-green leaves, heavily crumpled. Wide with broad white ribs.

ORIOLE - 8222

2,300 S. Maturity is 30 days for baby salad leaves or 60 days for mature bunching sized leaves. Beautiful green leaves with orange stem contrast. Milder flavor than other chards. Can be used as an ornamental as well as a vegetable.

Each of the above: (29A5)	250 sds - \$9.75
500 sds - \$12.40	1,000 sds - \$17.00
2,000 sds - \$23.15	5,000 sds - \$40.85

PEPPERMINT - 8223

1,200 S. 55 days. Unique two-toned Swiss Chard. Clean white stems sport blazing fuchsia streaks, making it not only one of the most eye-catching varieties, but its coloration also reveals a potent antioxidant content. Topped off with wide, ruffled, savory lustrous green leaves provide ample harvests of wholesome fresh greens for both warm and cool weather plantings. A splendid addition to salads and keeps its pink tones even if lightly steamed. Great in cold weather soups, stews and casseroles. But it's so beautiful you may have trouble cutting it for kitchen use.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

RHUBARB RED - 8220

1,500 S. 70 days. An eye catching variety to add to your vegetable garden. Dark red stems and veins contrast with green leaves to make a very pretty picture. It has a nice mild flavor, and is less bitter than other varieties. Tasty addition to salads.

250 sds - \$9.75	500 sds - \$12.40
1,000 sds - \$17.00	2,000 sds - \$23.15
5,000 sds - \$40.85	(29A5)

TOMATO

7,000-9,000 sds/oz 75°-80° 7-14 days

Sow seed 6-8 weeks before time to plant out. Transplant 14-21 days after seeding. For best germination, cover seeds lightly after sowing. About 1/4 oz for a 100 ft row or 2 lbs per acre if direct seeded. If White Fly is a problem, plant Marigolds and Herb, Basil nearby to help repel the insects. Tobacco users should not come in contact with seedlings to prevent tobacco virus. Planting Radishes, Rue, and Pennyroyal will repel many insects.

Days indicated after each variety are from when plants are set out in the garden to ripe fruit. Indeterminate habit will require staking. Determinate habit may sometimes require caging.

Lycopene is a carotenoid that is abundant in Tomatoes and makes them red. It is a strong antioxidant and is helpful in preventing cancer. Processed and cooked tomatoes in sauces are more easily absorbed than raw tomatoes.

Increase your yields and fruit size by 2-4 oz. by growing on stakes or cages.

For your selection of disease resistant varieties, we have indicated after the variety the strength of the disease resistance: V = Verticillium resistant; F = Fusarium resistant; N = Nematode resistant; T = Tobacco Mosaic resistant, A = Alternaria Resistant.

ABRAHAM LINCOLN - 8331

14,000 S. Heirloom. 80 days. Introduced in 1923 in honor of Illinois' greatest son Abraham Lincoln. Remarkably smooth, mild-tasting and producing brilliant red, round, medium sized, 8-12 oz. fruits in clusters up to 9. A good disease resistant tomato. Delicious, rich, slightly acidic tomato flavor. They ripen all the way through (no green shoulders) despite their larger size. Indeterminate stake habit.

250 sds - \$13.15	500 sds - \$17.45
1,000 sds - \$23.70	2,000 sds - \$36.70
5,000 sds - \$72.10	(29D5)

AMISH PASTE - 8450

12,500 S. Heirloom. 74 days. Produces up to 12 oz., deep-red oxheart shaped, red plum tomatoes are firm, meaty and juicy with outstanding flavor. The mild and sweet fruit are borne in small clusters. Probably one of the largest paste tomatoes which dates back the turn of the century and is the best for sauces and canning. Not overly acidic. Indeterminate stake habit.

ARKANSAS TRAVELER - 8413

10,000 S. Heirloom. 80 days. A heavy yielding variety that will produce 6-8 oz. pink fruits through stressful hot weather. Outstanding flavor. Indeterminate stake habit.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

TOMATO (continued)

AUNT RUBYS GERMAN GREEN - 8384

10,000 S. Heirloom. 80 days. Beefsteak type. Deliciously sweet flavor that is enhanced by a spicy undertone. Globe-shaped fruits are smooth skinned and are 12-16 oz., with light green skins at maturity and just a hint of yellow. Flesh is green blushed with pink, meaty and flavorful. Makes interesting juice. Indeterminate stake habit.

250 sds - \$15.70	500 sds - \$21.10
1,000 sds - \$29.60	2,000 sds - \$47.20
5,000 sds - \$95.10	(29F5)

BEEFMASTER VFN - 8534

13,000 S. (F-1 Hybrid). 80 days. Beefsteak type. Very large, deep red, oblate shaped fruit in the 2 lb. range. Multiple disease resistance. Tolerant of cracking and splitting. Indeterminate stake habit.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

BEEFSTEAK - 8372

9,000 S. Heirloom. 90 days. Solid, meaty and juicy makes for an excellent slicer. Fruits are large, 12-14 oz., bright scarlet, somewhat flattened and ribbed. A large wilt resistant variety. Indeterminate stake habit. (30B5)

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45

BERKELEY TIE-DYE PINK - 8412

10,500 S. 70 days. Unique appearance with heirloom quality flavor. 8-12 oz. fruits are dark pink with green striping, and the flesh is pink with yellow streaks. The flavor is outstanding, sweet and complex like the finest heirlooms. Indeterminate stake habit.

50 sds - \$10.90	100 sds - \$14.30
200 sds - \$21.20	500 sds - \$33.00
1,000 sds - \$51.40	(26C5)

BETTER BOY PLUS - 8569

9,000 S. (F-1 Hybrid). 75 days. Improved Disease Package and better flavor than the original Better Boy. Large, firm red fruit in the 1 lb. range. Will produce deep red, globe shaped fruits, with a red meaty interior throughout the season. Indeterminate stake habit.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

BETTER BOY VFN

Crop failure. As a substitute, we suggest Better Boy Plus.

BETTER BUSH - 8560

9,500 S. (F-1 Hybrid). 68 days. This early home garden variety bears fruit all season long. Produces big 4-inch fruits that need very little staking. Fruits are sweet and meaty, with a much sought-after real tomato taste. If you love container gardening, definitely try this one. Determinate bush habit.

100 sds - \$13.70	200 sds - \$18.25
500 sds - \$29.60	1,000 sds - \$47.20
2,000 sds - \$77.45	(28H5)

**TOMATO (continued)****BIG BEEF -**

Crop failure. As a substitute, we suggest Big Beef Plus.

BIG BEEF PLUS - 8332

11,500 S. (F-1 Hybrid). 75 days. Beefsteak type. Improved Disease Package and better flavor than the original Big Beef. Produces high yields of large, 10-12 oz. beefy fruits that have great flavor for such a large tomato. Fruits have the Crimson Gene that gives this classic tomato a visibly deeper red internal gel. Indeterminate stake habit.

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

BIG BRANDY - 8467

8,800 S. (F-1 Hybrid). Heirloom Marriage Collection. 75-80 days. Pink beefsteak type is a cross of Big Dwarf and Brandywine. Fruits size is 12-15 oz. Distinctive heirloom look and flavor with better garden performance. Provides earlier and higher yields with fewer fruit blemishes. Indeterminate stake habit.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

BIG ZAC - 8393

8,000 S. Heirloom. (F-1 Hybrid). 80 days. Produces good yields of very large 4-6 lb. size red beefsteak fruits. They turn glossy red when mature. Perfect for sandwiches, salads and slicing. Developed by Minnie Zaccaria of New Jersey by crossing two heirloom varieties, its impeccable ancestors include both red and pink heirloom beefsteak types. Indeterminate stake habit.

25 sds - \$14.80	50 sds - \$19.85
100 sds - \$30.05	300 sds - \$60.20
500 sds - \$90.90	(25J5)

BLACK FROM TULA - 8508

11,000 S. 85 days. A unique, large 8-12 oz. dark tomato exhibiting a rich, deep purplish-brown color. The flattened fruit has a rich, salty and smoky flavor. Indeterminate stake habit.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

BLACK KRIM - 8424

10,000 S. Heirloom. 69-80 days. One of our best tasting tomato! A most unusual novelty, 8-12 oz. fruits are flattened, globe shaped, dark, deep-red to dark mahogany with heavy green shoulders. Interior is a deep, reddish-green color. Sweet heirloom from the Crimean peninsula of Russia. It has a rich, earthy taste. Matures extremely early. Indeterminate stake habit.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

TOMATO (continued)**BLACK PRINCE - 8458**

12,500 S. Heirloom. 70-90 days. Another genuine Russian treasure. Its small to medium, oval fruits are very juicy and ripen to a beautiful, deep garnet red color. Fruits are about 2 in. in diameter, are uniform and blemish free. Full of juice and a good, rich flavor this variety should be a favorite in most gardens. Indeterminate stake habit.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

BLUSHING STAR - 8334

9,000 S. (F-1 Hybrid). Heirloom. 70-75 days. Beefsteak type. Large, early-maturing, pink fruits are sweet and savory, with higher yield potential and fewer blemishes than most heirlooms. Perfect for eating fresh on a sandwich or preserving in sauce. Disease resistant. Indeterminate stake habit.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

BOBCAT - 8570

12,000 S. 73 days. Beefsteak type. Picture perfect, smooth-skinned fruit have firm, meaty, gloriously red flesh and a classic tomato shape. These impressive 10 oz. slicers are quick to mature so you will be able to enjoy them earlier in the season than most other varieties of this type. Determinate stake habit.

50 sds - \$12.35	100 sds - \$16.65
200 sds - \$25.65	500 sds - \$40.20
1,000 sds - \$65.20	(26F5)

BOX CAR WILLIE - 8409

11,500 S. Heirloom. 80 days. A heavy yielding variety producing 8-10 oz. smooth red fruits of excellent, sweet-tasting flavor. An excellent variety for eating fresh. Disease tolerance. Indeterminate stake habit.

BRANDYWINE BLACK (POTATO LEAF) - 8448

9,000 S. Heirloom. 80-90 days. Potato-leaf foliage. Maroon-red in color with outstanding tasting flesh. Each oval shaped fruit can weigh up to 2 lbs. Derived from a cross of Brandywine and either Black Prince or Cherokee Purple. Indeterminate stake habit.

BRANDYWINE PINK (POTATO LEAF) - 8411

9,000 S. Heirloom. 90 days. Potato-leaf foliage. Very large, reddish-pink fruits averaging 16-24 oz. each. The exquisite flavor of these very large fruits will delight! Beefsteak tomatoes are meaty and rich. Excellent fresh from the vine or cooked for sauces, pasta dishes or casseroles. Flavor is exceptional and of gourmet quality. Indeterminate stake habit.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

TOMATO (continued)**BRANDYWINE RED (POTATO LEAF) - 8431**

10,000 S. Heirloom 90-100 days. Potato-leaf foliage. Large, deep scarlet-red, beefsteak fruits. Excellent flavor. Fruits can weigh up to 2 lbs. Excellent fresh from the vine or cooked for sauces, pasta dishes or casseroles. Indeterminate stake habit.

BRANDYWINE RED (REGULAR LEAF) - 8425

8,330 S. Heirloom. 90-100 days. Regular-leaf foliage. Large, deep scarlet-red, beefsteak fruits. Excellent flavor. Fruits can weigh up to 2 lbs. Excellent fresh from the vine or cooked for sauces, pasta dishes or casseroles. Indeterminate stake habit.

BRANDYWINE YELLOW (POTATO LEAF) - 8401

11,000 S. Heirloom. 90 days. Potato-leaf foliage. Very large, 16-24 oz. yellow fruits of exceptional quality and gourmet flavor. Golden beefsteak-type fruits have a distinctive sweet flavor. Soft, creamy texture is delicious in sandwiches; meaty flesh is excellent for sauces. This quality heirloom variety produces tasty treats until frost. Indeterminate stake habit.

Each of the above: (29B5)	250 sds - \$10.65
500 sds - \$13.70	1,000 sds - \$17.75
2,000 sds - \$26.20	5,000 sds - \$49.10

BURPEE BIG BOY - 8513

9,000 S. (F-1 Hybrid). 80 days. The most popular hybrid tomato! Large 14-16 oz. bright red fruits. Very productive. The fruits are smooth, firm, thick and meaty. Cut in quarters and add to a fresh salad, slice for sandwiches, or eat sprinkled with salt or sugar. Indeterminate stake habit.

50 sds - \$14.10	100 sds - \$19.25
200 sds - \$31.55	500 sds - \$50.75
1,000 sds - \$83.60	(26J5)

BURPEE DELICIOUS - 8414

12,500 S. Heirloom. 77 days. Very large fruit, many 2 lbs. or more. Meaty, red fruits resist cracking. An excellent variety of good quality and flavor make these ideal for slicing and eating fresh on sandwiches. Indeterminate stake habit.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

BUSH BEEFSTEAK - 8471

8,300 S. 62 days. This is the perfect sandwich-sized fruit with that satisfying beefsteak flavor. A wonderful compact, prolific, short and bushy plant that yields huge amounts of very early 8-10 oz., deep rich red fruits in clusters. A very popular variety for short growing regions. Determinate bush habit.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

TOMATO (continued)

BUSH EARLY GIRL - 8561

16,000 S. (F-1 Hybrid). 63 days. High yielding sister of the traditional Early Girl; but with determinate bush habit. Bright red fruit, 6-8 oz. fruits. Good for areas with a short growing season. Perfect size for fresh salads or snacking. Disease resistant. Determinate bush habit.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26C5)

CARBON - 8417

10,000 S. Heirloom. 80 days. One of the darkest, reddish-black tomato with a rich, complex flavor made this variety the winner of a recent heirloom tomato tasting at Cornell University. Produces large, 8-12 oz. crack resistant fruits-bigger than Cherokee Purple. Excellent for salads and sandwiches. Indeterminate stake habit.

250 sds - \$15.70	500 sds - \$21.10
1,000 sds - \$29.60	2,000 sds - \$47.20
5,000 sds - \$95.10	(29F5)

CAROLINA GOLD - 8499

10,000 S. (F-1 Hybrid). 75 days. Unique, 8-10 oz. golden-yellow colored fruit that is low in acid and uniform ripening. Fruits are firm, meaty, sweet and very flavorful. Adaptable and strong, producing mostly extra large fruits throughout the season. To maximize yield potential, stake culture is recommended. Resistant to Verticillium wilt and Fusarium wilt. Determinate stake habit.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

CELEBRITY VFNT

Crop failure. As a substitute, we suggest Celebrity Plus.

CELEBRITY PLUS - 8333

11,000 S. (F-1 Hybrid). 75 days. Improved Disease Package and better flavor than the original Celebrity. A widely adaptable hybrid for fresh market and home garden. Produces large, smooth, 8 oz. fruit with outstanding flavor. Large, 8 oz. deep red fruit that is firm and very flavorful. Multiple disease resistant. Determinate bush habit.

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

CHAMPION BUSH - 8463

10,000 S. (F-1 Hybrid). 65 days. One of the best varieties for small space gardens and containers, bar none. Compact, producing extra-early yields of big, 8-12 oz. fruits with excellent flavor. Determinate stake habit.

10 sds - \$11.70	25 sds - \$17.60
50 sds - \$23.70	100 sds - \$36.70
250 sds - \$72.10	(24H5)

CHAMPION VFNT

Crop failure. As a substitute, we suggest Champion III.

TOMATO (continued)

CHAMPION III - 8511

8,000 S. (F-1 Hybrid). 65 days. Highly attractive fruits are round to globe-shaped, weigh 6-8 oz. each and are slightly flattened with some ribbing. Mouth watering fruits have deep red, thick flesh and a delicious flavor. Great for slicing on sandwiches, burgers or in salads. Indeterminate stake habit.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

CHEF'S CHOICE ORANGE - 8415

8,000 S. (F-1 Hybrid). (All America Winner - 2014). 75 days. Derived from the popular heirloom 'Amana Orange' which matures late in the season. Now you can experience the wonderful flavor of an orange heirloom. Wonderful bright, almost neon, internal color and superior flesh taste and texture. Average size fruits are 12 oz. but can weigh up to 1 lb. Excellent for soups and sauces because the intense color does not fade or discolor when cooked. Home chefs are going to love cooking with this variety. Indeterminate stake habit.

100 sds - \$10.40	200 sds - \$13.35
500 sds - \$19.75	1,000 sds - \$29.70
2,000 sds - \$46.80	(28C5)

CHEF'S CHOICE PINK - 8416

9,000 S. (F-1 Hybrid). (All America Winner - 2015). 80 days. Very large yields on 12-14 oz. pink beefsteak type. The perfect acid to sugar balance. Consider stewing or canning these beautiful fruits. Indeterminate stake habit.

TOMATO, SMALL FRUITED
(continued on next page)

TOMATO, SMALL FRUITED (continued)

DIVINITY - 8519

* New for 2026 (F-1 Hybrid). 65 days.

Large, 2 oz. cherry tomatoes with bushy habit. Evergreen genes that keep its foliage looking fresh and green longer. Built in resistance to late blight, this variety can produce excellent yields of large, cherry tomatoes. Perfect for patio containers. Semi-determinate stake habit.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

FANTASTICO - 8446

16,000 S. (F-1 Hybrid). (All America Winner - 2014). 50 days. A must for any market grower or home gardener looking for an early maturing, high yielding grape tomato with built in Late Blight tolerance. A unique, well flavored, 1/2 oz. grape shaped fruit. Long clusters of sweet tasty fruits are held toward the outside of the plant, making them very easy to harvest but if you let them go a few days past peak, these little beauties resist cracking better than the comparisons used in the trials. Great for hanging baskets, container gardens as well as in small gardens. Determinate bush habit.

10 sds - \$10.40	25 sds - \$14.90
50 sds - \$19.75	100 sds - \$29.70
250 sds - \$56.75	(24D5)

GARDENER'S DELIGHT - 8483

20,000 S. Heirloom. 65 days. A heavy yielder of small, very sweet 1 in. red cherry tomatoes. Its nice to have a cherry tomato plant for popping a few of these sweet delights into your mouth while gardening. Indeterminate stake habit.

250 sds - \$11.90	500 sds - \$15.60
1,000 sds - \$20.70	2,000 sds - \$31.45
5,000 sds - \$60.60	(29C5)

GERANIUM KISS - 8374

13,000 S. 65 days. One of the most beautiful tomato plants you will see with deep green rugose leaves on dwarf, bushy plant. Produces loads of golf ball sized, bright red fruits that are round with pointed ends. Fruits have good texture and exceptional flavor and grow in clusters of 10 or more and weigh about 1 oz. each. Would make an excellent tomato for urban and container gardens. Determinate stake habit.

50 sds - \$10.40	100 sds - \$13.35
200 sds - \$20.40	500 sds - \$32.35
1,000 sds - \$50.05	(26B5)

GRAPE - MORNING LIGHT (YELLOW) - 8599

28,000 S. 70 days. Prolific grape with true yellow color. Fruits can weigh up to 1/2 oz. Extended harvest period. Single stem pruning recommended. Indeterminate stake habit.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

TOMATO, SMALL FRUITED (continued)

GRAPE - RUBY CRUSH - 8596

7,000 S. 65-70 days. Deep red fruit that are very smooth, uniform and firm with a good flavor profile. High yielding, producing single and double trusses of 1 1/2 in. long, scarlet fruits. Widely adapted, mid-early maturing grape on mid-compact with good vigor. Determinate stake habit.

10 sds - \$12.35	25 sds - \$18.65
50 sds - \$25.65	100 sds - \$40.20
250 sds - \$79.75	(24J5)

GRAPE - SWEET HEARTS - 8597

18,000 S. 73 days. Brilliant red, 1 1/2 in. long fruits has excellent flavor, shelf life and resistance to cracking. Good vigor and produces early impressive yields with continuous sets and full clusters of very firm fruit of excellent quality. Well suited for single fruit harvest and adapted for both indoor and outdoor production. Indeterminate stake habit.

10 sds - \$16.00	25 sds - \$25.45
50 sds - \$36.50	100 sds - \$59.50
250 sds - \$121.90	(24M5)

GRAPE - SWEET ZEN - 8595

15,000 S. 60 days. Early maturity and bright red fruit weighing 1/2 oz. (13-14 grams). Good brix and is tolerant to heat. Firm fruit handles shipping well. Can be used outdoors or indoors and is an excellent-harvest type. Determinate stake habit.

25 sds - \$15.60	50 sds - \$21.10
100 sds - \$31.45	300 sds - \$65.95
500 sds - \$101.80	(25L5)

GRAPE - YELLOW - 8525

14,000 S. (F-1 Hybrid). 60 days. A perfect complement to Red Grape. Firm, bite-size fruits weigh 1/2-3/4 oz. (20 grams). Deep yellow fruits grow in long clusters on tall, healthy plants. The best-eating yellow grape with mild, sweet flavor. Resists cracking. Indeterminate stake habit.

25 sds - \$15.15	50 sds - \$20.50
100 sds - \$30.60	300 sds - \$62.00
500 sds - \$95.75	(25K5)

GRAPE - VALENTINE - 8598

16,500 S. 55 days. (F-1 Hybrid). (All America Winner - 2018). An appetizing deep-red colored fruits weighing 1/2 oz. (12-14 grams) has a very sweet (Brix of 7-9) taste and will hold longer on the vine without cracking or losing the excellent eating quality. Quite prolific and will mature earlier than the comparisons used for this entry. Tomato lovers will appreciate the sweet, firm flesh that is meaty enough to resemble a Roma tomato but in a smaller, grape-type size. Indeterminate stake habit.

10 sds - \$12.70	25 sds - \$19.25
50 sds - \$26.65	100 sds - \$41.95
250 sds - \$83.60	(24K5)

TOMATO, SMALL FRUITED (continued)

HELIX - 8582

17,000 S. (F-1 Hybrid). 50-55 days.

Experience the taste of Summer with a perfect balance of sweet and acid from the 1 in. red cherry fruits. With early-ripening fruit and high yields makes for perfect fresh eating. Indeterminate stake habit.

500 sds - \$64.10	(25C5)

SUN DIPPER - 8335

16,000 S. (F-1 Hybrid). 60-65 days. Unique fruit shape. Orange, 2-2 1/2 in., elongated fruit that is easily held between your fingers for dipping in dressing on a vegetable platter. Multiple disease resistant. Indeterminate stake habit.

25 sds - \$12.70	50 sds - \$17.20
100 sds - \$23.55	300 sds - \$49.80
500 sds - \$70.45	(25Z5)

SUN GOLD - 8493

13,500 S. (F-1 Hybrid). 57 days. Exceptionally sweet, bright tangerine-orange cherry tomatoes leave customers begging for more. Vigorous plants start yielding early and bear right through the season. Tendency to split precludes shipping, making these an exclusively fresh market treat. The taste can't be beat. Indeterminate stake habit.

25 sds - \$12.25	50 sds - \$16.80
100 sds - \$23.10	300 sds - \$48.65
500 sds - \$68.65	(25D5)

SUNSUGAR TMV - 8402

15,000 S. 62 days. Germania voted this the best tasting small fruited variety. Each plant will produce many clusters of 1/2 inch or smaller, sweet golden cherry-sized, gorgeous fruit. A blue ribbon winner at one Fair declared it one of the sweetest and best flavored cherry varieties. Disease resistant. Indeterminate stake habit.

50 sds - \$15.15	100 sds - \$20.50
200 sds - \$34.05	500 sds - \$55.10
1,000 sds - \$91.25	(26K5)

TOMATO, SMALL FRUITED (continued)

SUPER SWEET 100 - 8552

15,500 S. (F-1 Hybrid). 65-78 days. Long, branched clusters of deliciously sweet fruits high in sugar and vitamin C. More disease resistant than its cousin Sweet 100, giving plants a better chance where certain problems may be soilborne. You will be eating them right off the vine before they ever make it to the salad bowl. Perfect for snacking, salads and even juice. Indeterminate stake habit.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

SWEET 100 - 8559

20,000 S. (F-1 Hybrid). 65 days. Huge, multiple-branched clusters of 1/2 in. very sweet fruit with high vitamin C content. Mouth-watering flavor. Vigorous vines bear abundantly until frost and need staking for best results. Indeterminate stake habit.

100 sds - \$13.05	200 sds - \$17.30
500 sds - \$27.60	1,000 sds - \$43.70
2,000 sds - \$71.30	(28G5)

SWEET MILLION - 8567

15,000 S. (F-1 Hybrid). 70 days. A very heavy yielding producer of 1 in. cherry red, flavorful, sweet fruits. Vigorous, disease-resistant variety with large clusters of smooth, dark red fruit. Produces early and continues until frost. Cherry-sized tomatoes are sweet, crack resistant, and holds well on the vine. Outstanding variety. Indeterminate stake habit.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

SWEET PEA - 8553

31,000 S. 62 days. You will instantly fall in love with this delightfully tiny tomato. Its miniscule leaves, flowers and 1/4 in., ruby red fruit are the teeniest you will ever see. Deceptively big on sweet, currant flavor, they are a treat in salads, as a garnish or right off the plant by the handful! Great for container living and especially hanging baskets. Indeterminate stake habit.

100 sds - \$11.15	200 sds - \$14.30
500 sds - \$21.70	1,000 sds - \$33.20
2,000 sds - \$52.90	(28D5)

SWEET TREATS - 8389

14,000 S. 75 days. One of the first pink cherry tomatoes in the world and provides a uniquely balanced flavor of sweetness and acidity. Combines the flavor of pink tomatoes with the size of cherry tomato. Good aroma and great texture with a deep rich matte finish on the outside. A perfect snack item as well as a delicious addition in salads and in cooking. Uniform and crack free, 1 oz. fruits. Indeterminate stake habit.

10 sds - \$16.00	25 sds - \$25.45
50 sds - \$36.50	100 sds - \$59.50
250 sds - \$121.90	(24M5)

TOMATO, SMALL FRUITED (continued)

TIDY TREATS - 8489

13,000 S. (F-1 Hybrid). 50-55 days. Tons of fruit power on a very compact plant. Good in smaller space gardens and containers, but unlike other patio types, they continue to produce 3/4-1 in., red cherry fruits all season long. Indeterminate stake habit.

50 sds - \$12.85	100 sds - \$17.05
200 sds - \$27.15	500 sds - \$42.85
1,000 sds - \$70.90	(26G5)

TINY TIM - 8484

17,500 S. Heirloom. 45 days. Grows only 10-12 in. tall and about 14 in. across. A heavy yielder with clusters of 1 in. red, fine-flavored fruit. Can be grown as a pot plant anytime of the year. Indeterminate stake habit.

500 sds - \$11.65	1,000 sds - \$18.65
5,000 sds - \$41.55	10,000 sds - \$67.95
	(30Z5)

TOMATILLO - GREEN - 8456

19,000 S. (Toma Verde). 60 days. Very popular in salsa and picante dishes. Harvest when fruits are green, before turning yellow. Remove the thin husk before using or consuming. Indeterminate stake habit.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

TOMATILLO - GROUND CHERRY - 8479

32,000 S. 75 days. 1/2 to 3/4 in. fruit enclosed within a lantern shaped, paper-like husk. When ripe, fruit is yellow and husks turn light brown. Fruits have a sweet tart flavor and can be eaten fresh or cooked into desserts, pies, preserves or sauces.

TOMATILLO - PINEAPPLE - 8579

32,000 S. 75 days. Pineapple flavored fruits! Short, spreading plants are bushy, growing to 12-18 in. tall. with marble-sized fruits. Wonderful in salsas, especially those made with fruit as an ingredient. Very unique item.

Each of the above: (30A5)	500 sds - \$9.75
1,000 sds - \$13.15	5,000 sds - \$24.45
10,000 sds - \$38.55	

TOMATILLO - PURPLE - 8580

18,000 S. Heirloom. 75-85 days. These small fruits are formed inside papery husks and begin as pale green, then ripen to a rich, deep purple. A uniquely colored fruit that is enjoyed for the sweet, yet tart flavor it gives Mexican dishes. Makes an attractive salsa. Vigorous and productive plants. Easy to grow.

500 sds - \$10.05	1,000 sds - \$13.65
5,000 sds - \$28.85	10,000 sds - \$44.45
	(30B5)

TOMATO, SMALL FRUITED (continued)
TOMATILLO - TAMAYO (PELLETED) - 8583PE

(F-1 Hybrid). 65 days. The size of the fruit will amaze you. This is one of the largest fruited tomatillos. Tall, bigorous plants produce high yields of intense green colored, husk covered 2 1/2 to 3 in. fruits. Open habit for easy harvest. A must have for Mexican cooking and green salsas. Indeterminate stake habit.

25 sds - \$13.50	50 sds - \$18.05
100 sds - \$25.75	300 sds - \$54.30
500 sds - \$75.90	(25C5)

TOMATOBERRY GARDEN - 8558

9,000 S. (F-1 Hybrid). 80 days. Unique strawberry-shaped fruits have a super sweet taste and aroma. Beautiful, deep red color with broad shoulders tapering to a blunt point at the blossom end, giving them a heart-like appearance. Just about an inch high and wide and weighing approximately 1/2 ounce. Disease resistant. Indeterminate stake habit.

10 sds - \$13.70	25 sds - \$21.10
50 sds - \$29.60	100 sds - \$47.20
250 sds - \$95.10	(24L5)

TOPSY TOM - 8542

10,000 S. (F-1 Hybrid). 50 days. The perfect choice for today's popular 'upside down' planters. Produces high yields of 1 x 1.25 in. red teardrop fruits. Flexible, pliable stems hold the fruit well and won't split or crack in the wind. Determinate bush habit.

25 sds - \$11.45	50 sds - \$15.90
100 sds - \$21.95	300 sds - \$47.45
500 sds - \$64.10	(25C5)

TUMBLER

Crop failure. As a substitute, we suggest Little Bing.

WHITE CHERRY - 8502

10,500 S. 80 days. Produces loads of pale-ivory to yellow colored, 1/2-1 oz. fruits that have a sweet, fruity flavor. The less sun exposure the fruits receive, the paler the color. Indeterminate stake habit.

250 sds - \$15.70	500 sds - \$21.10
1,000 sds - \$29.60	2,000 sds - \$47.20
5,000 sds - \$95.10	(29F5)

YELLOW PEAR - 8478

16,000 S. Heirloom. 75 days. Small pear-shaped, yellow fruit is produced all summer. Refreshing mild flavor adds zest and color to salads, vegetable trays and pasta dishes. Indeterminate stake habit.

500 sds - \$9.75	1,000 sds - \$13.15
5,000 sds - \$24.45	10,000 sds - \$38.55
	(30A5)

TURNIP

10,000 sds/oz

1 oz. will plant a 100 ft. row. 2-3 lbs. per acre, in rows 18 in. apart.

PURPLE TOP, WHITE GLOBE - 8091

13,000 S. Heirloom. 55 days. Firm, crisp flesh can be eaten raw or cooked. Handsomely blushed with pink to purple at the crown. Young leaves make the classic cooked southern green.

1/2 oz. - \$10.05	1 oz. - \$16.15
2 oz. - \$24.60	4 oz. - \$34.40
8 oz. - \$57.10	(11Z5)

WATERMELON

320 sds/oz 75°-80° 10 days

1 oz. will plant 25 hills; 3-4 lbs. for an acre. Space hills in rows 2 ft. apart and 4 ft. apart in the rows. About 1 oz. for a 50 ft. row.

Germania Seed Company does not warrant its watermelon seed against Watermelon Fruit Blotch or other related diseases or viruses. BABY DOLL - 7855

600 S. (F-1 Hybrid). 75 days. Novelty icebox watermelon with very sweet lemon yellow flesh. The compact plant produces 6-10 lb. fruits. Green rind with small dark stripes and small brown seeds.

100 sds - \$16.00	200 sds - \$21.70
500 sds - \$36.50	1,000 sds - \$59.50
2,000 sds - \$98.90	(28J5)

CRIMSON SWEET - 7857

800 S. 80 days. Fruits are light green with dark green stripes, flesh is deep red and fine textured. Melons are round and average about 25 lbs., with brown seeds. Disease resistant.

100 sds - \$9.75	200 sds - \$11.35
500 sds - \$15.80	1,000 sds - \$22.70
2,000 sds - \$34.50	(28A5)

SUGAR BABY (MIDGET) - 7856

600 S. 80 days. A small, very early melon that is sweet and red fleshed, thin rind, fine for home gardens. Fruit averages 8-12 lbs.

250 sds - \$10.65	500 sds - \$13.70
1,000 sds - \$17.75	2,000 sds - \$26.20
5,000 sds - \$49.10	(29B5)

SWEET FASHION - 7858

650 S. 90 days. This is a very nice, long, blocky melon with bright red flesh. It has a very vigorous plant that yields well. High quality fruit with an average weight of 23 lbs.

50 sds - \$13.35	100 sds - \$17.75
200 sds - \$28.60	500 sds - \$45.45
1,000 sds - \$77.15	(26H5)

WATERMELON (continued)
SHINY BOY - 7864

600 S. (F-1 Hybrid). (All America Winner - 2010). 90 days. A quick-growing, absolutely delicious melon you must taste to really appreciate, a must have for the vegetable garden! These 20 lb. fruits consistently win taste tests, boasting a 'sweet tropical' flavor that out satisfies all others. As if this weren't enough, the yields on this vigorous healthy plant are terrific! Named for its glossy, smooth striped rind, it takes off like crazy, yet this vining plant won't sprawl all over the place and can even be grown vertically if given support. Very dark red flesh with the perfect blend of sugar and crunch. Wonderfully aromatic, it offers an old-fashioned burst of flavor, rich, lasting and authentic. You will love it!

50 sds - \$13.85	100 sds - \$18.55
200 sds - \$30.10	500 sds - \$48.10
1,000 sds - \$81.15	(26I5)

YELLOW DOLL - 7854

1,000 S. (F-1 Hybrid). 70 days. Flesh is crisp, bright yellow and sweeter than other varieties. Fruit is round, with light green skin and dark green stripes. A novel and excellent icebox type variety. About 10 lbs. each.

10 sds - \$10.05	25 sds - \$14.30
50 sds - \$18.75	100 sds - \$27.95
250 sds - \$52.90	(24C5)
